## State Water Resources Control Board

Division of Drinking Water

March 29, 2016

Ms. May Noble  
Cal 20 Village and Meadow Point Park  
P.O. Box 267  
Upper Lake, CA 95485

**CAL 20 VILLAGE AND MEADOW POINT PARK WATER SYSTEM ID #1700595 - CITATION NO. 02\_03\_16C\_006 FAILURE TO COMPLY WITH WATER SUPPLY PERMIT and CITATION NO. 02\_03\_16C\_007 FAILURE TO SUBMIT CONSUMER CONFIDENCE REPORTS**

Dear Ms. Noble:

Enclosed are two citations issued to Cal 20 Village and Meadow Point Park (System) public water system. The citations are being issued because the Water System failed to comply with requirements in its domestic water supply permit.

The citations include administrative penalties. Please note that if the System fails to comply with the directives, resulting enforcement may contain a penalty calculated on a per day basis.

The System will also be billed at the State Water Resources Division of Drinking Water's (Division) hourly rate (currently estimated at \$160) for time spent issuing this citation and any follow-up time required of Division staff to ensure compliance. The System will receive a bill from our Fee Billing Unit in Sacramento.

If you have any questions regarding the citation directives, please contact Amy Little or me at (707) 576-2145.

Sincerely,

A handwritten signature in black ink, appearing to read "Sheri".

Sheri K. Miller, P.E., Senior Sanitary Engineer  
Division of Drinking Water, Mendocino District

Enclosure: Citation No. 02\_03\_16C\_006\_1700595\_08  
Citation No. 02\_03\_16C\_007\_1700595\_71

c: Matt Johnson, P.O. Box 1632, Gualala, CA 95445 - Contract Operator  
Lake County Environmental Health

**STATE OF CALIFORNIA**  
**WATER RESOURCES CONTROL BOARD**  
**DIVISION OF DRINKING WATER**

**Name of Public Water System:** Cal 20 Village and Meadow Point Park

**Water System Number:** 1700595

**To:** Cal 20 Village and Meadow Point Park  
P.O. Box 267  
Upper Lake, CA 95485

**Attn:** May Noble, owner

**Issued:** March 29, 2016

**CITATION FOR NONCOMPLIANCE**  
**FAILURE TO COMPLY WITH WATER SUPPLY PERMIT DIRECTIVES**

The Division of Drinking Water of the State of California Water Resources Control Board (herein after "Division") hereby issues a citation to the Cal 20 Village and Meadow Point Park (herein after "System") for failure to comply with Chapter 4, Article 9, Section 116550 of Part 12 of Division 104 of the California Health and Safety Code (CHSC).

1 Section 116550 of the CHSC authorizes the issuance of a citation for failure to comply  
2 with requirements of California Safe Drinking Water Act (CHSC, Division 104, Part 12,  
3 Chapter 4, commencing with Section 116270), or any regulation, standard, permit, or  
4 order issued thereunder. A copy of the *Applicable Statutes and Regulations* is  
5 located in Appendix 1 which is attached hereto and incorporated by reference.

6  
7 **STATEMENT OF FACTS**

8 The Cal 20 Village and Meadow Pointe Park is classified as a community water  
9 system serving 81 connections and an estimated population of 150, located at 375  
10 East Highway 20 in Upper Lake, California.

11  
12 On August 19, 2015, the Division conducted an inspection of the System facilities in  
13 response to a customer complaint regarding colored tap water.

14  
15 The System's Water Supply Permit No. 02-03-14P1700595 was issued on October  
16 14, 2014. Pursuant to Domestic Water Supply Permit No. 02-03-14P1700595, the  
17 System is required to complete the following:

18  
19 *Condition 12. Well 01 does not meet current well construction standards for*  
20 *use by a public water system. Therefore, the System shall properly destroy*  
21 *Well 01 and install a replacement source(s) that can provide maximum day*  
22 *demand for the System, as required by Section 64554(c) of Title 22 of the*  
23 *California Code of Regulations (CCR). A copy of the Lake County well*  
24 *destruction permit for Well 01 and a permit amendment application, including*  
25 *meeting and documenting all the requirements of Section 64560 of Title 22 of*  
26 *the CCR, shall be submitted to the Division by September 15, 2015. The*  
27 *requirement of this Condition to install a new well would be waived if the*

1        *System has a functional intertie with a nearby public water system capable of*  
2        *meeting the requirements of Section 64554.*

3  
4        As of the date of this citation, the Division has not received a copy of the  
5        System's well destruction permit for Well 01. As of the date of this citation,  
6        the Division has not received a permit amendment application submitted by  
7        the System, nor has the System informed the Division that the System has  
8        connected to a nearby public water system.

