Attention: Thomas Butcher, Director of Maintenance

RE: Barry Elementary School, Public Water System No. 5100149 – Citation No. 21-15C-001 for Exceedance of the Bacteriological Maximum Contaminant Level in December 2014

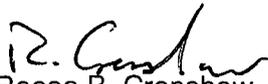

Dear Thomas Butcher,

Enclosed is a citation issued to Barry Elementary School (School). The citation is being issued because the School failed to achieve the drinking water standard for total coliform bacteria during December 2014. Please read this citation carefully. Public notification is required to inform consumers and parents that the standard was not achieved in December 2014. The School should translate the notification into Spanish and Punjabi; if assistance is necessary please contact us.

Note that Section 116577 of the California Safe Drinking Water Act provides for the Division to be reimbursed by the public water system for costs incurred for preparing and issuing a citation. In accordance with Section 116577, the System will be billed for the preparation and issuance of this citation. The current reimbursement rate is approximately \$128 per hour.

If you have any questions regarding this matter, please call Paul Rowe at (530) 224-4866 or me at (530) 224-4861.

Sincerely,

Reese B. Crenshaw, P.E.
Valley District Engineer
Drinking Water Field Operations Branch

14

15 **Issued:** January 16, 2015

16 VIA CERTIFIED MAIL
17

18 **CITATION FOR NONCOMPLIANCE**
19 **With Title 22 California Code of Regulations**
20 **Section 64426.1(b)**
21

22 Section 116650 of the California Health and Safety Code (CHSC) authorizes the
23 issuance of a citation for failure to comply with a requirement of the California Safe
24 Drinking Water Act (CHSC, Division 104, Part 12, Chapter 4, commencing with
25 Section 116270), or any regulation, standard, permit, or order issued thereunder.
26

27 The State Water Resources Control Board (hereinafter "Board"), acting by and
28 through its Division of Drinking Water (hereinafter "Division") and the Deputy Director

1 for the Division, hereby issues a citation to Barry Elementary School (School) for
2 failure to comply with Section 64426.1(b), Title 22, of the California Code of
3 Regulations (CCR).

4
5 **APPLICABLE AUTHORITIES**

6 Section 116650 of the CHSC states:

7
8 *(a) If the department determines that a public water system is in*
9 *violation of this chapter or any regulation, permit, standard, citation,*
10 *or order issued or adopted thereunder, the department may issue a*
11 *citation to the public water system. The citation shall be served*
12 *upon the public water system personally or by certified mail. Service*
13 *shall be deemed effective as of the date of personal service or the*
14 *date of receipt of the certified mail. If a person to whom a citation is*
15 *directed refuses to accept delivery of the certified mail, the date of*
16 *service shall be deemed to be the date of mailing.*

17
18 *(b) Each citation shall be in writing and shall describe the nature of the*
19 *violation or violations, including a reference to the statutory*
20 *provision, standard, order, citation, permit, or regulation alleged to*
21 *have been violated.*

22
23 *(c) A citation may specify a date for elimination or correction of the*
24 *condition constituting the violation.*

25
26 *(d) A citation may include the assessment of a penalty as specified in*
27 *subdivision (e).*

1 (e) *The department may assess a penalty in an amount not to exceed*
2 *one thousand dollars (\$1,000) per day for each day that a violation*
3 *occurred, and for each day that a violation continues to occur. A*
4 *separate penalty may be assessed for each violation.*

5
6 Section 64426.1 (b), Title 22, of the CCR states:

7
8 (b) *A public water system is in violation of the total coliform MCL*
9 *[maximum contaminant level] when any of the following*
10 *occurs:*

11
12 (1) *For a public water system which collects at least 40*
13 *samples per month, more than 5.0 percent of the*
14 *samples collected during any month are total coliform-*
15 *positive; or*

16
17 (2) *For a public water system which collects fewer than*
18 *40 samples per month, more than one sample*
19 *collected during any month is total coliform-positive; or*

20
21 (3) *Any repeat sample is fecal coliform-positive or E. coli-*
22 *positive; or*

23
24 (4) *Any repeat sample following a fecal coliform-positive*
25 *or E. coli-positive routine sample is total coliform-*
26 *positive.*

27

STATEMENT OF FACTS

The Barry Elementary School, domestic water system (School) is classified as a non-transient non-community water system serving approximately 650 persons. In accordance with Section 64423 of Title 22, the System is required to collect one routine bacteriological sample per month, unless there was a positive bacteriological sample, in which case, five routine bacteriological samples are required the following month. On December 17, 18, and 31, 2014, the System collected a total of eleven routine samples from the distribution system; of which, six samples indicated the presence of total coliform, and no samples contained escherichia-coli (e-coli) bacteria. The cause of the total coliform contamination is believed to have originated from repair work being conducted on the well earlier in the month.

DETERMINATIONS

The Division has determined that the System violated Section 64426.1(b)(2), Title 22, of the CCR, in that the System exceeded the total coliform MCL during the month of December 2014.

