

California Regional Water Quality Control Board  
North Coast Region

Monitoring and Reporting Program No. R1-2004-0031  
(Replaces Monitoring And Reporting Program No. R1-2002-0023)

FOR

CARLOTTA LUMBER COMPANY  
HIGHWAY 36  
CARLOTTA, CALIFORNIA

Humboldt County

**MONITORING**

1. The depth to groundwater in each monitoring well shall be determined to at least 0.01 foot increments annually. The results of each annual elevation shall be reported in tabular form indicating the surveyed elevations of each well reference point, depth to groundwater from reference point, and the actual groundwater elevation. The data generated from the elevation readings must be referenced to mean sea level.
2. Each monitoring well shall be sampled annually. The analyses shall be performed at a certified laboratory for pentachlorophenol and tetrachlorophenol.

**REPORTING**

A groundwater elevation contour map shall be submitted for the annual set of measurements and include the facility, groundwater flow pattern including the direction of the groundwater gradient, and the location of the wells measured. The annual monitoring report, including annual gradient and sampling data, shall be submitted to this office by January 15 of each calendar year.
