

EDMUND G. BROWN JR.
GOVERNOR

MATTHEW RODRIGUEZ
SECRETARY FOR
ENVIRONMENTAL PROTECTION

State Water Resources Control Board

Division of Drinking Water

October 23, 2014
System No.: 2010801

Mr. Aldo Garza, Chief Plant Manager
Valley State Prison
P.O. Box 99
Chowchilla, CA 93610-0099

RE: **Compliance Order No. 03-11-13R-001A**
Violation of Title 22, California Code of Regulations, Section 64431, Arsenic MCL

Dear Mr. Garza:

Enclosed is an amended Compliance Order issued to the Valley State Prison (VSP) Water System.

The VSP was previously in violation of the Arsenic MCL under Section 64431 of Title 22 California Code of Regulations. Compliance Order No. 03-11-13R-001 was issued to VSP on January 10, 2013 for the Arsenic MCL violation. This compliance order replaces and voids Compliance Order No. 03-11-13R-001 and its directives.

The VSP will be billed at the Division's hourly rate (currently estimated at \$126.00) for the time spent on issuing this Order. The California Health and Safety Code Section 116577 provides that a public water system must reimburse the Division for actual costs incurred by the Division for specified enforcement actions, including but not limited to, preparing, issuing and monitoring compliance with an order. At this time, the Division has spent approximately two hours on enforcement activities associated with this violation.

The VSP will receive a bill sent from the Division of Drinking Water Fee Billing Unit in August of the next fiscal year. This bill will contain fees for any enforcement time spent on VSP for the current fiscal year.

If you have any questions regarding this matter, please contact Kassy Chauhan at (559) 447-3316.

Sincerely,

Carl L. Carlucci, P.E.
Supervising Sanitary Engineer

**COMPLIANCE ORDER FOR VIOLATION
OF CALIFORNIA CODE OF REGULATIONS, TITLE 22, SECTION 64431
ARSENIC MCL VIOLATION**

Original Order Issued on January 10, 2013

Addendum No. 1 to Original Order Issued on October 23, 2014

Section 116655, Chapter 4 of the California Health and Safety Code authorizes the issuance of an Order for failure to comply with a requirement of the California Safe Drinking Water Act, or any regulation, standard, permit, or order issued thereunder.

The State Water Resources Control Board (hereinafter "Board"), acting by and through its Division of Drinking Water (hereinafter "Division") and the Deputy Director for the Division (hereinafter "Deputy Director"), hereby issues an amendment to Compliance Order No. 03-11-

1 13R-001 to the Valley State Prison (hereinafter "VSP") (P.O. Box 99 Chowchilla, CA 93610) for
2 violation of California Code of Regulations (CCR), Title 22, Section 64431.

3
4 **APPLICABLE AUTHORITIES**

5 The applicable statutes and regulations are provided in Attachment A, attached hereto and
6 incorporated by reference.

7
8 **FINDINGS**

9 The VSP water system is a community water system located in Madera County. VSP water
10 system serves a population of approximately 4,000 through 667 service connections. VSP
11 operates under a domestic water supply permit issued by the Division in November 1995.
12 VSP's water system is supplied by two active groundwater wells (Wells Nos. 1 and 2) with
13 storage provided by a 2.2-million gallon (MG) bolted steel storage tank. The water is boosted
14 from the storage tank into the distribution system by a pumping station featuring four booster
15 pumps and two pressure tanks.

16
17 Beginning on January 23, 2006, the U.S. Environmental Protection Agency (USEPA) adopted a
18 revised maximum contaminant level (MCL) for arsenic of 0.010 mg/L (milligrams per liter). The
19 arsenic MCL of 0.010 mg/L was adopted for California and became effective on November 28,
20 2008. Prior to this date, any non-compliance issues were referred to U.S. EPA for enforcement
21 action.

