Mike,

It will be fine to wait until Melissa is back next week to discuss our questions. We can find a time to talk after you and Melissa look at your schedules next week.

Thanks,
Susan

Susan,

Melissa is on vacation but will be back in the office on Tuesday. We also meet with you on Tuesday but I don't want to take up time during that meeting to discuss this unless somehow we make it through all of our questions/comments on the Order. When she gets back here on Monday, we'll send you some times when we can talk. Does that sound ok?

Mike

Susan,

Please schedule the meeting as time permits with Mike and Melissa to answer your questions. If possible schedule for next week after Melissa returns from vacation.

Parry

Subject: Yori Grove Drain Request

Hi Mike and Parry,

We are working on preparation of a response to the ESJ Coalition's request

to remove the Yori Grove Drain monitoring site and move on to monitoring the Levee Drain site instead. At this point, I believe I am going to recommend approval of your request. But I do have a couple of questions for clarification first. I would like to better understand the potential for water to flow from Lower Lateral #4 to the Levee Drain. Also, we would like to better understand the use of the Levee Drain site as being representative of agriculture in the area.

Is there any good times tomorrow when we could call you to discuss our questions?

Parry - please let me know if you want to be on the phone call as well.

Thanks,
Susan
