

NOTICE OF PUBLIC WORKSHOP
FOR THE BASIN PLAN TRIENNIAL REVIEW

Notice is hereby given that the California Regional Water Quality Control Board, North Coast Region (Regional Water Board) will hold a Board workshop on the 2011 to 2014 Triennial Review of the *Water Quality Control Plan for the North Coast Region* (Basin Plan) at the June 22, 2011 Board meeting

DATE: June 22, 2011

Location: Regional Water Board
5550 Skylane Blvd, Suite A

The purpose of the workshop is to update the Board and the public on the contents of the *Initial Staff Report for the 2011 Triennial Review (Initial Report)* of the Basin Plan. The workshop will also provide an opportunity for the Board and the public to provide oral and written comments on staff's proposal and to request the addition of other issues to the proposed *2011 Triennial Review List*.

The *Initial Report* includes, in part, a status update on the twenty-nine issues included on the 2007 Triennial Review List along with staff's recommendation relative to maintaining the issue on the *2011 Triennial Review List*. The recommendation also includes staff's proposal on which of these issues should be included on the "Short List" of Triennial Review issues. The Short List would include those issues staff believes could be brought to the Board for consideration as a Basin Plan amendment within the three year Triennial Review timeframe. The five issues brought to staff's attention since adoption of the 2007 Triennial Review List are also included in the *Initial Report*.

Public Participation

As part of the Triennial Review process, the Regional Water Board is soliciting comments on suggestions for potential Basin Plan revisions. The public comment period for the 2011 Triennial Review will be June 14, 2011 to September 1, 2011. The public will be asked to provide suggestions on Basin Plan revisions as well as on staff's proposed *2011 Triennial Review List* and the *2011 Short List of Triennial Review Issues*.

Additional information, including the *Initial Staff Report for the 2011 Triennial Review* are available for viewing and downloading at:
