Department of Public Works
Engineering Division

September 17, 2012

Bruce Wolfe, Executive Officer
Regional Water Quality Control Board, San Francisco Bay Region
1515 Clay Street, Suite 1400
Oakland, CA 94612

Re: NPDES Permit No. CAS612008; Order R2-2009-0074
Annual Report of Stormwater Program Implementation Fiscal Year 2011-12

Dear Mr. Wolfe:

Enclosed for your review is the City of Berkeley's Deliverables for fiscal year 2011-12, as required by the Municipal Regional Stormwater NPDES Permit for the Alameda Countywide Clean Water Program.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel gather and properly evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those people directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and as complete as possible. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for known violations.

If you have any questions, please contact Danny Akagi, Associate Civil Engineer at 981-6394, Lorin Jensen, Supervising Civil Engineer at 981-6411.

Sincerely,

Andrew Clough

Andrew Clough
Director of Public Works

Enclosure: Annual Fiscal Year 2011-12 Deliverables Report (Jul 2011-Jun 2012)

1947 Center Street, 4TH Floor, Berkeley, CA 94704-1155 Tel: 510.981-6400 TDD: 510.981-6903 Fax: 510.981.6390

Section 1 – Permittee Information

Background Information							
Permittee Name:	City of Berkeley						
Population:	106,000						
NPDES Permit No.:	CAS612008						
Order Number:	R2-2009-0074R						
Reporting Time Period (month/year):	July / 2011 through June / 2012						
Name of the Responsible Authority:	Andrew Clough				**Title:**	Director of Public Works	
Mailing Address:	2180 Milvia Street, 3rd Floor						
City:	Berkeley, CA	**Zip Code:**	94704	**County:**	Alameda		
Telephone Number:	510-981-6302		**Fax Number:**		510-981-6320		
E-mail Address:	aclough@cityofberkeley.info						
Name of the Designated Stormwater Management Program Contact (if different from above):	Daniel Akagi			**Title:**	Associate Civil Engineer		
Department:	Public Works, Engineering Division						
Mailing Address:	1947 Center Street, 4th Floor						
City:	Berkeley, CA	**Zip Code:**	94704	**County:**	Alameda		
Telephone Number:	510-981-6394		**Fax Number:**		510-981-6390		
E-mail Address:	dakagi@cityofberkeley.info						

Section 2 - Provision C.2 Reporting Municipal Operations

Program Highlights and Evaluation
Highlight/summarize activities for reporting year

Summary:
City staff attended 3 of the 6 Municipal Maintenance subcommittee meetings this year. Maintenance staff evaluated 70 potential installation sites for Connector Pipe Screens (CPS style full trash capture devices) available through ABAG's Bay Area –wide Trash Capture Demonstration Project.

C.2.a. ▶ Street and Road Repair and Maintenance

Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of these BMPs were not adequately implemented during the reporting fiscal year then indicate so and provide explanation in the comments section below:

X	Control of debris and waste materials during road and parking lot installation, repaving or repair maintenance activities from polluting stormwater
X	Control of concrete slurry and wastewater, asphalt, pavement cutting, and other street and road maintenance materials and wastewater from discharging to storm drains from work sites.
X	Sweeping and/or vacuuming and other dry methods to remove debris, concrete, or sediment residues from work sites upon completion of work.

Comments:

C.2.b. ▶ Sidewalk/Plaza Maintenance and Pavement Washing

Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of these BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

X	Control of wash water from pavement washing, mobile cleaning, pressure wash operations at parking lots, garages, trash areas, gas station fueling areas, and sidewalk and plaza cleaning activities from polluting stormwater
X	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs

Comments:

C.2.c. ▶ Bridge and Structure Maintenance and Graffiti Removal

Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of these BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

X	Control of discharges from bridge and structural maintenance activities directly over water or into storm drains
X	Control of discharges from graffiti removal activities
X	Proper disposal for wastes generated from bridge and structure maintenance and graffiti removal activities
X	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs for graffiti removal
X	Employee training on proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities.
NA	Contract specifications requiring proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities.

Comments:
The City does not have contracts for bridge and structural maintenance and graffiti removal activities.

C.2.d. ▶ Stormwater Pump Stations

Does your municipality own stormwater pump stations:		**Yes**	X	**No**

If your answer is **No** then skip to **C.2.e.**

Complete the following table for dry weather DO monitoring and inspection data for pump stations[1] (add more rows for additional pump stations). If a pump station is exempt from DO monitoring, explain why it is exempt.

Pump Station Name and Location	**First inspection Dry Weather DO Data**		**Second inspection Dry Weather DO Data**	
	Date	**mg/L**	**Date**	**mg/L**

[1] DO monitoring is exempted where all discharge from a pump station remains in a stormwater collection system or infiltrates into a dry creek immediately downstream.

Summarize corrective actions as needed for DO monitoring at or below 3 mg/L. Attach inspection records of additional DO monitoring for corrective actions:

Summary:

Attachments:

Complete the following table for wet weather inspection data for pump stations (add more rows for additional pump stations):

Pump Station Name and Location	**Date** (2x/year required)	**Presence of Trash** (Cubic Yards)	**Presence of Odor** (Yes or No)	**Presence of Color** (Yes or No)	**Presence of Turbidity** (Yes or No)	**Presence of Floating Hydrocarbons** (Yes or No)

C.2.e. ▶ Rural Public Works Construction and Maintenance				
Does your municipality own/maintain rural[2] roads:		**Yes**	X	**No**
If your answer is **No** then skip to **C.2.f.**				
Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If one or more of the BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:				
	Control of road-related erosion and sediment transport from road design, construction, maintenance, and repairs in rural areas			
	Identification and prioritization of rural road maintenance based on soil erosion potential, slope steepness, and stream habitat resources			
	No impact to creek functions including migratory fish passage during construction of roads and culverts			
	Inspection of rural roads for structural integrity and prevention of impact on water quality			
	Maintenance of rural roads adjacent to streams and riparian habitat to reduce erosion, replace damaging shotgun culverts and excessive erosion			
	Re-grading of unpaved rural roads to slope outward where consistent with road engineering safety standards, and installation of water bars as appropriate			
	Inclusion of measures to reduce erosion, provide fish passage, and maintain natural stream geomorphology when replacing culverts or design of new culverts or bridge crossings			
Comments including listing increased maintenance in priority areas:				

[2] Rural means any watershed or portion thereof that is developed with large lot home-sites, such as one acre or larger, or with primarily agricultural, grazing or open space uses.

C.2.f. ▶ Corporation Yard BMP Implementation

Place an **X** in the boxes below that apply to your corporations yard(s):

	We do not have a corporation yard
	Our corporation yard is a filed NOI facility and regulated by the California State Industrial Stormwater NPDES General Permit
X	We have a current **Stormwater Pollution Prevention Plan (SWPPP)** for the Corporation Yard(s)

Place an **X** in the boxes below next to implemented SWPPP BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of the BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

x	Control of pollutant discharges to storm drains such as wash waters from cleaning vehicles and equipment
X	Routine inspection prior to the rainy seasons of corporation yard(s) to ensure non-stormwater discharges have not entered the storm drain system
X	Containment of all vehicle and equipment wash areas through plumbing to sanitary or another collection method
X	Use of dry cleanup methods when cleaning debris and spills from corporation yard(s) or collection of all wash water and disposing of wash water to sanitary or other location where it does not impact surface or groundwater when wet cleanup methods are used
X	Cover and/or berm outdoor storage areas containing waste pollutants

Comments:

If you have a corporation yard(s) that is not an NOI facility , complete the following table for inspection results for your corporation yard(s) or attach a summary including the following information:

Corporation Yard Name	**Inspection Date** (1x/year required)	**Inspection Findings/Results**	**Follow-up Actions**
City of Berkeley Corporation Yard	9/12/11	All BMPs were in place and adequate.	Make sure weekly mechanical sweeping of the yard occurs especially before wet weather and that the catch basin inserts are properly maintained.

Section 3 - Provision C.3 Reporting New Development and Redevelopment

C.3.b. ▶ Green Street Pilot Report
(All projects to be completed by December 2014)

On an annual basis (if applicable), report on the status of any pilot green street projects within your jurisdiction. For each completed project, report the capital costs, operation and maintenance costs, legal and procedural arrangements in place to address operation and maintenance and its associated costs, and the sustainable landscape measures incorporated in the project including, if relevant, the score from the Bay-Friendly Landscape Scorecard.

Summary:
The C.3 New Development and Redevelopment section of the Countywide program's FY 11-12 Annual Report includes a description of activities conducted at the countywide or regional level.

C.3.b.v.(1) ▶ Regulated Projects Reporting Table

Fill in attached table **C.3.b.v.(1)** or attach your own table including the same information.

C.3.iii(3) Low Impact Development Reporting

(For FY 11-12 Annual Report only) Report the method(s) of implementation of Provision C.3.c.i in the 2012 Annual Report. For specific tasks listed in Provision C.3.c.i. that are reported using the reporting tables required for Provision C.3.b.v, a reference to those tables is adequate.

