RE: Annual Report July 1, 2009 through June 30, 2010 Certification Letter

Dear Ms. Ma,

This report, as well as our previous hot spot ID submittal and notification of participating in the regional monitoring collaborative, were developed and submitted in accordance with the following certification standard:

I certify under penalty of law that this document and all attachments are prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who managed the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. [40 CFR 122.22(d)]

Sincerely,

Cassandra Prudhel

Cassandra Prudhel
Technical Services Supervisor

OFFICE OF THE CITY MANAGER

August 11, 2010

Mr. Bruce Wolfe, Executive Officer
San Francisco Bay Regional Water Quality Control Board
1410 Clay Street Suite 1400
Oakland, CA 94612

Subject: Notification of Duly Authorized Representative for City of South San Francisco

Dear Mr. Wolfe:

This letter will serve to document the person or position and alternate(s)I am authorizing to represent the City of South San Francisco for signing and certifying municipal regional stormwater NPDES-permit required reports for submittal to the San Francisco Bay Regional Water Quality Control Board (Regional Water Board) and signing and certifying responses to other information requests from the Regional Water Board.

The following positions (any person who occupies these named positions) are duly authorized by me to sign and certify stormwater required reports for submittal to the Regional Water Board or authorize the City/County Association of Governments (C/CAG) of San Mateo County to sign and certify countywide/regional reports and studies prepared on behalf of the City of South San Francisco.

Technical Services Supervisor
Alternate: Senior Environmental Compliance Inspector

As describe above, the person or position and alternate(s) listed above are also authorized to direct C/CAG's Executive Director or San Mateo Countywide Water Pollution Prevention Program's Stormwater Coordinator to sign and certify reports prepared by the San Mateo Countywide Water Pollution Prevention Program (Countywide Program) or Bay Area Stormwater Management Agencies Association (BASMAA) on behalf of the city. This authorization for the submittal of countywide and BASMAA reports will typically occur by an affirmative vote of my duly authorized representative or alternate at the Countywide Program's

Stormwater Technical Advisory Committee meetings, but the authorization may also be obtained through email, telephone, face to face contact, or other method of communication.
This notification will remain in effect until it is changed by me or my successor.

Very truly yours,

Barry M. Nagel, City Manager
City of South San Francisco

cc: Superintendent of WQCP
Superintendent of Public Works
Technical Services Supervisor
Senior Environmental Compliance Inspector

Section 1 – Permittee Information

Background Information					
Permittee Name:	City of South San Francisco				
Population:	60,552				
NPDES Permit No.:	CAS612008				
Order Number:	R2-2009-0074				
Reporting Time Period (month/year):	July / 2009 through June / 2010				
Name of the Responsible Authority:	Barry Nagel			**Title:**	City Manager
Mailing Address:	400 Grand Avenue				
City: South San Francisco		**Zip Code:**	94080	**County:**	San Mateo
Telephone Number:	(650) 877-8500		**Fax Number**		(650) 829-6609
E-mail Address:	bnagel@ssf.net				
Name of the Designated Stormwater Management Program Contact (if different from above):	Cassie Prudhel			**Title:**	Technical Services Supervisor
Department:	Public Works/WQCP				
Mailing Address:	195 Belle Air Road				
City: South San Francisco		**Zip Code:**	94080	**County:**	San Mateo
Telephone Number:	(650) 829-3840		**Fax Number:**		(650) 829-3855
E-mail Address:	cassie.prudhel@ssf.net				

Section 2 - Provision C.2 Reporting Municipal Operations

Program Highlights and Evaluation

Highlight/summarize activities for reporting year:

Summary: the City of South San Francisco Completed the following activities for 2009/2010:

1) Completed the pump station inventory by March 1, 2010; 2) completed the development of a SWPPP for the corp yard by July 1, 2010; and 3) participated in the Program's Municipal Maintenance Subcommittee.

C.2.a. ►Street and Road Repair and Maintenance

Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of these BMPs were not adequately implemented during the reporting fiscal year then indicate so and provide explanation in the comments section below:

X	Control of debris and waste materials during road and parking lot installation, repaving or repair maintenance activities from polluting stormwater
X	Control of concrete slurry and wastewater, asphalt, pavement cutting, and other street and road maintenance materials and wastewater from discharging to storm drains from work sites.
X	Sweeping and/or vacuuming and other dry methods to remove debris, concrete, or sediment residues from work sites upon completion of work.

Comments:

C.2.b. ►Sidewalk/Plaza Maintenance and Pavement Washing

Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of these BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

X	Control of wash water from pavement washing, mobile cleaning, pressure wash operations at parking lots, garages, trash areas, gas station fueling areas, and sidewalk and plaza cleaning activities from polluting stormwater
X	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs

Comments:

C.2.c. ►Bridge and Structure Maintenance and Graffiti Removal

Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of these BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

X	Control of discharges from bridge and structural maintenance activities directly over water or into storm drains
X	Control of discharges from graffiti removal activities
X	Proper disposal for wastes generated from bridge and structure maintenance and graffiti removal activities
X	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs for graffiti removal

Comments:

C.2.d. ►Stormwater Pump Stations

Does your municipality own stormwater pump stations: [X] **Yes** [ ] **No**

If your answer is **No** then skip to **C.2.e.**

(For FY 10-11Annual Report only) Complete the following table for dry weather DO monitoring and inspection data for pump stations[1] (add more rows for additional pump stations): **"Not required for this Annual Report"**

Pump Station Name and Location	First inspection Dry Weather DO Data		Second inspection Dry Weather DO Data	
	Date	mg/L	Date	mg/L
Not required for this Annual Report				

(For FY 10-11Annual Report only) Summarize corrective actions as needed for DO monitoring at or below 3 mg/L. Attach inspection records of additional DO monitoring for corrective actions:

Summary:
"Not required for this Annual Report."

[1] Pump stations that pump stormwater into stormwater collection systems or infiltrate into a dry creek immediately downstream are exempt from DO monitoring.

Attachments:

(For FY 10-11Annual Report only) Complete the following table for wet weather inspection data for pump stations (add more rows for additional pump stations): **"Not required for this Annual Report."**

Pump Station Name and Location	**Date** (2x/year required)	**Presence of Trash** (Cubic Yards)	**Presence of Odor** (Yes or No)	**Presence of Color** (Yes or No)	**Presence of Turbidity** (Yes or No)	**Presence of Floating Hydrocarbons** (Yes or No)
Not required for this Annual Report						

C.2.e. ▶Rural Public Works Construction and Maintenance				
Does your municipality own/maintain rural[2] roads:		**Yes**	X	**No**
If your answer is **No** then skip to **C.2.f.**				
Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If one or more of the BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:				
	Control of road-related erosion and sediment transport from road design, construction, maintenance, and repairs in rural areas			
	Identification and prioritization of rural road maintenance based on soil erosion potential, slope steepness, and stream habitat resources			
	No impact to creek functions including migratory fish passage during construction of roads and culverts			
	Inspection of rural roads for structural integrity and prevention of impact on water quality			
	Maintenance of rural roads adjacent to streams and riparian habitat to reduce erosion, replace damaging shotgun culverts and excessive erosion			
	Re-grading of unpaved rural roads to slope outward where consistent with road engineering safety standards, and installation of water bars as appropriate			
	Inclusion of measures to reduce erosion, provide fish passage, and maintain natural stream geomorphology when replacing culverts or design of new culverts or bridge crossings			
Comments including listing increased maintenance in priority areas:				

[2] Rural means any watershed or portion thereof that is developed with large lot home-sites, such as one acre or larger, or with primarily agricultural, grazing or open space uses.

C.2.f. ▶Corporation Yard BMP Implementation

Place an **X** in the boxes below that apply to your corporations yard:

	We do not have a corporation yard
	Our corporation yard is a filed NOI facility and regulated by the California State Industrial Stormwater NPDES General Permit
X	We certify that we have a current **Stormwater Pollution Prevention Plan (SWPPP)** for the Corporation Yard

Place an **X** in the boxes below next to implemented SWPPP BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of the BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

X	Control of pollutant discharges to storm drains such as wash waters from cleaning vehicles and equipment
X	Routine inspection prior to the rainy seasons of corporation yard(s) to ensure non-stormwater discharges have not entered the storm drain system
X	Containment of all vehicle and equipment wash areas through plumbing to sanitary or another collection method
X	Use of dry cleanup methods when cleaning debris and spills from corporation yard(s) or collection of all wash water and disposing of wash water to sanitary or other location where it does not impact surface or groundwater when wet cleanup methods are used
X	Cover and/or berm outdoor storage areas containing waste pollutants

Comments:

If you have a corporation yard(s) that is not an NOI facility , complete the following table for inspection results for your corporation yard(s) or attach a summary including the following information:

Corporation Yard Name	Inspection Date (1x/year required)	Inspection Findings/Results	Follow-up Actions
City of South San Francisco Corp Yard	**6/1/2010**	**Paint drums not in double containment, spill kit needed for above ground fuel tank, spoils\storage bins not covered**	**Drums now in double containment, new spill kit for fuel tank, storage bins to be covered before Oct.**

Section 3 - Provision C.3 Reporting New Development and Redevelopment

Section 3 - Provision C.3 Reporting New Development and Redevelopment
C.3.a. ▶New Development and Redevelopment Performance Standard Implementation Summary Report
(For FY 10-11Annual Report only) Provide a brief summary of the method of implementation of Provisions C.3.a.i.(1)-(8).
Summary: **"Not required for this Annual Report."**
C.3.b.v.(1) ▶Regulated Projects Reporting Table
Fill in attached table **C.3.b.v.(1)** or attach your own table including the same information

C.3.b. ▶Green Streets Status Report (All projects to be completed by December 1, 2014)
On an annual basis (if applicable), report on the status of any pilot green street projects within your jurisdiction. For each completed project, report the capital costs, operation and maintenance costs, legal and procedural arrangements in place to address operation and maintenance and its associated costs, and the sustainable landscape measures incorporated in the project including, if relevant, the score from the Bay-Friendly Landscape Scorecard.
Summary: ➢ **"Not applicable. No pilot green street projects are planned within this jurisdiction."**

C.3.b.v.(1) ▶Regulated Projects Reporting Table
Fill in attached table **C.3.b.v.(1)** or attach your own table including the same information

C.3.h.iv. ► Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

(1) Fill in attached table **C.3.h.iv.(1)** or attach your own table including the same information

(2) On an annual basis, provide a discussion of the inspection findings for the year and any common problems encountered with various types of treatment systems and/or HM controls. This discussion should include a general comparison to the inspection findings from the previous year.

