Interested Agencies and Persons:

PUBLIC NOTICE - APPROVAL OF CELL CC-2/3A DESIGN REPORT, SUNSHINE CANYON CITY/COUNTY LANDFILL, SYLMAR, CALIFORNIA (ORDER NO. R4-2008-0088, FILE NO. 58-076)

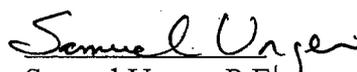

The California Regional Water Quality Control Board (Regional Board), Los Angeles Region, is the public agency with primary responsibility for the protection of ground and surface water quality for all beneficial uses within major portions of the Los Angeles and Ventura Counties. The Sunshine Canyon City/County Landfill (Landfill) in Sylmar, Los Angeles County, is regulated under waste discharge requirements (WDRs) included in Regional Order No. R4-2008-0088 adopted by this Regional Board on October 2, 2008. Provision M.22 of the WDRs requires: *"During oversight of this Order, wherever the Executive Officer is authorized to grant any approval under a particular provision of this Order, the Executive Officer is directed to assess if there is controversy associated with the decision following public notice and, if so, bring the decision to the Regional Board for approval."*

THIS IS NOTICE that the Executive Officer intends to approve, as set forth in the attached draft letter, a liner design report (Report) for Cell CC-2/3A at the Landfill that was submitted to the Regional Board on February 10, 2011. Comments on this matter must be in writing, addressed to Dr. Wen Yang, Chief of the Land Disposal Unit, and received at the Regional Board Office by the close of business on **March 28, 2011**.

The Report provides the design and construction information of a 35-acre area within the permitted footprint of the Landfill, including construction drawings, technical specifications, and a Construction Quality Assurance Plan. The Report and related records of the Landfill at the Regional Board may be reviewed by contacting the Regional Board staff listed below. The WDRs, and certain related documents, are available at the Regional Board website at: http://www.waterboards.ca.gov/losangeles/board_decisions/adopted_orders/.

If you have any questions or need additional information, please contact Dr. Wen Yang, Chief of Land Disposal Unit, by calling (213) 620-2253 or emailing at wyang@waterboards.ca.gov.

Sincerely,

Samuel Unger, P.E.
Executive Officer

DRAFT

APPROVAL OF PHASE CC-2/3A DESIGN REPORT - SUNSHINE CANYON CITY/COUNTY LANDFILL, SYLMAR, CALIFORNIA (ORDER NO. R4-2008-0088, FILE NO. 58-076)

Dear Mr. Hauser:

The California Regional Water Quality Control Board, Los Angeles Region (Regional Board), has received from you a document titled *Design Report, Sunshine Canyon Landfill, Phase CC-2/3A* (Report) that was prepared by A-Mehr, Inc., dated February 2011, and delivered to the Regional Board office on February 9, 2011. The Report was submitted for the construction of Cell CC-2/3A liner system at the Sunshine Canyon City/County Landfill, which is regulated under waste discharge requirements included in Order No. R4-2008-0088 (WDRs) adopted by this Regional Board on October 2, 2008.

The Report provides the design and construction information of a 35-acre area within the permitted footprint of the Landfill, including construction drawings, technical specifications, and a Construction Quality Assurance Plan. We have reviewed the Report and found that the proposed liner system design meets the requirements of the WDRs and the construction standards described in California Code of Regulations, title 27, section 20310 et. al. The Report is therefore approved.

If you have any questions or need additional information, please call Dr. Wen Yang, Chief of Landfill Disposal Unit, at (213) 620-2253.

Sincerely,

Samuel Unger, P.E.
Executive Officer