The City uses C.3 forms to identify regulated projects approved after December 1, 2011 and requires these projects implement LID source control, site design, and stormwater treatment requirements. These include forms developed by ACCWP and BASMAA such as LID Infeasibility/Feasibility Worksheets, Biotreatment Soil Specifications, and Green Roof Specifications.

C.3.c.v ▶ Ordinance/Other Legal Authority Changes for Provision C.3.e

(For FY 11-12 Annual Report only) Did your agency make any ordinance/legal authority and procedural changes to implement Provision C.3.e.?		**Yes.**	X	**No**

If yes, attach a copy of the ordinance/legal authority changes or provide a link to the document(s). Discuss any procedural changes made.

(For FY 11-12 Annual Report and each Annual Report thereafter) Is your agency choosing to require 100% LID treatment onsite for all Regulated Projects and not allow alternative compliance under Provision C.3.e.?		**Yes**	X	**No**
Comments (optional):				

C.3.e.vi ▶ Special Projects Reporting

1. Has your agency received, but not yet granted final discretionary approval of, a development permit application for a project that has been identified as a potential Special Project based on criteria listed in MRP Provision C.3.e.ii(2) for any of the three categories of Special Projects (Categories A, B or C)?		**Yes**	X	**No**
2. Has your agency granted final discretionary approval of a project identified as a Special Project in the March 15, 2012 report? If yes, include the project in both the C.3.b.v.(1) Table, and the C.3.e.vi. Table.		**Yes**	X	**No**

If you answered "Yes" to either question,

1) Complete Table C.3.e.vi . below.
2) Attach narrative discussion of 100% LID Feasibility or Infeasibility for each project.

C.3.h.iv ▶ Installed Stormwater Treatment Systems Operation and Maintenance Verification and Source Control Reporting

(1) Fill in attached table **C.3.h.iv.(1)** or attach your own table including the same information.

(2) On an annual basis, provide a discussion of the inspection findings for the year and any common problems encountered with various types of treatment systems and/or HM controls. This discussion should include a general comparison to the inspection findings from the previous year.

Summary:

As discussed in the City's April 16, 2012 response to Notice of Violation for incomplete annual reporting in FY 10-11, the City inspected all 10 of the existing stormwater treatment systems in FY 11-12. The inspection results indicate a possible trend that the level of maintenance applied to systems that are readily visible (ground-level based biotreatment and swales) is higher than maintenance applied to underground or otherwise hidden systems (vaults, in-line filters/screens). We found that 8 out of 9 hidden systems were deficient, while 3 out of 5 visible systems were deficient (89% v. 60% deficient, respectively). This appears to show that systems with a link to an aesthetic function are likely better maintained. These results represent all the systems installed in Berkeley, however, the small sample population on its own would likely not make these observations statistically significant. Enforcement letters will be sent to the responsible parties for the deficient sites in FY 12-13.

(3) On an annual basis, provide a discussion of the effectiveness of the O&M Program and any proposed changes to improve the O&M Program (e.g., changes in prioritization plan or frequency of O&M inspections, other changes to improve effectiveness program).				
Summary: As discussed in the City's April 16, 2012 response to Notice of Violation for incomplete annual reporting in FY 10-11, the City inspected all 10 of the existing stormwater treatment systems in FY 11-12. The inspection program in FY 12-13 will include the follow-up inspections for the deficient sites. We will inspect sites which will be newly installed in FY 12-13, 20% of the total number of treatment systems and HM controls installed as of June 30, 2012, 20% of the vault-based systems, or 4 sites (as discussed in our April 16, 2012 response), whichever is greater. We will monitor inspection dates to ensure that all sites are inspected at least once every 5 years.				
(4) During the reporting year, did your agency:				
• Inspect all newly installed stormwater treatment systems and HM controls within 45 days of installation?	X	**Yes**		**No**
• Inspect at least 20 percent of the total number of installed stormwater treatment systems or HM controls?	X	**Yes**		**No**
• Inspect at least 20 percent of the total number of installed vault-based systems?	X	**Yes**		**No**
If you answered "No" to any of the questions above, please explain:				

C.3.b.v.(1) ▶ Regulated Projects Reporting Table (part 1) – Projects Approved During the Fiscal Year Reporting Period

Project Name Project No.	Project Location[9], Street Address	Name of Developer	Project Phase No.[10]	Project Type & Description[11]	Project Watershed[12]	Total Site Area (Acres)	Total Area of Land Disturbed (Acres)	Total New Impervious Surface Area (ft^2)[13]	Total Replaced Impervious Surface Area (ft^2)[14]	Total Pre-Project Impervious Surface Area[15] (ft^2)	Total Post-Project Impervious Surface Area[16] (ft^2)
Private Projects											
The Addison	651 Addison Street	Archstone Southwest Berkeley, LLC	NA	Redevelopment, five floor, mixed use retail/94 unit residential	Strawberry	0.836	0.836	0	34,743	36,400	34,743
Public Projects											
West Berkeley Branch Library	1125 University Ave.	City of Berkeley	NA	Redevelopment, Library	Strawberry	0.276	0.228	50	10,683	10,683	10,733
South Berkeley Branch Library	1901 Russell Street	City of Berkeley	NA	Redevelopment, Library	Potter	0.306	0.278	0	11,204	12,517	11,204
San Pablo Park Basketball Court Renovation	2800 Park Street	City of Berkeley	NA	Renovation of existing basketball courts	Potter	12.9	0.606	0	26,400	26,400	26,400

Comments:

Previous reports included Weatherford BMW Phases 2 and 3 as regulated projects. These are not included in this report as they are not regulated projects. Phase 2 is a canopy for a parking area without changing the surface parking, Phase 3 is an interior remodel.

[9] Include cross streets
[10] If a project is being constructed in phases, indicate the phase number and use a separate row entry for each phase. If not, enter "NA".
[11] Project Type is the type of development (i.e., new and/or redevelopment). Example descriptions of development are: 5-story office building, residential with 160 single-family homes with five 4-story buildings to contain 200 condominiums, 100 unit 2-story shopping mall, mixed use retail and residential development (apartments), industrial warehouse.
[12] State the watershed(s) in which the Regulated Project is located. Optional but recommended: Also state the downstream watershed(s).
[13] All impervious surfaces added to any area of the site that was previously existing pervious surface.
[14] All impervious surfaces added to any area of the site that was previously existing impervious surface.
[15] For redevelopment projects, state the pre-project impervious surface area.
[16] For redevelopment projects, state the post-project impervious surface area.

C.3.b.v.(1) ▶ Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period

Project Name Project No.	Application Deemed Complete Date[17]	Application Final Approval Date[17]	Source Control Measures[18]	Site Design Measures[19]	Treatment Systems Approved[20]	Operation & Maintenance Responsibility Mechanism[21]	Hydraulic Sizing Criteria[22]	Alternative Compliance Measures[23/24]	Alternative Certification[25]	HM Controls[26/27]
Private Projects										
The Addison	4-20-2007	5-12-2010	Interior trash storage, covered parking	Minimize impermeable surface, stacked parking	Flow through planter	O&M Agreement with private corporation	4% rule	NA	NA	NA, less than 1 acre

Comments:

[17] For private projects, state project application deemed complete date and final discretionary approval date. If the project did not go through discretionary review, report the building permit issuance date.
[18] List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.
[19] List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.
[20] List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).
[21] List the legal mechanism(s) (e.g., O&M agreement with private landowner; O&M agreement with homeowners' association; O&M by public entity, etc…) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.
[22] See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).
[23] For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.
[24] For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.
[25] Note whether a third party was used to certify the project design complies with Provision C.3.d.
[26] If HM control is not required, state why not.
[27] If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), biodetention unit(s), regional detention basin, or in-stream control).

C.3.b.v.(1) ►Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period

Project Name Project No.	Approval Date[28]	Date Construction Scheduled to Begin	Source Control Measures[29]	Site Design Measures[30]	Treatment Systems Approved[31]	Operation & Maintenance Responsibility Mechanism[32]	Hydraulic Sizing Criteria[33]	Alternative Compliance Measures[34/35]	Alternative Certification[36]	HM Controls[37/38]
Public Projects										
West Berkeley Branch Library	May 2012	June 2012	Efficient landscaping, covered trash	Eliminated surface parking lot	Flow through planters	O&M with City of Berkeley	NA, less than 10,000 sq ft	NA	NA	NA, less than 1 acre
South Berkeley Branch Library	Nov 2011	Jan 2012	Covered trash	Minimize impervious surface	Bioretention	O&M with City of Berkeley	4% rule	NA	NA	NA, less than 1 acre
San Pablo Park Basketball Court Renovation	Dec 2011		Efficient landscaping	Preserve surrounding play field	Bioretention	O&M with City of Berkeley	4% rule	NA	NA	NA, less than 1 acre

Comments:

[28] For public projects, enter the plans and specifications approval date.
[29] List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.
[30] List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.
[31] List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).
[32] List the legal mechanism(s) (e.g., O&M agreement with private landowner; O&M agreement with homeowners' association; O&M by public entity, etc...) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.
[33] See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).
[34] For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.
[35] For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.
[36] Note whether a third party was used to certify the project design complies with Provision C.3.d.
[37] If HM control is not required, state why not.
[38] If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), biodetention unit(s), regional detention basin, or in-stream control).

