CITY COUNCIL 2013

PEDRO GONZALEZ, MAYOR
KARYL MATSUMOTO, MAYOR PRO TEM
MARK ADDIEGO, COUNCILMEMBER
RICHARD A. GARBARINO, COUNCILMEMBER
DR. PRADEEP GUPTA, COUNCILMEMBER

BARRY NAGEL, CITY MANAGER

September 13, 2013

Mr. Bruce Wolfe, Executive Officer
California Regional Water Quality Control Board
San Francisco Bay Region
1515 Clay Street, Suite 1400
Oakland, CA 94612

Subject: Annual Report July 1, 2012 through June 30, 2013

Dear Mr. Wolfe:

In response to the comment letter about the City of South San Francisco Enforcement Response Plan (ERP) modifications sent on May 3, 2013, the City has modified its Stormwater ERP as stated in the June 7th, 2013 response letter. Applicable municipal staff has been trained on the revised ERP on June 11, 2013 and the revised ERP has been in effect as of June 7, 2013.

This report was developed and submitted in accordance with the following certification standard:

I certify, under penalty of law, that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or person(s) who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for known violators.

If you have any questions, please contact Rob Lecel at 650-829-3882.

Sincerely,

Rob Lecel
Interim Environmental Compliance Supervisor
City of South San Francisco

Section 1 – Permittee Information

Background Information				
Permittee Name:	City of South San Francisco			
Population:	61,824			
NPDES Permit No.:	CAS612008			
Order Number:	R2-2009-0074R			
Reporting Time Period (month/year):	July 2012 through June 2013			
Name of the Responsible Authority:	Barry Nagel	Title:	City Manager	
Mailing Address:	400 Grand Avenue			
City:	South San Francisco	Zip Code:	94080	County: San Mateo
Telephone Number:	(650) 877-8500	Fax Number:	(650) 839-6609	
E-mail Address:	bnagel@ssf.net			
Name of the Designated Stormwater Management Program Contact (if different from above):	Rob Lecel	Title:	Interim Environmental Compliance Supervisor	
Department:	Public Works/WQCP			
Mailing Address:	195 Belle Air Road			
City:	South San Francisco	Zip Code:	94080	County: San Mateo
Telephone Number:	(650) 829-3882	Fax Number:	(650) 829-3855	
E-mail Address:	rob.lecel@ssf.net			

Permittee Name: City of South San Francisco

Section 2 - Provision C.2 Reporting Municipal Operations

Program Highlights and Evaluation

Highlight/summarize activities for reporting year:

Summary: The City of South San Francisco participated in the SMCWPPP Public Works Municipal Maintenance Subcommittee. Refer to the C.2 Municipal Operations section of the SMCWPPP FY 12-13 Annual Report for a description of activities implemented at the countywide and/or regional level.

C.2.a. ► Street and Road Repair and Maintenance

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

Y	Control of debris and waste materials during road and parking lot installation, repaving or repair maintenance activities from polluting stormwater
Y	Control of concrete slurry and wastewater, asphalt, pavement cutting, and other street and road maintenance materials and wastewater from discharging to storm drains from work sites.
Y	Sweeping and/or vacuuming and other dry methods to remove debris, concrete, or sediment residues from work sites upon completion of work.

Comments: All BMPs have been implemented and are in practice for street and road repair.

Permittee Name: City of South San Francisco

C.2.b. ► Sidewalk/Plaza Maintenance and Pavement Washing

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

Y	Control of wash water from pavement washing, mobile cleaning, pressure wash operations at parking lots, garages, trash areas, gas station fueling areas, and sidewalk and plaza cleaning activities from polluting stormwater
Y	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs

Comments: All BMPs have been implemented and are in practice.

C.2.c. ► Bridge and Structure Maintenance and Graffiti Removal

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

Y	Control of discharges from bridge and structural maintenance activities directly over water or into storm drains
Y	Control of discharges from graffiti removal activities
Y	Proper disposal for wastes generated from bridge and structure maintenance and graffiti removal activities
Y	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs for graffiti removal
Y	Employee training on proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities.
Y	Contract specifications requiring proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities.

Comments: No additional comments.

C.2.d. ► Stormwater Pump Stations				
Does your municipality own stormwater pump stations:		<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No	
If your answer is No then skip to C.2.e.				
Complete the following table for dry weather DO monitoring and inspection data for pump stations ¹ (add more rows for additional pump stations). If a pump station is exempt from DO monitoring, explain why it is exempt.				
Pump Station Name and Location	First inspection Dry Weather DO Data		Second inspection Dry Weather DO Data	
	Date	mg/L	Date	mg/L
Airport North (#1)	8/6/12	5.16	9/25/12	4.14
Airport South (#2)	8/6/12	4.90	9/25/12	6.45
Shaw Road	8/8/12	6.15	9/25/12	3.13
South Maple	8/6/12	7.08	9/25/12	5.82
South Linden (Lindenville)	8/6/12	7.75	9/25/12	9.30
San Mateo Ave	8/6/12	4.79	9/25/12	7.61
South Airport Road	8/6/12	Tidal Influence	9/25/12	Tidal Influence
Produce Ave	8/6/12	7.20	9/25/12	Tidal Influence
South Canal – Closed – not in operation				
Granite Rock - Closed – not in operation				
Summarize corrective actions as needed for DO monitoring at or below 3 mg/L. Attach inspection records of additional DO monitoring for corrective actions: No corrective actions were needed at any of the stormwater pump stations for the dry weather DO Monitoring in 2012-2013.				
Summary: No sample was collected at the South Airport Road Pump Station on August 6, 2012 because there was no stormwater flow at the station during this sampling period. The only flow was tidal flow from Colma Creek. No samples were collected at the South Airport Pump Station and the Produce Ave Pump Station on September 25, 2012 because there was no stormwater flow at the stations during this sampling period. The only flow was tidal flow from Colma Creek.				
No Attachments				

¹ DO monitoring is exempted where all discharge from a pump station remains in a stormwater collection system or infiltrates into a dry creek immediately downstream.

Permittee Name: City of South San Francisco

Complete the following table for wet weather inspection data for pump stations (add more rows for additional pump stations):

Pump Station Name and Location	Date (2x/year required)	Presence of Trash (Cubic Yards)	Presence of Odor (Yes or No)	Presence of Color (Yes or No)	Presence of Turbidity (Yes or No)	Presence of Floating Hydrocarbons (Yes or No)
Shaw Road – 291 Shaw Road	11/19/12	< 0.184	No	Yes	No	No
South Maple – Near 270 South Maple	11/19/12	<0.184	No	Yes	No	Yes - Low
South Linden Pump Station – South Linden	11/19/12	0.736	No	Yes	No	Yes – Low
Airport Blvd. Northbound – 54 Airport Blvd.	11/19/12	<0.184	No	No	No	Yes – Low
Airport Blvd. Southbound – 125 Airport Blvd.	11/19/12	None	No	Can't detect	Can't detect	No
San Mateo Ave. Pump Station – Near 1481 San Mateo Ave.	11/19/12	0.184	No	No	No	No
Produce Ave. Pump Station	11/19/12	None	Can't detect, tidal influence	Can't detect, tidal influence	Can't detect, tidal influence	Can't detect, tidal influence
South Airport Blvd. Pump Station – 245 South Airport Blvd.	11/19/12	None	Can't detect, tidal influence	Can't detect, tidal influence	Can't detect, tidal influence	Can't detect, tidal influence
Shaw Road – 291 Shaw Road	2/8/13	<0.184	No	No	Yes-Low	Yes-Low
South Maple – Near 270 South Maple	2/8/13	0.184	Yes	Yes	Yes-Low	No
South Linden Pump Station – South Linden	2/8/13	0.184-0.368	No	No	Yes-Low	No
Airport Blvd. Northbound – 54 Airport Blvd.	2/8/13	<0.184	Yes	Yes	Yes-Low	No
Airport Blvd. Southbound – 125 Airport Blvd.	2/8/13	<0.184	Yes	Yes	Yes-Low	No
San Mateo Ave. Pump Station – Near 1481 San Mateo Ave.	2/8/13	<0.184	No	No	Yes-Low	Yes-Low
Produce Ave. Pump Station	2/8/13	None	Can't detect, tidal influence	Can't detect, tidal influence	Can't detect, tidal influence	Can't detect, tidal influence

Permittee Name: City of South San Francisco

South Airport Blvd. Pump Station – 245 South Airport Blvd.	2/8/13	None	Can't detect, tidal influence			
--	--------	------	-------------------------------	-------------------------------	-------------------------------	-------------------------------

C.2.e. ► Rural Public Works Construction and Maintenance

Does your municipality own/maintain rural² roads: Yes No

If your answer is **No** then skip to **C.2.f.**

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

<input type="checkbox"/>	Control of road-related erosion and sediment transport from road design, construction, maintenance, and repairs in rural areas
<input type="checkbox"/>	Identification and prioritization of rural road maintenance based on soil erosion potential, slope steepness, and stream habitat resources
<input type="checkbox"/>	No impact to creek functions including migratory fish passage during construction of roads and culverts
<input type="checkbox"/>	Inspection of rural roads for structural integrity and prevention of impact on water quality
<input type="checkbox"/>	Maintenance of rural roads adjacent to streams and riparian habitat to reduce erosion, replace damaging shotgun culverts and excessive erosion
<input type="checkbox"/>	Re-grading of unpaved rural roads to slope outward where consistent with road engineering safety standards, and installation of water bars as appropriate
<input type="checkbox"/>	Inclusion of measures to reduce erosion, provide fish passage, and maintain natural stream geomorphology when replacing culverts or design of new culverts or bridge crossings

Comments including listing increased maintenance in priority areas:

² Rural means any watershed or portion thereof that is developed with large lot home-sites, such as one acre or larger, or with primarily agricultural, grazing or open space uses.

Permittee Name: City of South San Francisco

C.2.f. ► Corporation Yard BMP Implementation			
Place an X in the boxes below that apply to your corporations yard(s):			
<input type="checkbox"/>	We do not have a corporation yard		
<input type="checkbox"/>	Our corporation yard is a filed NOI facility and regulated by the California State Industrial Stormwater NPDES General Permit		
<input checked="" type="checkbox"/>	We have a Stormwater Pollution Prevention Plan (SWPPP) for the Corporation Yard(s)		
Place an X in the boxes below next to implemented SWPPP BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type NA in the box. If one or more of the BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:			
<input checked="" type="checkbox"/>	Control of pollutant discharges to storm drains such as wash waters from cleaning vehicles and equipment		
<input checked="" type="checkbox"/>	Routine inspection prior to the rainy seasons of corporation yard(s) to ensure non-stormwater discharges have not entered the storm drain system		
<input checked="" type="checkbox"/>	Containment of all vehicle and equipment wash areas through plumbing to sanitary or another collection method		
<input checked="" type="checkbox"/>	Use of dry clean-up methods when cleaning debris and spills from corporation yard(s) or collection of all wash water and disposing of wash water to sanitary or other location where it does not impact surface or groundwater when wet clean-up methods are used		
<input checked="" type="checkbox"/>	Cover and/or berm outdoor storage areas containing waste pollutants		
Comments: All areas of the corporation yard utilized acceptable BMPs.			
If you have a corporation yard(s) that is not an NOI facility, complete the following table for inspection results for your corporation yard(s) or attach a summary including the following information:			
Corporation Yard Name	Inspection Date (1x/year required)	Inspection Findings/Results	Follow-up Actions
City of South San Francisco Corporation Yard	9/25/12	All areas of the corporation yard utilized acceptable BMPs.	No follow-up action required

Section 3 - Provision C.3 Reporting New Development and Redevelopment

C.3.b.v.(2)(a) ► Green Streets Status Report

(All projects to be completed by December 1, 2014)

On an annual basis (if applicable), report on the status of any pilot green street projects within your jurisdiction. For each completed project, report the capital costs, operation and maintenance costs, legal and procedural arrangements in place to address operation and maintenance and its associated costs, and the sustainable landscape measures incorporated in the project including, if relevant, the score from the Bay-Friendly Landscape Scorecard.

Summary: The City of South San Francisco does not have a pilot green street project within its jurisdiction.

The C.3 New Development and Redevelopment section of the SMCWPPP FY 12-13 Annual Report includes a description of activities conducted at the countywide or regional level.

C.3.b.v.(2)(c) ► Summary of Green Street Projects Completed by January 1, 2013

(For FY 12-13 Annual Report only) Provide a summary of all green street projects completed by January 1, 2013.

BASMAA has prepared a regional summary of all green street pilot projects. The Green Street Pilot Project Summary Report is being submitted by BASMAA, on behalf of the MRP permittees, in BASMAA's MRP FY 12-13 Regional Supplement – New Development and Redevelopment. The Green Streets Pilot Project Summary Report contains all of the required elements listed in Provision C.3.b.v.(2)(c) for all green street projects completed by January 1, 2013, as well as information on projects not yet completed.

C.3.b.v.(1) ► Regulated Projects Reporting

Fill in attached table **C.3.b.v.(1)** or attach your own table including the same information.

See attached table C.3.b.v.(1).

C.3.e.v. ► Alternative or In-Lieu Compliance with Provision C.3.c.

(For FY 11-12 Annual Report and each Annual Report thereafter) Is your agency choosing to require 100% LID treatment onsite for all Regulated Projects and not allow alternative compliance under Provision C.3.e.?	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	No
Comments (optional):				

C.3.e.vi ► Special Projects Reporting

1. Has your agency received, but not yet granted final discretionary approval of, a development permit application for a project that has been identified as a potential Special Project based on criteria listed in MRP Provision C.3.e.ii(2) for any of the three categories of Special Projects (Categories A, B or C)?	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	No
2. Has your agency granted final discretionary approval of a project identified as a Special Project in the March 15, 2013 report? If yes, include the project in both the C.3.b.v.(1) Table, and the C.3.e.vi. Table.	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	No
If you answered "Yes" to either question, 1) Complete Table C.3.e.vi below. 2) Attach narrative discussion of 100% LID Feasibility or Infeasibility for each project.				

C.3.h.iv. ► Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

Fill in attached table C.3.h.iv.(1) or attach your own table including the same information. See Table C.3.h.iv (1) for a list of Operation and Maintenance Inspections of stormwater treatment measures conducted during FY 12-13 in the City of South San Francisco.
(2) On an annual basis, provide a discussion of the inspection findings for the year and any common problems encountered with various types of treatment systems and/or HM controls. This discussion should include a general comparison to the inspection findings from the previous year.
Summary: The City of South San Francisco performed sixteen O & M inspections in 2012/2013. Of the sixteen inspections performed only one site or 6% required maintenance. Royal Auto was inspected on June 25, 2013. Their Oil/Grit Separator required maintenance. Completion of the maintenance was confirmed on July 5, 2013. Inspections in 2012/2013 demonstrated better maintenance than in 2011/2012. In 2011/2012

<p>five locations were identified that required maintenance. Of the 20 inspections completed, five treatment systems or 25% required maintenance. The devices that required maintenance were three oil/grit separators and two vortex separators.</p>						
<p>(3) On an annual basis, provide a discussion of the effectiveness of the O&M Program and any proposed changes to improve the O&M Program (e.g., changes in prioritization plan or frequency of O&M inspections, other changes to improve effectiveness program).</p>						
<p>Summary: We have developed a spreadsheet listing all facilities and the treatment systems associated with those facilities. At this time, the City of South San Francisco has approximately 78 treatment systems installed. The inspectors do occasionally locate additional treatment systems that are not on the spreadsheet when performing other stormwater inspections. These systems are added to the spreadsheet when they are located. Environmental Compliance Inspectors perform O&M inspections at a rate of 16-20 devices every year. The facility list is reviewed and updated as new systems are installed and additional systems are located.</p> <p>There are no proposed changes or improvements to the O&M Program at this time</p>						
<p>(4) During the reporting year, did your agency:</p>						
<ul style="list-style-type: none"> Inspect all newly installed stormwater treatment systems and HM controls within 45 days of installation? 	X	Yes		No		<p>Not applicable. No new facilities were installed.</p>
<ul style="list-style-type: none"> Inspect at least 20 percent of the total number of installed stormwater treatment systems or HM controls?³ 	X	Yes		No		<p>Not applicable. No treatment measures</p>
<ul style="list-style-type: none"> Inspect at least 20 percent of the total number of installed vault-based systems? 	X	Yes		No		<p>Not applicable. No vault systems.</p>
<p>If you answered "No" to any of the questions above, please explain:</p>						

C.3.i. ► Required Site Design Measures for Small Projects and Detached Single Family Home Projects

<p>On an annual basis, discuss the implementation of the requirements of Provision C.3.i, including ordinance revisions, permit conditions, development of standard specifications and/or guidance materials, and staff training.</p>
<p>Summary: BASMAA prepared standard specifications in four fact sheets regarding the site design measures listed in Provision C.3.i, as a resource for Co-permittees.</p>

³ If there is only 1 treatment measure in the jurisdiction, the agency must inspect it every year.

We have modified local ordinances/policies/procedures and forms/checklists to require all applicable projects approved after December 1, 2012 to implement at least one of the site design measures listed in Provision C.3.i. We are using the following Program and BASMAA products for C.3.i implementation:

- BASMAA's site design fact sheets
- The SMCWPPP C.3 Regulated Projects Checklist
- C.3.i guidance provided by the SMCWPPP C.3 Stormwater Technical Guidance document Appendix L

The City of South San Francisco revised their Stormwater Ordinance in January 2013. The following language was included to address stormwater issues in non-regulated projects:

All new development and redevelopment projects subject to planning, building development or other comparable reviews by the city, but not meeting the definition of a regulated project are encouraged to include adequate site design measures that include minimizing land disturbance and impervious surfaces. These may include clustering of structures and pavement, directing roof runoff to vegetated areas, use of micro-detention, including distributed landscaped-based detention of stormwater, preservation of open space and/or restoration of riparian areas or wetland as project amenities. (Ord. 1463 § 1, 2013)

Additionally, all projects that create and/or replace > 2500 ft² to < 10,000 ft² of impervious surface, and detached single-family home projects, which create and/or replace 2,500 square feet or more of impervious surface, are required to install one or more of the following site design measures:

- Direct roof runoff into cisterns or rain barrels for reuse.
- Direct roof runoff onto vegetated areas.
- Direct runoff from sidewalks, walkways, and/or patios onto vegetated areas.
- Direct runoff from driveways and/or uncovered parking lots onto vegetated areas.
- Construct sidewalks, walkways, and/or patios with permeable surfaces.
- Construct bike lanes, driveways, and/or uncovered parking lots with permeable surfaces.