Summary: Seventeen businesses were inspected between July 1, 2009 and June 30, 2010. Three of the businesses required maintenance of their stormwater treatment devices. All three of those businesses were re-inspected and found to be in compliance with the required maintenance. The majority of the businesses inspected continue to be in compliance.

The common problems encountered are the lack of maintenance of the stormwater treatment measures. This is true no matter what the device is. The majority of treatment devices are well maintained.

(3) On an annual basis, provide a discussion of the effectiveness of the O&M Program and any proposed changes to improve the O&M Program (e.g., changes in prioritization plan or frequency of O&M inspections, other changes to improve effectiveness program).

Summary: We have developed a spreadsheet listing all facilities and the treatment devices associated with those facilities. The facilities will be divided up between the Environmental Compliance Inspectors to perform the O&M inspections of the stormwater treatment devices at a rate of 8-10 every six months. The facility list will be reviewed and updated periodically. Municipality staff plans to attend a "training the trainers" workshop that the Countywide Program is planning in FY 2010/11, to prepare key municipal staff to update their O&M programs and train other staff members on O&M verification requirements.

There are no proposed changes or improvements to the O&M Program at this time.

C.3.b.v.(1) ▶Regulated Projects Reporting Table (part 1) – Projects Approved During the Fiscal Year Reporting Period

Project Name Project No.	Project Location[3], Street Address	Name of Developer	Project Phase No.[4]	Project Type & Description[5]	Project Watershed[6]	Total Site Area (Acres)	Total Area of Land Disturbed (Acres)	Total New and/or Replaced Impervious Surface Area[7] (ft^2)	Total Pre-Project Impervious Surface Area[8] (ft^2)	Total Post-Project Impervious Surface Area[9] (ft^2)
Private Projects										
Genentech Building-31 B09-1564	1531 Grandview Drive, SSF	Hathaway Dinwiddie Construction Co.	Only 1 Phase	5-story office building 149,126 sq. ft.	San Francisco Bay	3.0	2.0	8,712	108,900	130,680
Britannia Modular Labs B09-1548	100-180 Kimball Way	Hathaway Dinwiddie Construction Co.	Only 1 phase	TI Office and Lab and parking lot improvements	San Francisco Bay	5.6	2.3	100,188	187,831	192,709
Public Projects										

[3] Include cross streets
[4] If a project is being constructed in phases, use a separate row entry for each phase.
[5] Project Type is the type of development (i.e., new and/or redevelopment). Example descriptions of development are: 5-story office building, residential with 160 single-family homes with five 4-story buildings to contain 200 condominiums, 100 unit 2-story shopping mall, mixed use retail and residential development (apartments), industrial warehouse.
[6] State the watershed(s) that the Regulated Project drains to. Optional but recommended: Also state the downstream watershed(s).
[7] State both the total new impervious surface area and the total replaced impervious surface area, as applicable.
[8] For redevelopment projects, state the pre-project impervious surface area.
[9] For redevelopment projects, state the post-project impervious surface area.

C.3.b.v.(1) ▶Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period

Project Name Project No.	Status of Project[10]	Source Control Measures[11]	Site Design Measures[12]	Treatment Systems Approved[13]	Operation & Maintenance Responsibility Mechanism[14]	Hydraulic Sizing Criteria[15]	Alternative Compliance Measures[16/17]	Alternative Certification[18]	HM Controls[19/20]
Private Projects									
Genentech Building-31 B09-1564	Applied 10-30-09 Permit Approved 2-19-10	Stenciled inlets, Roofed trash enclosure, fire sprinkler test water and roof condensate drain to sanitary sewer	Disconnected down-spouts, Pervious paving	Vegetated swales, Vegetated buffer strips, Tree well filter, Bioretention area/Rain garden, Media filters	O & M Agreement with owner	Flow based sizing	Not applicable	Not applicable	Not applicable
Britannia Modular Labs B09-1548	Applied 10-29-09 Permit Approved 2-11-10	Stenciled inlets, Roofed trash enclosure, fire sprinkler test water and roof	None	Vegetated swale, storm drain media filters	O & M Agreement with owner	Flow based sizing	Not applicable	Not applicable	Not applicable

[10] For private projects, state project application submittal date; application deemed complete date; and, final discretionary approval date. For public projects, state plans and specifications approval date.
[11] List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.
[12] List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.
[13] List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).
[14] List the legal mechanism(s) (e.g., O&M agreement with private landowner; O&M agreement with homeowners' association; O&M by public entity, etc...) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.
[15] See Provision C.3.d. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3)
[16] For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.
[17] For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.
[18] Note whether a third party was used to certify the project design complies with Provision C.3.d.
[19] If HM control is not required, state why not.
[20] If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), biodetention unit(s), regional detention basin, or in-stream control).

C.3.b.v.(1) ▶Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period

Project Name Project No.	Status of Project[10]	Source Control Measures[11]	Site Design Measures[12]	Treatment Systems Approved[13]	Operation & Maintenance Responsibility Mechanism[14]	Hydraulic Sizing Criteria[15]	Alternative Compliance Measures[16/17]	Alternative Certification[18]	HM Controls[19/20]
		condensate drain to sanitary sewer, irrigation done during off-peak hours							
Public Projects									

C.3.h.iv. ▶Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

Fill in table **below** or attach your own table including the same information.

Facility/Site Inspected and Location	Party Responsible[21] For Maintenance	Date of Inspection	Type of Inspection[22]	Type of Treatment/HM Control(s) Inspected[23]	Inspection Findings or Results[24]	Enforcement Action Taken[25]	Comments
280 East Grand Ave	S. Beggs	12-8-09	Annual	Sand/oil separator	Proper O & M	None	
300 S. Airport Blvd.	Katie Griemer	9-24-09	Annual	Sand/oil separator	Required Maintenance	Required maintenance	Re-inspected 4-9-10, maintenance complete
400 E. Jaime Court	Alexandria Properties	12-21-09	Annual	Vegetated swale	Proper O & M	None	
Linear Park	City of South San Francisco	12-21-09	Annual	Vegetated swale	Proper O & M	None	
285 East Grand Ave.	Jon Bergschneider	12-21-09	Annual	Vegetated swale, Vortex separator	Proper O & M	None	
333 Corey Way	Tom Perkins	12-18-09	Annual	Vegetated swale, Drain inserts	Proper O & M	None	
1 Tower Place	Sarah Macintyre	6-23-10	Annual	CDS Units, Sand oil separator	Proper O &M	None

222 Littlefield Ave.	Sid Valledor	6-10-10	Annual	Drain Inserts	Proper O & M	None	

[21] State the responsible operator for installed stormwater treatment systems and HM controls.
[22] State the type of inspection (e.g., annual, follow-up, spot, etc.).
[23] State the type(s) of treatment systems inspected (e.g., bioretention facility, flow-through planter, infiltration basin, etc...) and the type(s) of HM controls inspected, and indicate whether the treatment system is an onsite, joint, or offsite system.
[24] State the inspection findings or results (e.g., proper installation, improper installation, proper O&M, immediate maintenance needed, etc.).
[25] State the enforcement action(s) taken, if any, as appropriate and consistent with your municipality's Enforcement Response Plan.

C.3.h.iv. ►Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

Fill in table **below** or attach your own table including the same information.

Facility/Site Inspected and Location	Party Responsible[21] For Maintenance	Date of Inspection	Type of Inspection[22]	Type of Treatment/HM Control(s) Inspected[23]	Inspection Findings or Results[24]	Enforcement Action Taken[25]	Comments
249 E. Grand Ave.	Alexandria Real Estate	6-15-10	Annual	Vegetated Swale	Proper O & M	None	
1488 El Camino Real	Park Station	6-15-10	Annual	Vegetated Swale	Proper O & M	None	
26 South Linden Ave.	Zarc Recycling	6-21-10	Annual	Vegetated Swale, Drain Inserts	Required Maintenance	Required maintenance	Re-inspected 6-28-10, maintenance complete
176 Gateway Blvd.	Nella Oil	6-22-10	Annual	Vortex Separator	Required Maintenance	Must service by August 30, 2010	

Section 4 – Provision C.4 Industrial and Commercial Site Controls

C.4.a.ii ► Legal Authority

(For FY 09-10 Annual Report only) Do you have adequate legal authority to obtain effective stormwater pollutant control on industrial sites?	X	Yes		No

If **No**, explain:

C.4.c.ii.(5) ► Enforcement Response Plan

(For FY 09-10 Annual Report only) Have you developed and implemented an Enforcement Response Plan by April 1, 2010?	X	Yes		No

If **No**, explain:

Program Highlights

Provide background information, highlights, trends, etc. For FY 09-10 Annual Report describe steps taken to revise your program to meet new data tracking and reporting requirements.

The City of South San Francisco: 1) prepared a business inspection plan with facilities, lists, inspection frequencies and priorities; 2) conducted inspections, 3) participated in the Countywide Program's CII Subcommittee and its Training Work Group.

See Attachment A for the procedure used to prepare the business inspection plan.

C.4.b.i. ► Business Inspection Plan

(For FY 09-10 Annual Report only) Do you have a Business Inspection Plan?	X	Yes		No

If No, explain:

C.4.b.iii.(1) ► Potential Facilities List

List below or attach your list of industrial and commercial facilities in your Inspection Plan to inspect that could reasonably be considered to cause or contribute to pollution of stormwater runoff.