C.3.h.iv. ►Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

Fill in table below or attach your own table including the same information.

Name of Facility/Site Inspected	Address of Facility/Site Inspected	Newly Installed? (YES/NO)[39]	Party Responsible[40] For Maintenance	Date of Inspection	Type of Inspection[41]	Type of Treatment/HM Control(s) Inspected[42]	Inspection Findings or Results[43]	Enforcement Action Taken[44]	Comments/Follow-up
2200 Oxford: David Brower Center/Oxford Plaza	2200 Oxford	NO	DB Center	May 15, 2012	Annual	Stormceptor, roof garden	Stormceptor needs service	Enforcement letter to be sent FY 12-13	This inspection performed as part of correction described in City's supplement to FY 10-11 Annual Report.
1120 Second St., Public Storage	1120 Second Street	NO	Public Storage	May 22, 2012	Annual	Cobble swale and treatment vaults	Treatment vaults need cleaning	Enforcement letter to be sent FY 12-13	This inspection performed as part of correction described in City's supplement to FY 10-11 Annual Report.
Takara Sake Plant	706 Addison	NO	Takara Sake	June 27, 2012	Annual	Vegetated swale, subgrade vault	Vault needs service, swale needs some regrading for overflow.	Enforcement letter to be sent FY 12-13	This inspection performed as part of correction described in City's supplement to FY 10-11 Annual Report.
Berkeley Unified School District (BUSD) Bus Yard+	1325 6th Street	NO	BUSD	May 16, 2012	Annual	Grass swale and subgrade vault	Vegetated swale and vault need servicing	Enforcement letter to be sent FY 12-13	This inspection performed as part of correction described in City's supplement to FY 10-11 Annual Report.
West Berkeley Bowl	920 Heinz	NO	West Berkeley Bowl	June 11, 2012	Annual	Subgrade vaults	Vaults recently serviced	No enforcement	This inspection performed as part of correction described in City's supplement to FY 10-11 Annual Report.
1331 7th	1331 7th Street	NO	Stephen Block	June 25, 2012	Annual	Vegetated swale	Swale is in good condition	No enforcement	This inspection performed as part of correction described in City's

[39] Indicate "YES" if the facility was installed within the reporting period, or "NO" if installed during a previous fiscal year.
[40] State the responsible operator for installed stormwater treatment systems and HM controls.
[41] State the type of inspection (e.g., 45-day, routine or scheduled, follow-up, etc.).
[42] State the type(s) of treatment systems inspected (e.g., bioretention facility, flow-through planter, infiltration basin, etc...) and the type(s) of HM controls inspected, and indicate whether the treatment system is an onsite, joint, or offsite system.
[43] State the inspection findings or results (e.g., proper installation, improper installation, proper O&M, immediate maintenance needed, etc.).
[44] State the enforcement action(s) taken, if any, as appropriate and consistent with your municipality's Enforcement Response Plan.

C.3.h.iv. ▶Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

Fill in table below or attach your own table including the same information.

Name of Facility/Site Inspected	Address of Facility/Site Inspected	Newly Installed? C.3.e.vi Special Projects Reporting Table

Reporting Period: [enter dates] (July 1, 2011 – June 30, 2012)

Project Name & No.	Permittee	Address	Application Submittal Date[45]	Status[46]	Description[47]	Site Total Acreage	Density DU/Acre	Density FAR	Special Project Category[48]	LID Treatment Reduction Credit Available[49]	List of LID Stormwater Treatment Systems[50]	List of Non-LID Stormwater Treatment Systems[51]
									Category A: Category B: Category C: Location: Density: Parking:	Category A: Category B: Category C: Location: Density: Parking:	Indicate each type of LID treatment system and the percentage of total runoff treated	Indicate each type of non-LID treatment system and the percentage of total runoff treated. Indicate whether minimum design criteria met or certification received

[45] Date that a planning application for the Special Project was submitted. If a planning application has not been submitted, include a projected application date.
[46] Indicate whether final discretionary approval is still pending or has been granted, and provide the date or version of the project plans upon which reporting is based.
[47] Type of project (commercial, mixed-use, residential), number of floors, number of units, type of parking, and other relevant information.
[48] For each applicable Special Project Category, list the specific criteria applied to determine applicability. For each non-applicable Special Project Category, indicate n/a.
[49] For each applicable Special Project Category, state the maximum total LID Treatment Reduction Credit available. For Category C Special Projects also list the individual Location, Density, and Minimized Surface Parking Credits available.
[50]: List all LID stormwater treatment systems proposed. For each type, indicate the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area.
[51] List all non-LID stormwater treatment systems proposed. For each type of non-LID treatment system, indicate: (1) the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area, and (2) whether the treatment system either meets minimum design criteria published by a government agency or received certification issued by a government agency, and reference the applicable criteria or certification.

Section 4 – Provision C.4 Industrial and Commercial Site Controls

Program Highlights

Provide background information, highlights, trends, etc.

The Business Inspection Plan and Facility List was updated to reflect updates from FY11-12. Industrial and commercial inspections were performed by staff from the Planning Department, Toxics Management Division (TMD) and Department of Health Services , Environmental Health Division (EH). EH performed inspections Food Service and Restaurant businesses and TMD performed the inspections of commercial/industrial businesses.

In FY 11-12, the City conducted 191 inspections at 185 Industrial/commercial and Food Service/Restaurant facilities. The facility inspections identified one actual discharge violation and ten potential discharge violations. All violations were corrected within 10 business days or in an otherwise timely manner.

The City attended 2 of the 4 I&IDC Subcommittee meetings in the fiscal year. See the Industrial and Commercial Site Controls section of the Alameda Countywide Clean Water Program's (ACCWP) FY11-12 Annual Report for a description of program highlights.

C.4.b.i ▶ Business Inspection Plan

Do you have a Business Inspection Plan?	x	Yes		No

If No, explain:

C.4.b.iii(1) ▶ Potential Facilities List

List below or attach your list of industrial and commercial facilities in your Inspection Plan to inspect that could reasonably be considered to cause or contribute to pollution of stormwater runoff.

See Attachment A.

C.4.b.iii (2) ▶ Facilities Scheduled for Inspection

List below or attach your list of facilities scheduled for inspection during the current fiscal year.

See Attachment B.

C.4.c.iii.(1) ▶ Facility Inspections

Fill out the following table or attach a summary of the following information. Indicate your violation reporting methodology below.

	x	Permittee reports multiple discrete violations on a site as one violation.
		Permittee reports the total number of discrete violations on each site.

	Number	Percent
Number of businesses inspected	185	
Total number of inspections conducted	191	
Number of violations (excluding verbal warnings)	11	
Sites inspected in violation	11	6%
Violations resolved within 10 working days or otherwise deemed resolved in a longer but still timely manner	11	100%

Comments:
Sites in violation are those sites where a written notice or Notice of Violation was issued to correct or prevent a practice that could result in an illicit discharge. Of the 11 violations reported above, one violation was for a discharge observed during the inspection. The remaining 10 violations were issued for inadequate BMPs observed during the inspection.

C.4.c.iii.(2) ▶ Frequency and Types/Categories of Violations Observed

Fill out the following table or attach a summary of the following information.

Type/Category of Violations Observed	Number of Violations
Actual discharge (e.g. active non-stormwater discharge or clear evidence of a recent discharge)	1
Potential discharge and other	10

Comments:
Number of violations at a facility is reported as one violation. Ten violations were issued for inadequate BMPs to prevent discharges. All violations were corrected within 10 days or otherwise timely manner.

C.4.c.iii.(2) ▶ Frequency and Type of Enforcement Conducted

Fill out the following table or attach a summary of the following information.

	Enforcement Action (as listed in ERP)[46]	Number of Enforcement Actions Taken	% of Enforcement Actions Taken[47]
Level 1	Verbal Notice/Verbal Warning	0	0%
Level 2	Written Warning/Notice of Violation	10	91%
Level 3	Notice to Comply	1	9%
Level 4	Legal Action	0	0%
Total		11	100%

C.4.c.iii.(3) ▶ Types of Violations Noted by Business Category

Fill out the following table or attach a summary of the following information.

Business Category[48]	Number of Actual Discharge Violations	Number of Potential/Other Discharge Violations
Auto/Gas fueling	0	0
Auto Repair and Service	1	4
Auto Misc.	0	0
Construction/Contractor	0	0
Dental Offices	0	0
Dry Cleaners	0	1
Industrial	0	0
Laboratory	0	0
Machine Shop	0	0
Manufacturing	0	1
Miscellaneous	0	2
Mobile Cleaners	0	0
Municipal/Schools	0	0

[46] Agencies to list specific enforcement actions as defined in their ERPs.
[47] Percentage calculated as number of each type of enforcement action divided by the total number of enforcement actions.
[48] List your Program's standard business categories.