Three staff members attended the May 22, 2013 SMCWPPP New Development Workshop that included a presentation on Provision C.3.i requirements and using the C.3 Regulated Projects Checklist for small projects.

C.3.b.v.(1) ► Regulated Projects Reporting Table (part 1) – Projects Approved During the Fiscal Year Reporting Period

Project Name Project No.	Project Location ¹⁰ , Street Address	Name of Developer	Project Phase No. ¹¹	Project Type & Description ¹²	Project Watershed ¹³	Total Site Area (Acres)	Total Area of Land Disturbed (Acres)	Total New Impervious Surface Area (ft ²) ¹⁴	Total Replaced Impervious Surface Area (ft ²) ¹⁵	Total Pre- Project Impervious Surface Area ¹⁶ (ft ²)	Total Post- Project Impervious Surface Area ¹⁷ (ft ²)
Private Projects											
259 East Grand	259 East Grand Ave.	BN Builders	2c	New development: Office building and labs	Colma Creek/San Francisco Bay	6.13	6.0	0	193,360	200,239	193,360

Public Projects											
There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013

¹⁰ Include cross streets

¹¹ If a project is being constructed in phases, indicate the phase number and use a separate row entry for each phase. If not, enter "NA".

¹² Project Type is the type of development (i.e., new and/or redevelopment). Example descriptions of development are: 5-story office building, residential with 160 single-family homes with five 4-story buildings to contain 200 condominiums, 100 unit 2-story shopping mall, mixed use retail and residential development (apartments), industrial warehouse.

¹³ State the watershed(s) in which the Regulated Project is located. Downstream watershed(s) may be included, but this is optional.

¹⁴ All impervious surfaces added to any area of the site that was previously existing pervious surface.

¹⁵ All impervious surfaces added to any area of the site that was previously existing impervious surface.

¹⁶ For redevelopment projects, state the pre-project impervious surface area.

¹⁷ For redevelopment projects, state the post-project impervious surface area.

C.3.b.v.(1) ► Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period (private projects)

Project Name Project No.	Application Deemed Complete Date ¹⁸	Application Final Approval Date ¹⁹	Source Control Measures ²⁰	Site Design Measures ²¹	Treatment Systems Approved ²²	Type of Operation & Maintenance Responsibility Mechanism ²³	Hydraulic Sizing Criteria ²⁴	Alternative Compliance Measures ^{25/26}	Alternative Certification ²⁷	HM Controls ^{28/29}
Private Projects										
259 E Grand	6/1/06	10/7/11	Storm drain marking. Fire sprinkler test water to sanitary. Plumb interior drains to sanitary sewer. Cover trash enclosure, and have a drain to sanitary sewer. Condensate to sanitary sewer. Use drought tolerant plants.	Bay friendly landscaping. Micro-detention areas. Direct runoff from downspouts, driveway and parking lot to vegetated area.	Bio-retention area. Vegetated swale. Tree well Filter.	O &M agreement	1.b	NO	NO	Not in HM area.
151 Mitchell	9/16/10	10/8/10	Storm drain marking. Covered trash enclosure, and	Direct runoff from sidewalk to vegetated area.	Bio-retention area	O &M agreement	1.b	NO	NO	Not in HM area.

¹⁸ For private projects, state project application deemed complete date. If the project did not go through discretionary review, report the building permit issuance date.

¹⁹ For private projects, state project application final discretionary approval date. If the project did not go through discretionary review, report the building permit issuance date.

²⁰ List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.

²¹ List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.

²² List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).

²³ List the legal mechanism(s) (e.g., O&M agreement with private landowner; O&M agreement with homeowners' association; O&M by public entity, etc...) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.

²⁴ See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).

²⁵ For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.

²⁶ For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.

²⁷ Note whether a third party was used to certify the project design complies with Provision C.3.d.

²⁸ If HM control is not required, state why not.

²⁹ If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), bioretention unit(s), regional detention basin, or in-stream control).

C.3.b.v.(1) ► Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period (private projects)

Project Name Project No.	Application Deemed Complete Date ¹⁸	Application Final Approval Date ¹⁹	Source Control Measures ²⁰	Site Design Measures ²¹	Treatment Systems Approved ²²	Type of Operation & Maintenance Responsibility Mechanism ²³	Hydraulic Sizing Criteria ²⁴	Alternative Compliance Measures ^{25/26}	Alternative Certification ²⁷	HM Controls ^{28/29}
			have a drain to sanitary. Fire sprinkler test water to sanitary. Plumb interior drains to sanitary sewer. Condensate to sanitary. Use drought tolerant plants.	Direct runoff from driveway to vegetated area. Micro-detention areas. Minimize land disturbance, maximize permeability by clustering development						
160 Produce	7/9/12	8/3/12	Storm drain marking. Efficient landscape area. Properly designed trash area.	Direct runoff from sidewalk to vegetated area. Direct runoff from driveway and parking lot to vegetated area	Bio-retention area	O &M agreement	3	NO	NO	Not in HM area.

Comments: No additional comments.

C.3.b.v.(1) ► Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period (public projects)

Project Name Project No.	Approval Date ³⁰	Date Construction Scheduled to Begin	Source Control Measures ³¹	Site Design Measures ³²	Treatment Systems Approved ³³	Operation & Maintenance Responsibility Mechanism ³⁴	Hydraulic Sizing Criteria ³⁵	Alternative Compliance Measures ^{36/37}	Alternative Certification ³⁸	HM Controls ^{39/40}
Public Projects										
There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013	There were no public projects in 2012/2013
Comments: There were no public projects in 2012/2013										

³⁰ For public projects, enter the plans and specifications approval date.

³¹ List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.

³² List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.

³³ List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).

³⁴ List the legal mechanism(s) (e.g., maintenance plan for O&M by public entity, etc...) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.

³⁵ See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).

³⁶ For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.

³⁷ For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.

³⁸ Note whether a third party was used to certify the project design complies with Provision C.3.d.

³⁹ If HM control is not required, state why not.

⁴⁰ If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), bioretention unit(s), regional detention basin, or in-stream control).

C.3.h.iv. ► Table of Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

Fill in table below or attach your own table including the same information.

Name of Facility/Site Inspected	Address of Facility/Site Inspected	Newly Installed? (YES/NO) ⁴¹	Party Responsible ⁴² For Maintenance	Date of Inspection	Type of Inspection ⁴³	Type of Treatment/HM Control(s) Inspected ⁴⁴	Inspection Findings or Results ⁴⁵	Enforcement Action Taken ⁴⁶	Comments/Follow-up
Planet Pooch	113 South Linden Ave.	No	Planet Pooch	6/10/13	Routine	Detention basin; onsite	Proper O&M	None	Dog kennel detention basin in good working condition.
Mid Peninsula Housing	636 EL Camino Real	No	Mid-Peninsula Hosing Coalition	6/10/13	Routine	Vegetated swale; onsite	Proper O&M	None	None at this time.
Southwood Shopping Center	667 El Camino Real	No	Joe Welch	6/12/13	Routine	Drain inserts; onsite	Proper O&M	None	REM* Drain Inserts installed in all storm drains.
Gateway/ Genentech	681 Gateway Blvd.	No	Gateway	6/17/13	Routine	Vortex separator; onsite	Proper O&M	None	None at this time.
Oak Ave. Housing	99 Oak Ave.	No	Grand Oak Associates	6/17/13	Routine	Vortex separator, Vegetated swale; both onsite	Proper O&M	None	Non at this time.
Stonegate Estates	Hillsdale Blvd. @ Stonegate	No	Civita Corporation	6/17/13	Routine	Vortex separator, 16 Drain inserts, Vegetative swale; all onsite	Proper O&M	None	No stencils on inlets.
Italfoods	205 Shaw Road	No	Italfoods	6/24/13	Routine	Drain inserts; onsite	Proper O&M	None	Drain inserts look OK.
Britannia Oyster Point - II	329, 331, 333 Oyster Point Blvd.	No	CBRE	6/24/13	Routine	Vortex separator, Vegetated swale; both onsite	Proper O&M	None	Facility is not occupied and treatment devices working.
360 Shaw Road-mixed use facility	360 Shaw Road	No	William Esposto	6/24/13	Routine	Vortex separator; onsite	Proper O&M	None	Separator is clean.
Royal Auto	1331 San Mateo	No	Yousef Moustafa	6/25/13	Routine	Oil/Grit separator;	Maintenance required	None	Will re-inspect.

⁴¹ Indicate "YES" if the facility was installed within the reporting period, or "NO" if installed during a previous fiscal year.

⁴² State the responsible operator for installed stormwater treatment systems and HM controls.

⁴³ State the type of inspection (e.g., 45-day, routine or scheduled, follow-up, etc.).

⁴⁴ State the type(s) of treatment systems inspected (e.g., bioretention facility, flow-through planter, infiltration basin, etc...) and the type(s) of HM controls inspected, and indicate whether the treatment system is an onsite, joint, or offsite system.

⁴⁵ State the inspection findings or results (e.g., proper installation, improper installation, proper O&M, immediate maintenance needed, etc.).

⁴⁶ State the enforcement action(s) taken, if any.

C.3.h.iv. ► Table of Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

Fill in table below or attach your own table including the same information.

Name of Facility/Site Inspected	Address of Facility/Site Inspected	Newly Installed? (YES/NO) ⁴¹	Party Responsible ⁴² For Maintenance	Date of Inspection	Type of Inspection ⁴³	Type of Treatment/HM Control(s) Inspected ⁴⁴	Inspection Findings or Results ⁴⁵	Enforcement Action Taken ⁴⁶	Comments/Follow-up
	Ave.					onsite			
Royal Auto	1331 San Mateo Ave.	No	Yousef Moustafa	7/5/13	Re-inspection	Oil/Grit separator; onsite	Proper O&M	None	Sand/Oil separator serviced and looks good.
Wolfgangs Doggie care	242 Shaw Road	No	KSI Real Estate	6/26/13	Routine	Infiltration basin; onsite	Proper O&M	None	Large detention basin in rear of facility for dog waste.
Cytokinetics Bldg. 1	280 East Grand Ave.	No	Cytokinetics, Inc.	6/26/13	Routine	Drain inserts; onsite	Proper O&M	None	Drain inserts free of debris.
Genentech Parking Structure-2	353 Point San Bruno	No	Genentech, Inc.-Facilities	6/27/13	Routine	Vortex separator; onsite	Proper O&M	None	Separator looks very clean.
Genentech, Inc. B-3B	44 DNA Way	No	Genentech, Inc.-Facilities	6/27/13	Routine	Vortex separator; onsite	Proper O&M	None	Very little trash, separator serviced yearly.
Genentech Parking Structure - B	625 East Grand Ave.	No	Genentech, Inc.-Facilities	6/27/13	Routine	Oil/Grit separator; onsite	Proper O&M	None	Sand/oil separator looks good, no visible problems.
Genentech B-47	660 East Grand Ave.	No	Genentech, Inc.-Facilities	6/27/13	Routine	Vortex separator, Vegetated swale; onsite	Proper O&M	None	None at this time.
Westborough Square	2228 Westborough Dr.	Yes	Westborough Square	10/24/12	Initial	Vortex separator, onsite	Proper O&M	None	None at this time. New install.
Westborough Square	2220 Westborough Dr.	Yes	Westborough Square	10/31/12	Initial	Vortex separator, onsite	Proper O&M	None	None at this time. New install.
Westborough Park	2350 Galway Dr.	Yes	City of SSF	7/3/12	Initial	Vegetated swale, vegetated buffer strip onsite	Proper O & M	None	None at this time. New install.
111 Chestnut	111 Chestnut	Yes	Charles Ng	8/27/12	Initial	Vortex separator, onsite	Proper O & M	None	None at this time. New install.

C.3.e.vi.Special Projects Reporting Table

Reporting Period – January 1 – June 30, 2013

Project Name & No.	Permittee	Address	Application Submittal Date ⁴⁷	Status ⁴⁸	Description ⁴⁹	Site Total Acreage	Density DU/Acre	Density FAR	Special Project Category ⁵⁰	LID Treatment Reduction Credit Available ⁵¹	List of LID Stormwater Treatment Systems ⁵²	List of Non-LID Stormwater Treatment Systems ⁵³
No special projects in 2012/2013	No special projects in 2012/2013	No special projects in 2012/2013	No special projects in 2012/2013	No special projects in 2012/2013	No special projects in 2012/2013	No special projects in 2012/2013	No special projects in 2012/2013	No special projects in 2012/2013	No special projects in 2012/2013			

⁴⁷ Date that a planning application for the Special Project was submitted.

⁴⁸ Indicate whether final discretionary approval is still pending or has been granted, and provide the date or version of the project plans upon which reporting is based.

⁴⁹ Type of project (commercial, mixed-use, residential), number of floors, number of units, type of parking, and other relevant information.

⁵⁰ For each applicable Special Project Category, list the specific criteria applied to determine applicability. For each non-applicable Special Project Category, indicate n/a.

⁵¹ For each applicable Special Project Category, state the maximum total LID Treatment Reduction Credit available. For Category C Special Projects also list the individual Location, Density, and Minimized Surface Parking Credits available.

⁵² List all LID stormwater treatment systems proposed. For each type, indicate the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area.

⁵³ List all non-LID stormwater treatment systems proposed. For each type of non-LID treatment system, indicate: (1) the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area, and (2) whether the treatment system either meets minimum design criteria published by a government agency or received certification issued by a government agency, and reference the applicable criteria or certification.

Section 4 – Provision C.4 Industrial and Commercial Site Controls

Program Highlights

Provide background information, highlights, trends, etc.

Each year, the business inspection plan (Attachment A) is reviewed to make sure that it continues to meet the needs of the industrial and commercial inspection program. The facilities list (Attachment B) is reviewed to determine the inspection frequencies and priorities for the coming fiscal year. The facility spreadsheet is updated as needed. A list of facilities to be inspected for the next fiscal year is generated between June and August (Attachment C). Inspectors work from this spreadsheet. Businesses are lined out as they are inspected. A master inspection spreadsheet is also updated after each inspection or at the end of each day. The findings of each inspection are summarized on the spreadsheet. More details are included on the inspection forms. Follow-up inspections are performed as needed. Environmental Compliance Inspectors Andy Wemmer and Kristen Font participated in the CII Subcommittee in FY 12-13. Inspectors go to trainings as they are offered on a countywide/ regional basis. ERP training was conducted with Staff this last fiscal year after changes were made.

The City of South San Francisco submitted an updated ERP to the Regional Board on June 7, 2013 in response to the comment letter received on May 3, 2013.

For additional information refer to the C.4. Industrial and Commercial Site Controls section of the SMCWPP FY 12-13 Annual Report for a description of activities of SMCWPPP and/or the BASMAA Municipal Operations Committee.

C.4.b.i. ► Business Inspection Plan

Do you have a Business Inspection Plan? **See Attachment A**

<input checked="" type="checkbox"/>	Yes	<input type="checkbox"/>	No
-------------------------------------	-----	--------------------------	----

If No, explain:

C.4.b.iii.(1) ► Potential Facilities List

List below or attach your list of industrial and commercial facilities in your Inspection Plan to inspect that could reasonably be considered to cause or contribute to pollution of stormwater runoff.

Please see Attachment B for a list of industrial and commercial facilities in the City of South San Francisco’s Inspection Plan to inspect that could reasonably be considered to cause or contribute to pollution of stormwater runoff.

C.4.b.iii.(2) ► Facilities Scheduled for Inspection

List below or attach your list of facilities scheduled for inspection during the current fiscal year.

Please see Attachment C for a list of facilities scheduled for inspection during the current fiscal year 2013/2014.

C.4.c.iii.(1) ► Facility Inspections

Fill out the following table or attach a summary of the following information. Indicate your violation reporting methodology below.

<input checked="" type="checkbox"/>	Permittee reports multiple discrete violations on a site as one violation.
<input type="checkbox"/>	Permittee reports the total number of discrete violations on each site.

	Number	Percent
Number of businesses inspected	353	
Total number of inspections conducted	385	
Number of violations (excluding verbal warnings)	3	
Sites inspected in violation	3	0.85%
Violations resolved within 10 working days or otherwise deemed resolved in a longer but still timely manner	3	0.85%

Comments: Sites inspected found in violation are reported as one violation per site, even if multiple discrete violations are documented. The number of inspections exceeds the number of businesses inspected because of follow-up inspections that were performed to verify maintenance or enforcement actions have been completed or resolved. Any violation not resolved at the time of a follow-up inspection is considered to be part of the original violation, so is not counted separately. All violations were resolved within 10 days or otherwise deemed resolved in a longer but still timely manner.

There were 32 verbal warnings, these are not considered violations. There were two Notices of Violation (NOVs) and one Administrative Citation. These are considered violations.

C.4.c.iii.(2) ► Frequency and Types/Categories of Violations Observed

Fill out the following table or attach a summary of the following information.

Type/Category of Violations Observed	Number of Violations
Actual discharge (e.g. active non-stormwater discharge or clear evidence of a recent discharge)	3
Potential discharge and other	0

Comments: All discharges consisted of wash waters that were discharged to the storm drain.