See Attachment A.

C.4.b.iii.(2) ▶ Facilities Scheduled for Inspection

List below or attach your list of facilities scheduled for inspection during the current fiscal year.

See Attachment B.

C.4.c.iii.(1) ▶ Facility Inspections

Fill out the following table or attach a summary of the following information.

	Number	Percent
Number of businesses inspected (if known)	199	
Total number of inspections conducted	209	
Violations issued (excluding verbal warnings)	2	
Sites inspected in violation	2	1%
Violations[1] resolved within 10 working days or otherwise deemed resolved in a longer but still timely manner	2	1%

[1] Total number of violations equals the number of initial enforcement actions (i.e. one violation issued for several problems during an inspection at a site). It does not equal the total number of enforcement actions because one violation issued at a site may have a second enforcement action for the same violation at the next inspection if it is not corrected.

C.4.c.iii.(2) ▶ Frequency and Types/Categories of Violations Observed

Fill out the following table or attach a summary of the following information.

Type/Category of Violations Observed	Number of Violations
Actual discharge (e.g. non-stormwater discharge)	2
Potential discharge (e.g. BMPs not in place or ineffective)	0

C.4.c.iii.(2) ▶ Frequency and Type of Enforcement Conducted

Fill out the following table or attach a summary of the following information.

	Enforcement Action (as listed in ERP)[1]	Number of Enforcement Actions Taken	% of Enforcement Actions Taken[2]
Level 1	**Verbal warning/warning letter(NOV)/compliance meeting**	**22**	**91.7%**
Level 2	**Administrative citation**	**2**	**8.3%**
Level 3	**Cease & desist order/Notice to Abate**	**0**	**0**
Level 4	**Criminal penalties/Civil injunctions**	**0**	**0**
Total		**24**	**100%**

Notes:
[1]Agencies to list specific enforcement actions as defined in their ERPs.
[2]Percentage calculated as number of each type of enforcement action divided by the total number of enforcement actions.

C.4.c.iii.(3) ▶ Types of Violations Noted by Business Category

Fill out the following table or attach a summary of the following information. **See attached Table on the following page.**

Business Category[1]	Actual Discharge Violations	Potential Discharge Violations
Food Facilities	**0**	**0**
Auto Facilities	**2**	**0**
NOIs	**0**	**0**
Recyclers and waste transfer stations	**0**	**0**
Nurseries	**0**	**0**
Building material retailers	**0**	**0**
Corp yards	**0**	**0**
Significant industrial users	**0**	**0**

Notes:
[1] List your Program's standard business categories.

C.4.c.iii.(4) ►Non-Filers
List below or attach a list of the facilities required to have coverage under the Industrial General Permit but have not filed for coverage:
No industries were identified as non-filers during scheduled inspections during this fiscal year.

C.4.d.iii ▶ Staff Training Summary

Training Name	Training Dates	Topics Covered	No. of Inspectors in Attendance	Percent of Inspectors in Attendance
Mercury	June 21-23, 2010	Mercury	4	100
PCBs	June 21-23, 2010	PCBs	4	100
Copper	June 21-23, 2010	Copper	4	100

Staff viewed the power point presentation that is available online at the SMCWPPP website in the municipal file.

Section 5 – Provision C.5 Illicit Discharge Detection and Elimination

C.5.a.ii ► Legal Authority

(For FY 09-10 Annual Report only) Do you have adequate legal authority to prohibit and control illicit discharges and escalate stricter enforcement to achieve expedient compliance?	X	Yes		No

If **No**, explain:

C.5.b.ii.(4) ► Enforcement Response Plan

(For FY 09-10 Annual Report only) Have you developed and implemented an Enforcement Response Plan by April 1, 2010?	X	Yes		No

If **No**, explain:

Program Highlights

Provide background information, highlights, trends, etc. For FY 09-10 Annual Report describe steps taken to revise your program to meet new data tracking and reporting requirements.

1) Made map(s) of the watershed publicly available by July 1, 2010 in the Building Department; 2) provided a link on the City's website to a USGS watershed map; 3) developed/began to implement a collection system screening program; 4) ordered DO Meter and will begin DO Monitoring in September 2010; and 5) participated in the Countywide Program's CII Subcommittee and/or reviewed its products.

C.5.c.iii ►Complaint and Spill Response Phone Number and Spill Contact List

List below or attach your complaint and spill response phone number and spill contact list.

Contact	Description	Phone Number
See Attachment C		

C.5.d.iii ►Evaluation of Mobile Business Program

Describe implementation of minimum standards and BMPs for mobile businesses and your enforcement strategy. This may include participation in the BASMAA Mobile Surface Cleaners regional program or local activities.

Description: The City of South San Francisco developed a flyer to distribute to mobile washers. We have received numerous calls from businesses that want to use mobile washers and we discuss the BMPs that must be used. The City has hired Mobile Surface Cleaners in the past. If we should have occasion to hire Mobile Surface Cleaners in the future we will clearly explain the new requirements for those services and hire only certified Mobile Surface Cleaners. We participate in the Countywide mobile food facility outreach and have contacted the County for enforcement regarding mobile food facilities.

C.5.e.iii ►Evaluation of Collection System Screening Program

Provide a summary or attach a summary of your collection screening program, a summary of problems found during collection system screening and any changes to the screening program this FY.

Description: The City of South San Francisco has an ongoing program for reporting illicit discharges within the City. When the street crew is out performing routine maintenance or cleaning storm drains and they observe an illicit discharge or a suspected illicit discharge they call the Environmental Compliance Inspectors who respond to the call. Additionally, the Inspectors participate in a quarterly creek walk along Colma Creek with County of San Mateo Staff. This enables the Inspectors to see any problem areas that have evidence of past discharges. Residents of South San Francisco also call the Street Department and report illicit discharges/potential discharges. The Inspectors follow-up on these reports. The Inspectors are working with the Public Works Superintendent to formalize and implement a collection system screening program.

C.5.f.iii.(1), (2), (3) ►Spill and Discharge Complaint Tracking

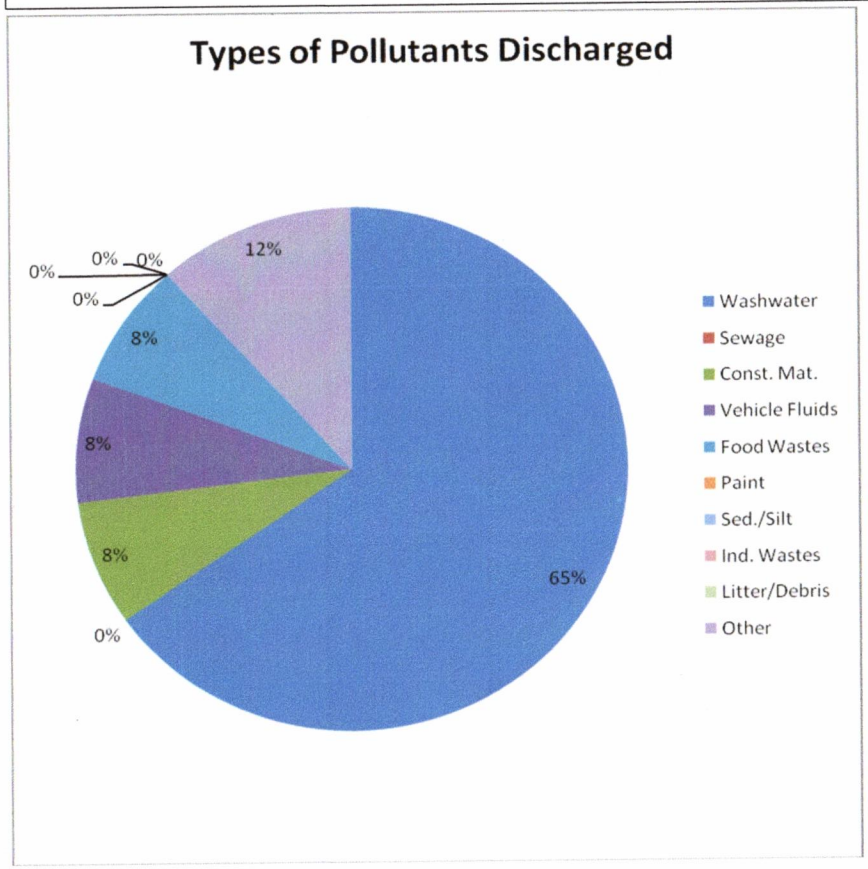
Spill and Discharge Complaint Tracking (fill out the following table or include an attachment of the following information)

	Number	Percentage
Discharges reported (C.5.f.iii.(1))	25	
Discharges reaching storm drains and/or receiving waters (C.5.f.iii.(2))	17	68%
Discharges resolved in a timely manner (C.5.f.iii.(3))	25	100%

C.5.f.iii.(4) ►Summary of major types of discharges and complaints

Provide a narrative or attach a table and/or graph.

The majority of discharges are from vehicle washing. Many of these discharges are observed by the Environmental Compliance Inspectors while they are performing routine field surveillance. When an Inspector observes a discharge they immediately stop and deal with the situation. The majority of these discharges can be immediately abated. The Inspectors also receive calls from the South San Francisco Street Crew regarding discharges and report to the location as soon as possible. Occasionally we also receive citizen complaints which are also dealt with as soon as possible.