9  
10       *Condition 13. Well 01 shall no longer be approved for active use after*  
11       *September 15, 2015. Until Well 01 is destroyed and a new well is permitted*  
12       *by the Division and operational, raw water from Well 01 shall be sampled*  
13       *every week prior to any treatment and enumerated for total coliform and E.*  
14       *coli bacteria. The samples must be submitted to the Division by the tenth day*  
15       *of the following month. The Division shall be notified within 24 hours if the*  
16       *results of the sample are E. coli positive. The first raw water bacteriological*  
17       *samples shall be collected for November 2014 and submitted to the Division*  
18       *by December 10, 2014. This shall continue during any month that Well 01 is*  
19       *utilized and until such time as the new well source is approved for use by the*  
20       *Division and Well 01 is properly destroyed.*

21  
22       On August 19, 2015, Division staff observed Well 01 to be in use and alerted  
23       the System to Condition 13 of the System's Permit. As of the date of this  
24       citation, no raw water bacteriological samples representative of Well 01 water  
25       quality have been submitted to the Division.  
26

1 *Condition 15. The System shall complete all requirements from the December*  
2 *1, 2007 cross-connection survey by KASL Consulting Engineers. Photos of all*  
3 *8 required modifications and backflow prevention devices shall be sent to the*  
4 *Division by March 30, 2015.*

5  
6 As of the date of this citation, no photographs of backflow devices installed  
7 have been submitted to the Division.

8  
9 *Condition 17. The System shall complete the Stage 2 Disinfection Byproduct*  
10 *(DBP) plan and submit it to the Division for approval by November 1, 2014. The*  
11 *System must fill out the system name, system number, current population, map of*  
12 *distribution with labeled sample location, sample location/code, signature, and*  
13 *date on the form.*

14  
15 As of the date of this citation, the Division has not received a Stage 2 DBP plan  
16 submitted by the System.

17  
18 *Condition 19. The System shall fill out a new bacteriological site sampling plan.*  
19 *The System may sample the same number of locations, but locations shall vary*  
20 *between each section of the distribution. This plan shall be submitted to the*  
21 *Division by December 19, 2014.*

22  
23 As of the date of this citation, the Division has not received a Bacteriological  
24 Sampling Site Plan submitted by the System. The System samples routinely from  
25 one location, Space 72.

26

1 *Condition 20. The System shall send all historical methyl tert-butyl ether (MTBE)*  
2 *testing results to the Division by December 19, 2014, from both the raw and the*  
3 *finished water.*

4  
5 As of the date of this citation, the Division has not received MTBE test results  
6 submitted by the System. The Division collected independent samples on August  
7 19, 2015 to check that the contaminant removal treatment system is working.

8  
9 *Condition 44. As directed by the Division, an annual report shall be submitted on*  
10 *the status and condition of the domestic water system.*

11  
12 As of the date of this citation, the System has not submitted the 2013 or 2014  
13 annual reports to the Division.

#### 14 15 **DETERMINATIONS**

16 The Division has determined that the System failed to comply with Conditions 12, 13,  
17 15, 17, 19, 20, and 44 of Domestic Water Supply No. 02-03-14P1700595.

#### 18 19 20 **PENALTIES PURSUANT TO HEALTH AND SAFETY CODE SECTION 116650**

21 The Division hereby assesses upon the System a penalty of two hundred dollars  
22 (\$200.00) for each outstanding condition. The total penalty for failure to comply with  
23 seven (7) conditions of Domestic Water Supply Permit No. 02-03-14P1700595 is **one**  
24 **thousand four hundred dollars (\$1,400.00)**. Directions for paying this penalty are  
25 included below.

