Subject: DRAFT Agenda for next week Qrtly Mgtm Plan No9
Attachments: 101102-AgendaESJ-MPlanMt9.DOC; Figures1_2_3.DOC

Good morning,

I noticed after I sent this email yesterday that Figures 1, 2, and 3 did not represent the information given in Tables 1, 2, and 3. I think it has something to do with MS Excel and the links because it did not look like that in my file. Anyway, I apologize for the confusion, so I am resending this email with Figures 1, 2, and 3 in an MS Word format.

Thank you

Dania

Good afternoon,

Here is the DRAFT Agenda for next week Qrtly Mgtm Plan Meeting (No9), scheduled for Tuesday, November 2nd. Feel free to provide comments or add any other items by **Monday, November 1st**.

The intent with item No3 is to initiate a discussion on the water quality evaluation on the 1st set of high priority site subwatersheds. If you have a better ideas for graphic representation please feel free to provide those or bring them to the meeting. I tried to graphically represent the trends for Priority A and C constituents (as per the initial Management Plan description).

Thank you

Dania
