Sounds good. Call my cell early if you can. If not, in a break.

Hi Parry,

I got your phone message regarding PM 2.1 for the 3rd set of High Priority subwatersheds. Thank you for notifying me that you may not be able to meet 100% completion of individual contacts in the four subwatersheds by the performance goal deadline of 30 July 2011. Before we decide on what, if any, steps to take, I would like to talk with you about the current status and what you feel the issues are that may prevent completion.

I am in a Training Class for the next 3 days - so I will try to reach you before class starts tomorrow morning or during a class break. Sorry I can't be more specific, but I'm not sure when I will be able to try to call. I will take your office and cell phone numbers so I might be able to reach you.

Thanks,

Susan