<p>Discharge streams are counted as one discharge per inspection per site. “Actual discharges” are active, non-stormwater discharges or clear evidence of recent discharges. If the city encounters multiple violations on a site they are counted as one violation.</p>	
--	--

C.4.c.iii.(2) ► Frequency and Type of Enforcement Conducted

Fill out the following table or attach a summary of the following information.

	Enforcement Action (as listed in ERP) ⁴⁸	Number of Enforcement Actions Taken	% of Enforcement Actions Taken⁴⁹
Level 1	Verbal warning/warning letter(NOV)/compliance meeting	34	97%
Level 2	Administrative citation	1	3%
Level 3	Cease & desist order/Notice to Abate	0	0%
Level 4	Criminal penalties/Civil injunctions	0	0%
Total		35	100%

C.4.c.iii.(3) ► Types of Violations Noted by Business Category

Fill out the following table or attach a summary of the following information.

Business Category⁵⁰	Number of Actual Discharge Violations	Number of Potential/Other Discharge Violations
Restaurant	2	
Hotel	1	
All Others		0

⁴⁸ Agencies to list specific enforcement actions as defined in their ERPs.

⁴⁹ Percentage calculated as number of each type of enforcement action divided by the total number of enforcement actions.

⁵⁰ List your Program’s standard business categories.

C.4.c.iii.(4) ▶ Non-Filers

List below or attach a list of the facilities required to have coverage under the Industrial General Permit but have not filed for coverage:
The City has not identified any facilities required to have coverage under the Industrial General Permit that have not filed.

C.4.d.iii ▶ Staff Training Summary

Training Name	Training Dates	Topics Covered	No. of Inspectors in Attendance	Percent of Inspectors in Attendance
Stormwater Inspectors Training	April 24, 2013	Regulatory Refresher, Mobile Cleaning of Parking Garages, Discussing Illicit Discharge Scenarios	3	75%
ERP review	June 11, 2013	ERP review	4	100%

Section 5 – Provision C.5 Illicit Discharge Detection and Elimination

Program Highlights

Provide background information, highlights, trends, etc.

1) **The City of South San Francisco has an ongoing program for reporting illicit discharges within the City. When the street crew observes an illicit discharge or a suspected illicit discharge in the course of performing regularly scheduled maintenance, they call on the Environmental Compliance Inspectors to investigate. Additionally, Inspectors participate in a quarterly creek walk along Colma Creek with County of San Mateo staff, enabling Inspectors to identify problem areas containing evidence of past discharges. Residents of South San Francisco also call the Street Department or the WQCP to report illicit discharges/potential discharges.**
 The WQCP maintains a stormwater hotline for residents to report suspected illicit discharges. The hotline is publicized on the City’s website, and is printed on outreach materials such as brochures, reusable shopping bags, sponges, pencils, erasers and more. The Inspectors follow up on these reports as well.
 The City of South San Francisco performed a storm system screening on June 19-20, 2013. The storm system screening covered 9 outfalls, consisting of Sonora and Ramona Streets, South Maple Stormwater Pump Station, S. Canal and S. Linden, W. Harris and Mitchell, 300 Utah, End of Haskins Way, Lindenville Stormwater Pump Station, Shaw Road Stormwater Pump Station and channel by BART . The flows varied from none to steady. Trash was detected in five out of nine outfalls. Four outfalls had a low level of trash. One outfall had a high level of trash which was captured in the trash capture device. Odor was not detected at any of the outfalls. Color was detected at four of the outfalls. Turbidity was observed at five outfalls. Hydrocarbon sheen was observed at three of the outfalls. There was no evidence of Illicit Discharge or Illegal Dumping at any of the outfalls.

2) Environmental Compliance Inspectors Andy Wemmer and Kristen Font participated in the CII Subcommittee in FY 12-13.

3) Refer to the C.5 Illicit Discharge Detection and Elimination section of the SMCWPPP FY 12-13 Annual Report for a description of activities at the countywide or regional level.

4) Three inspectors attended the SMCWPPP April 24th Illicit Discharge Inspector Training Workshop

C.5.c.iii ► Complaint and Spill Response Phone Number and Spill Contact List

List below or attach your complaint and spill response phone number and spill contact list.

Contact	Description	Phone Number
Rob Lecel	Interim Environmental Compliance Supervisor	650-829-3882
Dan Fulford	Environmental Compliance Inspector	650-829-3881
Andy Wemmer	Environmental Compliance Inspector	650-829-3883
Kristen Font	Environmental Compliance Inspector	650-829-3880

Operations	After hours and weekends	650-877-8556
Stormwater Hotline	Monday-Friday 7:30-3:30	650-829-3848

C.5.d.iii ► Evaluation of Mobile Business Program

Describe implementation of minimum standards and BMPs for mobile businesses and your enforcement strategy. This may include participation in the BASMAA Mobile Surface Cleaners regional program or local activities.

Description: Inspectors regularly conduct surveillance. If they discover a mobile cleaner allowing wash water to flow to a stormdrain, the Inspectors stop and require any discharge to be curtailed and immediately cleaned up. Inspectors distribute and discuss BMPs, and an NOV is generally issued. When a mobile cleaner inquires about required BMPs, we inform them of the minimum standards and direct them to the BASMAA Pollution Prevention Training Program for surface washers.

The City of South San Francisco created a brochure entitled “Wash Water Disposal Practices for Mobile Surface Cleaners” during 2009/2010. This brochure is given to mobile surface cleaners when issues arise in the field or when we are contacted by a mobile surface cleaner.

The City contracts with Fleetwash to perform sidewalk cleaning along Grand Avenue in South San Francisco. Fleetwash is not a certified Mobile Cleaner. Fleetwash’s Standard Operating Procedure is:

- Evaluate site for recovery setup and pedestrian safety. Report any visible spills or leaks to on-site representative.
- Seal all storm drains and strip drains in the washing area.
- Set up a vacuum pod system with berms and suction mat. Eliminate the possibility of any discharges to any storm drains.
- Start vacuum system.
- Pre-treat stains with surface appropriate detergent.
- Start pressure washer. Power wash stains and surrounding area using hot water. Using the wand, sweep detergent, debris, and water toward recovery pods. Check vacuum operation and effectiveness, reposition pods if necessary.
- Collect all wash water from cleaning operation.
- Leave site litter free with no puddles of standing water.
- Complete work-order and include recovery gallons.
- Discharge water at Fleetwash approved dumpsite.

Refer to the C.5 Illicit Discharge Detection and Elimination section of the SMCWPPP FY 12-13 Annual Report for a description of efforts by the Commercial, Industrial and Illicit Discharge (CII) Subcommittee and the BASMAA Municipal Operations Committee to address mobile businesses.

Permittee Name: City of South San Francisco

C.5.e.iii ► Evaluation of Collection System Screening Program

Provide a summary or attach a summary of your collection screening program, a summary of problems found during collection system screening and any changes to the screening program this FY.

Description: The City of South San Francisco performs collection system screening on an annual basis. The City of South San Francisco performed a storm system screening on June 19-20, 2013. The storm system screening covered 9 outfalls, consisting of Sonora and Ramona Streets, South Maple Stormwater Pump Station, S. Canal and S. Linden, W. Harris and Mitchell, 300 Utah, End of Haskins Way, Lindenville Stormwater Pump Station, Shaw Road Stormwater Pump Station and channel by BART. The flows varied from none to steady. Trash was detected in five out of nine outfalls. Four outfalls had a low level of trash. One outfall had a high level of trash which was captured in the trash capture device. Odor was not detected at any of the outfalls. Color was detected at four of the outfalls. Turbidity was observed at five outfalls. Hydrocarbon sheen was observed at three of the outfalls. There was no evidence of Illicit Discharge or Illegal Dumping at any of the outfalls.

There are no changes planned to the screening program for 2013-2014.

Collection System Screening 6-19-13 to 6-20-13

Location	Flow	Depth of Flow (inches)	Trash Volume	Odor	Color	Turbidity	Hydrocarbon Sheen
Sonora & Ramona	Steady	2	ND	Absent	Absent	ND	ND
South Maple	None	0	Low	Absent	Present	ND	Low
South Canal & Linden	Steady	3-4	ND	Absent	Absent	ND	ND
Harris & Mitchell	Trickle	6	ND	Absent	Absent	Low	ND
End of Haskins	None	0	ND	Absent	Present	Low	ND
300 Utah-partial trash capture device	Trickle	Unknown	*High	Absent	Absent	Low	None
Lindenville Pump Station	None	0	Low	Absent	Present	Low	Low
Shaw Road Pump Station	None	0	Low	Absent	Present	Low	Low
Channel by BART	Steady	Unknown	Low	Absent	Absent	ND	ND

* Trash in capture device

C.5.f.iii.(1), (2), (3) ► Spill and Discharge Complaint Tracking

Spill and Discharge Complaint Tracking (fill out the following table or include an attachment of the following information)

	Number	Percentage
Discharges reported (C.5.f.iii.(1))	43	
Discharges reaching storm drains and/or receiving waters (C.5.f.iii.(2))	37	86%
Discharges resolved in a timely manner (C.5.f.iii.(3))	43	100%

Comments: Illicit discharges are discovered in the course of routine surveillance, in response to calls to the stormwater hotline and reports from the street crew. All tabulated discharges were reported on illicit discharge forms completed by WQCP staff. In some cases, a discharge may have reached the storm drain system, but was recovered by the street crew. Such discharges were not included in the number of discharges reaching storm drains and/or receiving water. If multiple types of discharges are observed at a location on the same report form they are counted as one discharge for the purpose of reporting in the tracking table above. However each type of discharge is counted separately in the chart below “Summary of major types of discharges and complaints”. The City had 43 separate discharge complaints with 54 different types of pollutants in those 43 complaints.

All reported discharges were resolved in a timely manner.

If the City receives a complaint on either the hotline or through other channels, inspectors will go out into the field and verify the claim of a discharge. All reported discharges were substantiated in the field. 86% of the discharges reached the storm drain. For the remaining 14% of the discharges there was no clear evidence that the discharge reached the storm drain.

C.5.f.iii.(4) ► Summary of major types of discharges and complaints

Provide a narrative or attach a table and/or graph.

Types of Pollutants Discharged				
Various Wash waters			23	43%
Sewage			1	2%
Construction Materials			3	6%
Vehicle Fluids			1	2%
Food Wastes			10	19%
Paint			3	6%
Sediment and/or Silt			0	0%
Industrial Wastes			3	6%
Litter and/or Debris			1	2%
Other			9	17%
Total			54	100%

Comments: The City had 43 separate discharge complaints with 54 different types of pollutants. In multiple cases when the inspector arrived at the source of the discharge, they found multiple types of pollutants being discharged at the same site at the time of inspection.

Section 6 – Provision C.6 Construction Site Controls

C.6.e.iii.1.a, b, c ▶ Site/Inspection Totals		
Number of High Priority Sites (sites disturbing < 1 acre of soil requiring storm water runoff quality inspection) (C.6.e.iii.1.a)	Number of sites disturbing ≥ 1 acre of soil (C.6.e.iii.1.b)	Total number of storm water runoff quality inspections conducted (include only High Priority Site and sites disturbing 1 acre or more) (C.6.e.iii.1.c)
0	3	32
Comments: A total of 32 construction site inspections were conducted at the 3 sites, all of which disturbed ≥ 1 acre. No other construction sites were inspected in 2012/2013.		

C.6.e.iii.1.d ▶ Construction Activities Storm Water Violations			
The City of South San Francisco did not have any violations of construction activities in 2012/20113. All enforcement actions consisted of verbal notices.			
BMP Category	Number of Violations⁵¹ excluding Verbal Warnings	% of Total Violations⁵²	
Erosion Control	0	NA	
Run-on and Run-off Control	0	NA	
Sediment Control	0	NA	
Active Treatment Systems	0	NA	
Good Site Management	0	NA	
Non Stormwater Management	0	NA	
Total⁵³	0	100%	

⁵¹ Count one violation in a category for each site and inspection regardless of how many violations/problems occurred in the BMP category. For example, if during one inspection at a site, there are 2 erosion control violations, only 1 violation would be counted for this table.

⁵² Percentage calculated as number of violations in each category divided by total number of violations in all six categories.

⁵³ The total number of violations may count more than one violation per inspection, since some inspections may result in violations in more than one category. For example, during one inspection of a site, there may have been both an erosion control violation and a sediment control violation. For this reason, the total number of violations in this table may not match the total number of enforcement actions reported in Table C6.e.iii.1.e.

C.6.e.iii.1.e ► Construction Related Storm Water Enforcement Actions

The City of South San Francisco's Construction Related Enforcement Actions consisted of verbal notices only. No Notices of Violation or higher levels of enforcement were issued in 2012/2013.
 Verbal notices were given to sites for maintenance or housekeeping issues viewed during the inspection. Items in this table were tabulated using the pre June 7th ERP. There were no inspections conducted after the ERP was modified on June 7th, 2013.

	Enforcement Action (as listed in ERP) ⁵⁴	Number Enforcement Actions Issued	% Enforcement Actions Issued ⁵⁵
Level 1 ⁵⁶	Verbal Warning/Notice of Violation/Compliance Meeting	10	100%
Level 2	Administrative Citation	0	0%
Level 3	Stop Work Order/Notice to Abate Nuisance	0	0%
Level 4	Criminal Penalties/Civil Injunctions	0	0%
Total		10	100%

C.6.e.iii.1.f, g ► Illicit Discharges

The City of South San Francisco observed no illicit discharges at any construction sites during 2012/2013.

	Number
Number of illicit discharges, actual and those inferred through evidence at high priority sites and sites that disturb 1 acre or more of land (C.6.e.iii.1.f)	0
Number of sites with discharges, actual and those inferred through evidence at high priority sites and sites that disturb 1 acre or more of land (C.6.e.iii.1.g)	0

⁵⁴ Agencies should list the specific enforcement actions as defined in their ERPs.

⁵⁵ Percentage calculated as number of each type of enforcement action divided by the total number of enforcement actions.

⁵⁶ For example, Enforcement Level 1 may be Verbal Warning.

C.6.e.iii.1.h, i ► Violation Correction Times

	Number	Percent
Violations (excluding verbal warnings) fully corrected within 10 business days after violations are discovered or otherwise considered corrected in a timely period (C.6.e.iii.1.h)	0	% ⁵⁷
Violations (excluding verbal warnings) not fully corrected within 30 days after violations are discovered (C.6.e.iii.1.i)	0	% ⁵⁸
Total number of violations (excluding verbal warnings) for the reporting year ⁵⁹	0	100%
<p>Comments: The City of South San Francisco did not have any violations at construction sites during 2012/2013. The only enforcement actions were verbal notices.</p> <p>Verbal notices were given to sites for maintenance or housekeeping issues observed during the inspection. These items were not considered a threat to water quality but needed to be documented in case the maintenance issue was not addressed and became a threat to water quality.</p>		

C.6.e.iii.(2) ► Evaluation of Inspection Data

Describe your evaluation of the tracking data and data summaries and provide information on the evaluation results (e.g., data trends, typical BMP performance issues, comparisons to previous years, etc.).

Overall there were no major problems with the construction sites in 2012/2013. The most common issues for 2012/2013 were for sediment control (track out), erosion control (soil stockpile maintenance) and site maintenance. There were fewer regulated projects in progress in 2012/2013, than in 2011/2012. There were fewer sites than in the previous year but more inspections were conducted. It is expected that rates of new development and redevelopment will increase each year as the economy recovers. The City will attempt to maintain a high level of scrutiny as the number of sites increases.

C.6.e.iii.(2) ► Evaluation of Inspection Program Effectiveness

Describe what appear to be your program's strengths and weaknesses, and identify needed improvements, including education and outreach.

Description: The City of South San Francisco's program is strong, with frequent inspections performed at each construction site especially during the wet season. Inspectors inspect each construction site before the beginning of the wet season, prior to qualifying rain events and several times during an extended or severe storm. They follow up at each site after the storm to determine if any repairs are necessary.

Most sites are very quick to respond and replace or repair their BMPs. Occasionally there are sites that require numerous inspections to get them to respond and repair their BMPs. Inspectors try to work with these sites to bring them back into compliance. While it may occasionally take more than 10 business days, this leeway is only given when discharge from the site is not observed.

⁵⁷ Calculated as number of violations fully corrected in a timely period after the violations are discovered divided by the total number of violations for the reporting year.

⁵⁸ Calculated as number of violations not fully corrected within 30 days after the violations are discovered divided by the total number of violations for the reporting year.

⁵⁹ The total number of violations reported in the table of Violation Correction Times equals the number of initial enforcement actions. I.e., This assumes one violation is issued for several problems during an inspection at a site. The total number of violations in the table of Violation Correction Times may not equal the total number of enforcement actions because one violation issued at a site may have a second enforcement action for the same violation at the next inspection if it is not corrected.

Permittee Name: City of South San Francisco

Inspectors participate in erosion control training at least once every 2 years.
 Inspection and enforcement data is tabulated in a construction tracking spreadsheet. The program used inspection forms that were updated in February 2011.
 The City of South San Francisco participates in the countywide program’s New Development Committee.
 Permit applicants are given the updated BMP plan sheet with other documents during the application process and if needed during construction site inspections.
 Two inspectors attended CALBIG Construction Site Stormwater Inspection Training on October 10, 2012.
 Two inspectors attended the April 11, 2013 Stormwater Training for Construction Site Inspectors Workshop.
 Refer to the C.6 Construction Site Control section of the SMCWPPP FY 12-13 Annual Report for a description of activities at the countywide or regional level.

