Greetings Wayne,

You are correct. If the parcel is not irrigated or only has a couple cows for their own personal use, they are exempt from the program.

Wes

Hi Wesley

I received a phone call from Printiss Robinson parcel number 010-017-049 three acres of dry pasture with one cow. I told them in my opinion that they would not have any impact to water quality and probably didn't need to join a coalition. I know in the past small ranchettes with no Ag operations were pretty much exempt. Am I correct on this.

Thank you

Wayne