NOI Facilities	0	1
Photo Developing	0	0
Printing	0	1
Retail/Wholesale	0	0
Restaurants	0	0
Food/Service	0	0

C.4.c.iii.(4) ► Non-Filers

List below or attach a list of the facilities required to have coverage under the Industrial General Permit but have not filed for coverage:
No Non-Filers were identified during inspections.

C.4.d.iii ► Staff Training Summary

Training Name	Training Dates	Topics Covered	No. of Inspectors in Attendance	Percent of Inspectors in Attendance
IIDC Subcommittee Meetings	Quarterly	Architectural copper, mobile cleaners	1	25%
Annual ACCWP Inspector Training	Calendar Year 2012	Pollutants of concern	To be determined	To be determined

Section 5 – Provision C.5 Illicit Discharge Detection and Elimination

Program Highlights

Provide background information, highlights, trends, etc.

The 10 screening points for Runoff Screening were surveyed in September 2011.

The City implemented its 311 call center, providing a single-call number for community complaints. People can now call 311 and will reach the dispatch center. Operators are trained to direct calls to appropriate City departments.

Also see the C.5 Illicit Discharge Detection and Elimination section of the Alameda Countywide Clean Water Program's (ACCWP) FY11-12 Annual Report for description of activities at the countywide or regional level.

C.5.d.iii.1 Complaint and Spill Response Phone Number and Spill Contact List

List below or attach your complaint and spill response phone number and spill contact list.

Contact	Description	Phone Number
See Attachment C, Illicit Discharge Response Matrix		

C.5.d.iii.2 Evaluation of Mobile Business Program

Describe implementation of minimum standards and BMPs for mobile businesses and your enforcement strategy. This may include participation in the BASMAA Mobile Surface Cleaners regional program or local activities.

Description:

The City responds to all complaints and follows-up when observations of illicit discharges from mobile businesses are reported. When violations are identified, mobile businesses are educated in BMPs appropriate to prevent the illicit discharge. Mobile food service businesses (vehicles) are required to have business licenses to conduct business in Berkeley. The City conducted outreach to the operators of 27 different mobile food service businesses (vehicles) when they came in for their business license and health inspection.

Also see the C.5 Illicit Discharge Detection and Elimination section of the ACCWP's FY11-12 Annual Report for a description of efforts by the ACCWP subcommittee and the BASMAA Municipal Operations Committee to address mobile businesses.

The City performed one routine inspection of a mobile business facility (commissary) and responded to one complaint regarding a mobile trenchless sewer replacement contractor.

C.5.e.iii ▶ Evaluation of Collection System Screening Program

Provide a summary or attach a summary of your collection screening program, a summary of problems found during collection system screening and any changes to the screening program this FY.

Description:

City staff look for evidence of illicit discharges or dumping during regular maintenance activities and inspections. Any incidents are referred to the appropriate agency in accordance with the Illicit Discharge Response Matrix. The City follows its Runoff Screening program and checked these sites in September 2011, did not detect any discharges.

C.5.f.iii.(1), (2), (3) ▶ Spill and Discharge Complaint Tracking

Spill and Discharge Complaint Tracking (fill out the following table or include an attachment of the following information)

	Number	Percentage
Discharges reported (C.5.f.iii.(1))	26	
Discharges reaching storm drains and/or receiving waters (C.5.f.iii.(2))	10	38%
Discharges resolved in a timely manner (C.5.f.iii.(3))	26	100%

Comments:

See Attachment C, C.5.f.iii. Cases where no discharge was observed are counted as "Nothing to Abate". 14 complaints were reported as a threat to water quality.

A Dept of Toxic Substance Control (DTSC) complaint referral for a former foundry converted to rental-space units revealed multiple potential non-stormwater discharges and inadequate BMPs. A dry weather discharge was observed in the form of vehicle wheel drag-out from interior areas. A Notice of Violation was issued with Return to Compliance requirements for educating tenants (stenciling No Dumping-Drains to Bay; and placing BMP posters), discontinue an uncontained washing; implement regular sweeping of interior areas, and dispose of collected materials. All tenants are required to sign a certification statement to disclose hazardous materials use and report to the City's Toxics Management Division.

C.5.f.iii.(4) ▶ Summary of Enforcement Actions, Discharges and Complaints

Provide a narrative or attach a table and/or graph.

Attachment D, C.5.f.iii

Washwaters (44%) and non-SSO sewage (22%) were the predominant source of complaints to the City. Complaints for construction materials (9%) and sediment (9%) accounted for 18% of the City's complaints response. The remaining complaints were confirmed as vehicle fluids (4%), litter (4%), and Other (9%).

Section 6 – Provision C.6 Construction Site Controls

C.6.e.iii.1.a, b, c ▶ Site Inspection Totals

Number of sites disturbing < 1 acre of soil requiring storm water runoff quality inspection (i.e. High Priority) (C.6.e.iii.1.a)	**Number of sites disturbing ≥ 1 acre of soil** (C.6.e.iii.1.b)	**Total number of storm water runoff quality inspections conducted** (C.6.e.iii.1.c)
1	0	36

Comments:
The Donna Spring Animal Shelter project is located on the north shoreline of Aquatic Park and has been inspected daily throughout its construction. As stated in the City's April 16, 2012 response to the Notice of Violation for incomplete annual reporting in FY 10-11, the City did not document these inspections in accordance with the requirements of Provision C.6. Beginning at the end of April 2012 and running through the end of June 2012, the City began documenting inspections at this site as well as other active Public Works construction sites, regardless of project size, sensitivity, and end of rainy season. A total of 36 inspections were performed and documented between April 2012 and June 2012. These inspections served to familiarize staff with the inspection process for implementing the inspection requirements of Provision C.6.

C.6.e.iii.1.d ▶ Construction Activities Storm Water Violations

BMP Category	**Number of Violations**[49]	**% of Total Violations**[50]
Erosion Control	0	0
Run-on and Run-off Control	0	0
Sediment Control	3	75%
Active Treatment Systems	0	0
Good Site Management	1	25%
Non Stormwater Management	0	0
Total	**4**	**100%**

[49] Count one violation in a category for each site and inspection regardless of how many violations/problems occurred in the BMP category.
[50] Percentage calculated as number of violations in each category divided by total number of violations in all six categories.

C.6.e.iii.1.e ► Construction Related Storm Water Enforcement Actions

Comment: One violation

	Enforcement Action (as listed in ERP)[51]	Number Enforcement Actions Taken	% Enforcement Actions Taken[52]
Level 1	Verbal Notice/Verbal Warning	3	75%
Level 2	Written Warning/Notice of Violation	1	25%
Level 3	Notice to Comply	0	0
Level 4	Legal Action	0	0
Total		**4**	**100%**

C.6.e.iii.1.g ► Illicit Discharges

	Number
Number of illicit discharges, actual and those inferred through evidence (C.6.e.iii.1.f)	0
Number of sites with discharges, actual and those inferred through evidence (C.6.e.iii.1.g)	0

C.6.e.iii.1.h, i ► Violation Correction Times

	Number	Percent
Violations fully corrected within 10 business days after violations are discovered or otherwise considered corrected in a timely period (C.6.e.iii.1.h)	4	100%[53]
Violations not fully corrected within 30 days after violations are discovered (C.6.e.iii.1.i)	0	0%[54]
Total number of violations for the reporting year[55]	4	100%

Comments:
All violations were corrected in a timely manner. No runoff producing rainfall was observed during the period for correcting the violations.

[51] Agencies should list the specific enforcement actions as defined in their ERPs.
[52] Percentage calculated as number of each type of enforcement action divided by the total number of enforcement actions.
[53] Calculated as number of violations fully corrected in a timely period after the violations are discovered divided by the total number of violations for the reporting year.
[54] Calculated as number of violations not fully corrected within 30 days after the violations are discovered divided by the total number of violations for the reporting year.
[55] Total number of violations equals the number of initial enforcement actions (i.e. one violation issued for several problems during an inspection at a site). It does not equal the total number of enforcement actions because one violation issued at a site may have a second enforcement action for the same violation at the next inspection if it is not corrected.

C.6.e.iii.(2) ▶ Evaluation of Inspection Data

Describe your evaluation of the tracking data and data summaries and provide information on the evaluation results (e.g., data trends, typical BMP performance issues, comparisons to previous years, etc.).

Description:

The City's documented inspections in FY 11-12 were performed during dry weather period. The 4 inspections that identified violations represent 11% of the total of 36 inspections performed. This frequency will be compared with the frequency of detecting violations in FY 12-13.

C.6.e.iii.(2).▶ Evaluation of Inspection Program Effectiveness

Describe what appear to be your program's strengths and weaknesses, and identify needed improvements, including education and outreach.

Description:

The City was deficient in complying with Provision C.6 in FY 10-11 as documented in the City's April 16, 2012 response to Notice of Violation for incomplete annual reporting in FY 10-11. The City has implemented steps to correct these deficiencies. Steps include training and staff meetings as listed below, and performing inspections to familiarize staff with the requirements of Provision C.6. In addition to the training and meeting listed below, Danny Akagi met with individual Public Works Inspectors to review completing inspection forms, and applying enforcement levels (as defined in Enforcement Response Plan).

