1. On November 20, 2007, Robert R Klamt, Interim Executive Officer of the North Coast Regional Water Quality Control Board extended coverage under General Waste Discharge Requirements Order No. R1-2006-0107 (General WDR) for the injection of ozone to remediate volatile organic compounds in groundwater.
2. On October 26, 2009, Catherine Kuhlman, Executive Officer of the North Coast Regional Water Quality Control Board issued Monitoring and Reporting Program Order No. R1-2009-0117 (MRP), replacing and rescinding MRP No. R1- 2007-0049. The MRP contained requirements for monitoring and reporting data collected from Site monitoring wells.
3. The remedial activities covered under the General WDR are terminated. Regional Water Board staff determined the MRP is no longer applicable to the Site. Based on the available information, it is appropriate to rescind Monitoring and Reporting Program No. R1-2009-0117.

THEREFORE, it is hereby ordered that Monitoring and Reporting Program No. R1-2009-0117 is rescinded.
