Dear Ms. Jan Smith:

Subject: Amendment to the Federal Clean Water Act, Section 401, Water Quality Certification for Wildwood Road at Hayfork Creek Bridge Replacement Project

File: Wildwood Road at Hayfork Creek Bridge Replacement Project
WDID 1A14095WNTR; CW-809461

On October 22, 2015, we received your email requesting an amendment to the March 23, 2015, Federal Clean Water Act, section 401, Water Quality Certification (certification) for the Wildwood Road at Hayfork Creek Bridge Replacement Project. In response to your request, this letter serves as an amendment to Condition 3, allowing an extension of the 2015 annual work period as outlined below:

Condition 3:

The Project is planned to begin in May of 2015, with construction work planned to last approximately 17 months. Construction shall be during the dry season (May 15- October 15) within waters of the state, or in areas that may impact waters of the state.

End of the annual work period may be extended to October 31 under following conditions. When the 7-day NOAA National Weather Service forecast of rain for Hayfork at <http://forecast.weather.gov/MapClick.php?lat=40.5543&lon=-123.1831> includes a minimum of 5 consecutive days with any chance of precipitation, 3 consecutive days with a 30% or greater chance of precipitation, or 2 consecutive days of 50% or greater chance of precipitation, all work underway shall be finished, erosion control measures applied, and no new work shall be conducted prior to the rain event.

I hereby issue an amendment to the 2015 annual work period in Condition 3 of the Certification for the Wildwood Road at Hayfork Creek Bridge Replacement Project (WDID 1A14095WNTR) certifying that the remainder of the Water Quality Certification sections of the March 23, 2015 Order are still valid.

If you have any questions or comments, please contact Jake Shannon at (707) 576-2673 or jacob.shannon@waterboards.ca.gov.

Sincerely,