22
23
24 In March 2009, the VSP failed to meet the arsenic MCL of 0.010 mg/l on water produced by
25 Well No. 2 and was issued a compliance order (03-11-09O-002) by the Division. The VSP
26 continued to monitor both wells for arsenic on a quarterly basis. By February 2010, Well No. 1
27

1 was showing a running annual average (RAA) that exceeds the arsenic MCL. The Division
2 issued an amended compliance order (03-11-09O-002A) to the VSP to include Well No.1.

3
4 The Compliance Order and Amendment were in effect until April 2012. The Division lifted the
5 compliance orders when the RAAs for arsenic levels from Wells Nos. 1 and 2 had been below
6 MCL for four consecutive quarters.

7
8 The VSP submitted a draft blending plan to the Division in October 2012. The VSP proposed to
9 blend water from Wells Nos. 1 and 2 with water from Well No. 401 from the Central California
10 Women's Facility (CCWF). CCWF is located directly across from VSP. The VSP continued to
11 monitor Wells Nos. 1 and 2 for arsenic on a quarterly basis. By December 2012, the RAA for
12 Well No. 1 exceeded the arsenic MCL. As a result, the Division re-issued a compliance order
13 (03-11-13R-001) to the VSP.

14
15 In March 2014, the VSP submitted an arsenic sample of 0.0130 mg/l for Well No. 2 that caused
16 the RAA for Well No. 2 to exceed the arsenic MCL. In addition, the VSP continued to collect
17 monthly arsenic samples from Well No. 2 with results that exceed the arsenic MCL of 0.010
18 mg/l. For the third quarter of 2014, Well No. 2 showed an arsenic level of 0.0130 mg/l in a
19 sample collected on September 2, 2014. As a result, the VSP's Well No. 2 failed to comply with
20 Section 64431 of the Title 22, California Code of Regulations. An addendum to compliance
21 order 03-11-13R-001 is issued to include Well No. 2. The arsenic monitoring conducted by the
22 VSP for Wells Nos. 1 and 2 are summarized in Attachment A.

23
24
25 **DETERMINATIONS**

26 Based on the above Findings, the Division has determined that the VSP water system has
27 violated provisions contained in Title 22, California Code of Regulations (CCR) Section 64431

1 (a). Specifically, the water produced by the Valley State Prison's water system exceeds the
2 maximum contaminant level of 0.010 mg/L for arsenic, and therefore, does not comply with a
3 primary drinking water standard.

4
5 **DIRECTIVES**

6 To ensure that the water supplied by the Valley State Prison's water system is at all times safe,
7 wholesome, healthful, and potable, and pursuant to the California SDWA H&S Code, the Valley
8 State Prison is hereby directed to take the following actions:

- 9
- 10 1. Comply with CCR, Title 22, Section 64431 (a) in future monitoring periods after conducting
11 upgrades of the treatment facility and treatment operations.
 - 12
 - 13 2. The Valley State Prison shall continue to submit quarterly progress reports using the form
14 provided as Attachment E to the Division, beginning the fourth quarter of 2014. The report
15 will be due by the 10th day of the month following the calendar quarter. The progress
16 reports must include status updates on the blending project that has been proposed for
17 complying with the arsenic standards.
 - 18
 - 19
 - 20 3. Since Valley State Prison must use the affected wells to meet system demand, public
21 notification shall be provided in accordance with CCR Section 64463.4 of its inability to meet
22 the arsenic MCL until a project is completed to provide water meeting the drinking water
23 standards. VSP shall continue to distribute the Division-approved notice (Attachment C) to
24 all consumers. Notification to the public shall be repeated every three months as long as
25 the violation exists. Proof of public notification (Attachment D) to all water system users
26
 - 27

1 shall continue to be provided to the Division following each quarterly notification by the 10th
2 day of the month following notification.

3
4 4. Quarterly arsenic monitoring must be continued for Wells Nos. 1 and 2.

5
6 5. In October 2012, the VSP submitted a proposed plan to blend water from Wells No. 1 and 2
7 with water from Well 401 of the Central California Women's Facility located across the street
8 from VSP. The VSP shall submit an updated time schedule of the propose blending project
9 no later than December 31, 2014.