C.6.f ► Staff Training Summary

Training Name	Training Dates	Topics Covered	No. of Inspectors in Attendance	Percent of Inspectors in Attendance
CALBIG Construction Site Stormwater Inspection	October 10, 2012	Update on new stormwater requirements for construction sites, overview of proper installation of construction BMPs, and tips for keeping your stormwater program in compliance	2	50%
Stormwater Training for Construction Site Inspectors	April 11, 2013	MRP Requirements for Inspection of Construction Sites, Differences between C.6 & Construction General Permit, Caltrans District 4 Experience, Review of Countywide Checklist, Using the Checklist, MRP Requirements for O&M Verification, Common Issues of Newly Installed Systems	2	50%
ERP review	June 11, 2013	ERP review- Reviewed revised Stormwater ERP with staff.	4	100%

Section 7 – Provision C.7. Public Information and Outreach

C.7.a ► Storm Drain Inlet Marking (existing storm drains)

(For FY 12-13 Annual Report only) Report prior years' estimated annual percentages of municipality maintained storm drain inlet markings inspected and maintained as legible with a no dumping message or equivalent. At least 80% of municipality-maintained storm drain inlet markings shall be inspected and maintained at least once per 5-year permit term.

Summary:

Estimated annual percentage of stenciled municipality storm drain inlets that were inspected and maintained as legible:

2009-10: 3500 or 100% were inspected. None were replaced.

2010-11: 3500 or 100% were inspected and 48 or 2% were replaced.

2011-12: 3500 or 100% were inspected and 123 or 4% were replaced.

2012-13: 3500 or 100% were inspected and 600 or 24% were replaced.

C.7.a ► Storm Drain Inlet Marking (newly-constructed, privately-maintained streets)

(For FY 12-13 Annual Report only) Report prior years' annual number of projects accepted after inlet markings were verified. For newly-approved, privately-maintained streets, permittees shall require inlet marking by the project developer upon construction and maintenance of markings through the development maintenance entity. Markings shall be verified prior to acceptance of the project.

Summary: The City of South San Francisco does not have any projects with privately-maintained streets constructed and accepted by our agency, for which inlets were marked prior to acceptance of the project.

Should the City have future projects with privately maintained streets the markings will be verified by the Building Department Inspectors or Environmental Compliance Inspectors prior to the final sign-off of the project.

Annual number of newly-constructed, privately-maintained streets for which inlets were marked:

2009-10: 0 projects

2010-11: 0 projects

2011-12: 0 projects

2012-13: 0 projects

C.7.b.ii.1 ► Advertising Campaign

Summarize advertising efforts. Include details such as messages, creative developed, and outreach media used. The detailed advertising report may be included as an attachment. If advertising is being done by participation in a countywide or regional program, refer to the separate countywide or regional Annual Report.

Summary:

No local advertising was performed. Advertising is done as a countywide/regional program.

“The following separate report developed by BASMAA summarizes the activities of the Regional Youth Litter Campaign:
 • **BASMAA Be the Street Youth Litter Campaign Report “**

C.7.b.iii.1 ► Pre-Campaign Survey

(For the Annual Report following the pre-campaign survey) Summarize survey information such as sample size, type of survey (telephone survey, interviews etc.). Attach a survey report that includes the following information. If survey was done regionally, refer to a regional submittal that contains the following information:

The following separate report developed by BASMAA summarizes any pre-campaign survey conducted in FY 12-13:
 • **BASMAA Be the Street Youth Litter Campaign Report**

Place an **X** in the appropriate box below:

	Survey report attached
X	Reference to regional submittal:

C.7.c ► Media Relations

Summarize the media relations effort. Include the following details for each media pitch in the space below, AND/OR refer to a regional report that includes these details:

- Topic and content of pitch
- Medium (TV, radio, print, online)
- Date of publication/broadcast

Summary: **There was no local media campaign.**
The following separate report developed by BASMAA summarizes media relations efforts conducted regionally during FY 12-13:
 • **BASMAA Media Relations Final Report FY 12-13**

This report and any other media relations efforts conducted countywide is included within the Public Information and Outreach section of the SMCWPPP FY 12-13 Annual Report.

C.7.d ► Stormwater Point of Contact

Provide details of website or phone number used as the point of contact. Report on how the point of contact is publicized and maintained. If any change occurs in this contact, report in a subsequent Annual Report.

The Stormwater Hotline number is included on all outreach materials. The contact list and Hotline number is posted on the website.
<http://www.ssf.net/index.aspx?NID=1201>
“The SMCWPPP initial points of contact have not changed, however, social media points of contact have been established in addition to the original website and phone number. A summary of efforts conducted by SMCWPPP to publicize stormwater points of contact (e.g. program

website, hotline, outreach materials, and social media, etc.) is included within the Public Information and Outreach section of the SMCWPPP FY 12-13 Annual Report."SMCWPPP.

C.7.e ► Public Outreach Events

Describe general approach to event selection. Provide a list of outreach materials and giveaways distributed. Use the following table for reporting and evaluating public outreach events.

Event Details	Description (messages, audience)	Evaluation of Effectiveness
FY 12-13 Coordination of California Coastal Clean-up Day in San Mateo County, September 15, 2012.	Coastal clean-up event – Colma Creek hot spot clean-up	135 volunteers in South San Francisco participated in cleaning up 2400+ feet along Colma Creek and collected 2,828 gallons of trash and debris.
FY 12-13 Pollution Prevention Week, September 19, 2012	Provided outreach materials from 11:00 am to 2:00 pm	Approximately 50 people were contacted at the Orange Ave. Library. Stormwater and pollution prevention materials available.
FY 12-13 Farmers Market, September 21, October 1, and October 15, 2012	Provided outreach materials including car wash outreach materials	Approximately 10-20 people were contacted per day. Stormwater and pollution prevention materials available.
FY 12-13 National River Clean-up, May 18, 2013	Creek clean-up event	App. 50 volunteers removed trash from 9-12 am. On May 18 th . 1000-1200 gallons of trash were collected from both sides of the pedestrian bridge and on both sides of Colma Creek.
FY 12-13 Coordination of California Coastal Clean-up Day in San Mateo County, September 15, 2012.	Coastal clean-up event See the C.7 Public Information and Outreach section of SMCWPPP's FY 12-13 Annual Report for more details.	4,490 residents volunteered county-wide at 30 locations, 26,936 gallons of trash and 6,620 gallons of recyclables removed <ul style="list-style-type: none"> ➤ 135 volunteers in South San Francisco participated in cleaning up 2400+ feet along Colma Creek and collected 2,828 gallons of trash and debris.
FY 12-13 County Fair, June 6-16, 2013	Stormwater program materials available. See the C.7 Public Information and Outreach section of SMCWPPP's FY 12-13 Annual Report for more details	Staffed by local agency and county staff; Approximately 1938 people contacted during the nine days. <ul style="list-style-type: none"> ➤ Four staff members from the WQCP participated in the County Fair by staffing the County Program booth.

C.7.f. ► Watershed Stewardship Collaborative Efforts

Summarize watershed stewardship collaborative efforts and/or refer to a regional report that provides details. Describe the level of effort and support given (e.g., funding only, active participation etc.). State efforts undertaken and the results of these efforts. If this activity is done regionally refer to a regional report.

Evaluate effectiveness by describing the following:

- Efforts undertaken
- Major accomplishments

Summary: The WQCP Staff supports the Community Preservation Task Force (CPTF). This group provides volunteers for Colma Creek clean-ups beyond the annual clean-up in September. Staff attends the CPTF meetings when possible and participates with volunteers during Colma Creek clean-ups.

A summary of efforts conducted by SMCWPPP to work with Watershed Stewardship Groups on a countywide level is included within the Public Information and Outreach section of the SMCWPPP FY 12-13 Annual Report.

C.7.g. ► Citizen Involvement Events

List the types of events conducted (e.g., creek clean up, storm drain inlet marking, native gardening etc.). Use the following table for reporting and evaluating citizen involvement events.

Event Details	Description	Evaluation of effectiveness
Girl Scout Clean-up, August 9, 2012	Colma Creek Clean-up	35 third grade students from Highlands Christian School removed trash from app. ½ mile along Colma Creek. They removed app. 200 gallons of trash from the creek.
FY 12-13 Coordination of California Coastal Clean-up Day in San Mateo County, September 15, 2012.	Coastal clean-up event – Colma Creek hot spot clean-up	135 volunteers in South San Francisco participated in cleaning up 2400+ feet along Colma Creek and collected 2,828 gallons of trash and debris.
FY 12-13 Coordination of California Coastal Clean-up Day in San Mateo County, September 15, 2012.	Coastal clean-up event – Haskins Way	Over 120 volunteers showed up and cleaned a combined ¾ mile long area along the bay front. The volunteers removed over 500 pounds

Permittee Name: City of South San Francisco

		of debris and another 50 pounds of recyclables. Most of the volunteers came from Westborough Middle School, South San Francisco High School, and a local church group.
Community Care Clean-up of Colma Creek January 26-27, 2013	Colma Creek Clean-up	Program removed 50-60, 5 gallon bags of trash.
Community Care Clean-up of Colma Creek February 2-3, 2013	Colma Creek Clean-up	Program removed 50-60, 5 gallon bags of trash.
Community Care Clean-up of Colma Creek February 9-10, 2013	Colma Creek Clean-up	Program removed 50-60, 5 gallon bags of trash.
Community Preservation Task Force (CPTF) Clean-up of Colma Creek, March 16, 2013	Colma Creek Clean-up	Over 40 volunteers took part in the event. They collected 140 gallons of litter, trash and debris from a ½ mile section of Colma Creek. They also planted native trees along the creek.
FY 12-13 Earth Day	Land clean-up event	Six schools in South San Francisco held Earth Day land clean-up events.
FY 12-13 National River Clean-up, May 18, 2013	Creek clean-up event	App. 50 volunteers removed trash from 9-12 am. on May 18 th . 1000-1200 gallons of trash were collected from both sides of the pedestrian bridge and on both sides of Colma Creek.
Rinat Bio-Sciences Clean-up, June 19, 2013	Colma Creek Clean-up	23 volunteers removed app. 400 gallons of trash from 9-12 am.
The following citizen involvement events were done on a countywide level by SMCWPPP and are included in the C.7 Public Information and Outreach section of SMCWPPP's FY 12-13 Annual Report: <ul style="list-style-type: none"> • Coordination of California Coastal Clean-up Day in San Mateo County, September 15, 2012. 	Coastal Clean-up event. See C.7 Public Information and Outreach section of SMCWPPP's FY 12-13 Annual Report.	Residents volunteered county-wide. See C.7 Public Information and Outreach section of SMCWPPP's FY 12-13 Annual Report. <ul style="list-style-type: none"> ➤ 135 volunteers in South San Francisco participated in cleaning up 2400+ feet along Colma Creek and collected 2,828 gallons of trash and debris.

C.7.h. ► School-Age Children Outreach

Summarize school-age children outreach programs implemented. A detailed report may be included as an attachment. Use the following table for reporting school-age children outreach efforts.

“SMCWPPP conducted two school-aged children outreach programs countywide. These programs are summarized in the Public Information and Outreach section of the SMCWPPP FY 12-13 Annual Report”

Program Details	Focus & Short Description	Number of Students/Teachers reached	Evaluation of Effectiveness
FY 12-13 Banana Slug String Band, Martin Elementary School,	We All Live Downstream - The program emphasizes the importance of not littering or dumping substances into the storm drain	Reached 300 Students in South San Francisco	Surveys of the performance and its effectiveness were sent to 16 schools, and 13 schools responded with 1139 student responses. The results indicated the following: <input type="checkbox"/> 86% understood that stormwater flows directly into the bay or ocean. <input type="checkbox"/> 94% answered correctly on questions related to the type of pollution often impacting storm drains. <input type="checkbox"/> 95% understand that pollution in the storm drain sickens or kills marine life. <input type="checkbox"/> 81% chose not littering as a way to prevent pollution. <input type="checkbox"/> 86% liked the presentation.
Environmental Health High School Presentation, El Camino High School	“Water Pollution Prevention: Problems and Solutions.” The program emphasizes educating students on basic problems and solutions of storm water pollution, and encourages them to become involved by educating others.	Reached 53 Students in South San Francisco	Surveys of 225 students were conducted in 9 classrooms. The results indicate the following: <input type="checkbox"/> 95% agreed or strongly agreed with the statement “I learned something new about watersheds, storm drains, and water pollution in the bay and ocean. <input type="checkbox"/> 88% agreed or strongly agreed with the statement “I learned new ways to protect the San Mateo County watersheds. <input type="checkbox"/> 93% agreed or strongly agreed with the statement “I would recommend this presentation to my friends.” In addition to rating these statements, students were given opportunities to write specific narrative comments to each statement, and wrote narrative responses to the question: “How will you apply the lessons that you learned in the presentation, specifically about actions you plan to take to

Permittee Name: City of South San Francisco

			prevent water pollution.” Narrative responses varied greatly, but showed students had an engaged interest in becoming active.
Sewer Science, Capuchino High School	Pollution Prevention Outreach including Stormwater	120	This is the 4th year we have presented it to Capuchino High School. While there is not a formal evaluation process feedback from teachers and students continues to be positive. Thank you cards are sent to us by the students that highlight what they learned.
Sewer Science, South San Francisco High School	Pollution Prevention Outreach including Stormwater	30	This is the 2th year we have presented it to South San Francisco High School. While there is not a formal evaluation process feedback from teachers and students continues to be positive. Thank you cards are sent to us by the students that highlight what they learned.

C.7.i. ► Outreach to Municipal Officials

(For FY 12-13 Annual Report only) Summarize outreach conducted to increase the overall awareness of stormwater and/or watershed messages among municipal officials.

Summary: The City of South San Francisco revised the Stormwater chapter of the Municipal Code in January 2013. In preparation for this revision WQCP staff provided a staff report with the justification for the changes. Staff also presented the information to the City Council in January 2013 prior to approval of the Municipal Code changes.

In June of each year WQCP staff gives an update of the stormwater program to City Council that includes: Examples of General Program responsibilities, examples of City Specific Program activities, and South San Francisco Fiscal Year Program accomplishments.

Refer to the SMCWPPP FY 12-13 Annual Report for additional information.

Section 8 - Provision C.8 Water Quality Monitoring

C.8 ► Water Quality Monitoring

State below if information is reported in a separate regional report. Municipalities can also describe below any Water Quality Monitoring activities in which they participate directly, e.g. participation in RMP workgroups, fieldwork within their jurisdictions, etc.

Summary: During FY 12-13, we contributed through SMCWPPP to the BASMAA Regional Monitoring Coalition (RMC). In addition, we contributed financially to the Regional Monitoring Program for Water Quality in the San Francisco Estuary (RMP) and were represented at RMP committees and work groups. Monitoring efforts and results are documented in a separate report submitted March 15 of each year, as required in Provision C.8. For additional information on monitoring activities conducted by SMCWPPP, BASMAA RMC and the RMP, see the C.8 Water Quality Monitoring section of the SMCWPPP FY 12-13 Annual Report.

Section 9 – Provision C.9 Pesticides Toxicity Controls

C.9.b ► Implement IPM Policy or Ordinance					
Report implementation of IPM BMPs by showing trends in quantities and types of pesticides used, and suggest reasons for increases in use of pesticides that threaten water quality, specifically organophosphates, pyrethroids, carbaryl, and fipronil. A separate report can be attached as evidence of your implementation.					
Trends in Quantities and Types of Pesticides Used⁶⁰					
Pesticide Category and Specific Pesticide Used	Amount⁶¹				
	FY 09-10	FY 10-11	FY 11-12	FY 12-13	FY 13-14
Organophosphates	None	None	None	None	
Product or Pesticide Type A	None	None	None	None	
Product or Pesticide Type B	None	None	None	None	
Pyrethroids	None	None	None	None	
Product or Pesticide Type X	None	None	None	None	
Product or Pesticide Type Y	None	None	None	None	
Carbaryl	None	None	None	None	
Fipronil	None	None	None	None	

C.9.c ► Train Municipal Employees	
Enter the number of employees that applied or used pesticides (including herbicides) within the scope of their duties this reporting year.	19
Enter the number of these employees who received training on your IPM policy and IPM standard operating procedures within the last 3 years. City of South San Francisco employees did not participate in the Countywide IPM training but were trained in house on IPM policies and procedures. The video "IPM in Schools" Training DVD is used as an instructional aid for in house training.	19
Enter the percentage of municipal employees who apply pesticides who have received training in the IPM policy and IPM standard	100%

⁶⁰ Includes all municipal structural and landscape pesticide usage by employees and contractors.

⁶¹ Weight or volume of the product or preferably its active ingredient, using same units for the product each year. The active ingredients in any pesticide are listed on the label. The list of active ingredients that need to be reported in the pyrethroids class includes: allethrin (D-allethrin), bioallethrin, bifenthrin, beta-cyfluthrin, cyfluthrin, cypermethrin, cyphenothrin, deltamethrin, esfenvalerate, etofenprox, gamma-cyhalothrin, imiprothrin, lambda-cyhalothrin, metofluthrin, permethrin, phenothrin, prallethrin, resmethrin, sumithrin (D-phenothrin), tau fluvalinate, tefluthrin, tetramethrin, tralomethrin, and zeta-cypermethrin (S-cypermethrin).

operating procedures within the last three years.

C.9.d ▶ Require Contractors to Implement IPM

Did your municipality contract with any pesticide service provider in the reporting year? Yes No

If yes, attach one of the following:

- Contract specifications that require adherence to your IPM policy and standard operating procedures, OR
- Copy(ies) of the contractors' IPM certification(s) or equivalent, OR
- Equivalent documentation.

The City of South San Francisco verifies IPM contractor performance by hiring professionals that certify they are properly trained and use IPM.

