

**STATE OF CALIFORNIA  
CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
CENTRAL COAST REGION**

**STAFF REPORT FOR REGULAR MEETING OF FEBRUARY 6, 2004**

**ITEM: 22**

**SUBJECT: Rescission of Waste Discharge Requirements for San Luis Tallow Company, San Luis Obispo County - Order No. 89-25**

**KEY INFORMATION**

|                              |                                     |
|------------------------------|-------------------------------------|
| Discharger:                  | San Luis Tallow Company             |
| Location:                    | 445 Prado Road, San Luis Obispo, CA |
| Type of Waste:               | Wash water and animal waste         |
| Authorized Discharge Volume: | 1,000 gallons per day               |
| Present Discharge Volume:    | None                                |
| Existing Order:              | Order No. 89-25                     |

**DISCUSSION**

San Luis Tallow is authorized under Order No. 89-25 to discharge up to 1,000 gallons per day of wash water and animal waste into an oxidation/percolation pond. This facility has not discharged since 1996. Operations at the facility have ceased and the ponds have now been removed. Therefore, Waste Discharge Requirements are no longer needed. The Discharger has been notified that if he decides to begin operations in the future he would have to reapply for Waste Discharge Requirements from this Board.
