Dear Mr. Mancini:

Subject: Notice of Applicability for General 401 Water Quality Certification Order for Small Habitat Restoration Projects at 6225 West Soda Rock Lane, Healdsburg

File: 6225 West Soda Rock Lane Healdsburg; WDID 1B13116WNSO;  
ECM PIN CW-798198

I have reviewed the subject application for the emergency repair to a failing bank and roadway at 6225 West Soda Rock Lane in Healdsburg. The project activities comply with the requirements of the General 401 Water Quality Certification Order for Small Habitat Restoration Projects, Order Number SB12006GN. This letter serves as the Notice of Applicability (NOA) that the project activities are authorized under this Order. The Order describes the NOA process, on page 3, Section B., 2., b., and reads as:

- b. The State or Regional Water Board may, at its discretion, issue a Notice of Applicability (NOA) to the applicant, indicating that the project activities are authorized under this Order. If project activities do not qualify for coverage under this Order, an NOE may be issued by State or Regional Water Board staff. Project activities not qualified for coverage under this Order may require an application for an individual Water Quality Certification. If the State or Regional Water Board does not issue an NOA or NOE to the applicant within 30 days of receipt of the NOI, the applicant may proceed with the discharge.