ValleyCrest Landscape Maintenance (contract specifications attached)
 Marlene Barneveld, Branch manager
 4055 Bohannon Drive
 Menlo Park, CA 94025
 650 289 9324

Terminix International (Green Pro Certified) (Green Pro Certification attached is different from Quality Pro Green (Regional Board staff review cited Quality Pro Green certification) The Green Pro certification ensures technicians are trained and 'only make traditional pesticide applications after discussing the options with you and getting your consent'.)
 32980 Alvarado-Niles #826
 Union City, CA 94587
 510 489 8689

The City of South San Francisco has contract specifications that require adherence to IPM. See attached contracts: Attachment D.

C.9.e ▶ Track and Participate in Relevant Regulatory Processes

Summarize participation efforts, information submitted, and how regulatory actions were affected **OR** reference a regional report that summarizes regional participation efforts, information submitted, and how regulatory actions were affected.

Summary: During FY 12-13, we participated in regulatory processes related to pesticides through contributions to SMCWPPP, BASMAA and CASQA. For additional information, see the Regional Pollutants of Concern Report submitted by BASMAA on behalf of all MRP Permittees and included as an appendix to the SMCWPPP Annual Report.

C.9.f ▶ Interface with County Agricultural Commissioners

Did your municipal staff observe any improper pesticide usage or evidence of improper usage (e.g., pesticides in storm drain systems, along street curbs, or in receiving waters) during this fiscal year?

<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	No
--------------------------	------------	-------------------------------------	-----------

If yes, provide a summary of improper pesticide usage reported to the County Agricultural Commissioner and follow-up actions taken to correct any violations. A separate report can be attached as your summary.

C.9.g. ► Evaluate Implementation of Source Control Actions Relating to pesticides

(For FY 12-13 Annual Report only) Submit a report that evaluates; 1) the effectiveness of control measures implemented, and 2) attainment of pesticide concentration and toxicity targets for water and sediment from monitoring data (Provision C.8.). If needed, the report should include the following:

- Improvements to existing control measures and/or additional control measures required.
- A plan to implement improved and/or new control measures.

Summary: The Effectiveness Evaluation Report is included in Section C.9 Pesticides Toxicity Control of the SMCWPPP FY 12-13 Annual Report

The City of South San Francisco evaluated it's IPM Program in the following ways:

- The City of South San Francisco has adopted an IPM Policy.
- The City provided training for 19 of the staff involved in pesticide application in 2012/2013. The 19 staff members were trained through in house training.
- The City requires contractors to implement IPM.
- The City requires New Development and Redevelopment Projects to use native plants which results in minimized pesticide use.
- There has been no use of the pesticides of concern since the implementation of the MRP in 2009.

C.9.h.ii ► Public Outreach: Point of Purchase

Provide a summary of public outreach at point of purchase, and any measurable awareness and behavior changes resulting from outreach (here or in a separate report); **OR** reference a report of a regional effort for public outreach in which your agency participates.

Summary: No point of purchase outreach was conducted on a local level by the City of South San Francisco.

The following reports developed by SMCWPPP and BASMAA summarize point of purchase outreach efforts on a countywide and regional level:

- SMCWPPP FY 12-13 Annual Report, Public Information and Outreach section
- BASMAA FY 12-13 "Our Water Our World" report

C.9.h.iv ► Pest Control Contracting Outreach

(For FY 12-13 Annual Report only) Document effectiveness of outreach to residents who use or contract for structural or landscape pest control **OR** reference a regional that summarizes these actions.

Summary: No pesticide outreach to residents who use or contract for structural or landscape pest control was conducted on a local level by the City of South San Francisco.

Permittee Name: City of South San Francisco

Efforts to conduct outreach at the countywide level related to pest control contracting are summarized in the SMCWPPP FY 12-13 Annual Report, C.9 Pesticides Toxicity Control section.

C.9.h.vi ► Public Outreach: Pest Control Operators

Provide a summary of public outreach to pest control operators and landscapers and reduced pesticide use (here or in a separate report); **OR** reference a report of a regional effort for outreach to pest control operators and landscapers in which your agency participates.

Summary: No outreach to pest control operators and landscapers to reduce pesticide use was conducted on a local level directly by the City of South San Francisco.

Efforts to conduct outreach at the countywide level to pest control operators to reduce pesticide use are summarized in the SMCWPPP FY 12-13 Annual Report, C.9 Pesticides Toxicity Control section

Response to Water Board Staff Comments on Section 9, Provision C.9, of FY 11-12 Annual Report

Use this area to respond to any Water Board staff comments on Section 9 of your FY 11-12 Annual Report, and refer to any required submittals that are attached.

No Water Board Staff comments were made on Section 9 of the 11-12 Annual Report.

Section 10 - Provision C.10 Trash Load Reduction

C.10.a.iii ► Minimum Full Trash Capture (Summary of Actions)

Provide the following:

- 1) Descriptions of actions/tasks initiated, conducted or completed in implementing Minimum Full Trash Capture Devices (due July 1, 2014), including numbers of devices, device types and total land area treated to-date by full capture devices;
- 2) Descriptions of planned actions/tasks and time schedules for completion;
- 3) A map that includes locations of all full capture devices installed (private and public) to-date and associated treatment areas, trash generation rates/areas, creek/shoreline trash hot spots, and trash management areas defined to-date.
- 4) A summary of maintenance activities implemented for each device or groups of devices, including descriptions of typical maintenance frequencies and issues associated with maintaining these devices.

Descriptions of Actions/Tasks (Conducted or Planned):

See Attachment E for a list of trash capture devices and locations.

Summary: The City of South San Francisco has installed 82 inlet screen trash capture devices - See Attachment E. Maps of the location of the trash capture devices and maintenance areas is also included - See Attachments F & G. The City does not plan on installing additional trash capture devices prior to July 1, 2014. At this time the City has not been able to determine the total area treated by each trash capture device. The areas of treatment for each trash capture device will be completed by the submission of the Long-term Trash Load Reduction Plan on February 1, 2014.

Included are maps (See Attachments F and G) with the locations of very high, high, medium and low trash generating areas as well as the trash management areas identified to-date during the development of our Long-Term Trash Load Reduction Plan; and other features that will provide context to the device locations and stormwater trash management areas in the City. The map will include the location of the trash hot spots for the City of South San Francisco by the submission of the Long-term Trash Load Reduction Plan February 2014.

Descriptions of Maintenance Activities:

All trash capture devices are cleaned/inspected twice during the summer and before, during and after each storm.

The main issue with the devices is that they plug up during storms and cause flooding so constant maintenance is required. Upon installation of the devices the City expected to clean/maintain the devices before and after each storm however the devices require cleaning/maintenance during storms as well.

Another issue with the devices is that the contractor is unavailable to help trouble shoot because they went out of business.

Maintenance records are on the Computerized Maintenance Management System (CMMS) located on the City server – Cityworks (maintenance records and reports) and are therefore easily accessed for audit purposes.

A map of the location of the trash capture devices and maintenance areas is also included - See Attachment F.
 The areas of treatment for each trash capture device will be completed by the submission of the Long-term Trash Load Reduction Plan on February 1, 2014.

C.10.a.iii ► Minimum Full Trash Capture (List of Devices)

Provide a list of trash full capture devices installed to-date or planned for installation by July 1, 2014 and the land area treated by each device or group of devices.

Applicable Trash Management Area (Preliminary Map ID)	Device Type	Planned or Installed	Maintenance Frequency	Total Number Installed	Total Area Treated (acres)
	See Attachment E				
Totals				82	TBD

TBD - To Be Determined

C.10.b.iii ► Trash Hot Spot Assessment

Provide the volume of material removed from each Trash Hot Spot clean-up, and the dominant types of trash (e.g., glass, plastics, paper) removed and their sources to the extent possible. Additionally, include a map that identifies the location(s) of trash hot spots.

Trash Hot Spot	Clean-up Date	FY 2012-13 Volume of Trash Removed (cubic yards)	FY 2011-12 Volume of Trash Removed (cubic yards)	FY 2010-11 Volume of Trash Removed (cubic yards)	Dominant Type(s) of Trash	Trash Sources (where possible)
SSF01	9/15/2012 2/2/2013 2/3/2013 6/19/2013	12.68	0.99	3.01	Plastic Bags, Styrofoam, Convenience/Fast Food items, Bottles (plastic or glass), Other plastic products, Cigarette butts, Wood debris, Furniture, Tires, Bags of trash, Appliances, Pallets	Litter, Illegal dumping, Trash accumulation, Outfall
SSF02	9/15/2012 2/2/2013 2/3/2013 6/19/2013		1.49	2.85	Plastic Bags, Styrofoam, Convenience/Fast Food items, Bottles (plastic or glass), Other plastic products, Cigarette butts, Wood debris, Furniture, Tires, Bags of trash, Appliances, Pallets	Litter, Illegal dumping, Trash accumulation, Outfall

C.10.c ► Long-Term Trash Load Reduction Plan	
Provide descriptions of the progress made to-date on the development of Long-term Trash Load Reduction Plans due to the Water Board by February 1, 2014.	
Long-Term Plan Task	Summary of Progress
1. Identifying and mapping trash generating areas	<p>We have reviewed the trash maps and have verified the trash generating areas. We are finished with the verifications. If we have any additional questions we will go out into the field to verify the zoning, potential sources and the priority on the list.</p> <p>For verification we reviewed the maps then went into the field to view areas that we thought were categorized incorrectly. From there we reviewed the area for trash on the street, the zoning and use, along with potential sources. The majority of the zoning on the maps was accurate.</p> <p>As we prioritize the areas we go out to re-verify if any questions arise.</p> <p>The City is using the trash generation maps that are included in section C.10.a.iii</p>
2. Identifying trash sources (as necessary or feasible) to assist in selecting trash management actions	<p>The City is currently working on identifying trash sources in the City. We have been out in the field to look for sources of trash and thus far have identified littering, illegal dumping, windblown trash and improper trash area management as sources of trash. We will have a better understanding of trash sources by February 2014, when the Long-Term Trash Load Reduction Plan is due.</p>
3. Prioritizing trash generating areas and associated types of trash problems	<p>The City is currently working on prioritizing areas within the city. We have prioritized old town and downtown as major hot spots. These are hot spots because of the high density population and the zoning in these areas. Most of the trash is from littering and windblown trash. We will have a better understanding of the prioritized trash generation areas by February 2014, when the Long-Term Trash Load Reduction Plan is due.</p>
4. Identifying and selecting trash management actions for specific management areas	<p>The City has chosen thus far to work on improved trash bin/container management and conducting more on-land clean-ups. The City is also determining the feasibility of installing full trash capture in our high impact trash management areas.</p> <p>We will finalize our management areas and sections by February 2014, when the Long-Term Trash Load Reduction Plan is due.</p>

Permittee Name: City of South San Francisco

<p>5. Defining the type of assessment(s) that will be used to demonstrate progress towards goals</p>	<p>The City is in the process of defining the type of assessments it will use to determine the effectiveness of our trash reduction goal. The City will research possible methods and determine which methods are the most accurate in determining the trash load reduction. We will finalize our assessment protocol and selections by February 2014, when the Long-Term Trash Load Reduction Plan is due.</p> <p>The City of South San Francisco is currently exploring a number of assessment methods that will assist the City in demonstrating progress towards solving municipal stormwater-related trash problems within our jurisdictional area. Through our participation in SMCWPPP, we are currently developing a countywide pilot trash assessment strategy and work plan. The pilot strategy will address the need to demonstrate progress in the near-term, while recognizing the fact that method development and testing is needed to achieve confidence in conclusions about trash reduction. The pilot strategy may include the testing of a number of trash assessment methods, including</p> <ul style="list-style-type: none"> • Visual assessments of trash conditions on-land; • Trash full capture device operation/maintenance verification; • Condition assessments in receiving waters; and, • Documenting and assessing control measure implementation. <p>The pilot strategy will be included as a supplement to our Long-Term Trash Load Reduction Plan, which will be submitted to the Water Board by February 1, 2014. The City may also choose to supplement the pilot strategy with City specific assessment strategies. The pilot strategy will be implemented in coordination with the three-year <i>Tracking California's Trash</i> grant-funded project, which was awarded to BASMAA by the State Board. A number of trash monitoring and assessment methods will be tested through the project and assist the City in developing a robust set of indicators for demonstrating progress toward trash reduction goals.</p>
--	--

C.10.d Summary of Trash Reduction Actions

For each trash reduction action (i.e., control measures and best management practices) implemented by your municipality during the reporting period include a full description of the action. Describe actions initiated prior to and continued after the MRP effective date (December 2009), actions initiated after the MRP effective date, and actions planned for future implementation. If a planned action, also include the planned date of implementation. Add rows for actions not listed below as needed. Also identify the dominant source of trash and dominant types of trash removed for each action. To the extent possible, identify the applicable management areas identified on the map created under reporting section C.10.a.iii.

Action	Description	Trash Management Area(s) (Preliminary Map ID)	Dominant Sources	Dominant Types
Trash Management Area Specific Actions				
Full-Capture Treatment Devices	Continued Pre-MRP Actions: None.		Litter, windblown trash	Bottles, Styrofoam
	New/Enhanced Post-MRP Actions Initiated/Planned: See description in section C.10.a.iii Trash management areas are listed on the chart - Attachment E and can be found on the map - Attachment F.	See map for location of treatment devices		
Street Sweeping	Continued Pre-MRP Actions: The City of South San Francisco's street sweeping program includes sweeping streets in residential, downtown and retail areas. All areas are swept once per week.	Jurisdiction-wide	Litter, windblown trash	Plastic wrappers, bottles, Styrofoam packaging
	New/Enhanced Post-MRP Actions Initiated/Planned: No new/enhanced street sweeping planned; as the streets are currently swept weekly.	Jurisdiction-wide		
On-land Trash Clean-ups	Continued Pre-MRP Actions: None.	NA	Litter, homeless encampments	Plastic wrappers, bottles,
	New/Enhanced Post-MRP Actions Initiated/Planned: The City is in the process of organizing an annual on-land clean-up. One clean-up was conducted in 12/13 on Earth Day on Littlefield Ave. This commercial site was chosen because it is near the bay and was impacted by trash. The location is in trash maintenance area 9. Six schools in South San Francisco conducted on-land clean-ups for Earth Day. The clean-ups are permittee or volunteer led and are advertised to the community for involvement.	9		

C.10.d Summary of Trash Reduction Actions

For each trash reduction action (i.e., control measures and best management practices) implemented by your municipality during the reporting period include a full description of the action. Describe actions initiated prior to and continued after the MRP effective date (December 2009), actions initiated after the MRP effective date, and actions planned for future implementation. If a planned action, also include the planned date of implementation. Add rows for actions not listed below as needed. Also identify the dominant source of trash and dominant types of trash removed for each action. To the extent possible, identify the applicable management areas identified on the map created under reporting section C.10.a.iii.

Action	Description	Trash Management Area(s) (Preliminary Map ID)	Dominant Sources	Dominant Types
Partial-Capture Treatment Devices	Continued Pre-MRP Actions: The City has three partial-capture trash devices installed. The three devices are trash racks and are located at the Lindenville, South Maple and San Mateo Ave. stormwater pump stations. These devices are cleaned and inspected on an annual basis.	Areas 6 and 7	Illegal dumping and windblown	Plastic, household trash
	New/Enhanced Post-MRP Actions Initiated/Planned: Devices are currently on an annual inspection and cleaning schedule.	Areas 6 and 7		
Enhanced Storm Drain Inlet Maintenance	Continued Pre-MRP Actions: All 3500 drain inlets are inspected and cleaned on an annual basis.	Jurisdiction-wide	Windblown trash, litter	Plastic, paper, bottles
	New/Enhanced Post-MRP Actions Initiated/Planned: All 3500 drain inlets continue to be inspected and cleaned on an annual basis.	Jurisdiction-wide		
Anti-littering and Illegal Dumping	Continued Pre-MRP Actions: The City investigates calls of illegal dumping and enforces on a case by case basis. The City will continue to post the stormwater hotline number on the City's website.	Jurisdiction-wide	Illegal dumping, littering	Wood waste, construction debris,

C.10.d Summary of Trash Reduction Actions

For each trash reduction action (i.e., control measures and best management practices) implemented by your municipality during the reporting period include a full description of the action. Describe actions initiated prior to and continued after the MRP effective date (December 2009), actions initiated after the MRP effective date, and actions planned for future implementation. If a planned action, also include the planned date of implementation. Add rows for actions not listed below as needed. Also identify the dominant source of trash and dominant types of trash removed for each action. To the extent possible, identify the applicable management areas identified on the map created under reporting section C.10.a.iii.

Action	Description	Trash Management Area(s) (Preliminary Map ID)	Dominant Sources	Dominant Types
Enforcement Activities	<p>New/Enhanced Post-MRP Actions Initiated/Planned: The City of South San Francisco is currently evaluating various methods to deter illegal dumping. The City plans on installing physical barriers where feasible. The City investigates calls of illegal dumping and enforces on a case by case basis. The City will continue to post the stormwater hotline number on the City's website and include information that this number can also be used to report illegal dumping and littering. Enhanced implementation will include enforcement by Code Enforcement and Environmental Compliance through Notices of Violation and Administrative Citations.</p>	Jurisdiction-wide		household trash, bottles, cans and plastic wrappers
Improved Trash Bins/ Container Management	<p>Continued Pre-MRP Actions: Trash Bin Management was done on a case-by-case basis if signs of illicit discharge were apparent.</p> <p>New/Enhanced Post-MRP Actions Initiated/Planned: Currently during stormwater inspections businesses that have dilapidated or broken trash containers or are missing lids are required to have them fixed or replaced. These are verbal warnings that are written down on inspection forms and followed up to be sure the bin is fixed/replaced.</p>	Jurisdiction-wide	Poor housekeeping from businesses	Dependent on the type of business; can include plastic, polystyrene, cardboard,
Creek, Channel, Shoreline Clean-ups	<p>Continued Pre-MRP Actions: The City participated in coastal clean-up day on a shoreline on the east side of the city near Haskins Way. This brought in an average of 90 lbs. of recyclables and 625 lbs. of trash each year.</p>	Area 11	Litter, wind	Litter, Illegal dumping, Trash

C.10.d Summary of Trash Reduction Actions

For each trash reduction action (i.e., control measures and best management practices) implemented by your municipality during the reporting period include a full description of the action. Describe actions initiated prior to and continued after the MRP effective date (December 2009), actions initiated after the MRP effective date, and actions planned for future implementation. If a planned action, also include the planned date of implementation. Add rows for actions not listed below as needed. Also identify the dominant source of trash and dominant types of trash removed for each action. To the extent possible, identify the applicable management areas identified on the map created under reporting section C.10.a.iii.

