The time frame reflects at least 80% of the data entered into their database such that they can be exported to us. When we need to know about a specific parcel or farmer ASAP (i.e. just found out about an exceedance) than we can usually get that information since its just a subset.

Thank you Melissa. I thought that for some of the counties was a lot faster.

Dania

Hi Dania,

- (1) Merced – 2 months
- (2) Madera – 3 to 4 months
- (3) Stanislaus – 2 months

Melissa

Subject: PUR information

Hello Melissa,

I have a question regarding PUR information, could you please tell me approximately how long it takes the ESJWQC to obtain the reported usage (last applications) from the agricultural commissioner for the following counties:

- (1) Merced
- (2) Madera
- (3) Stanislaus

Thank you

Dania
