

Lahontan Regional Water Quality Control Board

Climate Change Adaptation Planning PUBLIC INVITATION

Join the Water Board to identify how climate change may affect you and provide your input to prioritize its actions.

Learn from
researchers what is
happening

Identify existing
and new tools for
adaptation

Help shape and
create the Water
Board policies

WORKSHOP SERIES

*November 13, 2014, 8:30am – 11:30am
Hampton Inn & Suites
2710 Lenwood Road, Barstow, CA*

Daniel Cayan, PhD – southern Lahontan region climate effects
John Izbicki, PhD – groundwater
Max Gomberg – state policies
Lauri Kemper – regional policies

*January 15, 2015, 8:30am – 12:00 noon
Lake Tahoe Community College
1 College Way., South Lake Tahoe, CA*

Michael Dettinger, PhD – northern Lahontan region climate effects
Geoff Schladow, PhD – Lake Tahoe
Arlan Nickel and Maureen McCarthy, PhD – adaptation strategies
Douglas Smith – state & regional policies

Stakeholders, Water Board members, and Water Board staff, will begin brainstorming ideas once the proper knowledge is gained from researchers for any needs, as well as short or long term actions the Water Boards should address in order to assist in the adaptation to climate change. The Water Board will develop a planned action report regarding the input received and may hold future workshops to explore potential changes to existing policies.
