Regional Water Quality Control Board
David C. Joseph Hearing Room
5550 Skylane Blvd., Ste. A
Santa Rosa, CA 95403

Item: 6

Subject: Klamath River TMDL Schedule Update

DISCUSSION

Regional Water Board staff received approximately 500 comment letters on the *Klamath River Total Maximum Daily Loads and Action Plan Addressing Temperature, Dissolved Oxygen, Nutrient, and Microcystin Impairments* during the written public comment period which closed on August 27, 2009.

In addition, oral comments were received at the September 10, 2009 Regional Water Board Workshop on the draft TMDL. Based on public comments, staff are developing responses to the comments and considering potential modifications to the TMDL staff report and Action Plan. These responses and document modifications may affect the adoption schedule for the TMDL.

At the October 1, 2009 Regional Water Board meeting staff will present for Board consideration a schedule for completing the TMDL, and will seek Board input on the schedule.
