10  
11  
12 In the Matter of Cleanup and Abatement  
Order No. R8-2005-0053  
13  
14

) **COMMENTS BY THE CITY OF**  
**RIVERSIDE**

15  
16 The City of Riverside requests that any Cleanup and Abatement Order issued in this matter  
include the following provisions:

17 1. Prepare and implement a workplan to install and test two sentinel wells to determine if  
18 the lateral extent of the perchlorate and/or VOC plume extends to the City of Riverside's Flume  
well(s);

19 2. Prepare a water replacement plan and/or wellhead treatment plan to assure that the water  
20 produced by public drinking water supply wells owned and/or operated by the City of Riverside  
meet all applicable federal, state, and local drinking water standards for perchlorate and/or  
21 VOC's. Water Code section 13304(a).

22 3. Perchlorate has been detected in one of the City of Riverside's flume wells. The City  
has a significant investment in this well field which is essential to the reliability of City water  
23 supplies.

24 The City would like to make an oral presentation explaining this proposed Order.

25 Dated: May 27, 2008