10
11 6. The Division reserves the right to make such modifications to this Order as it may deem
12 necessary to protect public health and safety. Such modifications may be issued as
13 amendments to this Order and shall be effective upon issuance.
14

15
16 7. All submittals required by this Order shall be addressed to:

17 Kassy D. Chauhan, P.E.

18 Senior Sanitary Engineer, Merced District

19 State Water Resources Control Board

20 Division of Drinking Water

21 265 W. Bullard Avenue, Suite 101

22 Fresno, CA 93704
23

24 8. If Valley State Prison is unable to perform the tasks specified in this Order for any reason,
25 whether within or beyond its control, and if Valley State Prison notifies the Division in writing
26 no less than five days in advance of the due date, the Division may extend the time for
27

1 performance if VSP demonstrates that it has used its best efforts to comply with the
2 schedule and other requirements of this Order.

3
4 9. If Valley State Prison fails to perform any of the tasks specified in this Order by the time
5 described herein or by the time subsequently extended pursuant to Item 8 above, VSP shall
6 be deemed to have not complied with the obligations of this Order and may be subject to
7 additional judicial action, including civil penalties specified in H&S Code, Section 116725
8 and 116730.

9
10 10. The State of California shall not be liable for any injuries or damages to persons or property
11 resulting from acts or omissions by Valley State Prison, its employees, agents, or
12 contractors in carrying out activities pursuant to this Order, nor shall the State of California
13 be held as a party to any contract entered into by Valley State Prison or its agents in
14 carrying out activities pursuant to this Order.

15
16 11. The VSP shall complete a project to resolve the arsenic MCL violation no later than October
17 30, 2015.
18

19
20 **PARTIES BOUND**

21 This Order shall apply to and be binding upon the Valley State Prison, its officers, directors,
22 agents, employees, contractors, successors, and assignees.

23
24 **SEVERABILITY**

25 The requirements of this Order are severable, and the Valley State Prison shall comply with
26 each and every provision thereof notwithstanding the effectiveness of any provisions.
27

1 **FURTHER ENFORCEMENT ACTION**

2 The California SDWA authorizes the Division to issue citations and compliance orders with
3 assessment of administrative penalties to a public water system for violation or continued
4 violation of the requirements of the California SDWA or any permit, regulation, permit or order
5 issued or adopted thereunder including, but not limited to, failure to correct a violation identified
6 in a citation or compliance order. The California SDWA also authorizes the Division to take
7 action to suspend or revoke a permit that has been issued to a public water system if the
8 system has violated applicable law or regulations or has failed to comply with an order of the
9 Division; and to petition the superior court to take various enforcement measures against a
10 public water system that has failed to comply with an order of the Division. The Division does
11 not waive any further enforcement action by issuance of this compliance order.

Applicable Statutes and Regulations for Citation No. 03-11-13R-001A

Section 116655 of the CHSC states in relevant part:

(a) Whenever the department determines that any person has violated or is violating this chapter, or any permit, regulation, or standard issued or adopted pursuant to this chapter, the director may issue an order doing any of the following:

- (1) Directing compliance forthwith.
- (2) Directing compliance in accordance with a time schedule set by the department.
- (3) Directing that appropriate preventive action be taken in the case of a threatened violation.

(b) An order issued pursuant to this section may include, but shall not be limited to, any or all of the following requirements:

- (1) That the existing plant, works, or system be repaired, altered, or added to.
- (2) That purification or treatment works be installed.
- (3) That the source of the water supply be changed.
- (4) That no additional service connection be made to the system.
- (5) That the water supply, the plant, or the system be monitored.
- (6) That a report on the condition and operation of the plant, works, system, or water supply be submitted to the department.

Section 64431 of Title 22, California Code of Regulations (CCR) states in relevant part:

§64431. Maximum Contaminant Levels-Inorganic Chemicals.

Public water systems shall comply with the primary MCLs in table 64431-A as specified in this article.

