Subject: Basin Plan Amendment

Dear Lauren

I am a supporter of the Russian River Watershed Protection Committee.

I am very alarmed by all the medications and chemicals that still survive the cleansing of our wastewater. Until there is proof that I am not consuming these poisons in my drinking water, please do not allow "low threat" wastewater discharges.

I am asking the Regional Board to withhold voting on the Basin Plan Amendment until the additions that the RRWPC are recommending are included.

Thank you
