

## **Section 401 Water Quality Certification and WDR Public Notices**

---

<i>WDID No</i>	6B141611004
<i>Project Name</i>	Amargosa Culverts Project
<i>Project Proponent:</i>	Caltrans District 9
<i>Agent</i>	Matthew Goike, Caltrans
<i>Receiving Water Name</i>	Amargosa River
<i>Project City</i>	Shoshone
<i>Project County</i>	Inyo
<i>Status</i>	Pending/Complete      Notice of incomplete application was sent on 12/14/2016.
<i>Project Purpose and Description</i>	The purpose of the Project is to replace existing deteriorating culverts in order to restore drainage under the roadway, reduce the potential for overtopping and roadway flooding, and improve public safety.
<i>Date Most Recent Information Received:</i>	12/14/2016
<i>Initial Date Received:</i>	11/18/2016
<i>WDID No</i>	6B141609002
<i>Project Name</i>	Black Rock Siphon
<i>Project Proponent:</i>	Los Angeles Department of Water and Power
<i>Agent</i>	Katherine Rubin, LADWP
<i>Receiving Water Name</i>	Black Rock Ditch
<i>Project City</i>	Blackrock
<i>Project County</i>	Inyo
<i>Status</i>	Pending/Complete
<i>Project Purpose and Description</i>	The Project is to perform maintenance of various facilities within Black Rock Ditch. Proposed activities include bank stabilization and replacement of flow meters and associated utilities. Project implementation will require installation of a coffer dam to bypass flows around the Project site.
<i>Date Most Recent Information Received:</i>	9/13/2016
<i>Initial Date Received:</i>	9/13/2016

---

**WDID No** 6B141607004  
**Project Name** Horton Creek Weir Replacement Project  
**Project Proponent:** Los Angeles Department of Water and Power  
**Agent** Katherine Rubin, LADWP  
**Receiving Water Name** Horton Creek  
**Project City** Bishop  
**Project County** Inyo  
**Status** Pending/Complete  
**Project Purpose and Description** The purpose of the project is to upgrade the existing weir structure within Horton Creek. New operating gates will be installed and bypass infrastructure will be constructed to divert flows around construction implementation.

**Date Most Recent Information Received:** 7/25/2016  
**Initial Date Received:** 7/25/2016

---

**WDID No** 6B141611002  
**Project Name** SCE Haiwee-Inyokern Deteriorated Pole Replacement  
**Project Proponent:** Southern California Edison  
**Agent** Richard Haywood, SCE  
**Receiving Water Name** Owens Lake Wetlands  
**Project City** Cartago  
**Project County** Inyo  
**Status** Pending/Complete  
**Project Purpose and Description** The purpose of the Project is to replace two deteriorated wood poles with light weight steel poles. The new poles will be in the same general location as the existing poles being replaced. Existing access roads will be used, where necessary, existing vegetation will be crushed to retain the root structure.

**Date Most Recent Information Received:** 11/23/2016  
**Initial Date Received:** 11/23/2016

---

**WDID No** 6B141510007  
**Project Name** Big Pine Veterans Memorial Path  
**Project Proponent:** Inyo County Planning Department  
**Agent** Michael Draper, Inyo County  
**Receiving Water Name** unnamed  
**Project City** Big Pine  
**Project County** Inyo  
**Status** Pending/Complete Notice of incomplete application was sent on 11/15/2016.  
**Project Purpose and Description** The Project is construct a walkway between a war memorial and the community of Big Pine. The walkway will be 5-feet wide with 1-foot shoulders on either side and 1,050-feet in length. The walkway crosses an ephemeral stream at two locations. A culvert will be installed at each stream crossing.

**Date Most Recent Information Received:** 11/18/2016  
**Initial Date Received:** 10/11/2016

---

**WDID No** 6B191605006  
**Project Name** 84 Lumber Lancaster Store  
**Project Proponent:** 84 Lumber Company  
**Agent** Rafik Albert, EPD Solutions, Inc.  
**Receiving Water Name** unnamed  
**Project City** Lancaster  
**Project County** Los Angeles  
**Status** Pending/Complete Notice of incomplete application was sent on 11/28/2016.  
**Project Purpose and Description** The Project is to construct a wholesale lumber and building material facility on a 10.7-acre site. The Project will disturb isolated alkali wetlands and ephemeral stream waters.

