Subject: Public Meeting - April 9, 2008 Monte Rio Sewer Project

Dear Fellow Citizens,

The community of Monte Rio is facing a critical problem as it addresses the requirement to protect water quality in the Russian River and develop and fund a permanent solution to the wastewater disposal problem. The recent cancellation of the Monte Rio Sewer Project prompts the community to seek a new direction. I recognize the concerns associated with preserving the opportunities for future grants and loans.

On April 9, 2008, we will hold a meeting at 2:00 p.m. at the Regional Water Board's office in Santa Rosa. We are inviting the community of Monte Rio to discuss opportunities and steps towards developing a long-term solution. This is an exploratory meeting for potential and interested entities to form a new governance for a sewer authority in the lower Russian River. I emphasize that the meeting is open to the public, and to any interested party.

We would very much like to have your input at this meeting. We are scheduled to be done by 5:00 p.m. If you have any questions you may call Robert Klamt or Luis Rivera at 576-2220.

Sincerely,

William R. Massey, Board Member
North Coast Regional Water Board

California Environmental Protection Agency