Also see section C.6 Construction Site Control of the ACCWP's FY 11-12 Annual Report for a description of activities at the countywide or regional level.

C.6.f ▶ Staff Training Summary

Training Name	Training Dates	Topics Covered	No. of Inspectors in Attendance	Percent of Inspectors in Attendance
City of Berkeley/EOA MRP Orientation	April 18, 2012	Requirements Provisions C.3 and C.6	No inspectors attended, 2 staff engineers attended to bring information back to City Staff.	NA
City of Berkeley, Provision C6-Construction Site Control	April 25, 2012	Requirements for filed inspections and for completing inspection forms.	7 Public Works Inspectors	86%
City of Berkeley, Compliance Status Meeting	June 1, 2012	Status of Provision C.6	0	0

Section 7 – Provision C.7. Public Information and Outreach

C.7.b.ii.1 ▶ Advertising Campaign

Summarize advertising efforts. Include details such as messages, creative developed, and outreach media used. The detailed advertising report may be included as an attachment. If advertising is being done by participation in a countywide or regional program, refer to the separate countywide or regional Annual Report.

Summary:

See the BASMAA Youth Litter Campaign Report for a summary of litter related advertising campaign activities. See the Public Outreach and Participation section of the Alameda Countywide Clean Water Program FY 11/12 Annual Report for a summary of pesticide related advertising campaign activities.

C.7.b.iii.1 ▶ Pre-Campaign Survey

(For the Annual Report following the precampaign survey) Summarize survey information such as sample size, type of survey (telephone survey, interviews etc.). Attach a survey report that includes the following information. If survey was done regionally, refer to a regional submittal that contains the following information:

See the BASMAA Youth Litter Campaign Report for a summary of the pre-litter campaign survey.

Place an **X** in the appropriate box below:

	Survey report attached
X	Reference to regional submittal:

C.7.c ▶ Media Relations

Summarize the media relations effort. Include the following details for each media pitch in the space below, AND/OR refer to a regional report that includes these details:

- Topic and content of pitch
- Medium (TV, radio, print, online)
- Date of publication/broadcast

Summary:

The following separate report developed by BASMAA summarizes media relations efforts conducted during FY 11-12:

• BASMAA Media Relations Final Report FY 11-12

This report and any other media relations efforts conducted countywide is included within the C.7 Public Information and Outreach section of Program's FY 11-12 Annual Report.

C.7.d ▶ Stormwater Point of Contact

Summary of any changes made during FY 10-11:
No Change.

C.7.e Public Outreach Events

Describe general approach to event selection. Provide a list of outreach materials and giveaways distributed.

Use the following table for reporting and evaluating public outreach events

The City of Berkeley annually registers for booth space at several Citywide festivals, fairs, and envronmentally-themed events. The goal is to have a consistent presence at these well-attended events, which typically bring out a diverse crowd from all areas of the City.

Outreach Materials

Throughout the fiscal year, the City distributed the full array of informational materials provided through the Alameda Countywide Clean Water Program (ACCWP) (1,364 pieces in total), such as: Healthy Home & Garden Handbook (20), Bay Begins brochure (102), Keeping It All in Tune brochure (4), Control It Guide (25), Grow It Guide (17), Kid's Guide to Backyard Bugs (14), Clean It Guides (27), Pest or Pal Activity Book (4), Protect Water and Wildlife Activity Book (27), Slappy and Quackers Activity Book (58), Pencils (63), Stormwater Pollution brochure (6), Re-usable nylon Chico bags (79), 10 Most Wanted Bugs brochure (5), Non-Toxic Recipes Flyer (319), Coreopsis Seed Packets (117), Alameda Countywide Clean Water Program Stickers (341), and Detain the Rain brochure (22).

These distributed materials promote stormwater pollution prevention messages in many forms. Encouragement of the use of least toxic approaches to pest & weed control and cleaning came from the various "Our Water Our World" campaign materials; from the Control It, Clean It, and Grow It Guides; and from Healthy Home/Garden Handbook, Less-Toxic Home & Garden Mini-booklets, and 10 Most Wanted-Bugs hand-outs. Stormwater pollution prevention Best Management Practices are described in the Stormwater Pollution, Bay Begins, and Keeping It All in Tune brochures. Items with the Clean Water logo, such as activity books, reusable bags, and pencils all served to reinforce environmental stewardship messages to recipients young and old.

Surveys

City staff used the single page intercept survey developed by the ACCWP as a means of tracking trends in community knowledge and awareness of urban run-off pollution sources and prevention measures. The surveys were distributed at various Public Outreach and Citizen Involvement Events, with 95 completed surveys collected for the year. About 70% of the respondents were female; 26% were under the age of 24; 6% of the respondents were between the ages of 25-34; 6% were between the ages of 35-44; 20% were between the ages of 45-54; 25% were between the ages of 55-64; and 15% were over age 65. The survey participants were asked to choose two of the most critical environmental concerns facing the community: Air pollution was first (55%); Pesticides were second (39%); Pollution of local creeks, streams, and the Bay was third (38%); Recycling and Garbage was fourth (31%); Household Hazardous Waste was fifth (16%); and Accessibility to used oil and oil filter recycling facilities was sixth (7%). Participants wrote in: "environmental racism", "ignorance", and "water usage". Seventy percent (70%-down from 90% last year) of participants correctly identified what a storm drain is and seventy-seven percent (77%) identified that storm water is not treated before discharge. Seventy-six percent (76%) correctly identified things that are considered stormwater pollutants. Fifty-two percent of participants (52%) correctly identified the definition of a watershed and forty-one percent (41%-down from 65% last year) correctly responded that they actually live in a watershed. Ninety-one percent (91%) correctly identified that pesticides, fertilizers, motor oils, etc. are considered stormwater pollutants.

The remaining questions related to pest control methods and to inquiries into the information that the City had supplied at the outreach event. Eighty percent (80%) responded that conventional pesticides could be replaced by less toxic alternatives. Traps (41%, down from 50% last year)

were the most popular pest management method; pump sprays were second (39%); Baits and fly swatters tied for third (25%); powders, gels or pellets were fourth (14%); aerosols were fifth (14%); and metal strips were last (7%). Respondents did write in other preferred pest management methods, including: "a green product", "beer traps", "organic", "non-toxic", "ultrasound", "borax, sugar, and water", "soap and water spray, ladybugs", "pheromone", "manual', "electrified", "Chinese chalk", and "repellant". Eighty percent (80%-down from 88% last year) of participants said that buying less toxic pest management products was the most important factor in their buying decision; pricing was second (45%); products that target specific pests were third (31%); products that are fast acting vs. long term were fourth (20%); products that target multiple pests were fifth (17%); product name recognition was sixth (13%); and size was last (9%). Respondents identified hardware stores as the primary place they buy pesticides (52%); grocery/drug stores were second (34%); home improvement centers were third (31%); nurseries were fourth (26%); and membership club stores were last (6%). Twenty-eight percent of respondents (28%-down from 58% last year) said they had heard of the term "Integrated Pest Management" or "IPM", and twenty-three percent (23%-down from 46% last year) said they have seen ACCWP information at other events.

Event Details	**Description** (messages, audience)	**Evaluation of Effectiveness**
Provide event name, date, and location. Indicate if event is local, countywide or regional.	Identify type of event (e.g., school fair, farmers market etc.), type of audience (school children, gardeners, homeowners etc.) and outreach messages (e.g., Enviroscape presentation, pesticides, stormwater awareness)	Provide general staff feedback on the event (e.g., success at reaching a broad spectrum of the community, well attended, good opportunity to talk to gardeners etc.). Provide other details such as: • Estimated overall attendance at the event. • Number of people that visited the booth, comparison with previous years • Number of brochures and giveaways distributed • Results of any spot surveys conducted
Solano Stroll, September 11, 2011, Solano Avenue	The theme of this year's annual street fair event, "Unsung Heroes" brought out a diverse crowd along this 26 block commercial area and Berkeley in general. All ages audience. Bee stickers were the most popular take home piece for booth visitors.	• Highly attended event (estimate 300,000 throughout the whole day) with large parade. • Booth consistently visited throughout the day. 51 visitors completed the one page intercept survey. • Distributed 303 outreach pieces.
Spice of Life Festival, September 17, 2011, Shattuck Avenue (north end)	The gathering showcases the retail, dining, and arts found in the "Gourmet Ghetto" neighborhood. The free entertainment includes live music, dance performances, and cooking demonstrations.	• Attendance estimated at 5,000 • Provided 75 outreach pieces (down from 103 last year). • Collected 17 one page intercept surveys.

