PUBLIC HEARING
concerning

**WASTE DISCHARGE REQUIREMENTS
FOR COUNTY OF KERN
FOR
CLOSURE AND POST-CLOSURE MAINTENANCE
ARVIN SANITARY LANDFILL
KERN COUNTY**

The County of Kern owns and maintains the Arvin Sanitary Landfill about five miles west of the City of Arvin. The facility is currently regulated by Waste Discharge Requirements Order 5-00-023. The 170-acre facility contains one 127-acre waste management unit that accepted municipal solid waste until 30 June 2003. This order revises the existing Waste Discharge Requirements to provide for the construction of a final cover, regulate post-closure maintenance of the facility, and regulate corrective action for groundwater degradation.

An abandoned non-hazardous oil field waste processing facility, formerly operated by VenVirotek, is on a five-acre parcel within the southwest corner of the waste management facility property. An estimated 100,000 cubic yards of processed waste (VenVirotek material) and processing equipment remain. The County of Kern intends to move the VenVirotek material to the Arvin Landfill and place it above the existing interim soil cover and beneath the final cover. Placement of the VenVirotek material will be performed in accordance with a Removal Action Workplan approved by the Department of Toxic Substances Control.

A public hearing concerning this matter will be held during the Central Valley Regional Water Quality Control Board (Central Valley Water Board) meeting, which is scheduled for:
