REVISED TENTATIVE TERMINATION OF WASTE DISCHARGE REQUIREMENTS (WDRs) AND NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT FOR EL SEGUNDO POWER, LLC – EL SEGUNDO GENERATING STATION (NPDES NUMBER CA0001147, ORDER NUMBER R4-2015-0029, CI NUMBER 4667)

Dear Mr. Riesz:

On August 5, 2019, the Los Angeles Regional Water Quality Control Board (Regional Water Board) released the tentative termination of the WDRs and NPDES permit for the El Segundo Generating Station (Facility) for public review and comment. The deadline to submit written comments was September 4, 2019. No comments were submitted. However, Regional Water Board staff has modified the text in Finding 2 of the tentative termination order to document that the statewide General Permit for Storm Water Discharges Associated with Industrial Activities (State Water Resources Control Board Order No. 2014-0057-DWQ; NPDES Permit No. CAS000001) (Industrial General Permit) will be used to regulate future storm water only discharges from the Facility. El Segundo Generating Station enrolled in the Industrial General Permit on December 10, 2014. The reference to the Industrial General Permit has also been added to the Reason for Termination in the revised tentative Order Terminating the WDRs for the Facility.

Enclosed please find the revised tentative Termination Order. Since the only change to the tentative Termination Order is the clarifying language, no written comments will be accepted. In accordance with administrative procedures, this Regional Water Board, at a public hearing, will consider the enclosed revised tentative Order, which will terminate Order No. R4-2015-0029. The hearing will be held on October 10, 2019, at 9:00 a.m., at the **Carson City Council Chambers, 701 E Carson Street, Carson, CA 90745**. The Board members will hear any testimony pertinent to this matter. It is expected that the Board will take action at the hearing; however, as testimony indicates, the Board, at its discretion, may order further investigation.
