Hi Melissa,

Thank you for such thoughtful comments on the meeting notes.

Do your revisions also include feedback from Parry? I remember Parry was concerned about how the first discussion would be summarized and I just want to be sure he is comfortable with it before the meeting notes are finalized (the draft notes are attached on the new Water Board letterhead).

Thanks,

Jelena

Hi Jelena,

Your response to my comment made sense and I agree that this was the message that I heard from Joe as well (offer a couple of scenarios ranging from minimal to extreme changes). I adjusted the verbiage slightly and have reattached.

We presented a couple of options to the ESJ Board of Directors and they voted on the scenario they would like to present to the Regional Board. We've drafted up a quick summary of the proposed changes and have sent that to Parry to review. I will talk with him and see if he would like us to send the quick summary to you or wait until we have a more detailed proposal.

Thanks,
Melissa

Hi Melissa,

Thank you for reviewing the meeting notes. Your comments helped clarify the text, and I have accepted all the changes you had suggested.

Please see the attached draft for the one remaining issue regarding the options for reducing monitoring (pre-agenda discussion section), and my explanation. What are your thoughts, and do you have any additional comments about the item?

Have the options for reducing surface monitoring been discussed at the Board meeting yesterday?

Thanks,

Jelena

Hi Jelena,

Attached are the meeting notes with some minor edits. We are working on options for reducing ESJWQC surface monitoring and

will try to get you something tomorrow – it may not be ready until Wednesday.
Thanks,
Melissa

Hello Parry, Melissa and Mike,

Attached is the draft of the meeting notes for the yesterday's Management Plan Quarterly Status meeting. Please review the notes, and add any comments, edits or suggestions by March 19.

Regards,

Jelena
