Jurisdiction: City of Fremont

Ownership: Alameda County Flood Control and Conservation District

Agency Contact: Val Blakely 510.494.4577 vblakely@fremont.gov
Environmental Specialist

Justification

Information Supporting Selection as a Hot Spot (Attach additional photos as necessary):

The City of Fremont's Environmental Services Division conducts over 10 creek/street cleanups per year. As a result of these cleanups, the amount of pounds was counted during each cleanup and annually over time. This creek was selected as the top seven hot spots that contain the most trash present through either multiple or all the following ways: accumulation, littering, windblown, or illegal dumping.

The Crandall Creek Hot Spot receives trash by wind, littering, illegal dumping and accumulation. Upstream consists of a large watershed where Crandall Creek receives trash from retail businesses, American High School, and various single-family and multi-family residents. The Crandall Creek Hot Spot is a deposition area for this trash.

Cleanups are conducted along over 3,000 yards of Crandall Creek that includes the Crandall Creek Hot Spot at least twice per year.
