

List of Watershed Assessments and Watershed Restoration Plans

Within 6 months of adoption of this Waiver, each Forest shall provide to the Executive Officer for inclusion in Attachment B to this Waiver, a list of watersheds, including the watershed name and the date the watershed assessment and/or watershed restoration plan (including legacy site identification, prioritization, and scheduling) was completed or is scheduled for completion. This list shall be updated annually as necessary.

A summary of sediment source inventories follows:

**SUMMARY OF USFS ACCOMPLISHMENTS RELATED TO SEDIMENT-SOURCE
 INVENTORIES AND WATERSHED RESTORATION
 IN NATIONAL FORESTS IN THE NORTH COAST WATER-QUALITY REGION
 2002 to 2009**

Forest	Watersheds	Road sediment inventories					
		Road Miles	Landslide Inventories (no.)	Road decommissioning (miles)	Trail Decommissioning (miles)	Road stormproofing (miles)	Erosion prevented (cubic yards)
Klamath		353		220		180	
Six Rivers	18	1,622	13,579	128		116	538,910
Shasta-Trinity	12	1,442		153	69	87	
Mendocino*	36			10		100	
Total	66	3,417	13,579	511	69	483	538,910

*only includes that portion of the MNF within the North Coast Region