**Date Most Recent Information Received:** 11/23/2016  
**Initial Date Received:** 5/18/2016

---

**WDID No** 6B361606001  
**Project Name** Southern California Edison TD 1085975 Deteriorated Pole Replacement  
**Project Proponent:** Southern California Edison  
**Agent** Rick Haywood, SCE  
**Receiving Water Name** El Mirage Dry Lake  
**Project City** El Mirage  
**Project County** San Bernardino  
**Status** Pending/Complete  
**Project Purpose and Description** The Project is to replace an existing wooden utility pole located within the bed of El Mirage Dry Lake. The pole will be replaced in-kind and in the same general location as the existing pole. Existing access roads will be used.

**Date Most Recent Information Received:** 6/14/2016  
**Initial Date Received:** 6/14/2016

---

**WDID No** 6B361606005  
**Project Name** LakeArrowhead Lake Wide Maintenance Dredging  
**Project Proponent:** Arrowhead Lake Association  
**Agent** Shay Lawrey, Jericho Systems  
**Receiving Water Name** Lake Arrowhead  
**Project City** Lake Arrowhead  
**Project County** San Bernardino  
**Status** Pending/Complete  
**Project Purpose and Description** The purpose of the Project is to remove excess sediment and restore portions of the shoreline to original topographic contours. A total of 27 bays will be restored to original conditions and several sediment basins will be maintained. The Project is necessary for navigational safety, protection of property, invasive species control, and vector control. The Applicant is requesting a long-term maintenance agreement to allow dredging and sediment removal on an as-needed basis.

**Date Most Recent Information Received:** 10/31/2016  
**Initial Date Received:** 6/10/2016

---

**WDID No** 6B361610006  
**Project Name** Bear Valley Road Bridge Geotechnical Investigation  
**Project Proponent:** Town of Apple Valley  
**Agent** Sarah Holm, Dokken Engineering  
**Receiving Water Name** Mojave River  
**Project City** Apple Valley  
**Project County** San Bernardino  
**Status** Pending/Complete  
**Project Purpose and Description** The proposed Project is to obtain geotechnical information to complete final design of a bridge expansion over the Mojave River.  
**Date Most Recent Information Received:** 10/28/2016  
**Initial Date Received:** 10/28/2016

---

**WDID No** 6B361605001  
**Project Name** Valley Concrete Projects Apple Valley  
**Project Proponent:** Valley Concrete Products  
**Agent** Scot Chandler, AMEC Foster Wheeler  
**Receiving Water Name** unnamed  
**Project City** Apple Valley  
**Project County** San Bernardino  
**Status** Pending/Complete Notice of incomplete application was sent on 7/7/2016.  
**Project Purpose and Description** The Project is to construct three warehouse structures and associated infrastructure including driveways, parking lots, and storm water detention facilities.  
**Date Most Recent Information Received:** 7/20/2016  
**Initial Date Received:** 5/2/2016

---

**WDID No** 6B361603003  
**Project Name** Kramer Junction Expressway Project  
**Project Proponent:** California Department of Transportation  
**Agent** Scott Quinnell, Caltrans  
**Receiving Water Name** unnamed  
**Project City** Hinkley  
**Project County** San Bernardino  
**Status** Pending/Complete Notice of incomplete application was sent on 8/16/2016.  
**Project Purpose and Description** The Project is to realign and widen a 13-mile long segment of State Route 58 between State Highway 395 and Barstow. The purpose of the Project is to improve public safety and transportation and relieve congestion.  
**Date Most Recent Information Received:** 8/11/2016  
**Initial Date Received:** 3/29/2016