Action	Description	Trash Management Area(s) (Preliminary Map ID)	Dominant Sources	Dominant Types
	New/Enhanced Post-MRP Actions Initiated/Planned: In FY 12-13 there were eight single-day creek clean-ups in Colma Creek in addition to the mandatory Hot Spot clean-up in September 2012, for a total of nine creek clean-ups. Three clean-ups were City-led and six were a collaborative effort between the City and volunteers.	Area 11		accumulation, Outfall
Area/Jurisdictional-wide Actions				
Single-Use Carryout Bag Policies	Continued Pre-MRP Actions: No pre-MRP actions. New/Enhanced Post-MRP Actions Initiated/Planned: The City of South San Francisco has partnered with the County of San Mateo to ban single use bags in its jurisdiction. The ban went into effect on April 22, 2013. http://smchealth.org/sites/default/files/docs/EHS/Final_15_Plastic%20Bag_Ord_04637.pdf Single use bags are distributed at all outreach events. The majority of the outreach effort was done Countywide. The City's outreach effort involves the distribution of 400-500 reusable bags each year at various outreach events.	Jurisdiction-wide	Litter	Plastic bags

C.10.d Summary of Trash Reduction Actions

For each trash reduction action (i.e., control measures and best management practices) implemented by your municipality during the reporting period include a full description of the action. Describe actions initiated prior to and continued after the MRP effective date (December 2009), actions initiated after the MRP effective date, and actions planned for future implementation. If a planned action, also include the planned date of implementation. Add rows for actions not listed below as needed. Also identify the dominant source of trash and dominant types of trash removed for each action. To the extent possible, identify the applicable management areas identified on the map created under reporting section C.10.a.iii.

Action	Description	Trash Management Area(s) (Preliminary Map ID)	Dominant Sources	Dominant Types
Polystyrene Foam Food Service Ware Policies	<p>Continued Pre-MRP Actions: Polystyrene ban took effect on October 1, 2008. Code enforcement enforces the ordinance in their annual inspections of food facilities. http://gcode.us/codes/southsanfrancisco/Chapter 8.60 GREEN FOOD PACKAGING</p> <p>New/Enhanced Post-MRP Actions Initiated/Planned: Continuing enforcement of the Polystyrene ban in food service facilities in South San Francisco. Code enforcement enforces the ordinance in their annual inspections of food facilities. Code enforcement has also gone to the local Smart & Final and Costco and asked them to limit sales of these products to help local businesses stay in compliance.</p>	Jurisdiction-wide	Litter, windblown litter	Polystyrene foam food packaging
Public Education and Outreach Programs	<p>Continued Pre-MRP Actions: SMCWPPP Public Information and Participation Program (Countywide)</p> <p>Through participation and funding of the San Mateo Countywide Water Pollution Prevention Program's (SMCWPPP) Public Information and Participation program (PIP), the City of South San Francisco plans to continue implementing litter reduction outreach to school-age children and youth. SMCWPPP currently oversees a contract to provide direct outreach to grades K-5 in a school setting on behalf of all permittees. The contract is currently held by the Banana Slug String Band, which performs a presentation called "We All Live Downstream." Through songs and interactive exercises, the message of not putting anything in the stormdrains (including trash) is delivered, along with basic concepts of the water cycle and the impact of pollution on aquatic life. In addition, SMCWPPP has developed a presentation entitled "Water Pollution Prevention: Problems and Solutions" that is delivered to high school students. This presentation is dedicated to watershed and stormdrain education, and the impact of litter on local creeks and waterways. Both efforts are managed to ensure</p>	Jurisdiction-wide	Plastic Bags, Styrofoam, Convenience/Fast Food items, Bottles (plastic or glass), Other plastic products, Cigarette butts, Wood debris, Furniture, Tires, Bags of trash, Appliances, Pallets	Litter, Illegal dumping, Trash accumulation, Outfall

C.10.d Summary of Trash Reduction Actions

For each trash reduction action (i.e., control measures and best management practices) implemented by your municipality during the reporting period include a full description of the action. Describe actions initiated prior to and continued after the MRP effective date (December 2009), actions initiated after the MRP effective date, and actions planned for future implementation. If a planned action, also include the planned date of implementation. Add rows for actions not listed below as needed. Also identify the dominant source of trash and dominant types of trash removed for each action. To the extent possible, identify the applicable management areas identified on the map created under reporting section C.10.a.iii.

Action	Description	Trash Management Area(s) (Preliminary Map ID)	Dominant Sources	Dominant Types
	<p>that schools in each community in the County are reached. For communities without High Schools, the feeder schools in neighboring communities are specifically targeted for presentations. In addition to outreach at the school sites, a number of student activity guides and coloring books related to watershed health and littering are provided to children who attend outreach events. Schools are also directly targeted in promotion of Coastal Cleanup Day.</p> <p>PIP also participates in a regional anti-littering campaign developed by BASMAA targeted at youth ages 14 to 24. As acting chair of the BASMAA PIP committee, SMCWPPP PIP has participated in the development and dissemination of campaign materials, and has conducted local events on behalf of all jurisdictions to promote the campaign. The campaign, entitled "Be The Street You Want to See", will soon transition from building a community of youth dedicated to not littering to engaging that community in action.</p> <p>SMCWPPP, through its PIP program, plans to continue to conduct community outreach events on behalf of Permittees who request support. Outreach materials related to litter that are distributed include, in addition to the children's materials listed above under Outreach to School-age Children or Youth, a promotional sign for cigarette smokers to discourage cigarette litter, and pocket ashtrays are given out. A general stormwater pollution prevention flyer in English and Spanish that includes litter reduction in its messaging is distributed. In addition to table outreach events conducted for specific Permittees, PIP also conducts a Countywide Event aimed to reach residents from throughout the County. PIP manages an online calendar which promotes cleanup events by non-profit organizations throughout the County. In FY 2012, PIP completed its 7th year acting as the county coordinator for Coastal Cleanup Day, increasing volunteer participation by 400% in that time, and trash removal increased by 300%.</p> <p>During the term of the MRP, new outreach materials have been disseminated to the public, including reusable shopping bags to encourage reduction in use of plastic carryout bags PIP has supported a countywide ban on carryout bags that began implementation on April 22,</p>			

C.10.d Summary of Trash Reduction Actions

For each trash reduction action (i.e., control measures and best management practices) implemented by your municipality during the reporting period include a full description of the action. Describe actions initiated prior to and continued after the MRP effective date (December 2009), actions initiated after the MRP effective date, and actions planned for future implementation. If a planned action, also include the planned date of implementation. Add rows for actions not listed below as needed. Also identify the dominant source of trash and dominant types of trash removed for each action. To the extent possible, identify the applicable management areas identified on the map created under reporting section C.10.a.iii.

Action	Description	Trash Management Area(s) (Preliminary Map ID)	Dominant Sources	Dominant Types
	<p>2013. In addition, spring cleanups taking place in individual jurisdictions are promoted under one theme by PIP, entitled Spring Cleaning SMC. PIP assists in directing volunteers to cleanup events in their communities. SMCWPPP conducted a total of 11 outreach events on behalf of various jurisdictions within the County in the 2012-13 fiscal year. SMCWPPP will also continue maintaining an online calendar of cleanups on a monthly basis. In addition to using the SMCWPPP website, flowstobay.org, to promote cleanups, PIP is actively involved in social media platforms such as Facebook, Twitter, You Tube, and Instagram to deliver anti-littering and cleanup messages.</p> <p>Coastal Cleanup Day Promotion (Countywide)</p> <p>On the countywide level, SMCWPPP also conducts annual press releases for Coastal Cleanup Day, and uses Twitter to promote cleanup events. These releases are intended to gain support and assistance for cleanup events conducted each September in local water bodies.</p> <p>BASMAA Regional Media Relations Project (Regional)</p> <p>Through participation and funding of the BASMAA Regional Media Relations Project, the City of South San Francisco is continuing to implement a media relations project partially designed to reduce littering from target audiences in the Bay Area. The goal of the BASMAA Media Relations Project is to generate media coverage that encourages individuals to adopt behavior changes to prevent water pollution, including littering. At least two press releases or PSAs focus on litter issues each year (e.g., creek clean-up activities, preventing litter by using reusable containers, etc.). In FY 12-13, the Media Relations project developed a press release new and recent bag bans in cities around the region. The pitch included information on the litter caused by plastic bags. Information ran on KBAY, KCBS and on eight Bay Area Patch.com sites.</p>			

C.10.d Summary of Trash Reduction Actions

For each trash reduction action (i.e., control measures and best management practices) implemented by your municipality during the reporting period include a full description of the action. Describe actions initiated prior to and continued after the MRP effective date (December 2009), actions initiated after the MRP effective date, and actions planned for future implementation. If a planned action, also include the planned date of implementation. Add rows for actions not listed below as needed. Also identify the dominant source of trash and dominant types of trash removed for each action. Action	Description	Trash Management Area(s) (Preliminary Map ID)	Dominant Sources	Dominant Types
	<p>Local Program</p> <p>The City of South San Francisco implemented the following public education and outreach control measures prior to the effective date of the MRP (See New/Enhanced Actions) and has continued to implement these measures since MRP adoption. No effectiveness measures were assessed.</p> <hr/> <p>New/Enhanced Post-MRP Actions Initiated/Planned:</p> <p>In addition to the control measures continued post-MRP adoption, the City of South San Francisco is currently implementing or planning to implement the following public education and outreach control measures that were initiated after the MRP was adopted.</p> <p>BASMAA Youth Outreach Campaign (Regional)</p> <p>Through participation and funding of the regional BASMAA Youth Outreach Campaign, the City of South San Francisco is implementing an outreach campaign designed to reduce littering from the target audience in the Bay Area. The Youth Outreach Campaign was launched in September 2011 and aims to increase the awareness of Bay Area Youth (ages 16-24) on litter and stormwater pollution issues, and eventually change their littering behaviors. Combining the ideas of Community Based Social Marketing with traditional advertising, the Youth Campaign aims to engage youth to enable the peer-to-peer distribution of Campaign messages. The Campaign will at least run through FY 13-14. A brief description of the Campaign activities is provided below:</p> <ul style="list-style-type: none"> o <u>Raising Awareness</u>: The Campaign is raising awareness of the target audience on litter and stormwater pollution issues. Partnerships with youth commissions, high schools, and other youth focused organizations have been developed to reach 			

C.10.d Summary of Trash Reduction Actions

For each trash reduction action (i.e., control measures and best management practices) implemented by your municipality during the reporting period include a full description of the action. Describe actions initiated prior to and continued after the MRP effective date (December 2009), actions initiated after the MRP effective date, and actions planned for future implementation. If a planned action, also include the planned date of implementation. Add rows for actions not listed below as needed. Also identify the dominant source of trash and dominant types of trash removed for each action. Action	Description	Trash Management Area(s) (Preliminary Map ID)	Dominant Sources	Dominant Types
	<p>the target audience. Messages targeted to youth have been created and distributed via paid advertising, email marketing, Campaign website and social networking sites (e.g., Facebook and Twitter).</p> <ul style="list-style-type: none"> o <u>Engage the Youth</u> - The advertisements encourage the audience to participate in the Youth Campaign by joining a Facebook page, entering a contest, taking an online quiz, etc., and providing their contact information. At the beginning of FY 12-13, a video contest was launched to get Bay Area youth further involved in the Campaign. An online voting system was used to select the winning entry. Media advertising was conducted to promote the winning entry. o <u>Change Behaviors</u>: To move the audience along the behavior change continuum, the Campaign is using electronic platforms such as email marketing and social networking sites to encourage participants to engage in increasingly more difficult behavior changes, such as participating in a clean-up, organizing a clean-up, etc. o <u>Maintain Engagement</u>: The Campaign continues to interact with the target audience through email marketing and social media websites. <p>The Youth Campaign includes a pre and post campaign survey to evaluate the effectiveness of outreach. The pre-campaign survey was conducted in FY 11-12 and the post campaign survey will begin in FY 13-14. Other evaluation mechanisms, such as website hits, number of youth engaged in the Campaign's social networking website, etc. are also being used to evaluate its effectiveness in increasing awareness and changing behavior.</p> <p>Activities in FY 12-13 included maintaining the website www.BetheStreet.org, Facebook page, and Instagram account. A video contest asking participants to submit their best anti-litter video was also conducted. The Be the Street campaign received 52 entries in response to the contest. The winning video was promoted on television, Pandora (online music site), YouTube, Google, and Facebook.</p>			

C.10.d Summary of Trash Reduction Actions

For each trash reduction action (i.e., control measures and best management practices) implemented by your municipality during the reporting period include a full description of the action. Describe actions initiated prior to and continued after the MRP effective date (December 2009), actions initiated after the MRP effective date, and actions planned for future implementation. If a planned action, also include the planned date of implementation. Add rows for actions not listed below as needed. Also identify the dominant source of trash and dominant types of trash removed for each action. 	<p>Local Program</p> <p>Outreach at farmers markets in the City, outreach at high schools during sewer science programs and providing a booth at the library or other City facilities during pollution prevention week.</p> <p>No effectiveness measures were used.</p>			

Section 11 - Provision C.11 Mercury Controls

C.11.a.i ► Mercury Recycling Efforts

List below or attach lists of efforts to promote, facilitate, and/or participate in collection and recycling of mercury containing devices and equipment at the consumer level (e.g., thermometers, thermostats, switches, bulbs).

- 1) **No Facilitation/Organization of HHW drop-off events were conducted by South San Francisco.**
- 2) **Collection of:**
 - a) **Mercury-containing devices and equipment were collected at the Corp Yard from September 19 – October 31, 2012.**

There was no other Promotion and Collection of Mercury Containing Devices in South San Francisco.
The City of South San Francisco does recycle used fluorescent lamps that are used throughout the City's buildings, see total below.

C.11.a.ii ► Mercury Collection

Provide an estimate of the mass of mercury collected through these efforts, or provide a reference to a report containing this estimate.

South San Francisco recycles fluorescent light bulbs. During FY 12/13 approximately 10.98 grams of mercury was collected and removed from the environment in fluorescent bulbs, mercury thermometers and thermostats.

Please refer to the SMCWPPP FY 12-13 Annual Report for an estimate of the mass of mercury collected through collection and recycling efforts in the SMCWPPP area

Mercury Containing Device/Equipment	Total Amount of Devices Collected	Estimated Mass of Mercury Collected
Fluorescent Lamps ⁶² (linear feet)	3224	9.359 grams of mercury
CFLs ⁶³ (each)	124	0.496 grams of mercury
Thermostats ⁶⁴ (each)	3	12 grams of mercury
Thermostats (lbs)	0	
Thermometers (each)	22	11 grams of mercury collected
Switches (lbs)	0	

⁶² Only linear fluorescent lamps should be included

⁶³ Only compact fluorescent lamps should be included

⁶⁴ Thermostats can be reported by quantity or by pounds. Whichever unit is used, please avoid double-counting.

Total Mass of Mercury Collected During FY 2012-2013:	32.855 grams of mercury
<p> C.11.b ▶ Monitor Methylmercury C.11.c ▶ Pilot Projects to Investigate and Abate Mercury Sources in Drainages C.11.d ▶ Pilot Projects to Evaluate and Enhance Municipal Sediment Removal and Management Practices C.11.e ▶ Conduct Pilot Projects to Evaluate On-Site Stormwater Treatment via Retrofit C.11.f ▶ Diversion of Dry Weather and First Flush Flows to POTWs C.11.g ▶ Monitor Stormwater Mercury Pollutant Loads and Loads Reduced C.11.h ▶ Fate and Transport Study of Mercury In Urban Runoff C.11.i ▶ Development of a Risk Reduction Program Implemented Throughout the Region C.11.j ▶ Develop Allocation Sharing Scheme with Caltrans </p>	
<p>State below if information is reported in a separate regional report. Municipalities that participate directly in regional activities to can provide descriptions below.</p>	
<p>Summary: “A summary of SMCWPPP and regional accomplishments for these sub-provisions are included within the C.11 Mercury Controls section of the SMCWPPP FY 12-13 Annual Report and/or the BASMAA Regional POC Report.”</p>	

Section 12 - Provision C.12 PCBs Controls

C.12.a.ii,iii ▶ Ongoing Training

(For FY 10-11 Annual Report and Each Annual Report Thereafter) List below or attach description of ongoing training development and inspections for PCB identification, including documentation and referral to appropriate regulatory agencies (e.g. county health departments, Department of Toxic Substances Control, California Department of Public Health, and the Water Board) as necessary.

Description: The City of South San Francisco has incorporated visual assessment for PCBs and PCB-containing equipment into existing industrial inspections. To date no PCBs or PCB containing devices have been observed.

The City will have all inspectors review PCB inspection training material before the end of 2013.