**Table 64431-A
Maximum Contaminant Levels
Inorganic Chemicals**

<i>Chemical</i>	<i>Maximum Contaminant Level, mg/L</i>
Aluminum	1.

* MFL=million fibers per liter; MCL for fibers exceeding 10 um in length.

Section 64463.4 of Title 22, California Code of Regulations (CCR) states in relevant part:
§64463.4. Tier 2 Public Notice.

(a) A water system shall give public notice pursuant to this section if any of the following occurs:

- (1) Any violation of the MCL, MRDL, and treatment technique requirements, except:
 - (A) Where a Tier 1 public notice is required under section 64463.1; or
 - (B) Where the Department determines that a Tier 1 public notice is required, based on potential health impacts and persistence of the violations;

.....

- (3) Other violations of the monitoring and testing procedure requirements in this chapter, and chapters 15.5, 17 and 17.5, for which the Department determines that a Tier 2 rather than a Tier 3 public notice is required, based on potential health impacts and persistence of the violations; or
- (4) Failure to comply with the terms and conditions of any variance or exemption in place.

(b) A water system shall give the notice as soon as possible within 30 days after it learns of a violation or occurrence specified in subsection (a), except that the water system may request an extension of up to 60 days for providing the notice. This extension would be subject to the Department's written approval based on the violation or occurrence having been resolved and the Department's determination that public health and welfare would in no way be adversely affected. In addition, the water system shall:

- (1) Maintain posted notices in place for as long as the violation or occurrence continues, but in no case less than seven days;
- (2) Repeat the notice every three months as long as the violation or occurrence continues. Subject to the Department's written approval based on its determination that public health would in no way be adversely affected, the water system may be allowed to notice less frequently but in no case less than once per year. No allowance for reduced frequency of notice shall be given in the case of a total coliform MCL violation or violation of a Chapter 17 treatment technique requirement; and

.....

(c) A water system shall deliver the notice, in a manner designed to reach persons served, within the required time period as follows:

- (1) Unless otherwise directed by the Department in writing based on its assessment of the violation or occurrence and the potential for adverse effects on public health and welfare, community water systems shall give public notice by:
 - (A) Mail or direct delivery to each customer receiving a bill including those that provide their drinking water to others (e.g., schools or school systems, apartment building owners, or large private employers), and other service connections to which water is delivered by the water system; and
 - (B) Use of one or more of the following methods to reach persons not likely to be reached by a mailing or direct delivery (renters, university students, nursing home patients, prison inmates, etc.):
 1. Publication in a local newspaper;

2. Posting in conspicuous public places served by the water system, or on the Internet; or
 3. Delivery to community organizations.
- (2) Unless otherwise directed by the Department in writing based on its assessment of the violation or occurrence and the potential for adverse effects on public health and welfare, noncommunity water systems shall give the public notice by:
- (A) Posting in conspicuous locations throughout the area served by the water system; and
 - (B) Using one or more of the following methods to reach persons not likely to be reached by a public posting:
 1. Publication in a local newspaper or newsletter distributed to customers;
 2. E-mail message to employees or students;
 3. Posting on the Internet or intranet; or
 4. Direct delivery to each customer.

Section 64465. of Title 22, California Code of Regulations (CCR) states in relevant part:
 §64465. Public Notice Content and Format.

- (a) Each public notice given pursuant to this article, except Tier 3 public notices for variances and exemptions pursuant to subsection (b), shall contain the following:
- (1) A description of the violation or occurrence, including the contaminant(s) of concern, and (as applicable) the contaminant level(s);
 - (2) The date(s) of the violation or occurrence;
 - (3) Any potential adverse health effects from the violation or occurrence, including the appropriate standard health effects language from appendices 64465-A through G;
 - (4) The population at risk, including subpopulations particularly vulnerable if exposed to the contaminant in drinking water;
 - (5) Whether alternative water supplies should be used;
 - (6) What actions consumers should take, including when they should seek medical help, if known;
 - (7) What the water system is doing to correct the violation or occurrence;
 - (8) When the water system expects to return to compliance or resolve the occurrence;
 - (9) The name, business address, and phone number of the water system owner, operator, or designee of the water system as a source of additional information concerning the public notice;
 - (10) A statement to encourage the public notice recipient to distribute the public notice to other persons served, using the following standard language: "Please share this information with all the other people who drink this water, especially those who may not have received this public notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this public notice in a public place or distributing copies by hand or mail"; and
 - (11) For a water system with a monitoring and testing procedure violation, this language shall be included: "We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During [compliance period dates], we [did not monitor or test' or 'did not complete all monitoring or testing'] for [contaminant(s)], and therefore, cannot be sure of the quality of your drinking water during that time."