26

1 **DIRECTIVES**

2 The Cal 20 Village and Meadow Point Park is hereby directed to take the following  
3 actions:

- 4
- 5 1. Forthwith, the System shall cease and desist from violating Section 116650 of the  
6 CHSC.
- 7
- 8 2. The System shall comply with Water Supply Permit No. 02-03-14P1700595  
9 Condition 12 and 13. The System shall **immediately** begin monthly Well 01  
10 bacteriological sampling. The System shall submit a plan to replace Well 01 **by**  
11 **April 30, 2016**.
- 12
- 13 3. The System shall comply with Water Supply Permit No. 02-03-14P1700595  
14 Condition 15 **by April 30, 2016**.
- 15
- 16 4. The System shall comply with Water Supply Permit No. 02-03-14P1700595  
17 Condition 17 **by April 30, 2016**. A template is provided in Appendix 2.
- 18
- 19 5. The System shall comply with Water Supply Permit No. 02-03-14P1700595  
20 Condition 19 **by April 30, 2016**. A template is provided as Appendix 2.
- 21
- 22 6. The System shall comply with Water Supply Permit No. 02-03-14P1700595  
23 Condition 44 **by April 30, 2016**. Templates are provided in Appendix 2.
- 24
- 25 7. Upon issuance of this Citation, the System is directed to pay the Penalty within  
26 thirty (30) days of receipt of this Citation. Payment shall be made by check, made  
27 payable to "State Water Resources Control Board". The number of this citation

1 shall be written on the check. The check and a copy of the first page of this  
2 Citation shall be submitted to the Division at the following address:

3  
4 State Water Resources Control Board  
5 Division of Administrative Services – Fee Branch  
6 ATTN: Ms. Perin Peebles  
7 P.O. Box 1888  
8 Sacramento, CA 95812-1888  
9

10 The Division reserves the right to make such modifications to this Citation as it may  
11 deem necessary to protect public health and safety. Such modifications may be  
12 issued as amendments to this Citation, and shall be deemed effective upon issuance.  
13

14 Nothing in this Citation relieves the System of its obligation to meet the requirements  
15 of the California Safe Drinking Water Act (CHSC, Division 104, Part 12, Chapter 4,  
16 commencing with Section 116270), or of any regulation, permit, standard, or order  
17 issued or adopted thereunder.  
18

19 All submittals required by this Citation, with the exception of the documents as  
20 described in Directive 7 relating to the payment of the Penalty, shall be submitted to  
21 the Division at the following address:

**SEVERABILITY**

The Directives of this Citation are severable, and the System shall comply with each and every provision thereof, notwithstanding the effectiveness of any other provision.

**FURTHER ENFORCEMENT ACTION**

Division 104, Part 12, Chapter 4, (commencing with Section 116270) of the California Health and Safety Code authorizes the Division of Drinking Water to: issue additional citations with assessment of penalties if the System continues to fail to correct a violation identified in a citation; take action to suspend or revoke a permit that has been issued to a public water system if the System has violated applicable laws or regulations or has failed to comply with orders of the Division; and petition the superior court to take various enforcement measures against a public water system that has failed to comply with orders of the Division. The Division does not waive any further enforcement action by issuance of this citation.

Stefan Cajina, P.E., Chief  
Division of Drinking Water, North Coastal Section

## APPENDIX 1. APPLICABLE STATUTES AND REGULATIONS

### FOR CITATION NO. 02-03-16C-006

*Note: The Department referenced below, formerly the California Department of Public Health, Drinking Water Program, now refers to the State Water Resources Control Board, Division of Drinking Water. The Drinking Water Program moved to the State Water Resources Control Board on July 1, 2014.*

#### **Section 116650 of the CHSC states, in relevant part:**

- (a) If the department determines that a public water system is in violation of this chapter or any regulation, permit, standard, citation, or order issued or adopted thereunder, the department may issue a citation to the public water system. The citation shall be served upon the public water system personally or by certified mail. Service shall be deemed effective as of the date of personal service or the date of receipt of the certified mail. If a person to whom a citation is directed refuses to accept delivery of the certified mail, the date of service shall be deemed to be the date of mailing.
- (b) Each citation shall be in writing and shall describe the nature of the violation or violations, including a reference to the statutory provision, standard, order, citation, permit, or regulation alleged to have been violated.
- (c) A citation may specify a date for elimination or correction of the condition constituting the violation.
- (d) A citation may include the assessment of a penalty as specified in subdivision (e).
- (e) The department may assess a penalty in an amount not to exceed one thousand dollars (\$1,000) per day for each day that a violation occurred, and for each day that a violation continues to occur. A separate penalty may be assessed for each violation.

