Dear Dr. Chu;

The City of Santa Paula has recently experienced several key staff changes. As a result, we have not been able to do a full independent review of the draft Santa Clara River Fecal Indicator Bacteria TMDL. However, discussions with the City of Fillmore have shown that their issues are the same as Santa Paula's. We therefore add our endorsement to Fillmore's response dated June 4, 2010.

Thank you.

Norman S. Wilkinson
Interim Public Works Director / City Engineer
City of Santa Paula
