Public water systems must comply with the Primary Standards for bacteriological quality.

To determine compliance with the Primary Standards for bacteriological quality, a public water system shall collect routine water sample(s) in accordance with the Bacteriological Sample Siting Plan (BSSP) on file with the Los Angeles County Department of Public Health, Environmental Health Division (EH). The water sample(s) shall be analyzed by an approved laboratory for the presence of total coliform.

The schedule below shall be followed by the water systems that are required to collect quarterly water samples:

- 1st Quarter - January, February, March
- 2nd Quarter - April, May, June
- 3rd Quarter - July, August, September
- 4th Quarter - October, November, December

Public water systems that fail to collect routine water sample(s) shall issue a Tier 3 Public Notice. The Tier 3 Public Notice shall be delivered in a manner designed to reach persons served within the required time period by mail, direct delivery, and publication in a local newspaper or by posting in conspicuous public places served by the water system. Tier 3 Public Notices posted in a conspicuous public area shall remain in place for as long as the violation continues but in no case less than seven (7) days.

**VIOLATION DESCRIPTION:**

The water system failed to collect routine water sample(s) for June 2016.

**CORRECTIVE ACTION:**

You are hereby directed by EH to ensure that routine water sample(s) are collected and submitted to EH at [swslab@ph.lacounty.gov](mailto:swslab@ph.lacounty.gov).

The attached Tier 3 Public Notice shall be posted in a conspicuous public area and remain in place for as long as the violation continues but in no case less than 7 days.
