

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

ORDER NO. 72-89

ORDER AMENDING ORDER NO. 71-76 TO ADOPT
A REVISED COMPLIANCE TIME SCHEDULE FOR
THE CITY OF LIVERMORE, ALAMEDA COUNTY

The California Regional Water Quality Control Board, San Francisco Bay Region, finds that:

1. The Regional Board on October 28, 1971, adopted Order No. 71-76 prescribing a time schedule for the City of Livermore for compliance with requirements.
2. The City proceeded on schedule with design work, but decided to redefine the scope of its project to provide for an increased degree of treatment without increasing or supplementing existing 5.0 mgd (million gallons per day) secondary treatment facilities. This modification in scope resulted from passage of an initiative ordinance which will limit growth within the service area. Because of the higher treatment level which will be provided, capacity of the existing facilities will increase to 6.0 mgd.
3. The project modifications have resulted in a delay which was not anticipated by the City and which in part was beyond the control of the city.

IT IS HEREBY ORDERED THAT this Regional Board amends the compliance time schedule in its Order No. 71-76 to read:

- "3. The City of Livermore shall comply with the following time schedule and reporting program to assure compliance with the waste discharge requirements of this order except turbidity in receiving waters and effluent disinfection and suspended solids.

The above compliance time schedule is subject to revision at the discretion of this Regional Board.

If the discharger fails to comply with the above time schedule, the Executive Officer is instructed to bring a recommendation on the initiation of formal enforcement proceedings to the Regional Board for its consideration."

I, Fred H. Dierker, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Francisco Bay Region on October 26, 1972.