---

**WDID No** 6B361607003  
**Project Name** Southern California Edison TD1041400 Deteriorated Pole Replacement Project  
**Project Proponent:** Southern California Edison  
**Agent** Richard Haywood, SCE  
**Receiving Water Name** Unnamed Ephemeral Stream  
**Project City**  
**Project County** San Bernardino  
**Status** Pending/Complete  
**Project Purpose and Description** The purpose of the project is to replace three deteriorated wood distribution poles with in-kind wood poles (Pole #28388CIT, Pole #4416501E, Pole #4423529E). Pole #28388CIT is located within Horsethief Creek, a tributary to the Mojave River.  
**Date Most Recent Information Received:** 7/19/2016  
**Initial Date Received:** 7/19/2016

---

**WDID No** 6B361609001  
**Project Name** Phase I Expansion Barstow Landfill Watershed A Project  
**Project Proponent:** San Bernardino County Department of Public Works  
**Agent** Mike Perry, San Bernardino County  
**Receiving Water Name** Unnamed ephemeral streams  
**Project City** Barstow  
**Project County** San Bernardino  
**Status** Pending/Complete Notice of incomplete application was sent on 11/28/2016.  
**Project Purpose and Description** The purpose of the Project is to utilize the site as a soil borrow source for the existing landfill operations.  
**Date Most Recent Information Received:** 11/29/2016  
**Initial Date Received:** 9/30/2016

---

**WDID No** 6B141610005  
**Project Name** Owens Valley Concrete Resurfacing and Maintenance  
**Project Proponent:** Los Angeles Department of Water and Power  
**Agent** Katherine Rubin, LADWP  
**Receiving Water Name** Big Pine Creek, Pine Creek, Rock Creek, Walker Creek, Parker Creek, and Lee Vining Creek  
**Project City** Bishop  
**Project County** Inyo  
**Status** Pending/Incomplete Notice of incomplete application was sent on 11/18/2016.  
**Project Purpose and Description** The Project is in-kind replacement of existing deteriorated concrete structures at seven creek locations: Big Pine Creek, Pine Creek, Rock Creek, O.H. 25, Lee Vining Creek, Parker Creek, and Walker Creek. Proposed activities include concrete resurfacing, sediment excavation within the forebay, and maintenance of existing utilities, as needed. Project implementation will require installation of a coffer dam to bypass flows around the Project site.  
**Date Most Recent Information Received:** 10/19/2016  
**Initial Date Received:** 10/19/2016

---

**WDID No** 6B141604004  
**Project Name** City of Bishop Sewer Trunk Line Replacement Project  
**Project Proponent:** City of Bishop Department of Public Works  
**Agent** Coleen Shade, RO Anderson  
**Receiving Water Name** Bishop Canal  
**Project City** Bishop  
**Project County** Inyo  
**Status** Pending/Incomplete Notice of incomplete application was sent on 11/18/2016.  
**Project Purpose and Description** The Project is to replace 2,500 linear feet of sewer trunk line. A portion of the line crosses beneath the Bishop Creek Canal. The new line will be in the same general location and alignment as the existing and will be placed below the top of the bed of the canal. The new line will be encased on concrete and the bed of the canal lined with rock rip-rap to protect the pipeline in-place. CEQA pending.

**Date Most Recent Information Received:** 11/16/2016  
**Initial Date Received:** 4/13/2016

**WDID No** 6B141606007  
**Project Name** Owens Lake Soil Binder Pilot Project (401 WQC)  
**Project Proponent:** Los Angeles Department of Water and Power  
**Agent** Katherine Rubin, LADWP  
**Receiving Water Name** Owens Lake  
**Project City** Bishop  
**Project County** Inyo  
**Status** Pending/Incomplete Notice of incomplete application was sent on 7/8/2016.  
**Project Purpose and Description** The purpose of the project is to test and evaluate the performance of soil stabilizers within and around the Owens Lake in order to reduce the amount of airborne particulates that are less than 10 microns in diameter.

