Internet Posting Date: April 24, 2013
End of Public Comment Period: May 24, 2013

The North Coast Regional Water Quality Control Board (Regional Water Board) proposes to extend coverage under General Waste Discharge Requirements (WDR) Order No. R1-2006-0107 for the former Circle K Facility located at 290 Windsor River Road in Windsor, California (Site). A release from underground storage tanks located at the site discharged petroleum hydrocarbons and associated chemicals to the subsurface that have impacted groundwater. The proposed corrective action for contamination is in-situ chemical oxidation, which must be covered under WDR Order No. R1-2006-0107.

Interested persons may contact Janice Goebel at Janice.Goebel@waterboards.ca.gov or at (707) 576-2676. Written comments, technical reports, testimony and other evidentiary material may also be submitted to the Regional Water Board office at 5550 Skylane Blvd. Suite A, Santa Rosa, CA 95403 by 5:00 p.m. up to 30 days from the date of this publication.

WDR Order No. R1-2006-0107 is available for review on the Regional Water Board website at: http://water100.waterboards.ca.gov/rb1/adopted_orders/search_results.asp. The Order, site file, related documents and comments received are on file and may be inspected or copied at the Regional Water Board office Mondays through Fridays from 8:00 a.m. to 5:00 p.m. Appointments are recommended for file review and can be made by calling (707) 576-2220. Information and documents regarding the site can also be found on the State Water Resources Control Board's GeoTracker website at: <https://geotracker.waterboards.ca.gov/>.

Coverage under WDR Order No. R1-2006-0107 will be granted after thirty days from the date of publication and posting of this notice, unless the Executive Officer receives information that the project may not meet the intent of the Order.
