
North Coast Regional Water Quality Control Board

February 17, 2016

To whom it may concern:

The *Waiver of Waste Discharge Requirements and General Water Quality Certification for Discharges of Waste Resulting from Cannabis Cultivation and Associated Activities or Operations with Similar Environmental Effects In the North Coast Region* Order No. R1-2015-0023 (Order) includes several appendices that contain forms for enrollment and reporting. Effective today, February 17, 2016, I approve the attached revised Appendix A: *Enrollment Form (Notice of Intent)* and Appendix C: *Monitoring and Report Program*. This authority to make revisions to these documents is delegated to me pursuant to Water Code section 13267 and Order section III.S.

The purpose for these revisions is to add further clarity and better directions for completion and submittal of these forms, which are integral for the administration of the Order. The revised forms are available for download on the cannabis regulatory program website at: http://www.waterboards.ca.gov/northcoast/water_issues/programs/cannabis/.

Staff will continue to accept enrollment submittals using the earlier versions of Appendices A and C, but I encourage those who have not yet enrolled to use the newly-revised Appendices.

Sincerely,

Matthias St. John
Executive Officer