Section 6 – Provision C.6 Construction Site Controls

C.6.a.iii ► Legal Authority

(For FY 09-10 Annual Report only) Is your agency's legal authority adequate for C.6 compliance?	X Yes	No
If **No**, explain:		

C.6.b.ii.(3) ► Enforcement Response Plan

(For FY 09-10 Annual Report only) Was your Enforcement Response Plan developed and implemented by April 1, 2010?	X Yes	No
If **No**, explain:		

C.6.e.iii.1.a, b, c ►Site/Inspection Totals

Number of sites disturbing < 1 acre of soil requiring storm water runoff quality inspection (i.e. High Priority) (C.6.e.iii.1.a)	**Number of sites disturbing ≥ 1 acre of soil** (C.6.e.iii.1.b)	**Total number of storm water runoff quality inspections conducted** (C.6.e.iii.1.c)
1	3	21

C.6.e.iii.1.d ►Construction Activities Storm Water Violations

BMP Category	Number of Violations[1]	% of Total Violations[2]
Erosion Control	7	50
Run-on and Run-off Control	4	29
Sediment Control	0	0
Active Treatment Systems	0	0
Good Site Management	2	14
Non Stormwater Management	0	0
Total	13	100%

Notes:
[1]Count one violation in a category for each site and inspection regardless of how many violations/problems occurred in the BMP category.
[2]Percentage calculated as number of violations in each category divided by total number of violations in all six categories.

C.6.e.iii.1.e ►Construction Related Storm Water Enforcement Actions

	Enforcement Action (as listed in ERP)[1]	Number Enforcement Actions Taken	% Enforcement Actions Taken[2]
Level 1	**Verbal Warning/Notice of Violation/Compliance Meeting**	**14**	**100**
Level 2	**Administrative Citation**	**0**	**0**
Level 3	**Stop Work Order/Notice to Abate Nuisance**	**0**	**0**
Level 4	**Criminal Penalties/Civil Injunctions**	**0**	**0**
Total			**100%**

Notes:

[1]Agencies should list the specific enforcement actions as defined in their ERPs.

[2]Percentage calculated as number of each type of enforcement action divided by the total number of enforcement actions.

C.6.e.iii.1.f, g ►Illicit Discharges

	Number
Number of illicit discharges, actual and those inferred through evidence (C.6.e.iii.1.f)	**1**
Number of sites with discharges, actual and those inferred through evidence (C.6.e.iii.1.g)	**1**

C.6.e.iii.1.h, i ►Violation Correction Times

	Number	Percent
Violations fully corrected within 10 business days after violations are discovered or otherwise considered corrected in a timely period (C.6.e.iii.1.h)	9	100%[2]
Violations not fully corrected within 30 days after violations are discovered (C.6.e.iii.1.i)	0	0%[3]
Total number of violations for the reporting year[1]	9	100%

Notes:

[1]Total number of violations equals the number of initial enforcement actions (i.e. one violation issued for several problems during an inspection at a site). It does not equal the total number of enforcement actions because one violation issued at a site may have a second enforcement action for the same violation at the next inspection if it is not corrected.

[2]Calculated as number of violations fully corrected in a timely period after the violations are discovered divided by the total number of violations for the reporting year.

[3]Calculated as number of violations not fully corrected within 30 days after the violations are discovered divided by the total number of violations for the reporting year.

C.6.e.iii.(2) ►Evaluation of Inspection Data

Describe your evaluation of the tracking data and data summaries and provide information on the evaluation results (e.g., data trends, typical BMP performance issues, comparisons to previous years, etc.).

Description: The erosion control inspection data reflects similar trends that are seen year after year. It is not uncommon for construction sites to require maintenance as the rainy season progresses. Wattles which are very useful in erosion control will fail after a period of time. We take a very proactive approach to the inspection of our erosion control sites. We generally go out to the site when a storm is predicted to make sure that the site is prepared for the storm. We go out to the site during the storm to make sure that their BMPs are effective. We go out to the site after the storm to determine what erosion control devices need maintenance.

C.6.e.iii.(2) ►Evaluation of Inspection Program Effectiveness

Describe what appear to be your program's strengths and weaknesses, and identify needed improvements, including education and outreach.

Description: The City of South San Francisco's program works quite well. The inspectors inspect each construction site before the beginning of the wet season. They inspect each site when rain is predicted and several times during an extended or severe storm. They follow up at each site after the storm to determine if any repairs are necessary. The inspectors participate in erosion control training at a minimum of every 2 years.

C.6.f ▶ Staff Training Summary

Training Name	Training Dates	Topics Covered	No. of Inspectors in Attendance	Percent of Inspectors in Attendance
Construction Site Compliance Workshop	12-3-09	MRP Provision C.6 requirements, new Construction general Permit, the Water Board's inspection program, and construction BMPs	3	75%
Construction General Permit	March 23, 2010	Construction General Permit reporting requirements	1	25%

Section 7 – Provision C.7. Public Information and Outreach

C.7.b.ii.1 ►Advertising Campaign

Summarize advertising efforts. Include details such as messages, creative developed, and outreach media used. The detailed advertising report may be included as an attachment. If advertising is being done by participation in a countywide or regional program, refer to the separate countywide or regional Annual Report.

Summary:

" The following report developed by BASMAA is included within the C.7 Public Information and Outreach section of the Countywide Program's Annual Report:

• FY 09-10 Regional Outreach Strategic Plan – summarizes regional advertising efforts."

C.7.b.iii.1 ►Pre-Campaign Survey

(For the FY 10-11 Annual Report only) Summarize survey information such as sample size, type of survey (telephone survey, interviews etc.). Attach a survey report that includes the following information. If survey was done regionally, refer to a regional submittal that contains the following information: **Not required for this Annual Report.**

- Summary of how the survey was implemented.
- Analysis of the survey results.
- Discussion of the outreach strategies based on the survey results.
- Discussion of planned or future advertising campaigns to influence awareness and behavior changes regarding trash/litter and pesticides.

Place an **X** in the appropriate box below:

☐	Survey report attached
☐	Reference to regional submittal:

C.7.c ►Media Relations

Summarize the media relations effort. Include the following details for each media pitch in the space below, AND/OR refer to a regional report that includes these details:

- Topic and content of pitch
- Medium (TV, radio, print, online)
- Date of publication/broadcast

Summary:
"The following reports developed by SMCWPPP and BASMAA are included within the C.7 Public Information and Outreach section of the Countywide Program's Annual Report:
- **FY 09-10 SMCWPPP Media Relations Report – summarizes countywide media relations efforts**
- **FY 09-10 BASMAA Regional Media Relations –summarizes regional media relations efforts."**

C.7.d ▶Stormwater Point of Contact

(For FY 09-10 Annual Report only, unless changes made) Provide details of website or phone number used as the point of contact. Report on how the point of contact is publicized and maintained. If any change occurs in this contact, report in a subsequent Annual Report.

Contact Summary:
The following is the website address lists the point of contact for the Stormwater Program: http://www.ci.ssf.ca.us/index.aspx?NID=1201

The plant phone number (650) 877-8555 is included as well as the extension of all the Environmental Compliance Personnel. Cassie Prudhel (650) 829-3840, Rob Lecel (650) 829-3882, Shoshana Wolff (650) 829-3880, and Daniel Fulford (650) 829-3881. Additionally, the afterhours WQCP phone number is included (650) 877-8556.

"The Countywide Program's website, www.flowstobay.org and phone number (650) 372-6200 is another point of contact that is publicized on SMCWPPP outreach materials and maintained by the Countywide Program. Individual agency points of contact are publicized on the website, referred to when calling into the Countywide Program phone number, and publicized on some SMCWPPP outreach materials."

C.7.e ▶Public Outreach Events

Describe general approach to event selection. Provide a list of outreach materials and giveaways distributed.
Use the following table for reporting and evaluating public outreach events

Event Details	**Description** (messages, audience)	**Evaluation of Effectiveness**
Provide event name, date, and location. Indicate if event is local, countywide or regional. **"The following outreach events were done on a countywide level by SMCWPPP and are included**	Identify type of event (e.g., school fair, farmers market etc.), type of audience (school children, gardeners, homeowners etc.) and outreach messages (e.g., Enviroscape presentation, pesticides, stormwater awareness)	Provide general staff feedback on the event (e.g., success at reaching a broad spectrum of the community, well attended, good opportunity to talk to gardeners etc.). Provide other details such as: • Estimated overall attendance at the event. • Number of people that visited the booth, comparison with previous years

in the C.7 Public Information and Outreach section of the Countywide Program's FY 09-10 Annual Report: •FY 09-10 Community Action Grant • FY 09-10 Home Show at the Cow Palace, March 26, 27, & 28, 2010." • San Mateo Countywide Water Pollution Prevention Program Participation in the South San Francisco Farmers Market – June 19, 2010, 9am to 1 pm, Orange memorial Park, Outreach-Oil & Stormwater Number of Participants: Talked to 24 people in 2 hours, with an average of 12 people per hour. Only had one interested in taking the survey for a reusable bag. This event wasn't as successful as other Farmer's Markets we have attended due to the weather and the bad placement of our table (outside of the farmers market). Make sure that in future events we are not placed outside. At this event there was not a space for us among the farmer's booths.		• Number of brochures and giveaways distributed • Results of any spot surveys conducted
City of South San Francisco Event- South San Francisco, Farmers Market, July 2009.	Farmers Market open to the public. Staff provided outreach materials and thermometers for exchange.	The number of people that visited the booth was limited. Less than 5 people visited the booth.
City of South San Francisco Event- Day in the Park – September 19, 2009	Day in the Park is a Community Fair. The focus of this booth was Stormwater and Pollution Prevention outreach items were distributed.	Outreach materials distributed were: Pest Management Brochures, 146 pencils, 122 erasers, 364 rulers, 75 magnets, 178 grease scrapers, 156 sponges, 304 pillboxes, Grow It Guides, and 500 reusable Chico bags. All of these items include the contact information for the City of South San Francisco Stormwater Program. Additionally, 377 trash questionnaires were completed. See Attachment D.

C.7.f. ►Watershed Stewardship Collaborative Efforts

Summarize watershed stewardship collaborative efforts and/or refer to a regional report that provides details. Describe the level of effort and support given (e.g., funding only, active participation etc.). State efforts undertaken and the results of these efforts. If this activity is done regionally refer to a regional report.