**Date Most Recent Information Received:** 6/10/2016  
**Initial Date Received:** 6/10/2016

---

**WDID No** 6B14161009  
**Project Name** Rawson Canal Pond Check Dam Replacement  
**Project Proponent:** Los Angeles Department of Water and Power  
**Agent** Katherine Rubin, LADWP  
**Receiving Water Name** Rawson Canal  
**Project City** Bishop  
**Project County** Inyo  
**Status** Pending/Incomplete Notice of incomplete application was sent on 11/22/2016.  
**Project Purpose and Description** The Project is to replace existing deteriorated headgates with concrete head- and tail-walls at the inlet of each of the three Rawson ponds. Project implementation will require diking of Rawson Canal above and below each pond. Sediment will be excavated from each of the three forebays.

**Date Most Recent Information Received:** 10/20/2016  
**Initial Date Received:** 10/20/2016

---

**WDID No** 6B141610008  
**Project Name** South Fork Bishop Creek Bridge Replacement  
**Project Proponent:** Los Angeles Department of Water and Power  
**Agent** Katherine Rubin, LADWP  
**Receiving Water Name** South Fork Bishop Creek  
**Project City** Bishop  
**Project County** Inyo  
**Status** Pending/Incomplete Notice of incomplete application was sent on 11/18/2016.  
**Project Purpose and Description** The Project is to replace the existing deteriorated bridge structure and abutments. Proposed activities include bank stabilization, installation of new concrete abutments, a new bridge deck, and guard rails. The existing abutments will remain in place and be doveled into and grouted in place to retain the historic masonry attached to the existing abutments. Project implementation will require installation of a coffer dam to bypass flows around the Project site.

**Date Most Recent Information Received:** 12/7/2016  
**Initial Date Received:** 10/19/2016

---

**WDID No** 6B1416110010  
**Project Name** Owens Valley Excavation and In-Kind Replacement  
**Project Proponent:** Los Angeles Department of Water and Power  
**Agent** Katherine Rubin, LADWP  
**Receiving Water Name** Matlick Ditch, Pine Creek, Bohler Creek  
**Project City** Bishop and Lee Vining  
**Project County** Inyo and Mono  
**Status** Pending/Incomplete Notice of incomplete application was sent on 11/18/2016.  
**Project Purpose and Description** The Project is in-kind replacement of existing deteriorated structures at three creek locations: Bohler Creek, Matlick Ditch, and Pine Creek. Proposed activities include bank stabilization, flume and headwall replacement, and replacement of existing utilities. Project implementation will require installation of a coffer dam to bypass flows around the Project site.

**Date Most Recent Information Received:** 10/19/2016  
**Initial Date Received:** 10/19/2016

**WDID No** 6B191610011  
**Project Name** Lancaster WAD B Solar  
**Project Proponent:** Lancaster WAD B LLC  
**Agent** Carisa Endrizzi-Davis, S-Power  
**Receiving Water Name** unnamed  
**Project City** Lancaster  
**Project County** Los Angeles  
**Status** Pending/Incomplete Notice of incomplete application was sent on 11/30/2016.  
**Project Purpose and Description** The Project is to construct a photovoltaic solar generating facility on a 29 acre site. Project components include solar arrays, access roads, and overhead and underground utilities.

**Date Most Recent Information Received:** 12/7/2016

**WDID No** 6B361506004  
**Project Name** Project Jupiter  
**Project Proponent:** AVDC Inc.  
**Agent** Scot Chandler, AMEC Foster Wheeler  
**Receiving Water Name** unnamed  
**Project City** Apple Valley  
**Project County** San Bernardino  
**Status** Pending/Incomplete Notice of incomplete application was sent on 5/6/2016.  
**Project Purpose and Description** The Project is to develop a 106 acre parcel with a 1.3 million square foot warehouse and associated infrastructure including access roads, aboveground and underground utilities, and storm water collection and management facilities. The proposed development includes the construction of engineered channel along the perimeter of the site to redirect flows in a natural ephemeral stream around the proposed development. The constructed channel will return flows back to the natural channel at the southwest corner of the site. CEQA pending.

**Date Most Recent Information Received:** 4/14/2016