**Section 116625 of the CHSC states, in relevant part:**

(a) The department, after a hearing noticed and conducted as provided in Section 100171, may suspend or revoke any permit issued pursuant to this chapter if the department determines pursuant to the hearing that the permittee is not complying with the permit, this chapter, or any regulation, standard, or order issued or adopted thereunder, or that the permittee has made a false statement or representation on any application, record, or report maintained or submitted for purposes of compliance with this chapter. If the permit at issue has been temporarily suspended pursuant to subdivision (c), the accusation shall be served and notice of the hearing data given within 15 days of the effective date of the temporary suspension order. The commencement of the hearing shall be as soon as practicable, but in no case later than 60 days after the effective date of the temporary suspension order.

# 2015 Consumer Confidence Report

Water System Name: \_\_\_\_\_ Report Date: \_\_\_\_\_

*We test the drinking water quality for many constituents as required by state and federal regulations. This report shows the results of our monitoring for the period of January 1 - December 31, 2015 and may include earlier monitoring data.*

## TERMS USED IN THIS REPORT

**Maximum Contaminant Level (MCL):** The highest level of a contaminant that is allowed in drinking water. Primary MCLs are set as close to the PHGs (or MCLGs) as is economically and technologically feasible. Secondary MCLs are set to protect the odor, taste, and appearance of drinking water.

**Maximum Contaminant Level Goal (MCLG):** The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs are set by the U.S. Environmental Protection Agency (USEPA).

**Public Health Goal (PHG):** The level of a contaminant in drinking water below which there is no known or expected risk to health. PHGs are set by the California Environmental Protection Agency.

**Maximum Residual Disinfectant Level (MRDL):** The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

**Maximum Residual Disinfectant Level Goal (MRDLG):** The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.

**Primary Drinking Water Standards (PDWS):** MCLs and MRDLs for contaminants that affect health along with their monitoring and reporting requirements, and water treatment requirements.

**Secondary Drinking Water Standards (SDWS):** MCLs for contaminants that affect taste, odor, or appearance of the drinking water. Contaminants with SDWSs do not affect the health at the MCL levels.

**Treatment Technique (TT):** A required process intended to reduce the level of a contaminant in drinking water.

**Regulatory Action Level (AL):** The concentration of a contaminant which, if exceeded, triggers treatment or other requirements that a water system must follow.

**Variations and Exemptions:** State Board permission to exceed an MCL or not comply with a treatment technique under certain conditions.

**ND:** not detectable at testing limit

**ppm:** parts per million or milligrams per liter (mg/L)

**ppb:** parts per billion or micrograms per liter ( $\mu\text{g/L}$ )

**ppt:** parts per trillion or nanograms per liter (ng/L)

**ppq:** parts per quadrillion or picogram per liter (pg/L)

**pCi/L:** picocuries per liter (a measure of radiation)

**The sources of drinking water** (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

**Contaminants that may be present in source water include:**

- *Microbial contaminants*, such as viruses and bacteria, that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- *Inorganic contaminants*, such as salts and metals, that can be naturally-occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.
- *Pesticides and herbicides*, that may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.
- *Organic chemical contaminants*, including synthetic and volatile organic chemicals, that are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff, agricultural application, and septic systems.
- *Radioactive contaminants*, that can be naturally-occurring or be the result of oil and gas production and mining activities.

**In order to ensure that tap water is safe to drink**, the USEPA and the State Water Resources Control Board (State Board) prescribe regulations that limit the amount of certain contaminants in water provided by public water systems. State Board regulations also establish limits for contaminants in bottled water that provide the same protection for public health.

**Tables 1, 2, 3, 4, 5, 7, and 8 list all of the drinking water contaminants that were detected during the most recent sampling for the constituent.** The presence of these contaminants in the water does not necessarily indicate that the water poses a health risk. The State Board allows us to monitor for certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Some of the data, though representative of the water quality, are more than one year old.

**TABLE 1 – SAMPLING RESULTS SHOWING THE DETECTION OF COLIFORM BACTERIA**

Microbiological Contaminants (complete if bacteria detected)	Highest No. of Detections	No. of months in violation	MCL	MCLG	Typical Source of Bacteria
Total Coliform Bacteria	(In a mo.)		More than 1 sample in a month with a detection	0	Naturally present in the environment
Fecal Coliform or <i>E. coli</i>	(In the year)		A routine sample and a repeat sample detect total coliform and either sample also detects fecal coliform or <i>E. coli</i>	0	Human and animal fecal waste