Evaluate effectiveness by describing the following:

- Efforts undertaken
- Major accomplishments

Summary:

During FY 09-10, SMCWPPP developed the online guide, Environmental Resource Guide of Groups and Organizations in San Mateo County with Watershed Stewardship Efforts to encourage public involvement in watershed volunteer efforts. Communication was established with each of the organizations in the guide in order to understand each of the group's needs and future collaboration possibilities. In addition, all of the organization's events throughout the year were posted on the Countywide Program's popular 'Community Events' page to publicize and encourage participation by county residents in local stewardship efforts.

C.7.g. ►Citizen Involvement Events

List the types of events conducted (e.g., creek clean up, storm drain inlet marking, native gardening etc.). Use the following table for reporting and evaluating citizen involvement events.

Event Details	Description	Evaluation of effectiveness
Provide event name, date, and location. Indicate if event is local, countywide or regional	Describe activity (e.g., creek clean-up, storm drain marking etc.)	
The City of South San Francisco held its Annual Bay Front Cleanup on September 26, 2009.	**Bay front cleanup.**	**City staff And 75 volunteers cleaned up 1.0 mile of bay front and collected app. 500 lbs. of debris and 120 lbs. of recyclables.**
The City of South San Francisco Staff participated in a Colma Creek and Bay Trail Cleanup event with the Community Preservation Task Force on November 14, 2009.	**Colma Creek cleanup.**	**City staff and 20 volunteers collected app. 500 lbs. of combined garbage and recyclables.**
Ongoing storm drain marking by City Staff	**Storm drain marking**	**77 Storm drains were marked**

C.7.h. ►School-Age Children Outreach

Summarize school-age children outreach programs implemented. A detailed report may be included as an attachment.
Use the following table for reporting school-age children outreach efforts.

Program Details	Focus & Short Description	Number of Students/Teachers reached	Evaluation of Effectiveness
Provide the following information: Name Grade or level (elementary/ middle/ high) **"The following separate reports developed by SMCWPPP are included within the C.7 Public Information and Outreach section of the Countywide Program's FY 09-10 Annual Report:** **• FY 09-10 ZunZun School Assembly Program** **• FY 09-10 The Watershed Project, Creek Champions In Class Presentations."**	Brief description, messages, methods of outreach used	Provide number or participants	Provide agency staff feedback. Report any other evaluation methods used (quiz, teacher feedback etc.). Attach evaluation summary if applicable.
Fourth Grade Outreach	**Inspectors provided a 45-minute presentation on Pollution Prevention and distributed various materials.**	**205 Students and seven 4th grade teachers**	**The 4th grade presentations continue to be effective. Students often write thank you notes which include the message that they learned. We are now seeing some students in our high school program that we had in our 4th grade program.**
High School Outreach – Sewer Science	**The City of South San Francisco's Environmental Compliance Inspectors and Laboratory Chemists provided Sewer Science, a weeklong Wastewater Treatment Lab for High**	**5 science classes at South San Francisco High in December 2009 (1 teacher); 2 science classes at**	**Students often write notes that highlight their favorite part of the training.**

	School Students. A 45-minute presentation on Pollution Prevention was provided to each class.	Capuchino High in February 2010 (1 teacher); and 8 science classes at El Camino High School during in May 2010 App. 450 students (4 teachers)	

Section 8 - Provision C.8 Water Quality Monitoring

C.8 ▶Water Quality Monitoring

State below if information is reported in a separate regional report. Municipalities can also describe below any Water Quality Monitoring activities in which they participate directly, e.g. participation in RMP workgroups, fieldwork within their jurisdictions, etc.

Summary

"During FY 09-10, we contributed to SMCWPPP's Monitoring and Assessment Program in coordination with BASMAA's Regional Monitoring Coalition (RMC). In addition, we contribute financially to the Regional Monitoring Program for Water Quality in the San Francisco Estuary (RMP) and actively participate in RMP committees and work groups. For additional information on monitoring activities conducted by SMCWPPP, BASMAA RMC and the RMP, see the C.8 Water Quality Monitoring section of the Countywide Program's FY 09-10 Annual Report."

Section 9 – Provision C.9 Pesticides Toxicity Controls

C.9.a ►Adopt an Integrated Pest Management (IPM) Policy or Ordinance

(For FY 09-10 Annual Report only) Attach a copy of your individual IPM ordinance or policy. **See Attachment E for IPM Policy and SOP**	X	**Attached**		**Not attached,** explain below
If **Not attached**, explain:				

C.9.b ►Implement IPM Policy or Ordinance

Report implementation of IPM BMPs by showing trends in quantities and types of pesticides used, and suggest reasons for increases in use of pesticides that threaten water quality, specifically organophosphorous pesticides, pyrethroids, carbaryl, and fipronil. A separate report can be attached as evidence of your implementation.

Summary: The City of South San Francisco does not use organophosphate pesticides, pyrethroids, carbaryl, and fipronil. Total pesticide use for the City of South San Francisco for 2009/2010 was a total of 100 lbs of Princep Caliber 90 and Simazine 90 DP and a total of 130.65 gallons of Glyphoste T & O, Glystar Pro, Princep Caliber 90, Roundup Pro, Simazine 90 DP, Speed Zone, Surflan, Syngenta Reward, Turflon, and Zeneca Reward.

The pesticide use for 2008/2009 was a total of 213.66 gallons of Roundup Pro, Syflan, Turflon, and Zeneca Reward and a total of 97.5 pounds of Greenview Preen, Princep Caliber 90 and Ronstar G. See the table and charts on the next 3 pages for summaries of pesticide use.

2008/2009		
Greenview Preen	7.5	lbs
Princep Caliber 90	40	lbs
Ronstar G	50	lbs
Roundup Pro	135.3125	gal
Surflan	56	gal
Turflon	21	gal
Zeneca Reward	1.344	gal

2009/2010		
Glyphoste T & O	107	gal
Glystar Pro	2.5	gal
Princep Caliber 90	70	lbs
Roundup Pro	6	gal
Simazine 90 DP	30	lbs
Speed Zone	6	gal
Surflan	2.5	gal
Syngenta Reward	0.39	gal
Turflon	6	gal
Zeneca Reward	0.26	gal

2008/2009 Total

213.6565 **gal**

97.5 **lbs**

2009/2010 Total

130.65 **gal**

C.9.c ►Train Municipal Employees

Enter the number of employees that applied or used pesticides (including herbicides) within the scope of their duties this reporting year.	**22**
Enter the number of these employees who received training on your IPM policy and IPM standard operating procedures within the last 3 years.	**3 participated on Feb 25, 2010; 22 were trained in house**
Enter the percentage of municipal employees who apply pesticides who have received training in the IPM policy and IPM standard operating procedures within the last three years.	**100**

C.9.d ►Require Contractors to Implement IPM

Did your municipality contract with any pesticide service provider in the reporting year?	**X**	**Yes**		**No**

If yes, attach one of the following: Contract Specifications attached: **See Attachment F**

X	Contract specifications that require adherence to your IPM policy and standard operating procedures, OR
	Copy(ies) of the contractors' IPM certification(s) or equivalent, OR
	Equivalent documentation.

If **Not attached**, explain:

C.9.e ►Track and Participate in Relevant Regulatory Processes

Summarize participation efforts, information submitted, and how regulatory actions were affected **OR** reference a regional report that summarizes regional participation efforts, information submitted, and how regulatory actions were affected.

Summary:

"During FY 09-10, we participated in regulatory processes related to pesticides through contributions to SMCWPPP, BASMAA and CASQA. For additional information, see the Regional Pollutants of Concern Report submitted by BASMAA on behalf of all MRP Permittees. This Report is included within the Countywide Program's FY 09-10 Annual Report."

C.9.f ▶ Interface with County Agricultural Commissioners

Provide a summary of improper pesticide usage reported to the County Agricultural Commissioner and follow-up actions to correct violations, if any. A separate report can be attached as your summary.

Summary: There was no improper use of pesticide that was reported to the County Agricultural Commissioner.

C.9.h.ii ▶ Public Outreach: Point of Purchase

Provide a summary of public outreach at point of purchase, and any measurable awareness and behavior changes resulting from outreach (here or in a separate report); **OR** reference a report of a regional effort for public outreach in which your agency participates.

Summary:

"The following reports developed by SMCWPPP and BASMAA summarize point of purchase outreach efforts. These reports are included within the C.9 Pesticides Toxicity Control section of the Countywide Program's FY 09-10 Annual Report:

- **FY 09-10 IPM Store Partnership Program (SMCWPPP)**
- **FY 09-10 'Our Water, Our World' Report (BASMAA)."**

C.9.h.vi ▶ Public Outreach: Pest Control Operators

Provide a summary of public outreach to pest control operators and landscapers and reduced pesticide use (here or in a separate report); **OR** reference a report of a regional effort for outreach to pest control operators and landscapers in which your agency participates.

Summary:

"The following separate reports developed by SMCWPPP summarize Pest Control Operator outreach efforts conducted during FY 09-10:

- **FY 09-10 Green Gardener Pilot-Program Training Report."**

Section 10 - Provision C.10 Trash Load Reduction

C.10.a.i ►Short-Term Trash Loading Reduction Plan

(For FY 10-11 Annual Report only) Provide description of actions/tasks initiated/conducted/completed in developing a Short-Term Trash Loading Reduction Plan (due February 1, 2012).

Description:

"Not required for this Annual Report."

C.10.a.ii ►Baseline Trash Load and Trash Load Reduction Tracking Method

(For FY 10-11 Annual Report only) Provide description of actions/tasks initiated/conducted/completed to gather trash loading data and in developing a Baseline Trash Load and Trash Load Reduction Tracking Method (due February 1, 2012).

Description:

"A summary of the Countywide Program's accomplishments for this sub-provision are included within the C.10 Trash Load Reduction section of Program's FY 09-10 Annual Report."

C.10.a.iii ►Minimum Full Trash Capture

(For FY 10-11 Annual Report and Each Annual Report Thereafter) Provide description of actions/tasks initiated/conducted/completed in implementing Minimum Full Trash Capture Devices (due July 1, 2014) within individual jurisdictions. Include information on Full Trash Capture Devices installed under Bay-area Wide Trash Capture Demonstration Project administered by San Francisco Estuary Partnership.

