

**STATE WATER BOARD  
RESOLUTION NO. 2005-0068**

**APPROVING AN AMENDMENT TO THE WATER QUALITY CONTROL PLAN FOR THE  
LOS ANGELES REGION TO INCORPORATE A TOTAL MAXIMUM DAILY LOAD FOR  
ORGANOCHLORINE PESTICIDES, POLYCHLORINATED BIPHENYLS, AND SILTATION  
IN THE CALLEGUAS CREEK WATERSHED AND MUGU LAGOON**

**WHEREAS:**

1. The Los Angeles Regional Water Quality Control Board (Los Angeles Water Board) adopted the revised Water Quality Control Plan for the Los Angeles Region (Basin Plan) under Resolution No. 94-07 on June 13, 1994. The State Water Resources Control Board (State Water Board) approved the revised Basin Plan on November 17, 1994 and by the Office of Administrative Law (OAL) on February 23, 1995.
2. A consent decree between the U.S. Environmental Protection Agency (USEPA), Heal the Bay, Incorporated and Baykeeper, Incorporated was approved on March 22, 1999. This court order establishes a requirement to establish a TMDL to reduce organochlorine (OC) pesticides and polychlorinated biphenyls (PCBs) in the Calleguas Creek watershed by March 22, 2006.
3. On July 7, 2005, the Los Angeles Water Board adopted Resolution No. R4-2005-010 (Attachment) to incorporate a Total Maximum Daily Load (TMDL) for organochlorine pesticides, polychlorinated biphenyls, and siltation in Calleguas Creek, its tributaries, and Mugu Lagoon.
4. Los Angeles Water Board Resolution No. R4-2005-010 delegated to its Executive Officer authority to make minor, non-substantive corrections to the adopted amendment if needed for clarity or consistency. The State Water Board staff finds that provisions of the amendment, as adopted, warranted minor, non-substantive clarification of the language of various provisions. The Los Angeles Water Board Executive Officer has made the necessary corrections to the amendment.
5. The State Water Board finds that the amendment is in conformance with the requirements for TMDL development specified in section 303(d) of the federal Clean Water Act and the State Water Board Resolution No. 68-16 and is an appropriate program of implementation pursuant to Water Code section 13242.
6. The State Water Board finds that the Basin Plan amendment is in conformance with the requirements of Water Code section 13240, which specifies that Regional Water Quality Control Boards shall periodically review and may revise Basin Plans.
7. Basin Plan amendments do not become effective until approved by the State Water Board and until the regulatory provisions are approved by OAL. In addition, TMDLs must be approved by the USEPA.

**THEREFORE BE IT RESOLVED THAT:**

The State Water Board:

1. Approves the amendment to the Basin Plan as adopted under the Los Angeles Water Board Resolution No. R4-2005-010 as corrected by the Regional Water Board Executive Officer.
2. Authorizes the Executive Director to submit the amendment adopted under Los Angeles Water Board Resolution R4-2005-010, as approved, and the administrative record for this action to OAL and the TMDL to USEPA for approval.

**CERTIFICATION**

The undersigned, Clerk to the Board, does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Resources Control Board held on September 22, 2005.

  
Debbie Irvin  
Clerk to the Board