**TABLE 2 – SAMPLING RESULTS SHOWING THE DETECTION OF LEAD AND COPPER**

Lead and Copper (complete if lead or copper detected in the last sample set)	Sample Date	No. of samples collected	90 <sup>th</sup> percentile level detected	No. sites exceeding AL	AL	PHG	Typical Source of Contaminant
Lead (ppb)					15	0.2	Internal corrosion of household water plumbing systems; discharges from industrial manufacturers; erosion of natural deposits
Copper (ppm)					1.3	0.3	Internal corrosion of household plumbing systems; erosion of natural deposits; leaching from wood preservatives

**TABLE 3 – SAMPLING RESULTS FOR SODIUM AND HARDNESS**

Chemical or Constituent (and reporting units)	Sample Date	Level Detected	Range of Detections	MCL	PHG (MCLG)	Typical Source of Contaminant
Sodium (ppm)				none	none	Salt present in the water and is generally naturally occurring
Hardness (ppm)				none	none	Sum of polyvalent cations present in the water, generally magnesium and calcium, and are usually naturally occurring

\*Any violation of an MCL or AL is asterisked. Additional information regarding the violation is provided later in this report.

**TABLE 4 – DETECTION OF CONTAMINANTS WITH A PRIMARY DRINKING WATER STANDARD**

Chemical or Constituent (and reporting units)	Sample Date	Level Detected	Range of Detections	MCL [MRDL]	PHG (MCLG) [MRDLG]	Typical Source of Contaminant

**TABLE 5 – DETECTION OF CONTAMINANTS WITH A SECONDARY DRINKING WATER STANDARD**

Chemical or Constituent (and reporting units)	Sample Date	Level Detected	Range of Detections	MCL	PHG (MCLG)	Typical Source of Contaminant

**TABLE 6 – DETECTION OF UNREGULATED CONTAMINANTS**

Chemical or Constituent (and reporting units)	Sample Date	Level Detected	Range of Detections	Notification Level	Health Effects Language

\*Any violation of an MCL, MRDL, or TT is asterisked. Additional information regarding the violation is provided later in this report.

### Additional General Information on Drinking Water

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the USEPA’s Safe Drinking Water Hotline (1-800-426-4791).

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. USEPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline (1-800-426-4791).

Lead-Specific Language for Community Water Systems: If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. [INSERT NAME OF UTILITY] is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. [Optional: If you do so, you may wish to collect the flushed water and reuse it for another beneficial purpose, such as watering plants.] If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/lead>.

## Consumer Confidence Report Certification Form (to be submitted with a copy of the CCR)

(to certify electronic delivery of the CCR, use the certification form on the State Board's website at [http://www.waterboards.ca.gov/drinking\\_water/certlic/drinkingwater/CCR.shtml](http://www.waterboards.ca.gov/drinking_water/certlic/drinkingwater/CCR.shtml))

Water System Name: \_\_\_\_\_

Water System Number: \_\_\_\_\_

The water system named above hereby certifies that its Consumer Confidence Report was distributed on \_\_\_\_\_ (date) to customers (and appropriate notices of availability have been given). Further, the system certifies that the information contained in the report is correct and consistent with the compliance monitoring data previously submitted to the State Water Resources Control Board, Division of Drinking Water.

Certified by: Name: \_\_\_\_\_  
Signature: \_\_\_\_\_  
Title: \_\_\_\_\_  
Phone Number: (     ) \_\_\_\_\_ Date: \_\_\_\_\_

---

*To summarize report delivery used and good-faith efforts taken, please complete the below by checking all items that apply and fill-in where appropriate:*

- CCR was distributed by mail or other direct delivery methods. Specify other direct delivery methods used: \_\_\_\_\_
  
- "Good faith" efforts were used to reach non-bill paying consumers. Those efforts included the following methods:
  - Posting the CCR on the Internet at [www.](http://www.)\_\_\_\_\_
  - Mailing the CCR to postal patrons within the service area (attach zip codes used)
  - Advertising the availability of the CCR in news media (attach copy of press release)
  - Publication of the CCR in a local newspaper of general circulation (attach a copy of the published notice, including name of newspaper and date published)
  - Posted the CCR in public places (attach a list of locations)
  - Delivery of multiple copies of CCR to single-billed addresses serving several persons, such as apartments, businesses, and schools
  - Delivery to community organizations (attach a list of organizations)
  - Other (attach a list of other methods used)
  
- For systems serving at least 100,000 persons: Posted CCR on a publicly-accessible internet site at the following address: [www.](http://www.)\_\_\_\_\_
  
- For privately-owned utilities: Delivered the CCR to the California Public Utilities Commission

*This form is provided as a convenience and may be used to meet the certification requirement of section 64483(c), California Code of Regulations.*