Description:

"A summary of Program accomplishments for this sub-provision are included within the C.10 Trash Load Reduction section of the Countywide Program's FY 09-10 Annual Report." The City of South San Francisco sent five employees to the San Francisco Estuary Partnership's Vendor Fair and meeting on May 4, 21010. The employees attended the meeting from 10:00-12:00 and spent several hours at the Vendor Fair examining the various Trash Capture Devices.

C.10.b.iii ▶Trash Hot Spot Assessment

(For FY 10-11 Annual Report and Each Annual Report Thereafter) Provide volume of material removed from each Trash Hot Spot cleanup, and the dominant types of trash (e.g., glass, plastics, paper) removed and their sources to the extent possible. Provide required photo documentation.

Fill out the following table or attach a summary of the following information.

Two Trash Hot Spots were selected in Colma Creek by the July 1, 2010 deadline. The first Cleanup will be held on September 25, 2010.

Trash Hot Spot	**Cleanup Date**	**Volume of Material Removed**	**Dominant Type of Trash**	**Trash Sources** (where possible)

C.10.d ►Summary of Trash Load Reduction Actions

Provide summary of new trash load reduction actions or increased levels of implementation of existing actions that were implemented after adoption of the MRP (control measures and best management practices) including the types of actions and levels of implementation, and the total trash loads and dominant types of trash removed from each type of action.

Suggested trash load reduction actions to track and report may include:

- Anti-litter Campaigns
- Anti-litter/Dumping Enforcement Activities
- Curbside Recycling Programs
- Education and Outreach Efforts
- Free Trash Pickup/Dropoff Days
- County HHW Program Activities
- Improved Trash Bin Management
- Inspection/Maintenance of Storm Drain Outfalls
- Litter Pickup and Control
- Removal of Homeless Encampments
- Solid Waste Recycling Efforts
- Source Controls/Bans/Prohibitions
- Storm Drain Operation and Maintenance
- Storm Drain Signage/Marking
- Street Sweeping Activities
- Trash Removal from Receptacles
- Volunteer Creek Cleanups

Type of Trash Load Reduction Action	Date of First Implementation	Level of Implementation (specify if level was increased after MRP adoption)	Total Trash Load Removed by Action	Dominant Types of Trash Removed by Action
"Not all trash load reduction actions were tracked by 'loads removed' this fiscal year. Once the Trash Load Reduction Tracking Method is developed (see Provision C.10.a.ii), trash loads removed will be estimated for each load reduction action (as feasible)."				
Volunteer Creek Cleanups	**Jan-June 2010**	**Level was increased after MRP adoption**	**App. 2000 lbs. removed**	**Plastic bottles, Styrofoam cups, Plastic bags**

Section 11 - Provision C.11 Mercury Controls

C.11.a.i ►Mercury Recycling Efforts

List below or attach lists of efforts to promote, facilitate, and/or participate in collection and recycling of mercury containing devices and equipment at the consumer level (e.g., thermometers, thermostats, switches, bulbs).

A thermometer exchange program was conducted for a month from Sept. 15, 2009 to Oct. 15, 2009. A total of 33 thermometers were collected. An estimate of 16.5 grams of mercury was collected from thermometers. Additionally an estimated 17 lbs. of mercury was turned in to the City of South San Francisco from various sources. Fluorescent light bulb recycling was conducted in the City of South San Francisco. We recycled 664 fluorescent light bulbs with an estimate of 4.98 grams of mercury.

(Estimates are based on literature values)

C.11.a.ii ►Mercury Collection

Provide an estimate of the mass of mercury collected through these efforts, or provide a reference to a report containing this estimate.

Amount collected:

"The methodologies for estimating the mass of mercury collected through mercury collection and recycling efforts are currently in development and are due to the Water Board by September 15, 2010. Therefore, estimates could not be made for FY 09-10. Estimates of the mass of mercury collected through recycling efforts during FY 10-11 will be provided with the FY 10-11 Annual Report."

C.11.b ►Monitor Methylmercury
C.11.c ►Pilot Projects to Investigate and Abate Mercury Sources in Drainages
C.11.d ►Pilot Projects to Evaluate and Enhance Municipal Sediment Removal and Management Practices
C.11.e ►Conduct Pilot Projects to Evaluate On-Site Stormwater Treatment via Retrofit
C.11.f ►Diversion of Dry Weather and First Flush Flows to POTWs
C.11.g ►Monitor Stormwater Mercury Pollutant Loads and Loads Reduced
C.11.h ►Fate and Transport Study of Mercury In Urban Runoff
C.11.i ►Development of a Risk Reduction Program Implemented Throughout the Region
C.11.j ►Develop Allocation Sharing Scheme with Caltrans

State below if information is reported in a separate regional report. Municipalities that participate directly in regional activities to can provide descriptions below.

Summary

"A summary of SMCWPPP's accomplishments for these sub-provisions are included within the C.11 Mercury Controls section of the Countywide Program's FY 09-10 Annual Report and/or the BASMAA Regional POC Report."

Section 12 - Provision C.12 PCBs Controls

C.12.a.i,iii ►Municipal Inspectors Training

(For FY 09-10 Annual Report only) List below or attach description of results of training municipal industrial inspectors to identify, in the course of their existing inspections, PCBs or PCB-containing equipment.

Description:

"In FY 09-10, inspector training materials were developed through in-kind contributions of SMCWPPP and SCVURPPP to BASMAA. Training materials can be found in the BASMAA Regional POC Report."

C.12.a.ii,iii ►Ongoing Training

(For FY 10-11 Annual Report and Each Annual Report Thereafter) List below or attach description of ongoing training development and inspections for PCB identification, including documentation and referral to appropriate regulatory agencies (e.g. county health departments, Department of Toxic Substances Control, California Department of Public Health, and the Water Board) as necessary.

Description:

Not required for this Annual Report.

C.12.b ►Conduct Pilot Projects to Evaluate Managing PCB-Containing Materials and Wastes during Building Demolition and Renovation Activities
C.12.c ►Pilot Projects to Investigate and Abate On-land Locations with Elevated PCB Concentrations
C.12.d ►Conduct Pilot Projects to Evaluate and Enhance Municipal Sediment Removal and Management Practices
C.12.e ►Conduct Pilot Projects to Evaluate On-Site Stormwater Treatment via Retrofit
C.12.f ►Diversion of Dry Weather and First Flush Flows to POTWs
C.12.g ►Monitor Stormwater PCB Pollutant Loads and Loads Reduced
C.12.h ►Fate and Transport Study of PCBs In Urban Runoff
C.12.i ►Development of a Risk Reduction Program Implemented Throughout the Region

State below if information is reported in a separate regional report. Municipalities that participate directly in regional activities to can provide descriptions below.

Summary

"A summary of Program accomplishments for these sub-provisions are included within the C.12 PCB Controls section of the Countywide Program's FY 09-10 Annual Report and/or the BASMAA Regional POC Report."

Section 13 - Provision C.13 Copper Controls

C.13.a.i and iii ► Legal Authority: Architectural Copper

(For FY 10-11 Annual Report only) Do you have adequate legal authority to prohibit discharge of wastewater to storm drains generated from the installation, cleaning, treating, and washing of the surface of copper architectural features, including copper roofs to storm drains?		Yes	X	No

If **No**, explain and provide schedule for obtaining authority within 1 year:

Not required for this Annual Report.

The stormwater ordinance will be reviewed in 2010/2011 to incorporate this authority.

C.13.b.i and iii ► Legal Authority: Pools, Spas, and Fountains

(For FY10-11 Annual Report only) Do you have adequate legal authority to prohibit discharges to storm drains from pools, spas, and fountains that contain copper-based chemicals?		Yes	X	No

If **No**, explain and provide schedule for obtaining authority within 1 year:

Not required for this Annual Report.

The stormwater ordinance will be reviewed in 2010/2011 to incorporate this authority.

C.13.c ►Vehicle Brake Pads

Reported in a separate regional report.

"A summary of SMCWPPP's participation with the Brake Pad Partnership (BPP) is included within the C.13 Copper Controls section of the Countywide Program's FY 09-10 Annual Report and/or the BASMAA Regional POC Report."

C.13.d.iii ►Industrial Sources Copper Reduction Results

List below or attach annotated lists or tables from your Industrial and Commercial Site Controls portion of this report, that highlight copper reduction results among the facilities identified as potential users or sources of copper, facilities inspected, and BMPs addressed. For FY09-10 describe below or highlight in the C.4 Evaluation portion (if provided) of this report the steps taken to revise your program to meet new data tracking and reporting requirements for implementation levels described in C.13.d.ii.

Summary

The City of South San Francisco has one plating facility that is inspected twice a year. No stormwater issues have occurred at this site.

"In FY 09-10, inspector training materials were developed through in-kind contributions of SMCWPPP and SCVURPPP to BASMAA. Training materials can be found in the BASMAA Regional POC Report."

C.13.e ►Studies to Reduce Copper Pollutant Impact Uncertainties

Revised. Description reads "State below if information is reported in a separate regional report. Municipalities that participate directly in regional activities can provide descriptions below."

Summary

"A summary of SMCWPPP's efforts (i.e., participation in RMP committee and work group meetings) to develop regional studies to reduce copper pollutant impact uncertainties is included within the C.13 Copper Controls section of the Countywide Program's FY 09-10 Annual Report and/or BASMAA Regional POC Report."

Section 14 - Provision C.14 PBDE, Legacy Pesticides and Selenium Controls

C.14.a ►Control Programs for PBDEs, Legacy Pesticides and Selenium Controls

Revised. Description reads "State below if information is reported in a separate regional report. Municipalities that participate directly in regional activities can provide descriptions below."

Summary

"A summary of SMCWPPP's efforts (i.e., participation in RMP committee and work group meetings) to develop a Control Program for PBDEs, Legacy Pesticides and Selenium is included within the C.14 PBDE, Legacy Pesticides and Selenium section of the Countywide Program's FY 09-10 Annual Report and/or BASMAA Regional POC Report."

