1. On May 2, 1991, Benjamin D. Kor, Executive Officer of the North Coast Regional Water Quality Control Board issued Monitoring and Reporting Program (MRP) No. 91-78 for the facility located at 3015 Coffey Lane in Santa Rosa. MRP Order No. 91-78 contained requirements for monitoring, sampling and reporting of groundwater monitoring wells installed at the facility.
2. Since May 2, 1991, activities at the site have included soil cleanup work and remedial investigation. Remedial investigation work resulted in the installation of additional groundwater monitoring wells, groundwater extraction wells, and ozone sparge/soil vapor extraction wells. As a result, M&RP No. 91-78, issued in 1991, is outdated and no longer applicable to current site conditions. Based on the available information, it is appropriate to rescind M&RP No. 91-78.

THEREFORE, it is hereby ordered that Monitoring and Reporting Program No. 91-78 is rescinded.
