- BOARD ACTION: The Board will consider adoption of Waste Discharge Requirements (WDRs) Order and Monitoring and Reporting Program (MRP) No. R1-2015-0006, amending WDRs Order and MRP No. R1-2013-0003.
- BACKGROUND: On December 30, 2014, the County of Sonoma and Republic Services of Sonoma County, Inc. submitted a request that the North Coast Regional Water Quality Control Board (Regional Water Board) amend the subject WDRs to name Republic Services of Sonoma County, Inc. as a Discharger, for all purposes under the WDRs except those provisions of the WDRs pertaining to runoff from the composting operations at the Central Disposal Site (site). The County and Republic asked that this change be conditioned on the Effective Date of the Master Operations Agreement between the County and Republic, estimated to occur on March 12, 2015.
- On January 9, 2015, Regional Water Board staff released draft WDRs and Monitoring and Reporting Program (MRP) showing proposed changes, and soliciting public comments by February 9, 2015. Copies of the proposed changes to the WDRs and MRP were posted on the Regional Water Board's website, and mailed to the County and Republic, and to persons on the interested parties list for the site. Staff received no comments from any party during the public comment period. The Board agenda package includes two sets of WDRs and MRPs, one showing the change pages of all proposed revisions in tracked changes, and the other with all tracked changes accepted for those pages that have been revised.