Section 15 - Provision C.15 Exempted and Conditionally Exempted Discharges

C.15.b.iii.(1), C.15.b.iii.(2) ► Planned and Unplanned Discharges of Potable Water

Is your agency a water purveyor?		Yes	X	No
If **No**, skip to C.15.b.vi.(2):				
If **Yes**, Complete the attached reporting tables or attach your own table with the same information. Describe program highlights below. For FY 09-10 only, describe steps taken to revise your program to meet new monitoring, data tracking and reporting requirements.				
Summary:				

C.15.b.vi.(2) ► Irrigation Water, Landscape Irrigation, and Lawn or Garden Watering

Provide implementation summaries of the required BMPs to promote measures that minimize runoff and pollutant loading from excess irrigation. Generally the categories are:

- Promote conservation programs
- Promote outreach for less toxic pest control and landscape management
- Promote use of drought tolerant and native vegetation
- Promote outreach messages to encourage appropriate watering/irrigation practices
- Implement Illicit Discharge Enforcement Response Plan for ongoing, large volume landscape irrigation runoff.

Summary: The City of South San Francisco participates in the Countywide Program's public outreach efforts and the Parks and Maintenance Committee. Additionally, plan review comments for the City include the following:

1. **Requires new buildings to discharge fire sprinkler test water to the sanitary sewer or to landscape.**

2. **Landscaping shall meet the following conditions related to reduction of pesticide use on the project site:**

    a. **Where feasible, landscaping shall be designed and operated to treat stormwater runoff by incorporating elements that collect, detain, and infiltrate runoff. In areas that provide detention of water, plants that are tolerant of saturated soil conditions and prolonged exposure to water shall be specified.**

    b. **Plant materials selected shall be appropriate to site specific characteristics such as soil type, topography, climate, amount and timing of sunlight, prevailing winds, rainfall, air movement, patterns of land use, ecological consistency and plant interactions to ensure successful establishment.**

c. Existing native trees, shrubs, and ground cover shall be retained and incorporated into the landscape plan to the maximum extent practicable.

d. Proper maintenance of landscaping, with minimal pesticide use, shall be the responsibility of the property owner.

e. Integrated pest management (IPM) principles and techniques shall be encouraged as part of the landscaping design to the maximum extent practicable. Examples of IPM principles and techniques include:

   i. Select plants that are well adapted to soil conditions at the site.

   ii. Select plants that are well adapted to sun and shade conditions at the site. In making these selections, consider future conditions when plants reach maturity, as well as seasonal changes.

   iii. Provide irrigation appropriate to the water requirements of the selected plants.

   iv. Select pest-resistant and disease-resistant plants.

   v. Plant a diversity of species to prevent a potential pest infestation from affecting the entire landscaping plan.

   vi. Use "insectary" plants in the landscaping to attract and keep beneficial insects.

C.15.b.iii.(1) ►Planned Discharges of the Potable Water System

Site/ Location	Discharge Type	Receiving Waterbody(ies)	Date of Discharge	Duration of Discharge (military time)	Estimated Volume (gallons)	Estimated Flow Rate (gallons/day)	Chlorine Residual (mg/L)	pH (standard units)	Discharge Turbidity[1] (NTU)	Implemented BMPs & Corrective Actions

Notes:

[1] Monitor the receiving water for turbidity if necessary and feasible. Include data in this column if available.

C.15.b.iii.(2) ►Unplanned Discharges of the Potable Water System

Site/ Location	Discharge Type	Receiving Waterbody(ies)	Date of Discharge	Discharge Duration (military time)	Estimated Volume (gallons)	Estimated Flow Rate (gallons/day)	Chlorine Residual[2] (mg/L)	pH[2] (standard units)	Discharge Turbidity (Visual)[2,]	Implemented BMPs & Corrective Actions	Time of discharge discovery	Regulatory Agency Notification Time[4]	Inspector arrival time	Responding crew arrival time

Notes:

1. This table contains all of the unplanned discharges that occurred in this FY.

2. Monitoring data is only required for 10% of the unplanned discharges. If you monitored more than 10% of your unplanned discharges report all of the data collected.

4. Notification to Water Board staff is required for unplanned discharges where the chlorine residual is >0.05 mg/L and total volume is ≥ 50,000 gallons. Notification to State Office of Emergency Services is required after becoming aware of aquatic impacts as a result of unplanned discharge or when the discharge might endanger or compromise public health and safety.

Clean Water. Healthy Community.

INDUSTRIAL AND COMMERCIAL BUSINESS INSPECTION PLAN
CITY OF SOUTH SAN FRANCISCO, CA

Date Originally Prepared: June 30, 2010

Date Last Updated: August 24, 2010

BACKGROUND

This industrial and commercial business inspection plan (Inspection Plan) serves as the City of South San Francisco's prioritized inspection work plan that the city will implement to comply with the municipal regional stormwater permit's (MRP) Provision C.4.b requirements. This MRP provision requires that an Inspection Plan be developed. The Inspection Plan's attached Prioritized Inspection List of Businesses (Inspection List) must be submitted with the 2010 Annual Report, and an annually updated Inspection List must be submitted with subsequent annual reports.

Municipal staff used the following steps to create this Inspection Plan and comply with the MRP. Steps 1 and 2 address MRP requirements for the Inspection Plan and Step 3 addresses compliance with MRP requirements for creating an Inspection List that is included as an attachment to the Inspection Plan.

Steps

1. Identify a method of establishing priorities for inspections and the frequency of inspections for each category of priority.
2. Describe the method that will be used to identify newly opened businesses that may need inspection.
3. Develop an Inspection List that includes:
    a. A list of all of the industrial and commercial businesses located within the municipality's jurisdiction that require inspection;
    b. A determination of the priority for inspection of each business on the Inspection List using the identified method of establishing inspection priorities;
    c. Identification of businesses on the Inspection List that are scheduled for inspection during the current fiscal year; and
    d. An annual update or revision of the Inspection List starting in 2011.

Each of these steps was followed to develop this Inspection Plan as described in the following sections.

STEP 1: IDENTIFY A METHOD OF ESTABLISHING PRIORITIES FOR INSPECTIONS AND FREQUENCY OF INSPECTIONS

What the MRP Requires

The MRP requires that each of the businesses to be inspected be assigned a priority for inspection based on "the potential for water quality impact using criteria such as pollutant sources on site, pollutants of concern, proximity to a waterbody, violation history of the facility, and other relevant factors" (Provision C.4.b.ii.(3)). In addition, the MRP requires that appropriate inspection frequencies be established based on the priority for inspection, "potential for contributing pollution to stormwater runoff" and be "commensurate with the threat to water quality" (Provision C.4.b.ii.(5)).

Further, the MRP requires: "A description of the process for prioritizing inspections and frequency of inspections" (Provision C.4.b.i.(2)).

Description of Prioritization Process and Assignment of Inspection Frequencies to Different Priorities

➔ Businesses meeting the following criteria generally have been assigned as having a high priority for inspection:

1. Businesses that are subject to the State General NPDES Permit for Stormwater Discharges Associated with Industrial Activity.
2. Businesses that have a history of using inadequate best management practices.
3. Businesses that have had a non-stormwater discharge disallowed by the MRP during the previous fiscal year.
4. Food service facilities and vehicle mechanical repair that are due for re-inspection and/or re-permitting with wastewater permits.

All other businesses have generally been assigned as having a low priority for inspection.

1. High priority for inspection means that the business will typically be inspected annually. Low priority for inspection means that the business will be inspected less frequently than annually, such as every other year or every third year. Businesses that have a non-stormwater discharge during any fiscal year will be moved to the high priority category and then inspected during the next fiscal year.
2. Food service facilities on the low priority inspection will be inspected upon renewal of their wastewater discharge permit.
3. Auto facilities on the low priority will be inspected at least every 3 years.

STEP 2: DESCRIBE METHOD THAT WILL BE USED TO IDENTIFY NEW BUSINESSES

What the MRP Requires

The MRP requires that the Inspection Plan have a "mechanism to include newly opened businesses that warrant inspection ..." (Provision C.4.b.i.(2)).

Description of Method for Identifying New Businesses

The City of South San Francisco will identify new businesses that warrant inspection through the business license sign off process. New businesses require a sign off from the Environmental Compliance department. At that time, should the business warrant inspection, it will be inspected before the business license is signed off. The business will be added to the inspection spreadsheet and prioritized at the time of addition.

STEP 3: DEVELOP AN INSPECTION LIST

This step includes the following four substeps associated with the development and maintenance of the Inspection List:

a. Develop a list of all of the industrial and commercial businesses that require inspection;
b. Determine the priority for inspection of each business on the Inspection List;
c. Identify businesses on the Inspection List that are scheduled for inspection during the current fiscal year; and

d. Prepare an annual update or revision of the Inspection List starting in 2011.

What the MRP Requires

Develop a List of All Businesses Requiring Inspection

The MRP requires that the Inspection Plan be used to maintain an Inspection List of industrial and commercial businesses "that could reasonably be considered to cause or contribute to pollution of stormwater runoff" (Provision C.4.b.ii).

In particular, the MRP lists the following types of businesses as needing to be inspected if they "have a reasonable likelihood to be sources of pollutants to stormwater and non-stormwater discharges:" (Provision C.4.b.ii(2))

1) Industrial facilities[1], as defined in 40 CFR 122.26(b)(14), including those subject to the State General NPDES Permit for Stormwater Discharges Associated with Industrial Activity;
2) Vehicle salvage yards;
3) Metal and other recycled material collection facilities, waste transfer facilities;
4) Vehicle mechanical repair, maintenance, fueling, or cleaning;
5) Building trades central facilities or yards, corporation yards, nurseries, and greenhouses;
6) Building material retailers and storage;
7) Plastic manufacturers; and
8) Other facilities designated by the city or Water Board as having a reasonable potential to contribute to pollution of stormwater runoff. The Water Board staff places a priority on inspecting retail food facilities, and these businesses should be included in the Inspection List if they "have a reasonable likelihood to be sources of pollutants to stormwater and non-stormwater discharges."