Watershed Poetry Festival, October 1, 2011, Civic Center Park	Free public event organized by nonprofit group, Poetry Flash with support from the Ecology Center/Berkeley Farmers Market to raise environmental awareness through poetry, activism, and hand on learning.	• Estimate attendance 200 • Distributed 57 outreach pieces (down from 87 last year) • Collected 5 one page intercept surveys.
Berkeley Bay Festival, April 14, 2012, Shorebird Nature Center at Berkeley Marina	Free City sponsored all ages event celebrating Berkeley's connection to the Bay.	• Estimate attendance 2,000 • Distributed 76 outreach pieces (down from 103 last year) • Collected 5 one page intercept surveys.
Earth Day, April 21, 2012, Civic Center Park	Annual event to celebrate and maintain the values of Earth Day.	• Estimate attendance 2,000 • Distributed 333 outreach pieces (slightly higher than 294 last year) • Collected 7 one page intercept surveys.

C.7.f ▶ Watershed Stewardship Collaborative Efforts

Summarize watershed stewardship collaborative efforts and/or refer to a regional report that provides details. Describe the level of effort and support given (e.g., funding only, active participation etc.). State efforts undertaken and the results of these efforts. If this activity is done regionally refer to a regional report.

Evaluate effectiveness by describing the following:

- Efforts undertaken
- Major accomplishments

Summary:

See the Public Outreach and Involvement section of the Alameda Countywide Clean Water Program FY 11/12 Annual Report for a summary of the Bringing Back the Natives and the Bay Friendly garden tours.

C.7.g ► Citizen Involvement Events

List the types of events conducted (e.g., creek clean up, storm drain inlet marking, native gardening etc.). Use the following table for reporting and evaluating citizen involvement events.

Event Details	Description	Evaluation of effectiveness
Provide event name, date, and location. Indicate if event is local, countywide or regional	Describe activity (e.g., creek clean-up, storm drain marking etc.)	Provide general staff feedback on the event. Provide other evaluation details such as: • Number of participants. Any change in participation from previous years. • Distance of creek or water body cleaned • Quantity of trash/recyclables collected (weight or volume). • Number of inlets marked. • Data trends
Community Stewardship Grants Program	See the Public Outreach and Involvement section of the alameda Countywide Clean Water Program FY 11/12 Annual Report	See the Public Outreach and Involvement section of the alameda Countywide Clean Water Program FY 11/12 Annual Report
Coastal Clean Up Day, September 17, 2011, Aquatic Park and SF Bay Shoreline	Three-hour annual event of volunteer shoreline clean up and trash inventory activities along Berkeley's Aquatic Park and SF Bay Shoreline area.	• Cleaned entire Berkeley bay-shoreline and shoreline of main lagoon at Aquatic Park. • Collected thousands of cigarette filters; bottle caps and lids; plastic food wrappers or containers; plastic bags; straws or stirrers; plastic eating utensils; and other items. • Collected data is sent to the Ocean Conservancy in Washington C.C. to inform potential marine and waterway pollution prevention legislation.
Berkeley Project Day, October 15, 2011, Neighborhoods south of UC Campus.	Annual volunteer event coordinated between City of Berkeley and the University of California.	• 28 student volunteers, 6 hour event. • Picked up litter and debris from approximately 4 miles of curb and gutter.
All Storm Day, October 29, 2011, primarily in Codornices Watershed.	City sponsored event in which City staff and volunteers remove debris early in rainy season. The work includes cleaning gutters, drain inlets,	• 14 volunteers. • Cleaned gutters of trash and debris in the Codornices Watershed.

	and street sweeping.	
Berkeley Project Day, March 10, 2012, Neighborhoods south of UC Campus.	Annual volunteer event coordinated between City of Berkeley and the University of California.	• 19 student volunteers, 6 hour event. • Installed over 100 "No Dumping, Drains to Bay" medallions on inlets in area south of UC Campus.
Trash Hot Spot Clean Up Event, June 23, 2012, Codornices Creek (South bank, Codornices Creek, Second Street to 5th Street)	Half-day collaborative event among the City of Berkeley and St. Mary's High School	• 13 volunteers. • Collected 460 pounds of litter and debris.

C.7.c ▶ School-Age Children Outreach

Summarize school-age children outreach programs implemented. A detailed report may be included as an attachment.
Use the following table for reporting school-age children outreach efforts.

Program Details	Focus & Short Description	Number of Students/Teachers reached	Evaluation of Effectiveness
Provide the following information: Name Grade or level (elementary/ middle/ high)	Brief description, messages, methods of outreach used	Provide number or participants	Provide agency staff feedback. Report any other evaluation methods used (quiz, teacher feedback etc.). Attach evaluation summary if applicable.
See the Public Outreach and Involvement section of the Alameda Countywide Clean Water Program FY 11/12 Annual Report for a summary of the School-Age Children Outreach	See the Public Outreach and Involvement section of the Alameda Countywide Clean Water Program FY 11/12 Annual Report.	See the Public Outreach and Involvement section of the Alameda Countywide Clean Water Program FY 11/12 Annual Report.	See the Public Outreach and Involvement section of the Alameda Countywide Clean Water Program FY 11/12 Annual Report.
Rosa Parks Elementary School, August 29, 2011	Annual "Welcoming" gathering for incoming elementary school students, with custom-made backpacks filled with school supplies and other educational materials. City Councilmember Darryl Moore attended.	100 students	Parents and children were very happy to receive the free backpacks, school supplies, and educational materials. 520 pollution prevention and Clean water Program outreach pieces were included.

Section 8 - Provision C.8 Water Quality Monitoring

C.8 ▶ Water Quality Monitoring

State below if information is reported in a separate regional report. Municipalities can also describe below any Water Quality Monitoring activities in which they participate directly, e.g. participation in RMP workgroups, fieldwork within their jurisdictions, etc.

Summary

During FY 11-12, we contributed through the countywide Program to the BASMAA Regional Monitoring Coalition (RMC). In addition, we contributed financially to the Regional Monitoring Program for Water Quality in the San Francisco Estuary (RMP) and were represented at RMP committees and work groups. For additional information on monitoring activities conducted by the Program, BASMAA RMC and the RMP, see the C.8 Water Quality Monitoring section of the Program's FY 11-12 Annual Report.

Section 9 – Provision C.9 Pesticides Toxicity Controls

C.9.b ▶Implement IPM Policy or Ordinance

Report implementation of IPM BMPs by showing trends in quantities and types of pesticides used, and suggest reasons for increases in use of pesticides that threaten water quality, specifically organophosphates, pyrethroids, carbaryl, and fipronil. A separate report can be attached as evidence of your implementation.

City Policy does not allow use of organophosphates, pyrethroids, Carbaryl, or fipronil.

Trends in Quantities and Types of Pesticides Used[56]

Pesticide Category and Specific Pesticide Used	Amount[57]				
	FY 09-10	FY 10-11	FY 11-12	FY 12-13	FY 13-14
Organophosphates					
Product or Pesticide Type A	0	0	0		
Product or Pesticide Type B	0	0	0		
Pyrethroids					
Product or Pesticide Type X	0	0	0		
Product or Pesticide Type Y	0	0	0		
Carbaryl	0	0	0		
Fipronil	0	0	0		

C.9.c ▶Train Municipal Employees

Enter the number of employees that applied or used pesticides (including herbicides) within the scope of their duties this reporting year.	3
Enter the number of these employees who received training on your IPM policy and IPM standard operating procedures within the last 3 years.	3
Enter the percentage of municipal employees who apply pesticides who have received training in the IPM policy and IPM standard operating procedures within the last three years.	100%

[56] Includes all municipal structural and landscape pesticide usage by employees and contractors.
[57] Weight or volume of the product or preferably its active ingredient, using same units for the product each year.

C.9.d ▶ Require Contractors to Implement IPM

Did your municipality contract with any pesticide service provider in the reporting year?	X	**Yes**		**No**

If yes, attach one of the following:

	Contract specifications that require adherence to your IPM policy and standard operating procedures, OR
	Copy(ies) of the contractors' IPM certification(s) or equivalent, OR
X	Equivalent documentation.

If **Not attached**, explain:

City contracts with service providers are reviewed for IPM compliance by Environmental Health for compliance with City IPM policy. Submittals for review are voluminous and are available for review at City Offices.

C.9.e ▶ Track and Participate in Relevant Regulatory Processes

Summarize participation efforts, information submitted, and how regulatory actions were affected **OR** reference a regional report that summarizes regional participation efforts, information submitted, and how regulatory actions were affected.

Summary:

During FY 11-12, we participated in regulatory processes related to pesticides through contributions to the countywide Program, BASMAA and CASQA. For additional information, see the Regional Pollutants of Concern Report submitted by BASMAA on behalf of all MRP Permittees.

C.9.f ▶ Interface with County Agricultural Commissioners

Did your municipal staff observe any improper pesticide usage or evidence of improper usage (e.g., pesticides in storm drain systems, along street curbs, or in receiving waters) during this fiscal year?		**Yes**	X	**No**

If yes, provide a summary of improper pesticide usage reported to the County Agricultural Commissioner and follow-up actions taken to correct any violations. A separate report can be attached as your summary.

See the Provision C.9 Pesticide Toxicity Control section of the Alameda Countywide Clean Water Program FY 11-12 Annual Report for a summary of the Program's outreach to the Alameda County Agricultural Commission.

