

Notice of Proposed No Further Action

For

In & Out Market
440 E Street
Tulelake, CA

Case No. 1TSI035

Siskiyou County

Notice Posting Date: September 15, 2016

End of Comment Period: November 14, 2016

A soil and groundwater investigation was conducted at the above-referenced site and a release of petroleum hydrocarbons was documented. Although some contamination remains, this site meets the conditions for closure under the State Water Resources Control Board's "Low-Threat Underground Storage Tank Case Closure Policy." Regional Water Board staff proposes that no further work be required. The purpose of this notice is to inform interested parties, including owners of nearby land, that the case is being considered for closure, and to invite public comment on this proposed decision.

Problem Description

An unauthorized discharge of petroleum hydrocarbons was discovered at the site during the removal of underground storage tanks. Subsurface investigations were conducted to define the extent of contamination in soil and groundwater. Findings from the investigations led to corrective action that included the addition of oxygen releasing compounds to groundwater and ozone sparging. The investigations also documented that no water supply wells are impacted or appear threatened by the contamination, and no exposure pathways were identified that could affect human health or the environment. The remaining groundwater contamination is not spreading and natural attenuation will be relied upon to reach water quality objectives.

Proposed Action

Case closure is proposed. This site meets the conditions for closure under the State Water Resources Control Board's "Low-Threat Underground Storage Tank Case Closure Policy".

Unless significant comments are received or new information is presented regarding this site, Regional Water Board staff plans to proceed with the case closure process upon conclusion of the comment period. Please contact Cody Walker at (707) 576-2642 or Cody.Walker@waterboards.ca.gov with any questions or comments. Written comments may also be submitted to:

Regional Water Board site records comprise both a paper file and an electronic file. Beginning in 2005, select file material was uploaded to the State Water Resources Control Board's GeoTracker website and not necessarily included in the paper file. All new file material after 2014 is retained only electronically. The GeoTracker records are available at http://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T0609300031

The paper file ("In & Out Market", Case No. 1TSI035) may be reviewed at the North Coast Regional Water Quality Control Board office from 8:00am to 5:00pm Monday through Friday. Appointments are recommended and can be arranged by calling (707) 576-2220.
