Dear members of the board:
1,2,3 TCP is a man made
Product that infects Water in
372 Water sources, Wow!

Stop 1,2,3 TCP so all of
us can be safe, Plus

Pesticides are bad for
many other things than Water
Poisoning! like: The decrease
of the Population of bees, and
They can poison food from
Water including: fish, crab (yum)
and clams, and it has a
part in Pollution so, Stop
TCP ~~Now~~ Now! Save us all!!!
