John Muller, Chair
SF Regional Water Board
1515 Clay St., Suite 1400
Oakland CA 94612

Dear Mr. Muller:

The San Francisco Regional Water Board's proposed regulation for cities to cleanup up trash that enters waterways is dangerously weak.

San Francisco Bay is filled with trash that destroys recreations, degrades water quality and kills marine wildlife.

The Board's proposed permit would require cities and counties to meet a cleanup level of one hundred pieces of trash for every one hundred feet in a trash "hot spot."

THIS WILL NOT ADEQUATELY PROTECT OUR BAY

Our Bay deserves the highest level of protection----ZERO TRASH!

Sincerely,

Margit Stange
