

Regional Water Quality Control Board
North Coast Region

Executive Officer's Summary Report
Thursday, January 30, 2014
5550 Skylane Boulevard, Suite A
Santa Rosa, California

- ITEM: 5
- SUBJECT: Update on Status of Implementing the Scott River TMDL Waiver
(*Bryan McFadin*)
- BOARD ACTION: Informational item. No action will be taken by the Regional Water Board.
- BACKGROUND: *The Action Plan for the Scott River Sediment and Temperature Total Maximum Daily Loads (Action Plan; Order No R1-2005-0113) was amended into the Water Quality Control Plan for the North Coast Region (Basin Plan) on September 8, 2006. The Scott River TMDL Action Plan includes, in part, sediment and temperature total maximum daily loads (TMDL) and a description of the implementation actions necessary to achieve the TMDLs and attain water quality standards in the Scott River watershed.*
- On October 4, 2012 the Regional Water Board adopted Scott River TMDL Conditional Waiver of Waste Discharge Requirements (Scott River TMDL Waiver; Order No. R1-2012-0084). The Scott River TMDL Waiver waives the requirements to file a Report of Waste Discharge and obtain Waste Discharge Requirements for discharges addressed in the Scott River TMDL Action Plan, for dischargers who meet the conditions of the waiver, including the submittal and implementation of Plans and/or documentation related to the control of discharges.*
- DISCUSSION: This is an informational item. Regional Water Board staff will provide an update on progress implementing the Scott River TMDL Waiver, including discussion of the development of a Fact Sheet and tracking database, as well as progress in staff training and completion of ranch water quality assessments.
- SUPPORTING DOCUMENTS:
1. Scott River TMDL Waiver (Order No. R1-2012-0084)
 2. Fact Sheet: Implementation of the Scott River TMDL Conditional Waiver of Waste Discharge Requirement Program