C.12.b ▶ Conduct Pilot Projects to Evaluate Managing PCB-Containing Materials and Wastes during Building Demolition and Renovation Activities

C.12.c ▶ Pilot Projects to Investigate and Abate On-land Locations with Elevated PCB Concentrations

C.12.d ▶ Conduct Pilot Projects to Evaluate and Enhance Municipal Sediment Removal and Management Practices

C.12.e ▶ Conduct Pilot Projects to Evaluate On-Site Stormwater Treatment via Retrofit

C.12.f ▶ Diversion of Dry Weather and First Flush Flows to POTWs

C.12.g ▶ Monitor Stormwater PCB Pollutant Loads and Loads Reduced

C.12.h ▶ Fate and Transport Study of PCBs In Urban Runoff

C.12.i ▶ Development of a Risk Reduction Program Implemented Throughout the Region

State below if information is reported in a separate regional report. Municipalities that participate directly in regional activities to can provide descriptions below.

Summary: "A summary of SMCWPPP and regional accomplishments for these sub-provisions are included within the C.12 PCB Controls section of the SMCWPPP FY 12-13 Annual Report and/or the BASMAA Regional POC Report."

Section 13 - Provision C.13 Copper Controls

C.13.a.iii.(2) ► Training, Permitting and Enforcement Activities

(FY 11-12 Annual Report and each Annual Report thereafter) Provide summaries of activities implemented to manage waste generated from cleaning and treating of copper architectural features, including copper roofs, during construction and post-construction including. :

- Development of BMPs on how to manage the water during and post construction
- Requiring the use of appropriate BMPs when issuing building permits
- Educating installers and operators on appropriate BMPs
- Enforcement actions taken against noncompliance

The City of South San Francisco revised their Municipal Code to include a prohibition of discharge from copper architectural features. The revision was approved by City Council in January 2013.

Below is the Municipal Code language that was approved by the City Council in January 2013.

14.04.160 Discharge in violation of permit. -Any discharge into the stormwater collection system that would result in or contribute to a violation of NPDES Permit No. CAS612008, a copy of which is filed in the office of the city clerk, and any amendment, revision or reissuance thereof, either separately considered or when combined with other discharges, is prohibited. Liability for any such discharge shall be the responsibility of the person(s) causing or responsible for the discharge, and such persons shall defend, indemnify and hold harmless the city in any administrative or judicial enforcement action relating to such discharge.

(a) Specific Prohibitions. Prohibit the discharge of wastewater to storm drains generated from the installation, cleaning, treating, and washing of the surface of copper architectural features, including copper roofs to storm drains.

The City of South San Francisco participated in the SMCWPPP municipal staff training on April 11, 2013, Construction Site Inspection Workshop. The BMP fact sheets that were developed are distributed as needed.

- “Development of BMPs. The Countywide Program collaborated with BASMAA to develop BMPs to manage waste generated from cleaning and treating of copper architectural features, including copper roofs, during construction and post construction.”
- **Permitting Procedures to Require the BMPs** –The Countywide Program updated its Stormwater Requirements Checklist to include the architectural copper BMPs in the list of source control measures that may apply to projects.
The City of South San Francisco does not allow the discharge of wastewater from architectural copper to the storm drains.

Permittee Name: City of South San Francisco

- **Educate Installers and Operators.** The Countywide Program, in collaboration with the Santa Clara Valley Urban Runoff Pollution Prevention Program, prepared an educational flyer on the BMPs. South San Francisco staff was trained on the BMPs by attending the construction site inspection training on April 11, 2013. Staff will use the revised Stormwater Requirements Checklist which includes source control for architectural copper features. Staff will make copper outreach materials available at the building department and will include them if relevant in materials distributed with plan check comments.
- **Enforcement Actions against Noncompliance.** Staff will use the revised Stormwater Requirements Checklist which includes source control for architectural copper features. Staff will make copper outreach materials available at the building department and will include them if relevant in materials distributed with plan check comments.
 There has been no enforcement action taken for noncompliance in this area. If noncompliance is observed or reported, the inspectors will investigate and proceed with enforcement action, if necessary, as stated in the City’s Enforcement Response Plan.

C.13.a.iii.(3) ► Evaluation of Effectiveness

(FY 12-13 Annual Report) Evaluate the effectiveness of measures the agency has undertaken to prevent discharge of wastewater to storm drains during the installation, cleaning, treating, and washing of the surface of copper architectural features. The discussion of the effectiveness of these measures should include BMP implementation and may propose additional measures to address this source of pollutants.

The City of South San Francisco prohibits the discharge of wastewater from architectural copper, via municipal code.

The City does not approve architectural copper features during plan check review. This has been the practice of WQCP staff since 2009.

Staff uses the revised Stormwater Requirements Checklist which includes source control for architectural copper features. Staff makes copper outreach materials available at the building department and will include them if relevant in materials distributed with plan check comments.

There has been no enforcement action taken for noncompliance in this area.

C.13.c ► Vehicle Brake Pads

Reported in a separate regional report.
 A summary of SMCWPPP's participation with the Brake Pad Partnership (BPP) is included within the C.13 Copper Controls section of the SMCWPPP FY 12-13 Annual Report and/or the BASMAA Regional POC Report.

C.13.c.iii ► Water Quality Issues Associated with Automobile Brake Pads

(FY 12-13 Annual Report Only) – Assess status of copper water quality issues associated with automobile brake pads and recommend brake-pad related actions for inclusion in subsequent permits if needed.
 An assessment of copper water quality issues associated with automobile brake pads and recommend brake-pad related actions for inclusion in subsequent permits is included within the C.13 Copper Controls section of the SMCWPPP FY 12-13 Annual Report and/or the BASMAA Regional POC Report."

C.13.d.iii ► Industrial Sources Copper Reduction Results

Based upon inspection activities conducted under Provision C.4, highlight copper reduction results achieved among the facilities identified as potential users or sources of copper, facilities inspected, and BMPs addressed.
Summary: The City of South San Francisco has one plating facility that is inspected twice a year. No stormwater issues have occurred at this site.

C.13.e ► Studies to Reduce Copper Pollutant Impact Uncertainties

Report on progress of studies being conducted countywide or regionally to reduce copper pollutant impact uncertainties. State below if information is reported in a separate regional report.
 A summary of the SMCWPPP and/or regional efforts to develop regional studies to reduce copper pollutant impact uncertainties is included within the C.13 Copper Controls section of the SMCWPPP FY 12-13 Annual Report and/or BASMAA Regional POC Report.

Section 14 - Provision C.14 PBDE, Legacy Pesticides and Selenium Controls

C.14.a ► Control Programs for PBDEs, Legacy Pesticides and Selenium Controls

Report on progress of studies being conducted countywide or regionally to characterize the distribution and pathways of PBDEs, legacy pesticides, and selenium. State below if information is reported in a separate regional report.

A summary of SMCWPPP and regional efforts related to the Control Program for PBDEs, Legacy Pesticides and Selenium is included within the C.14 PBDE, Legacy Pesticides and Selenium section of the SMCWPPP FY 12-13 Annual Report and/or BASMAA Regional POC Report.

C.14.a.v. ► Control Programs for PBDEs, Legacy Pesticides and Selenium Controls – Load Computation

(For FY 12-13 Annual Report only) Submit a report with information required to compute loading estimates of PBDEs, legacy pesticides and selenium from urban runoff to the Bay.

Summary: Information required to compute loading estimates of PBDEs, legacy pesticides and selenium from urban runoff to the Bay is included within the C.14 PBDE, Legacy Pesticides and Selenium section of the SMCWPPP FY 12-13 Annual Report and/or BASMAA Regional POC Report.

C.14.a.vi. ► Control Programs for PBDEs, Legacy Pesticides and Selenium Controls – Control Measures

(For FY 12-13 Annual Report only) Submit a report identifying control measures and/or management practices to reduce impacts from discharges of PBDEs, legacy pesticides or selenium in urban runoff.

Summary: A report identifying control measures and/or management practices to reduce impacts from discharges of PBDEs, legacy pesticides or selenium in urban runoff is included within the C.14 PBDE, Legacy Pesticides and Selenium section of the SMCWPPP FY 12-13 Annual Report and/or BASMAA Regional POC Report.

Section 15 - Provision C.15 Exempted and Conditionally Exempted Discharges

C.15.b.iii.(1), C.15.b.iii.(2) ► Planned and Unplanned Discharges of Potable Water

Is your agency a water purveyor?	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	No
If No , skip to C.15.b.vi.(2):				
If Yes , Complete the attached reporting tables or attach your own table with the same information. Provide any clarifying comments below.				
Comments:				

C.15.b.vi.(2) ► Irrigation Water, Landscape Irrigation, and Lawn or Garden Watering

Provide implementation summaries of the required BMPs to promote measures that minimize runoff and pollutant loading from excess irrigation. Generally the categories are:

- Promote conservation programs
- Promote outreach for less toxic pest control and landscape management
- Promote use of drought tolerant and native vegetation
- Promote outreach messages to encourage appropriate watering/irrigation practices
- Implement Illicit Discharge Enforcement Response Plan for ongoing, large volume landscape irrigation runoff.

Summary: The City of South San Francisco participates in the Countywide Program’s public outreach efforts and the Parks and Maintenance Committee. Additionally, new development plan review comments for the City include the following:

1. Landscaping shall meet the following conditions related to reduction of pesticide use on the project site:
 - a. Where feasible, landscaping shall be designed and operated to treat stormwater runoff by incorporating elements that collect, detain and infiltrate runoff. In areas that provide detention of water, plants that are tolerant of saturated soil conditions and prolonged exposure to water shall be specified.
 - b. Plant materials selected shall be appropriate to site specific characteristics such as soil type, topography, climate, amount and timing of sunlight, prevailing winds, rainfall, air movement, patterns of land use, ecological consistency and plant interactions to ensure successful establishment.
 - c. Existing native trees, shrubs and ground cover shall be retained and incorporated into the landscape plan to the maximum extent practicable.

Permittee Name: City of South San Francisco

- d. Proper maintenance of landscaping, with minimal pesticide use, shall be the responsibility of the property owner.
- e. Integrated pest management (IPM) principles and techniques shall be encouraged as part of the landscaping design to the maximum extent practicable. Examples of IPM principles and techniques include:
 - i. Select plants that are well adapted to soil conditions at the site.
 - ii. Select plants that are well adapted to sun and shade conditions at the site. In making these selections, consider future conditions when plants reach maturity, as well as seasonal changes.
 - iii. Provide irrigation appropriate to the water requirements of the selected plants.
 - iv. Select pest-resistant and disease-resistant plants.
 - v. Plant a diversity of species to prevent a potential pest infestation from affecting the entire landscaping plan.
 - vi. Use “insectary” plants in the landscaping to attract and keep beneficial insects.

The Inspectors will notify business owners if ongoing, large volume landscape irrigation runoff is observed and require the curtailment of the runoff.

Additionally, the City will use the revised New Development Checklist that includes landscaping site design measures and source control.

Refer to the C.3 New Development and Redevelopment, C.7. Public Information and Outreach and C.9. Pesticide Toxicity Control sections of the SMCWPPP FY 12-13 Annual Report.

C.15.b.iii.(1) ► Planned Discharges of the Potable Water System

Site/ Location	Discharge Type	Receiving Waterbody(ies)	Date of Discharge	Duration of Discharge (military time)	Estimated Volume (gallons)	Estimated Flow Rate (gallons/day)	Chlorine Residual (mg/L)	pH (standard units)	Discharge Turbidity ⁶⁵ (NTU)	Implemented BMPs & Corrective Actions

⁶⁵ Monitor the receiving water for turbidity if necessary and feasible. Include data in this column if available.

Attachment A

**INDUSTRIAL AND COMMERCIAL BUSINESS INSPECTION PLAN
CITY OF SOUTH SAN FRANCISCO, CA**

Date Originally Prepared: June 30, 2010

Date Last Reviewed: August 27, 2013

BACKGROUND

This industrial and commercial business inspection plan (Inspection Plan) serves as the city's prioritized inspection work plan that the city will implement to comply with the municipal regional stormwater permit's (MRP) Provision C.4.b requirements. This MRP provision requires that an Inspection Plan be developed. The Inspection Plan's attached Prioritized Inspection List of Businesses (Inspection List) must be submitted with the 2010 Annual Report, and an annually updated Inspection List must be submitted with subsequent annual reports.

Municipal staff used the following steps to create this Inspection Plan and comply with the MRP. Steps 1 and 2 address MRP requirements for the Inspection Plan and Step 3 addresses compliance with MRP requirements for creating an Inspection List that is included as an attachment to the Inspection Plan.

Steps

1. Identify a method of establishing priorities for inspections and the frequency of inspections for each category of priority.
2. Describe the method that will be used to identify newly opened businesses that may need inspection.
3. Develop an Inspection List that includes:
 - a. A list of all of the industrial and commercial businesses located within the municipality's jurisdiction that require inspection;
 - b. A determination of the priority for inspection of each business on the Inspection List using the identified method of establishing inspection priorities;
 - c. Identification of businesses on the Inspection List that are scheduled for inspection during the current fiscal year; and
 - d. An annual update or revision of the Inspection List starting in 2011.

Each of these steps was followed to develop this Inspection Plan as described in the following sections.

STEP 1: IDENTIFY A METHOD OF ESTABLISHING PRIORITIES FOR INSPECTIONS AND FREQUENCY OF INSPECTIONS

What the MRP Requires

The MRP requires that each of the businesses to be inspected be assigned a priority for inspection based on "the potential for water quality impact using criteria such as pollutant sources on site, pollutants of concern, proximity to a waterbody, violation history of the facility, and other relevant factors" (Provision C.4.b.ii.(3)). In addition, the MRP requires that appropriate inspection frequencies be established based on the priority for inspection, "potential for contributing pollution to stormwater runoff" and be "commensurate with the threat to water quality" (Provision C.4.b.ii.(5)).

Further, the MRP requires: "A description of the process for prioritizing inspections and frequency of inspections" (Provision C.4.b.i.(2)).

Description of Prioritization Process and Assignment of Inspection Frequencies to Different Priorities

- Businesses meeting the following criteria generally have been assigned as having a high priority for inspection:
1. Businesses that are subject to the State General NPDES Permit for Stormwater Discharges Associated with Industrial Activity.
 2. Businesses that have a history of using inadequate best management practices.
 3. Businesses that have had a non-stormwater discharge disallowed by the MRP during the previous fiscal year.
 4. Food service facilities and vehicle mechanical repair that are due for re-inspection and/or re-permitting with wastewater permits.

All other businesses have generally been assigned as having a low priority for inspection.

1. High priority for inspection means that the business will typically be inspected annually. Low priority for inspection means that the business will be inspected less frequently than annually, such as every other year or every third year. Businesses that have a non-stormwater discharge during any fiscal year will be moved to the high priority category and then inspected during the next fiscal year.
2. Food service facilities on the low priority inspection will be inspected upon renewal of their wastewater discharge permit.
3. Auto facilities on the low priority will be inspected at least once per permit cycle, unless there is a change of ownership or location.

STEP 2: DESCRIBE METHOD THAT WILL BE USED TO IDENTIFY NEW BUSINESSES

What the MRP Requires

The MRP requires that the Inspection Plan have a "mechanism to include newly opened businesses that warrant inspection ..." (Provision C.4.b.i.(2)).

Description of Method for Identifying New Businesses

The City of South San Francisco will identify new businesses that warrant inspection through the business license sign off process. New businesses require a sign off from the Environmental Compliance department. At that time, should the business warrant inspection, it will be inspected before the business license is signed off. The business will be added to the inspection spreadsheet and prioritized at the time of addition. If the business is deemed to not have an impact on the stormwater system it will be omitted from the list.

STEP 3: DEVELOP AN INSPECTION LIST

This step includes the following four substeps associated with the development and maintenance of the Inspection List:

- a. Develop a list of all of the industrial and commercial businesses that require inspection;
- b. Determine the priority for inspection of each business on the Inspection List;

- c. Identify businesses on the Inspection List that are scheduled for inspection during the current fiscal year; and
- d. Prepare an annual update or revision of the Inspection List starting in 2011.

What the MRP Requires

Develop a List of All Businesses Requiring Inspection

The MRP requires that the Inspection Plan be used to maintain an Inspection List of industrial and commercial businesses “that could reasonably be considered to cause or contribute to pollution of stormwater runoff” (Provision C.4.b.ii).

In particular, the MRP lists the following types of businesses as needing to be inspected if they “have a reasonable likelihood to be sources of pollutants to stormwater and non-stormwater discharges:” (Provision C.4.b.ii(2))

- 1) Industrial facilities¹, as defined in 40 CFR 122.26(b)(14), including those subject to the State General NPDES Permit for Stormwater Discharges Associated with Industrial Activity;
- 2) Vehicle salvage yards;
- 3) Metal and other recycled material collection facilities, waste transfer facilities;
- 4) Vehicle mechanical repair, maintenance, fueling, or cleaning;
- 5) Building trades central facilities or yards, corporation yards, nurseries, and greenhouses;
- 6) Building material retailers and storage;
- 7) Plastic manufacturers; and
- 8) Other facilities designated by the City or Water Board as having a reasonable potential to contribute to pollution of stormwater runoff. The Water Board staff places a priority on inspecting retail food facilities, and these businesses should be included in the Inspection List if they “have a reasonable likelihood to be sources of pollutants to stormwater and non-stormwater discharges.”

In addition, the MRP lists the following functional aspects of businesses that may produce pollutants when exposed to stormwater as part of the criteria for developing the Inspection List:

- 1) Outdoor process and manufacturing areas;
- 2) Outdoor material storage areas;
- 3) Outdoor waste storage and disposal areas;
- 4) Outdoor vehicle and equipment storage and maintenance areas;
- 5) Outdoor wash areas;
- 6) Outdoor drainage from indoor areas;
- 7) Rooftop equipment; and
- 8) Other sources determined by the city or Water Board to have a reasonable potential to contribute to pollution of stormwater runoff.

Establish Inspection Priority for Businesses on the Inspection List

The MRP requires that businesses that have a reasonable potential to pollute stormwater runoff be prioritized using factors listed in the MRP (Provision C.4.b.ii.(3)).