C.9.h.ii ▶ Public Outreach, Point of Purchase

Provide a summary of public outreach at point of purchase, and any measurable awareness and behavior changes resulting from outreach (here or in a separate report); **OR** reference a report of a regional effort for public outreach in which your agency participates.

Summary:

See the C.9 Pesticides Toxicity Control section of Program's FY 11-12 Annual Report for information on point of purchase public outreach conducted countywide and regionally.

C.9.h.vi ► Public Outreach: Pest Control Operators

Provide a summary of public outreach to pest control operators and landscapers and reduced pesticide use (here or in a separate report); **OR** reference a report of a regional effort for outreach to pest control operators and landscapers in which your agency participates.

Summary:

See the C.9 Pesticides Toxicity Control section of Program's FY 11-12 Annual Report for a summary of our participation in and contributions towards countywide and regional public outreach to pest control operators and landscapers to reduce pesticide use.

Response to Water Board Staff Comments on Section 9, Provision C.9, of FY 10-11 Annual Report

Use this area to respond to any Water Board staff comments on Section 9 of your FY 10-11 Annual Report, and refer to any required submittals that are attached.

On April 23, 2012 Water Board staff stated they need information on ALL pesticide usage in the City. The City's IPM policy prohibits the use of the pesticides of concern in this provision (specifically organophosphorous pesticides, pyrethroids, carbaryl, and fipronil). The City does not believe any other pesticides are used in a manner to threaten water quality.

Section 10 - Provision C.10 Trash Load Reduction

C.10.a.i ▶ Short-Term Trash Loading Reduction Plan

(For FY 10-11 Annual Report only) Provide description of actions/tasks initiated/conducted/completed in developing a Short-Term Trash Loading Reduction Plan (due February 1, 2012).

Description:

The Short –Term Trash Loading Reduction Plan was submitted to the Water Board on March 2, 2012. See the C.10 Trash Load Reduction section of the Alameda Countywide Clean Water Program's FY 11-12 Annual Report for information on countywide and regional activities conducted on behalf of co-permittees.

C.10.a.ii ▶ Baseline Trash Load and Trash Load Reduction Tracking Method

(For FY 10-11 Annual Report only) Provide description of actions/tasks initiated/conducted/completed to gather trash loading data and in developing a Baseline Trash Load and Trash Load Reduction Tracking Method (due February 1, 2012).

Description:

The Baseline Trash Load and Trash Load Reduction Tracking Method was submitted to the Water Board on February 1, 2012. See the C.10 Trash Load Reduction section of the Alameda Countywide Clean Water Program's FY 11-12 Annual Report for information on countywide and regional activities conducted on behalf of co-permittees. The City's baseline trash load was submitted to the Water Board on March 2, 2012.

C.10.a.iii ▶ Minimum Full Trash Capture

(For FY 10-11 Annual Report and Each Annual Report Thereafter) Provide description of actions/tasks initiated/conducted/completed in implementing Minimum Full Trash Capture Devices (due July 1, 2014) within individual jurisdictions. Include information on Full Trash Capture Devices installed under the Bay-area Wide Trash Capture Demonstration Project administered by San Francisco Estuary Partnership and an estimate of the total land area that is planned for treatment by July 1, 2014.

Description:

See the C.10 Trash Load Reduction section of Alameda Countywide Clean Water Program's FY 11-12 Annual Report for information on countywide and regional activities conducted on behalf of co-permittees. The City and ABAG executed the contract for the Bay-Area Wide Trash Capture Demonstration Project in early June 2012 for $64,039. Sites for devices will be checked and installation performed in FY 12-13.

C.10.b.ii Phase 1 Hot Spot Assessment

(For FY 10-11 Annual Report and Each Annual Report Thereafter) Provide volume of material removed from each Trash Hot Spot cleanup, and the dominant types of trash (e.g., glass, plastics, paper) removed and their sources to the extent possible.

Fill out the following table or attach a summary of the following information.

Trash Hot Spot	Cleanup Date	Volume of Material Removed	Dominant Type of Trash	Trash Sources (where possible)
BER_AQP_1 (Aquatic Park north shoreline, construction of Donna Spring Animal Shelter prevents access to north shoreline, clean-up performed on adjacent shoreline on eastside of lagoon)	Sep 17, 2011, Coastal Clean-Up Day	140 pounds	Food Wrappers/Containers, Cigarette Filters, Plastic Bags.	Likely sources are Recreation activities, Freeway, Homeless
BER_BAY_1 (Brickyard Cove)	Sep 17, 2011, Coastal Clean-Up Day	Material was combined with Coastal Clean-Up material	Food Wrappers/Containers, Cap/Lids, Plastic Bags.	Likely source is trash from the Bay
BER_COD_1 (Codornices Creek, south bank between 2nd St and 5th St)	Jun 23, 2011	460 pounds	Food Wrappers/Containers, Bags, Clothing/Shoes.	Urbanized development in upstream watershed, Recreation/Sports, Homeless

C.10.d > Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[58]	Estimated Percent Reduction as of FY 11-12[58]	Estimated Dominant Types of Trash Removed in FY 11-12
Existing Enhanced Street Sweeping	**No changes, continued parking enforcement on sweeping days, and sweeping in commercial and industrial areas.**	**1,602**	**6.3%**	**All Trash Types**
Polystyrene Foam Food Service Ware Policies	**Existing, Ordinance (effective January 1, 1990) satisfying Tier 1a and Tier 1B.**	**1,892**	**7.5%**	**Polystyrene foam food service ware**
Public Education and Outreach Programs	**Implement Public Education and Outreach through ACCWP**	**1,419**	**5.6%**	**All Trash Types**
Improved Trash Bins/Container Management	**Continue to monitor for adequate service, support BIDs and litter service.**	**1,600**	**6.3%**	**All Trash Types**
Creek/Channel/Shoreline Cleanups	**No New Activity**	**0**	**0%**	**All Trash Types**
[redacted]		**6,514**		
[redacted]		**25,256**		

[58]The estimated load removed and percent reduction in FY 11-12 is consistent with assumptions described in the Trash Load Reduction Tracking Method Technical Report (version 1.0) submitted to the Water Board on February 1, 2012. In the future, load reductions reported in Annual Reports may be adjusted based on revisions to the tracking methodology.

C.10.d – Summary of Trash Reduction Actions and Loads Reduced

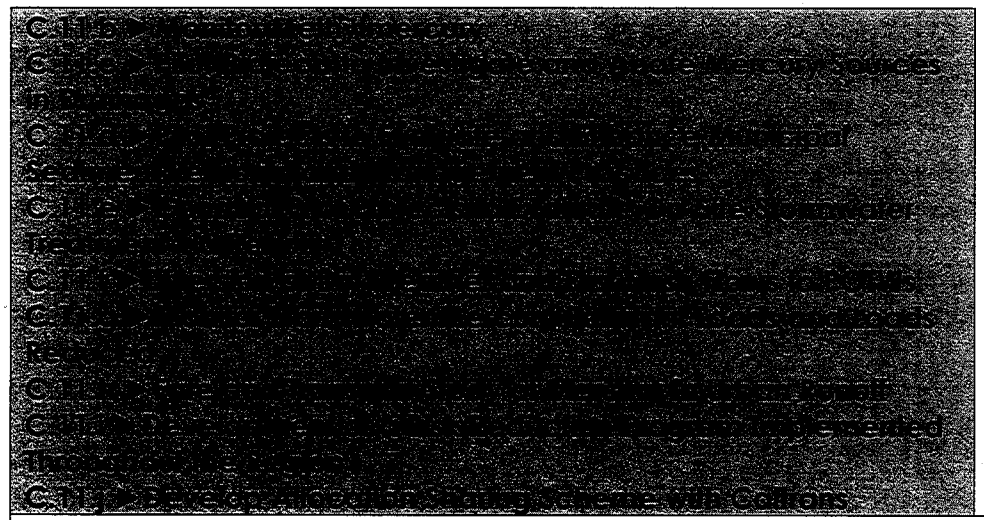
Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[58]	Estimated Percent Reduction as of FY 11-12[58]	Estimated Dominant Types of Trash Removed in FY 11-12
Total Percentage Reduction in FY 2011-12 Compared to Baseline Trash Load		**25.8%**		

Section 11 - Provision C.11 Mercury Controls

C.11.a.i ▶ Mercury Recycling Efforts
List below or attach lists of efforts to promote, facilitate, and/or participate in collection and recycling of mercury containing devices and equipment at the consumer level (e.g., thermometers, thermostats, switches, bulbs).
The city promotes local fluorescent bulb collection at the Community Conservation Center (Gilman and 2nd), and established fluorescent bulb satellite collection as Berkeley Ace Hardware (2145 University), Ensler Lighting (1793 Solano), Omega Too (2204 San Pablo), Orchard Supply Hardware (1025 Ashby), and Whole Foods (3000 Telegraph). See the Provision C.11 Mercury section of the Alameda Countywide Clean Water Program FY 11-12 Annual Report for a summary of countywide mercury collection and recycling efforts.

