On April 6, 2005, Eureka Sand and Gravel submitted an application to this office for Water Quality Certification and/or Waste Discharge Requirements. On June 2, 2005, we posted a public notice for your project on our web site and a 21-day public comment period has taken place. We did not receive any comments regarding your project.

On June 21, 2005, the Regional Water Board adopted Order No. R1-2005-0011, “General Waste Discharge Requirements and Water Quality Certification for Discharges Related to Sand and Gravel Mining, Excavation, and Processing Activities, Including Asphalt and Concrete Operations, on Non-Federal Lands in the North Coast Region (General WDR). Review of the application by Regional Water Board staff indicated that Eureka Sand and Gravel’s Mad River extraction activities and processing facilities might be eligible for coverage under the General WDR. On July 18, 2005, Eureka Sand and Gravel submitted additional information to demonstrate that the extraction activities and associated processing facilities are eligible for coverage under the General WDR. On July 20, 2005 we received a check for \$372 to cover the remaining balance of the applicable fee.
