**Notice of Proposed Correction Action
For
Bramante Property
130 Healdsburg Avenue
Healdsburg, California
Case No. 1TSO504**

Internet Posting Date: December 18, 2007
Target Public Notice Completion Date is 30 Days After the Internet Posting Date

Problem Description

Petroleum hydrocarbon discharges to soil and groundwater occurred at 130 Healdsburg Avenue, Healdsburg, California from underground storage tanks and associated piping. Soil and groundwater cleanup activities have included removal of all underground tanks and piping with excavation of impacted soil.

Site Characterization

Groundwater monitoring wells have been installed to define the lateral and vertical extent of groundwater contamination. Groundwater contaminants include gasoline, and diesel.

Proposed Corrective Action

The responsible parties propose ozone microsparging with hydrogen peroxide injection into the subsurface to remediate contaminated groundwater.

Public Notice and File Availability

North Coast Regional Water Quality Control Board staff intends to concur with the proposed corrective action without further notice unless significant public comment is received. Records for 130 Healdsburg Avenue, Healdsburg, California are contained in a file identified as Bramante Property with a Case Number 1TSO504 at the North Coast Regional Water Quality Control Board, 5550 Skylane Boulevard, Suite A, Santa Rosa. Appointments are recommended and can be arranged by calling (707) 576-2220. Written comments may be sent to the attention of Beth Lamb who can also be reached at (707) 576-2669 or blamb@waterboards.ca.gov.
