\$50 processing fee (San Mateo County)

**Notice of Determination**

**San Francisquito Creek Flood Reduction, Ecosystem Restoration, and Recreation Project, San Francisco Bay to Highway 101**

July 25, 2013

**PROJECT DESCRIPTION:**

The San Francisquito Creek Joint Powers Authority's Board of Directors (Board) approved the San Francisquito Creek Flood Reduction, Ecosystem Restoration, and Recreation Project, San Francisco Bay to Highway 101 (Project) by Resolution Number 13-07-25 on July 25, 2013. The Project as approved by the Board is described as follows.

The Project would construct flood reduction facilities along an approximately 1.5-mile stretch of San Francisquito Creek from East Bayshore Road to the San Francisco Bay. The Project would protect properties and infrastructure between East Bayshore Road and the San Francisco Bay from San Francisquito Creek (Creek) flows resulting from 100-year fluvial flood flows occurring at the same time as a 100-year tide that includes projected sea level rise through 2067; accommodate future flood protection measures that might be constructed upstream of the Project; enhance habitat along the Project reach, particularly habitat for threatened and endangered species; enhance recreational uses; and minimize operational and maintenance requirements.

The Project would consist of the following major elements:

- An overflow terrace at marsh elevation adjacent to the Baylands Preserve.
- Levee setback and improvements to widen the channel and increase levee height and stability between East Palo Alto and the Palo Alto Golf Course.
- Floodwalls in the upper reach downstream of East Bayshore Road.
- Extension of Friendship Bridge via a boardwalk across new marshland within the widened channel.

The majority of the Project elements would occur on properties in Palo Alto and East Palo Alto and owned by the City of Palo Alto; or within Santa Clara Valley Water District (District) or San Mateo County rights-of-way.

**DETERMINATION:**

1. The San Francisquito Creek Joint Powers Authority decided to carry out or approve the Project on July 25, 2013 (Resolution Number 13-07-25).
2. A Final Environmental Impact Report (Final EIR) was prepared and, prior to approval of the Project, was certified on October 25, 2012 pursuant to CEQA (Resolution Number 12-10-25A).
3. A determination was made that the Project in its approved form will have a significant effect on the environment and findings were made pursuant to the provisions of CEQA and State CEQA Guidelines, and a Statement of Overriding Considerations was adopted.
4. Mitigation measures were made a condition of Project approval and a Mitigation Monitoring and Reporting Program was adopted.

This is to certify that the final EIR with comments and responses and record of project approval is available to the General Public at: San Francisquito Creek Joint Powers Authority, 615 B Menlo Avenue, Menlo Park, CA 94025.