.....

- (c) Each public notice given pursuant to this article shall contain information in Spanish regarding the importance of the notice, or contain a telephone number or address where Spanish-speaking residents may contact the water system to obtain a translated copy of the public notice or assistance in Spanish. For each non-English speaking group other than Spanish-speaking that exceeds 1,000 residents or 10% of the residents in the community served, whichever is less, the public notice shall:
 - (1) Contain information in the appropriate language(s) regarding the importance of the notice, or
 - (2) Contain a telephone number or address where such residents may contact the water system to obtain a translated copy of the notice or assistance in the appropriate language.
- (d) Each public notice given pursuant to this article shall:
 - (1) Be displayed such that it catches people's attention when printed or posted and be formatted in such a way that the message in the public notice can be understood at the eighth-grade level;
 - (2) Not contain technical language beyond an eighth-grade level or print smaller than 12 point; and
 - (3) Not contain language that minimizes or contradicts the information being given in the public notice.

Instructions for Tier 2 Arsenic MCL Notice Template

Template Attached

Since exceeding the arsenic maximum contaminant level (MCL) is a Tier 2 violation, you must provide public notice to persons served as soon as practical but within 30 days after you learn of the violation [California Code of Regulations Title 22, Chapter 15, Section 64463.4(b)]. **Each water system required to give public notice must submit the notice to the Department for approval prior to distribution or posting, unless otherwise directed by the Department [64463(b)].**

Notification Methods

You must use the methods summarized in the table below to deliver the notice to consumers. If you mail, post, or hand deliver, print your notice on letterhead, if available.

<i>If You Are a...</i>	<i>You Must Notify Consumers by...</i>	<i>...and By One or More of the Following Methods to Reach Persons Not Likely to be Reached by the Previous Method...</i>
Community Water System [64463.4(c)(1)]	Mail or direct delivery ^(a)	Publication in a local newspaper
		Posting in public places served by the water system or on the Internet ^(b)
		Delivery to community organizations
Non-Community Water System [64463.4(c)(2)]	Posting in conspicuous locations throughout the area served by the water system ^(b)	Publication in a local newspaper or newsletter distributed to customers
		Email message to employees or students
		Posting on the Internet or intranet ^(b)
		Direct delivery to each customer

(a) Notice must be distributed to each customer receiving a bill including those that provide their drinking water to others (e.g., schools or school systems, apartment building owners, or large private employers), and other service connections to which water is delivered by the water system.

(b) Notice must be posted in place for as long as the violation or occurrence continues, but in no case less than seven days.

The notice attached is appropriate for the methods described above. However, you may wish to modify it before using it for posting. If you do, you must still include all the required elements and leave the health effects and notification language in italics unchanged. This language is mandatory [64465].

Multilingual Requirement

Spanish. Each public notice must contain information in Spanish regarding (1) the importance of the notice or (2) contain a telephone number or address where Spanish-

speaking residents may contact the water system to obtain a translated copy of the public notice or assistance in Spanish.

Non-English Speaking Groups Other than Spanish-Speaking. For each group that exceeds 1,000 residents or 10% of the residents in the community served, whichever is less, the public notice must (1) contain information in the appropriate language(s) regarding the importance of the notice or (2) contain a telephone number or address where such residents may contact the water system to obtain a translated copy of the notice or assistance in the appropriate language.

