Citation #: CC0001202

Issued: July 20, 2016

Citation for Noncompliance **Total Coliform Monitoring and Reporting Violation**

In accordance with Chapter 4, Article 9, Section 116650 of Part 1 of Division 104 of the California Health and Safety Code (CHSC), this Division is authorized to issue a citation for failure to comply with a requirement of Chapter 4 (California Safe Drinking Water Act), or any regulation, standard, permit or order issued thereunder.

Violation

The Yolo County Environmental Health Division (Division) hereby issues a citation to Dunnigan Chevron Water System for failure to comply with Section 116555(a) of the CHSC and Section 64423 of Title 22, California Code of Regulations (CCR). Specifically Dunnigan Chevron failed to collect and/or report the required number of bacteriological water samples for March-June 2016 as required by Section 64423(a) Title 22 of the CCR.

In accordance with Section 64423(a), Dunnigan Chevron is required to collect and have analyzed for total coliform bacteria, one sample from its distribution system per calendar month. As of this date, the Division has not received any results for a sample taken during the compliance period(s): March, April, May, June 2016. This is classified as a continuing violation.

Directives

Dunnigan Chevron is hereby directed to take the following actions:

1. Comply with Section 64423 in all future monitoring periods.
2. Notify all persons served by the Dunnigan Chevron water system of this violation by completing, posting, and returning a copy of Attachment A by **Friday, July 29, 2016**. This notice must include a written or typed description of corrective actions taken by the water system to prevent this violation from occurring in the future.

3. Complete delinquent monitoring and provide the Division with results by **Friday, August 5, 2016.**

Civil Penalty

Sections 116650(d) and 116650(e) of CHSC allow for assessment of a civil penalty for failure to comply with requirements of Chapter 4. Failure to comply with any provision of this citation may result in the Division imposing a civil penalty of up to one thousand dollars (\$1,000.00) per day as of the date of violation of the provision.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable.
Tradúzcalo o hable con alguien que lo entienda bien.

**TOTAL COLIFORM MONITORING REQUIREMENTS NOT MET FOR
DUNNIGAN CHEVRON**

The Dunnigan Chevron water system failed to monitor as required for drinking water standards during the past year and, therefore, was in violation of the regulations. Even though this failure was not an emergency, as our customers, you have a right to know what you should do, what happened, and what we did to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During March, April, May and June 2016, we did not monitor or test for total coliform bacteria and therefore, cannot be sure of the quality of our drinking water during that time.

What should I do?

- There is nothing you need to do at this time.
- The table below lists the contaminant(s) we did not properly test for during the last year, how many samples we are required to take and how often, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	<i>Required Sampling Frequency</i>	<i>Number of Samples Taken</i>	<i>When All Samples Should Have Been Taken</i>	<i>When Samples Were or Will Be Taken</i>
Total coliform bacteria	One sample per month	0	By 3/31/16; 4/30/16; 5/31/16; 6/30/16	

- If you have health issues concerning the consumption of this water, you may wish to consult your doctor.

What happened? What is being done? [Describe corrective action].