In addition, the MRP lists the following functional aspects of businesses that may produce pollutants when exposed to stormwater as part of the criteria for developing the Inspection List:

1) Outdoor process and manufacturing areas;
2) Outdoor material storage areas;
3) Outdoor waste storage and disposal areas;
4) Outdoor vehicle and equipment storage and maintenance areas;
5) Outdoor wash areas;
6) Outdoor drainage from indoor areas;
7) Rooftop equipment; and
8) Other sources determined by the city or Water Board to have a reasonable potential to contribute to pollution of stormwater runoff.

Establish Inspection Priority for Businesses on the Inspection List

The MRP requires that businesses that have a reasonable potential to pollute stormwater runoff be prioritized using factors listed in the MRP (Provision C.4.b.ii.(3).

Identify Businesses Scheduled for Inspection During the Current Fiscal Year

The MRP requires that the annual report include "the list of facilities scheduled for inspection during the current fiscal year" (Provision C.4.b.iii.(2).

[1] The MRP appears to use the terms "facilities" and "businesses" interchangeably. This template generally uses the term business since that is used in the title of Provision C.4.b., and it is the term most inspectors use.

Annual Updates

The MRP requires that the Inspection List be annually updated and maintained (Provision C.4.b.ii). The annual updates should include new businesses; any needed modifications to inspection priorities based on recent inspections, illicit discharge notifications, or other relevant factors; and removal of businesses that are no longer operating. In addition, updates or revisions to the Inspection List need to be included in annual reports starting in 2011 (Provision C.4.b.iii.(1)).

Substep 3a: Develop Inspection List

See Attachment A.

Substep 3b: Determine Priority for Businesses

Businesses meeting the following criteria generally have been assigned as having a high priority for inspection:

1. Businesses that are subject to the State General NPDES Permit for Stormwater Discharges Associated with Industrial Activity.
2. Businesses that have a history of using inadequate best management practices.
3. Businesses that have had a non-stormwater discharge disallowed by the MRP during the previous fiscal year.
4. Food service facilities and vehicle mechanical repair that are due for re-inspection and/or re-permitting with wastewater permits.

Substep 3c: Identify Businesses Scheduled for Inspection in the Current Fiscal Year

See Attachment B.

Substep 3d: Annual Update

To be completed in the 2011 Annual Stormwater report.

City of South San Francisco

Integrated Pest Management Policy and

Standard Operating Procedures for Pesticide Use

SAN MATEO COUNTYWIDE
Water Pollution
Prevention Program
Clean Water. Healthy Community.

City of South San Francisco
Integrated Pest Management (IPM) Policy
July 1, 2010

GOAL

The City of South San Francisco seeks to protect the health and safety of its employees and the general public, the environment and water quality, as well as to provide sustainable solutions for pest control, through the reduced use of pesticides on property owned or managed by the City to the maximum extent practicable.

RECOMMENDATIONS

Employees implementing pest management operations will use Integrated Pest Management (IPM) techniques that emphasize non-pesticide alternatives and, when necessary, employ the least toxic chemicals. Preference will be given to contractors who implement IPM. The City of South San Francisco Maintenance Services departments and their contractors that apply pesticides will develop and maintain an active IPM Plan to ensure the long-term prevention and suppression of pest problems with minimum negative impacts on the health and safety of the community and environment. The City of South San Francisco will track employee and contractor pesticide use and prepare an annual report summarizing pesticide use and evaluating pest control activities performed.

The City of South San Francisco shall encourage pilot projects to demonstrate landscape and structural pest control alternatives, seeking to use the most recent technology, best management practices and least toxic methods for all pest control measures. Pilot projects should include an objective analysis of the effectiveness of the alternative techniques applied.

The City of South San Francisco will review its purchasing procedures, contracts or service agreements with pesticide applicators and employee training practices to determine what changes can be made to support the goal of pesticide reduction and promote the purchase and use of the least harmful chemicals.

The City of South San Francisco will perform educational outreach and/or support Countywide or regional efforts to educate residential and commercial pesticide users on a) goals and techniques of IPM, and b) pesticide related water quality issues.

BACKGROUND

Pesticides are defined as: any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any pest. Pests can be insects, rodents and other animals, unwanted plants (weeds), bacteria or fungi. The term pesticide applies to herbicides, fungicides, insecticides, rodenticides, molluscicides and other substances used to control pests.

Antimicrobial agents are not included in this definition of pesticides. In general, the intent of antimicrobial agents is to reduce or mitigate the growth or development of microbial organisms. They are used to avoid health hazards and include in-door cleaning, spa and swimming pools, medical sterilizer and sanitizer products.

Integrated Pest Management (IPM) is an ecosystem-based strategy that focuses on long-term prevention of pests or their damage through a combination of techniques such as biological control, habitat manipulation, modification of cultural practices, and use of resistant varieties. Pesticides are used only after monitoring indicates they are needed according to established guidelines, and treatments are made with the goal of removing only the target organism. Pest control materials are selected and applied in a manner that minimizes risks to human health, beneficial and nontarget organisms, and the environment.

IPM techniques could include biological controls (e.g., ladybugs and other natural enemies or predators); physical or mechanical controls (e.g., hand labor or mowing); cultural controls (e.g., mulching, discing, or alternative plant type selection); and reduced risk chemical controls (e.g., soaps or oils).

The City of South San Francisco owned or managed property includes but is not limited to parks and open space, golf courses, roadsides, landscaped medians, flood control channels and other outdoor areas, as well as municipal buildings and structures.

The City of South San Francisco
Standard Operating Procedures for Pesticide Use and Implementation of Municipality's Integrated Pest Management Policy

Purpose: To minimize the use and reliance on pesticides that threaten water quality by implementing the city's policy for integrated pest management (IPM) by all municipal employees and contractors hired to manage pests on municipal property.

Responsible Parties: All city personnel that as part of their municipal job duties are authorized to plan, manage, and control pests including pesticide applications and all city personnel that administer municipal contracts for applying pesticide on municipal property.

Contracts & Contractors: Contracts shall include a requirement that the contractor shall adhere to the city's IPM policy. This will be accomplished by using the following procedures:

1. Include a copy or link to the municipality's IPM policy in the contractor solicitation documents, e.g., Request for Proposal or Request for Quote, and make it clear that the pest control services being solicited must comply with the IPM policy.
2. Include a copy of the municipality's IPM policy in the contract's specifications.
3. Meet with the contractor to review the City's IPM policy.

Municipal Employees: Municipal employees who are authorized to manage pests are required to implement the city's IPM policy. This will be accomplished by using the following procedures:

1. Use cultural practices and pest prevention measures to minimize the occurrence of pest problems.
2. Set a threshold of tolerance for pests.
3. Use biological and physical controls that are environmentally appropriate and economically feasible to control pests.
4. Use chemical control as a last resort, and then the least toxic product will be used. Where feasible for structural pest control, insecticides will be applied as containerized baits.
5. Avoid the use of pesticides that threaten water quality[1] especially in formulations and situations that pose a risk of contaminating stormwater runoff.
6. Train employees on IPM techniques, pesticides-related stormwater pollution prevention methods, the municipality's IPM policy, and these standard operating procedures.
7. As part of the municipality's annual report for the municipal regional stormwater permit, report on the IPM policy's implementation by showing trends in the quantities and types of pesticides used and suggest reasons for any increases in uses of pesticides that threaten water quality[1] (as required by municipal regional stormwater permit Provision C.9.b.).

[1] The municipal regional stormwater permit identifies the following pesticides as having a concern to water quality: "organophosphorous pesticides (chlorpyrifos, diazinon, and malathion); pyrethroids (bifenthrin , cyfluthrin, beta-cyfluthrin, cypermethrin, deltamethrin, esfenvalerate, lambda-cyfluthrin, beta-cyfluthrin, cypermethrin, deltamethrin, esfenvalerate, lambda-cyhalothrin, permethrin, and tralomethrin); carbamates (e.g., carbaryl); and fipronil." (Provision C.9)

Attachment F

IPM Contract Specifications

(D) Stakes and guys are to be inspected twice per year (Spring & Fall) and adjusted or removed as necessary. When trees attain a trunk caliper of 4 inch consider removal of existing stakes and guys. If tree is unstable at this time, removal and replacement should be considered by Owner, with cost of work to be paid by Owner.

14. Integrated Pest Management

The Contractor shall act as or coordinate with a licensed specialist to identify any Pest management problems that may arise in the street and parkway landscapes.

The Contractor shall be familiar with various integrated pest management (IPM) programs. The Contractor may be required, by written order from the City, to develop an IPM plan to effectively eradicate any diseases or pests which develop during the duration of this contract. The development and execution of the IPM program shall be the responsibility of the Contractor and will not be considered extra work.

The Superintendent will request to see any or all labels, licenses, certificates, categories, permits or recommendations before chemicals are applied. An IPM plan developed by the Contractor may have to be approved by the Superintendent and the County Agricultural Commissioner before implementation. A MSDS must be submitted for each chemical to be used prior to any application program.

(A) Some approved noxious weed, disease, and pest control methods may Include:

1. Pre-emergent herbicide applications.
2. Post-emergent herbicide applications.
3. Mechanical cultivation and disposal.
4. Stringline trimming or mowing
5. Chemical growth regulators.
6. Traps.
7. Pre-bait and poison bait techniques.
8. Poison gas or fog applications.
9. Debris or food source removal.
10. Water jetting.
11. Insecticide, fungicide, or other peticide applications.
12. Verdant spraying.
13. Repeated control methods as necessary.

(B) Prior to application, the Contractor shall provide a copy of any spray report showing details of areas, times, chemicals, MSDS, and rates of application as provided by a licensed pest control advisor. A copy shall be provided with billing at the end of the month as well.
