The California Regional Water Quality Control Board, Los Angeles Region (Regional Water Board), finds:

1. This Regional Water Board adopted waste discharge requirements for discharges to surface waters which also served as the National Pollutant Discharge Elimination System (NPDES) permit for the Discharger listed below.
2. The Discharger has filed a Notice of Intent (NOI) with the Regional Water Board for the discharge of groundwater seepage to surface waters at the Facility on May 8, 2015. The Facility has obtained coverage in the General Permit for the Discharges of Groundwater from Construction and Project Dewatering (CAG994004) on ~~YYYY~~ August 4, 2015.
3. The Facility is currently undergoing major construction. Groundwater seepage discharge has ceased since April 20, 2015. Storm water runoff from the Facility is currently regulated by the General Permit for the Discharge of Storm Water Associated with Construction Activity (CAS000002).
4. The Facility did not discharge storm water runoff during the term of Order No. R4-2010-0178 through Discharge Point 001; any subsequent storm water runoff from the Facility after the construction period will be discharged in combination with storm water collected from the adjacent Westfield property, which will be covered through the City of Los Angeles Municipal Separate Storm Sewer (MS4) System.
5. Therefore, the following waste discharge requirements and NPDES permit are no longer necessary and should be terminated.
6. The following Order is hereby terminated, except for enforcement purposes.
7. The termination of waste discharge requirements is exempt from the provisions of Chapter 3 (commencing with Section 21100), Division 13, Public Resources Code, in accordance with Water Code Section 13389.

The Regional Water Board has notified the Discharger, interested agencies, and persons of its intent to consider termination of the following waste discharge requirements and has provided them with an opportunity to submit their written views and recommendations.

The Regional Water Board, in a public hearing, heard and considered all comments and

Order No. R4-2015-XXXX  
 Terminating Waste Discharge Requirements and NPDES Permit

testimony pertinent to this matter.

IT IS HEREBY ORDERED that the following waste discharge requirements and NPDES permit be terminated:

<b><u>DISCHARGER NAME (NPDES NO.)</u></b>	<b><u>ORDER NO. (ADOPTION DATE)</u></b>	<b><u>REASON FOR TERMINATION</u></b>
<u>1801 Avenue of the Stars, LP.</u> c/o Westfield, LLC. Westfield Building 1801 Avenue of the Stars Los Angeles, CA 90067 (CA0053287)	R4-2010-0178 (October 7, 2010)	Facility qualifies for enrollment under and will be regulated by the General Permit of Groundwater and Project Dewatering (CAG994004)

The Executive Officer of the Regional Water Board is authorized and directed to certify and submit copies of this Order to the Discharger, and to such individuals and governmental agencies as may have needed therefore, or may request the same.

I, Samuel Unger, Executive Officer, do certify that the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Los Angeles Region on September 10, 2015.

\_\_\_\_\_  
 Samuel Unger, P.E.,  
 Executive Officer
