STATEMENT OF FACTS

The ADM Rice INC. (hereinafter "Water System") is classified as a non-transient non-community water system serving approximately 30 persons per day. In accordance with Section 64423(a) of Title 22, the System is required to collect one routine bacteriological water sample each month; unless there was a positive bacteriological sample the previous month, in which case, five routine bacteriological samples would be required. Our records show that a routine bacteriological sample was not collected from the Water System's distribution system during the month of July 2016. The Water System was issued a warning letter after failure to collect a routine bacteriological sample in January of 2016.

DETERMINATION

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable.

**ADM RICE INC. DID NOT COLLECT A
MONTHLY ROUTINE BACTERIOLOGICAL SAMPLE
IN THE MONTH OF JULY 2016**

Our water system recently violated a monitoring requirement. Although this is not an emergency, as our customers, you have a right to know what you should do, what happened, and what we did to correct this situation.

What should you do?

You do not need to boil the water or take any corrective actions. This is not an emergency. If you have health concerns, you may wish to consult your doctor. General guidelines on ways to lessen the risk of infection by microbes are available from EPA's Safe Drinking Water Hotline at (800) 426-4791.

What happened? What was done?

We are required to monitor the drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During the month of July 2016, we did not collect a monthly routine bacteriological sample. Therefore, we could not be sure of the quality of your drinking water during that time. We have since taken the required routine sample on August 4, 2016, which indicated the absence of total coliform or E.coli.

For more information, please contact John Daniels @ 530-472-2662.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly. You can do this by posting this public notice in a public place or distributing copies by hand or mail.

CERTIFICATION OF COMPLETION OF PUBLIC NOTIFICATION

This form, when completed and returned to the Division of Drinking Water (364 Knollcrest Drive, Suite 101, Redding, CA 96002 or fax to 530-224-4844), serves as certification that public notification to water users was completed as required by the California Water Quality and Monitoring Regulations. Completing public notification and providing the Division with certification is important. Failure to do so will result in additional hourly time charges to your water utility and may result in a formal enforcement action with monetary penalties.