Population Served

Make sure it is clear who is served by your water system -- you may need to list the areas you serve.

Corrective Action

In your notice, describe corrective actions you are taking. Do not use overly technical terminology when describing treatment methods. Listed below are some steps commonly taken by water systems with chemical or radiological violations. Use one or more of the following actions, if appropriate, or develop your own:

- "We are working with [local/state agency] to evaluate the water supply and researching options to correct the problem. These options may include treating the water to remove arsenic or connecting to [system]'s water supply."
- "We have stopped using the contaminated well. We have increased pumping from other wells, and we are investigating drilling a new well."
- "We will increase the frequency at which we test the water for arsenic."
- "We have since taken samples at this location and had them tested. They show that we meet the standards."

After Issuing the Notice

Send a copy of each type of notice and a certification that you have met all the public notice requirements to the Department within ten days after you issue the notice [64469(d)]. You should also issue a follow-up notice in addition to meeting any repeat notice requirements the Department sets.

It is recommended that you notify health professionals in the area of the violation. People may call their doctors with questions about how the violation may affect their health, and the doctors should have the information they need to respond appropriately.

It is a good idea to issue a "problem corrected" notice when the violation is resolved.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable.
Tradúzcalo o hable con alguien que lo entienda bien.

Valley State Prison (VSP) Has Levels of Arsenic Above the Drinking Water Standard

Our water system recently violated a drinking water standard. Although this is not an emergency, as our customers, you have a right to know what you should do, what happened, and what we are doing to correct this situation.

We routinely monitor for the presence of drinking water contaminants. Water sample results received on [date] showed arsenic levels of [level and units]. This is above the U.S. EPA standard, or maximum contaminant level (MCL) of 0.010 milligrams per liter.

What should I do?

- **You do not need to use an alternative water supply (e.g., bottled water).**
- This is not an emergency. If it had been, you would have been notified immediately. However, *some people who drink water containing arsenic in excess of the MCL over many years may experience skin damage or circulatory system problems, and may have an increased risk to getting cancer.*
- If you have other health issues concerning the consumption of this water, you may wish to consult your doctor.

What happened? What is being done?

[Describe corrective action]. We anticipate resolving the problem within [estimated time frame].

For more information, please contact [name of contact] at [phone number] or [mailing address].

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this public notice in a public place or distributing copies by hand or mail.

Secondary Notification Requirements

Upon receipt of notification from a person operating a public water system, the following notification must be given within 10 days [Health and Safety Code Section 116450(g)]:

Attachment C

- SCHOOLS: Must notify school employees, students, and parents (if the students are minors).
- RESIDENTIAL RENTAL PROPERTY OWNERS OR MANAGERS (including nursing homes and care facilities): Must notify tenants.
- BUSINESS PROPERTY OWNERS, MANAGERS, OR OPERATORS: Must notify employees of businesses located on the property.

This notice is being sent to you by [system].

State Water System ID#: _____. Date distributed: _____.

PROOF OF NOTIFICATION
(Return with copy of the Notice)

As required by Section 116450 of the California Health and Safety Code, I notified all users of water supplied by the **Valley State Prison for Women** of the failure to meet the **Arsenic MCL** for the:

Circle one: 1st 2nd 3rd 4th quarter of _____ (year).

Notification was made on _____ by _____
(date)

hand delivered and/or mailed and/or posted written notice.
(circle all completed)

Signature of Water System Representative

Date

DISCLOSURE: Be advised that Section 116725 and 116730 of the California Health and Safety Code state that any person who knowingly makes any false statement on any report or document submitted for the purpose of compliance with the attached order may be liable for a civil penalty not to exceed five thousand dollars (\$5,000) for separate violation for each day that violation continues. In addition, the violators may be prosecuted in criminal court and upon conviction, be punished by a fine of not more than \$25,000 for each day of violation, or be imprisoned in the county jail not to exceed one year, or by both the fine and imprisonment.

Due to the Dept. of Public Health within 10 days of notification to the public
Arsenic MCL Exceedance