DIRECTIVES

The System is hereby directed to take the following actions:

1. Comply with Section 64426.1, Title 22, of the CCR in all future monitoring periods.
2. Immediately upon the of the issuance of this Citation, notify all persons served by the School of the MCL violation as required by Section 64463.4 and Section 64465, Title 22, of the CCR. Notification shall be completed in accordance with each of the following:

1 (A) Hand or mail delivery to persons served by the water system

2
3 3. Changes and/or modifications to Attachment 'A' shall not be made unless
4 approved by the Division.

5
6 4. Complete and return Attachment 'B' "Certification of Completion of Public
7 Notification" form **within 10 days** of giving public notice. A copy of the notice
8 used to provide public notification shall be attached to the form.

9
10
11 The completed and signed copy of Attachment 'B' shall be submitted to the following
12 address:

13
14 Reese B. Crenshaw, P. E.

15 Valley District Engineer

16 Drinking Water Field Operations

17 Division of Drinking Water

18 State Water Resources Control Board

19 364 Knollcrest Drive, Suite 101

21 (530) 224-4800

22
23 Nothing in this Citation relieves the School of its obligation to meet the requirements
24 of Health and Safety Code, Division 104, Part 12, Chapter 4 (California Safe

1 Drinking Water Act), or any regulation, permit, standard or order issued or adopted
2 thereunder.

3
4 The Division reserves the right to make such modifications to this Citation, as it may
5 deem necessary to protect public health and safety. Such modifications may be
6 issued as amendments to this Citation and shall be effective upon issuance.

7
8 **FURTHER ENFORCEMENT ACTION**

9 The California SDWA authorizes the Board to: issue citation with assessment of
10 administrative penalties to a public water system for violation or continued violation
11 of the requirements of the California SDWA or any permit, regulation, permit or order
12 issued or adopted thereunder including, but not limited to, failure to correct a
13 violation identified in a citation or compliance order. The California SDWA also
14 authorizes the Board to take action to suspend or revoke a permit that has been
15 issued to a public water system if the system has violated applicable law or
16 regulations or has failed to comply with an order of the Board; and to petition the
17 superior court to take various enforcement measures against a public water system
18 that has failed to comply with violates an order of the Board. The Board does not
19 waive any further enforcement action by issuance of this citation.

20
21 **PARTIES BOUND**

22 This Citation shall apply to and be binding upon the School, its officers, directors,
23 agents, employees, contractors, successors, and assignees.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable.

Tradúzcalo o hable con alguien que lo entienda bien.

The Barry Elementary School water system did not meet Bacteriological Drinking Water Standards in December 2014

Our water system violated the bacteriological drinking water standard for December 2014. As our customers, you have a right to know what you should do, what happened, and what we are doing to correct this situation.

We routinely monitor for the presence of drinking water contaminants. We took eleven (11) samples to test for the presence of coliform bacteria during December 2014 after our well was repaired. Six (6) of the eleven (11) samples showed the presence of total coliform. The standard is that no more than one (1) sample per month may have total coliform.

What should I do?

- **Nothing at this time. Bottled water has historically been served at the school for consumption.**
- Usually, coliforms are a sign that there could be a problem with the treatment or distribution system (pipes). Whenever we test for total coliform bacteria in any sample, we also test to see if other bacteria of greater concern, such as fecal coliform or *E. coli*, are present. **We no longer found E. Coli bacteria in our testing after disinfecting the water system on December 4, 2014.**
- People with severely compromised immune systems, infants, and some elderly may be at increased risk. These people should seek advice about drinking water from their health care providers. General guidelines on ways to lessen the risk of infection by microbes are available from U.S. EPA's Safe Drinking Water Hotline at 1(800) 426-4791.
- If you have other health issues concerning the consumption of this water, you may wish to consult your doctor.

What happened? What is being done?

As you were informed in early December 2014, repeat samples taken on December 2, tested positive for total coliform and *E. coli*. In response, between December 4 and December 31, 2014, the school performed three rounds of disinfecting the entire water system, flushing, and re-sampling. Although all of the subsequent samples did not indicate the presence of *E. coli*, six (6) samples tested positive for low levels of total coliform. Consequently, the school disinfecting the system a fourth time and re-sampled on January 12, 2015. All samples were clear of total coliform bacteria. **As a result, mitigation measures have been lifted and the school may resume cafeteria operations and hand washing in the bathrooms.**

For more information, please contact Thomas Butcher at (530) 822-5252.

State Water System ID#: 5100149.

CERTIFICATION OF COMPLETION OF PUBLIC NOTIFICATION

This form, when completed and returned to the Division of Drinking Water (364 Knollcrest Drive, Suite 101, Redding, CA 96002 or fax to 530-224-4844), serves as certification that public notification to water users was completed as required by the California Water Quality and Monitoring Regulations. Completing public notification and providing the Division with certification is important. Failure to do so will result in additional hourly time charges to your water utility and may result in a formal enforcement action with monetary penalties.

Public Water System Name Barry Elementary School

Public Water System No. 5100149

Public notification for the December 2014 bacteriological failure was performed by the following method:

 Hand delivery to faculty and other staff served by the water system. Please indicate the date(s) the notice was hand delivered: _____

 Mail, email, or hand delivery to parents of students. Please indicate the date(s) the notice was sent or delivered to parents: _____

I hereby certify that the above information is factual.