C.11.a.ii ▶ Mercury Collection
Provide an estimate of the mass of mercury collected through these efforts, or provide a reference to a report containing this estimate.
See the Provision C.11 Mercury section of the Alameda Countywide Clean Water Program FY 11-12 Annual Report for an estimate of mercury removed through countywide efforts.



State below if information is reported in a separate regional report. Municipalities that participate directly in regional activities to can provide descriptions below.

Summary

A summary of countywide Program and regional accomplishments for these sub-provisions are included within the C.11 Mercury Controls section of Program's FY 11-12 Annual Report and/or the BASMAA Regional POC Report.

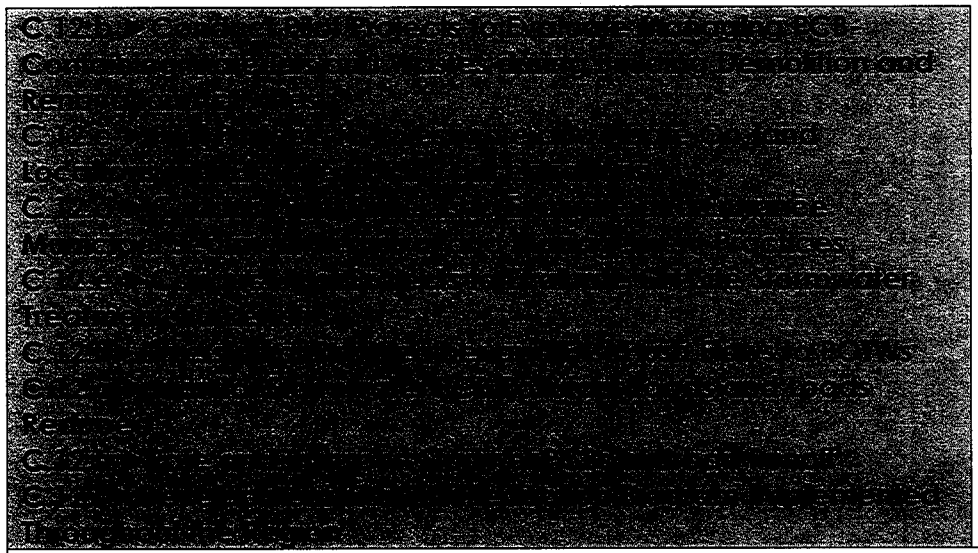
Section 12 - Provision C.12 PCBs Controls

C.12.a.ii.iii ►Ongoing training

(For FY 10-11 Annual Report and Each Annual Report Thereafter) List below or attach description of ongoing training development and inspections for PCB identification, including documentation and referral to appropriate regulatory agencies (e.g. county health departments, Department of Toxic Substances Control, California Department of Public Health, and the Water Board) as necessary.

Description:

Annual inspector training, including training on identification and referrals of potential PCB sources is planned for October 2012.



State below if information is reported in a separate regional report. Municipalities that participate directly in regional activities to can provide descriptions below.

Summary

A summary of countywide Program and regional accomplishments for these sub-provisions are included within the C.12 PCB Controls section of Program's FY 11-12 Annual Report and/or the BASMAA Regional POC Report.

Section 13 - Provision C.13 Copper Controls

C.13.a.iii.(1) ▶ Legal Authority: Architectural Copper

(For FY 10-11 Annual Report only) Do you have adequate legal authority to prohibit discharge of wastewater to storm drains generated from the installation, cleaning, treating, and washing of the surface of copper architectural features, including copper roofs to storm drains?	X	**Yes**		**No**
If **No**, explain and provide schedule for obtaining authority within 1 year.				

C.13.a.iii.(2) ▶ Training, Permitting and Enforcement Activities

(FY 11-12 Annual Report and each Annual Report thereafter) Provide summaries of activities implemented to manage waste generated from cleaning and treating of copper architectural features, including copper roofs, during construction and post-construction including. :

- Development of BMPs on how to manage the water during and post construction
- Requiring the use of appropriate BMPs when issuing building permits
- Educating installers and operators on appropriate BMPs
- Enforcement actions taken again noncompliance

Staff attended the New Development training of June 12, 2012. City provides architectural copper BMP fact sheet in the Permit Service Center Lobby.

C.13.b.iii ▶ Legal Authority: Pools, Spas, and Fountains

(For FY10-11 Annual Report only) Do you have adequate legal authority to prohibit discharges to storm drains from pools, spas, and fountains that contain copper-based chemicals?	X	**Yes**		**No**
If **No**, explain and provide schedule for obtaining authority within 1 year:				

C.13.c ▶ Vehicle Brake Pads

Reported in a separate regional report.

A summary of the countywide Program's participation with the Brake Pad Partnership (BPP) is included within the C.13 Copper Controls section of Program's FY 11-12 Annual Report and/or the BASMAA Regional POC Report.

C.13.d.iii ▶ Industrial Sources Copper Reduction Results

Based upon inspection activities conducted under Provision C.4, highlight copper reduction results achieved among the facilities identified as potential users or sources of copper, facilities inspected, and BMPs addressed.

Summary

Facilities identified as potential users or sources of copper include automotive service and retail fueling facilities, car washes, machine shops, auto dismantlers, and outdoor metal storage facilities. See Attachment E for a list of facilities inspected in FY 11-12. Inspectors are trained to identify sources of copper and to ensure that proper BMPs are in place to minimize discharge of copper in runoff. No actual or potential discharges of copper were identified during facility inspections in FY 11-12.

C.13.e ▶ Studies to Reduce Copper Pollutant Impact Uncertainties

Report on progress of studies being conducted countywide or regionally to reduce copper pollutant impact uncertainties. State below if information is reported in a separate regional report.

Summary

A summary of the countywide Program and/or regional efforts to develop regional studies to reduce copper pollutant impact uncertainties is included within the C.13 Copper Controls section of Program's FY 11-12 Annual Report and/or BASMAA Regional POC Report.

Section 14 - Provision C.14 PBDE, Legacy Pesticides and Selenium Controls

C.14.a Control Programs for PBDEs, Legacy Pesticides and Selenium Controls
Report on progress of studies being conducted countywide or regionally to characterize the distribution and pathways of PBDEs, legacy pesticides, and selenium. State below if information is reported in a separate regional report.
Summary A summary of the countywide Program and regional efforts related to the Control Program for PBDEs, Legacy Pesticides and Selenium is included within the C.14 PBDE, Legacy Pesticides and Selenium section of Program's FY 11-12 Annual Report and/or BASMAA Regional POC Report.

Section 15 - Provision C.15 Exempted and Conditionally Exempted Discharges

C.15.b.iv.(1): Potable Water Uses and Unplanned Discharges of Potable Water

Is your agency a water purveyor?		**Yes**	X	**No**
If **No**, skip to C.15.b.vi.(2):				
If **Yes**, Complete the attached reporting tables or attach your own table with the same information. Provide any clarifying comments below.				
Comments:				

C.15.b.vi.(2): Irrigation Water, Landscape Irrigation, and Lawn or Garden Watering

Provide implementation summaries of the required BMPs to promote measures that minimize runoff and pollutant loading from excess irrigation. Generally the categories are:

- Promote conservation programs
- Promote outreach for less toxic pest control and landscape management
- Promote use of drought tolerant and native vegetation
- Promote outreach messages to encourage appropriate watering/irrigation practices
- Implement Illicit Discharge Enforcement Response Plan for ongoing, large volume landscape irrigation runoff.

Summary:

The City of Berkeley adopted a Bay Friendly Landscape Ordinance in 2009. The city promotes IPM and drought tolerant vegetation in implementing Provisions C.3, C.7, and C.9.

C.15.b.iii.(1) ▶Planned Discharges of the Potable Water System

Site/ Location	Discharge Type	Receiving Waterbody(ies)	Date of Discharge	Duration of Discharge (military time)	Estimated Volume (gallons)	Estimated Flow Rate (gallons/day)	Chlorine Residual (mg/L)	pH (standard units)	Discharge Turbidity[59] (NTU)	Implemented BMPs & Corrective Actions

[59] Monitor the receiving water for turbidity if necessary and feasible. Include data in this column if available.

C.15.b.iii.(2) ▶ Unplanned Discharges of the Potable Water System[60]

Site/ Location	Discharge Type	Receiving Waterbody(ies)	Date of Discharge	Discharge Duration (military time)	Estimated Volume (gallons)	Estimated Flow Rate (gallons/day)	Chlorine Residual (mg/L)[61]	pH (standard units)[52]	Discharge Turbidity (Visual)[52,]	Implemented BMPs & Corrective Actions	Time of discharge discovery	Regulatory Agency Notification Time[62]	Inspector arrival time	Responding crew arrival time

[60] This table contains all of the unplanned discharges that occurred in this FY.
[61] Monitoring data is only required for 10% of the unplanned discharges. If you monitored more than 10% of your unplanned discharges, report all of the data collected.
[62]. Notification to Water Board staff is required for unplanned discharges where the chlorine residual is >0.05 mg/L and total volume is ≥ 50,000 gallons. Notification to State Office of Emergency Services is required after becoming aware of aquatic impacts as a result of unplanned discharge or when the discharge might endanger or compromise public health and safety.