Identify Businesses Scheduled for Inspection During the Current Fiscal Year

The MRP requires that the annual report include “the list of facilities scheduled for inspection during the current fiscal year” (Provision C.4.b.iii.(2)).

¹ The MRP appears to use the terms “facilities” and “businesses” interchangeably. This template generally uses the term business since that is used in the title of Provision C.4.b., and it is the term most inspectors use.

Annual Updates

The MRP requires that the Inspection List be annually updated and maintained (Provision C.4.b.ii). The annual updates should include new businesses; any needed modifications to inspection priorities based on recent inspections, illicit discharge notifications, or other relevant factors; and removal of businesses that are no longer operating. In addition, updates or revisions to the Inspection List need to be included in annual reports starting in 2011 (Provision C.4.b.iii.(1)).

Substep 3a: Develop Inspection List

See Attachment B of annual report.

Substep 3b: Determine Priority for Businesses

Businesses meeting the following criteria generally have been assigned as having a high priority for inspection:

5. Businesses that are subject to the State General NPDES Permit for Stormwater Discharges Associated with Industrial Activity.
6. Businesses that have a history of using inadequate best management practices.
7. Businesses that have had a non-stormwater discharge disallowed by the MRP (illicit discharge) during the previous fiscal year.
8. Food service facilities and vehicle mechanical repair that are due for re-inspection and/or re-permitting with wastewater permits.

Substep 3c: Identify Businesses Scheduled for Inspection in the Current Fiscal Year

See Attachment C of annual report.

Substep 3d: Annual Update

The latest update to the potential facility list was completed on August 19, 2013.

RE: Written Order to Implement an Integrated Pest Management (“IPM”) Plan

Dear Ms. Duna:

The purpose of this letter is to provide ValleyCrest Landscape Maintenance Company (“Contractor”) with a written order to implement an Integrated Pest Management (“IPM”) Plan for landscaping services within the City of South San Francisco (“City”).

Pursuant to Section 14 of the Special Provisions of the Landscape Services Agreement between the City and Contractor, the City hereby requires Contractor to adopt and comply with an IPM Plan consistent with the IPM-based hierarchical decision making process (established by Provision C.9.d, of Water Board Permit No. R2-2009-0074, Municipal Regional Stormwater NPDES Permit) and the City-approved IPM Policy (attached hereto).

Please acknowledge your acceptance of this written order by signing and returning three copies of this letter to my attention at your earliest convenience.

Best regards,

Sharon Ranals
Director of Parks and Recreation

**San Mateo Countywide Water Pollution Prevention Program
Model Integrated Pest Management (IPM) Policy
for the City of South San Francisco**

GOAL

The *City of South San Francisco* seeks to protect the health and safety of its employees and the general public, the environment and water quality, as well as to provide sustainable solutions for pest control through the reduced use of pesticides on property including buildings owned or managed by the City by applying Integrated Pesticide Management principles and techniques. The municipal regional stormwater permit requires that the *City of South San Francisco* minimize reliance on pesticides that threaten water quality.

REQUIRED USE OF INTEGRATED PEST MANAGEMENT

Employees implementing pest management controls will use Integrated Pest Management (IPM) techniques that emphasize non-pesticide alternatives. Pesticides will only be used after careful consideration of non-chemical alternatives and then the least toxic chemicals that are effective shall be used. Pest control contractors hired by the City are required to implement IPM to control pests. This will be achieved by hiring only IPM-certified pest control contractors or by including contract specifications requiring contractors to implement IPM methods.

The City will establish written standard operating procedures for pesticide use to ensure implementation of this IPM policy and to require municipal employees and pest control contractors to comply with the standard operating procedures.

The *City of South San Francisco* will track employee and contractor pesticide use and prepare an annual report summarizing pesticide use and evaluating pest control activities performed consistent with the municipal regional stormwater permit's requirements.

The *City of South San Francisco* will review its purchasing procedures, contracts or service agreements with pest control contractors and employee training practices to determine what changes, if any, need to be made to support the implementation of this IPM Policy.

The *City of South San Francisco* will perform educational outreach and/or support Countywide or regional efforts to educate residential and commercial pesticide users on a) goals and techniques of IPM, and b) pesticide related water quality issues consistent with the municipal regional stormwater permit's requirements.

The IPM-based hierarchical decision making process that will be used to control pests will include the following:

1. Based on field observations evaluate locations and sites where pest problems commonly occur to determine pest population, size, occurrence, and natural enemy population, if

- present. Identify conditions that contribute to the development of pest populations, and decisions and practices that could be employed to manage pest populations
2. Design, construct, and maintain landscapes and buildings to reduce and eliminate pest habitats;
 3. Modify management practices including watering, mulching, waste management, and food storage to discourage the development of pest population;
 4. Modify pest ecosystems to reduce food, water sources, and harborage;
 5. Prioritize the use of physical controls such as mowing weeds, using traps, and installing barriers;
 6. Use biological controls to introduce or enhance a pests' natural enemies;
 7. When pest populations reach treatment thresholds (based on how much biological, aesthetic, economic or other damage is tolerable) non-pesticide management activities will be evaluated before considering the use of pesticides;
 8. When pesticides are necessary, select reduced risk pesticides and use the minimum amounts needed to be effective;
 9. Apply pesticides at the most effective treatment time, based on pest biology, monitoring, and other variables, such as weather, seasonal changes in wildlife use, and local conditions; and
 10. Whenever possible, use pesticide application methods, such as containerized baits, that minimize opportunities for mobilization of the pesticide in stormwater runoff.

Departments performing pest management activities will identify an IPM coordinator who is responsible for assisting staff with implementation of this IPM policy.

BACKGROUND

Pesticides are defined as: any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any pest. Pests can be insects, rodents and other animals, unwanted plants (weeds), bacteria or fungi. The term pesticide applies to herbicides, fungicides, insecticides, rodenticides, molluscicides and other substances used to control pests.

Integrated Pest Management (IPM) is an ecosystem-based strategy that focuses on long-term prevention of pests or their damage through a combination of techniques such as biological control, habitat manipulation, modification of cultural practices, and use of resistant varieties. Pesticides are used only after monitoring indicates they are needed according to established guidelines, and treatments are made with the goal of removing only the target organism. Pest control materials are selected and applied in a manner that minimizes risks to human health, beneficial and nontarget organisms, and the environment.

IPM techniques could include biological controls (e.g., ladybugs and other natural enemies or predators); physical or mechanical controls (e.g., hand labor or mowing, caulking entry points to buildings); cultural controls (e.g., mulching, alternative plant type selection, and enhanced cleaning and containment of food sources in buildings); and reduced risk chemical controls (e.g., soaps or oils).

City of South San Francisco owned or managed property/facility includes but is not limited to parks and open space, golf courses, roadsides, landscaped medians, flood control channels and other outdoor areas, as well as municipal buildings and structures.

City of South San Francisco
Standard Operating Procedures for Pesticide Use and Implementation
of the Municipality's Integrated pest Management Policy

Purpose: To minimize the use and reliance on pesticides that threaten water quality by implementing the City's policy for integrated pest management (IPM) by all municipal employees and contractor's hired to manage pests on municipal property.

Responsible Parties: All City personnel that as part of their municipal job duties are authorized to plan, manage, and control pests including pesticide applications and all City personnel that administer municipal contracts for applying pesticide on municipal property.

Contracts & Contractors: Contracts shall include a requirement that the contractor shall adhere to the City's IPM policy. This will be accomplished by using the following procedures:

1. Include a copy of the municipality's IPM policy in the contractor solicitation documents e.g., Request for Proposal or Request for Quote, and make it clear that the pest control services being solicited must comply with IPM policy.
2. Include a copy of the municipality's IPM policy in the contract's specification.
3. Meet with the contractor to review the City's IPM policy.

Municipal Employee's: Municipal employees who are authorized to manage pests are required to implement the City's IPM policy. This will be accomplished by using the following procedures:

1. Use cultural practices and pest prevention measures to minimize the occurrence of pest problems.
2. Set a threshold of tolerance for pests.
3. Use biological and physical controls that are environmentally appropriate and economically feasible to control pests.
4. Use chemical control as a last resort, and then the least toxic product will be used. Where feasible for structural pest control, insecticides will be applied as containerized baits.
5. Avoid the use of pesticides that threaten water quality especially in formulations and situations that pose a risk of contaminating stormwater runoff.
6. Train employees on IPM techniques, pesticides-related stormwater pollution prevention methods, the municipality's IPM policy, and these standard operating procedures.
7. As part of the municipality's annual report for the municipal regional stormwater permit, report on the IPM policy's implementation by showing trends in the quantities and types of pesticides used and suggest reasons for any increases in uses of pesticides that threaten water quality.

SERVICES AGREEMENT

This Services Agreement (this "Agreement") is made and entered into between the City of South San Francisco, a municipal corporation ("City") and Western Exterminator, ("Contractor") effective as of June 15, 2012 (the "Effective Date"). City and Contractor are hereinafter collectively referred to as (the "Parties"). In consideration of their mutual covenants, the Parties hereby agree as follows:

1. Scope of Work. Contractor shall provide the following services and/or materials ("the Work"): **on as needed basis to perform pest control service on city buildings; such as cockroaches, rats, mice, ants, rodents and others.** The Work shall commence on **June 18, 2012 to June 30, 2013.** and work shall be completed to the satisfaction of the City. In the event of a conflict or inconsistency between the text of the main body of this Agreement and Exhibit A, the text of the main body of this Agreement shall prevail.

2. Payment. City shall pay Contractor an amount not to exceed: **Ten thousand dollars (\$10,000)** for the full and satisfactory completion of the Work in accordance with the terms and conditions of this Agreement. The method of payment for the Work shall be set forth as follows: **on as needed basis to perform pest control service on City Buildings.** The amount stated above is the entire compensation payable to Contractor for the Work performed hereunder, including all labor, materials, tools and equipment furnished by Contractor.

3. Independent Contractor. It is understood and agreed that this Agreement is not a contract of employment and does not create an employer-employee relationship between the City and Contractor. At all times Contractor shall be an independent contractor and Contractor is not authorized to bind the City to any contracts or other obligations without the express written consent of the City.

4. Indemnification. To the fullest extent permitted by law, Contractor shall indemnify, defend (with counsel acceptable to the City), and hold harmless the City and its elected and appointed officers, officials, employees, agents, contractors and consultants (collectively, the "City Indemnitees") from and against any and all liability, loss, damage, claims, expenses and costs (including, without limitation, attorneys' fees and costs of litigation) (collectively, "Liability") of every nature arising out of or in connection with Contractor's performance of the Work or Contractor's failure to comply with this Agreement, except such Liability caused by the gross negligence or willful misconduct of the City Indemnitees.

5. Insurance. Prior to beginning the Work and continuing throughout the term of this Agreement, Contractor (and any subcontractors) shall, at Contractor's (or subcontractor's) sole cost and expense, furnish the City with certificates of insurance evidencing that Contractor has obtained and maintains insurance in the following amounts:

A. Workers' Compensation that satisfies the minimum statutory limits.

B. Commercial General Liability and Property Damage Insurance in an amount not less than ONE MILLION DOLLARS (\$1,000,000) combined single limit per occurrence, TWO MILLION DOLLARS (\$2,000,000) annual aggregate, for bodily injury, property damage, products, completed operations and contractual liability coverage. The policy shall also include coverage for liability arising out of the use and operation of any City-owned or City-furnished equipment used or operated by the Contractor, its personnel, agents or subcontractors.

C. Comprehensive automobile insurance in an amount not less than ONE MILLION DOLLARS (\$1,000,000) per occurrence for bodily injury and property damage including coverage for owned and non-owned vehicles.

All insurance policies shall be written on an occurrence basis and shall name the City Indemnitees as additional insureds. The certificates shall contain a statement of obligation on the part of the carrier to notify City of any material change, cancellation, termination or non-renewal of the coverage at least thirty (30) days in advance of the effective date of any such material change, cancellation, termination or non-renewal. The City's Risk Manager may waive or modify any of the insurance requirements of this section.

6. Compliance with all Applicable Laws; Nondiscrimination. Contractor shall comply with all applicable local, state and federal laws, regulations and ordinances in the performance of this Agreement. Contractor shall not discriminate in the provision of service or in the employment of persons engaged in the performance of this Agreement on account of race, color, national origin, ancestry, religion, gender, marital status, sexual orientation, age, physical or mental disability in violation of any applicable local, state or federal laws or regulations.

7. Integrated Pest Management. Attached to this Agreement as **Exhibit B**, and incorporated herein, is the City's current adopted Integrated Pest Management ("IPM") Policy. Contractor hereby acknowledges receipt of the City's IPM Policy. Further, Contractor shall comply with the City's IPM Policy when performing Work under this Agreement.

8. Termination. City may terminate or suspend this Agreement at any time and without cause upon written notification to Contractor. Upon receipt of notice of termination or suspension, Contractor shall immediately stop all work in progress under this Agreement. The City's right of termination shall be in addition to all other remedies available under law to the City.

9. Severability. If any term or portion of this Agreement is held to be invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions of this Agreement shall continue in full force and effect.

10. Entire Agreement. This Agreement represents the entire and integrated agreement between the Parties. This Agreement may be modified or amended only by a subsequent written agreement signed by both Parties.

11. Non-Liability of Officials, Employees and Agents. No officer, official, employee or agent of City shall be personally liable to Contractor in the event of any default or breach by City or for any amount which may become due to Contractor pursuant to this Agreement.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the date written above.

Exhibit B

**San Mateo Countywide Water Pollution Prevention Program
Model Integrated Pest Management (IPM) Policy
for the City of South San Francisco**

GOAL

The *City of South San Francisco* seeks to protect the health and safety of its employees and the general public, the environment and water quality, as well as to provide sustainable solutions for pest control through the reduced use of pesticides on property including buildings owned or managed by the City by applying Integrated Pesticide Management principles and techniques. The municipal regional stormwater permit requires that the *City of South San Francisco* minimize reliance on pesticides that threaten water quality.

REQUIRED USE OF INTEGRATED PEST MANAGEMENT

Employees implementing pest management controls will use Integrated Pest Management (IPM) techniques that emphasize non-pesticide alternatives. Pesticides will only be used after careful consideration of non-chemical alternatives and then the least toxic chemicals that are effective shall be used. Pest control contractors hired by the City are required to implement IPM to control pests. This will be achieved by hiring only IPM-certified pest control contractors or by including contract specifications requiring contractors to implement IPM methods.

The City will establish written standard operating procedures for pesticide use to ensure implementation of this IPM policy and to require municipal employees and pest control contractors to comply with the standard operating procedures.

The *City of South San Francisco* will track employee and contractor pesticide use and prepare an annual report summarizing pesticide use and evaluating pest control activities performed consistent with the municipal regional stormwater permit's requirements.

The *City of South San Francisco* will review its purchasing procedures, contracts or service agreements with pest control contractors and employee training practices to determine what changes, if any, need to be made to support the implementation of this IPM Policy.

The *City of South San Francisco* will perform educational outreach and/or support Countywide or regional efforts to educate residential and commercial pesticide users on a) goals and techniques of IPM, and b) pesticide related water quality issues consistent with the municipal regional stormwater permit's requirements.

The IPM-based hierarchical decision making process that will be used to control pests will include the following:

1. Based on field observations evaluate locations and sites where pest problems commonly occur to determine pest population, size, occurrence, and natural enemy population, if

- present. Identify conditions that contribute to the development of pest populations, and decisions and practices that could be employed to manage pest populations
2. Design, construct, and maintain landscapes and buildings to reduce and eliminate pest habitats;
 3. Modify management practices including watering, mulching, waste management, and food storage to discourage the development of pest population;
 4. Modify pest ecosystems to reduce food, water sources, and harborage;
 5. Prioritize the use of physical controls such as mowing weeds, using traps, and installing barriers;
 6. Use biological controls to introduce or enhance a pests' natural enemies;
 7. When pest populations reach treatment thresholds (based on how much biological, aesthetic, economic or other damage is tolerable) non-pesticide management activities will be evaluated before considering the use of pesticides;
 8. When pesticides are necessary, select reduced risk pesticides and use the minimum amounts needed to be effective;
 9. Apply pesticides at the most effective treatment time, based on pest biology, monitoring, and other variables, such as weather, seasonal changes in wildlife use, and local conditions; and
 10. Whenever possible, use pesticide application methods, such as containerized baits, that minimize opportunities for mobilization of the pesticide in stormwater runoff.

Departments performing pest management activities will identify an IPM coordinator who is responsible for assisting staff with implementation of this IPM policy.

BACKGROUND

Pesticides are defined as: any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any pest. Pests can be insects, rodents and other animals, unwanted plants (weeds), bacteria or fungi. The term pesticide applies to herbicides, fungicides, insecticides, rodenticides, molluscicides and other substances used to control pests.

Integrated Pest Management (IPM) is an ecosystem-based strategy that focuses on long-term prevention of pests or their damage through a combination of techniques such as biological control, habitat manipulation, modification of cultural practices, and use of resistant varieties. Pesticides are used only after monitoring indicates they are needed according to established guidelines, and treatments are made with the goal of removing only the target organism. Pest control materials are selected and applied in a manner that minimizes risks to human health, beneficial and nontarget organisms, and the environment.

IPM techniques could include biological controls (e.g., ladybugs and other natural enemies or predators); physical or mechanical controls (e.g., hand labor or mowing, caulking entry points to buildings); cultural controls (e.g., mulching, alternative plant type selection, and enhanced cleaning and containment of food sources in buildings); and reduced risk chemical controls (e.g., soaps or oils).

City of South San Francisco owned or managed property/facility includes but is not limited to parks and open space, golf courses, roadsides, landscaped medians, flood control channels and other outdoor areas, as well as municipal buildings and structures.
