

INFORMATION SHEET

ORDER NO. R5-20XX-XXXX

WASTE DISCHARGE REQUIREMENTS
FORWARD INC. AND REPUBLIC SERVICES INC.
FORWARD LANDFILL
OPERATION, CLOSURE AND CORRECTIVE ACTION
SAN JOAQUIN COUNTY

Republic Services Inc. as Forward Inc. owns and operates Forward Landfill, consisting of both Class II and Class III landfill units on 751 acres near Manteca. The Discharger has requested revised Waste Discharge Requirements to include property recently purchased into the landfill boundary (the boundary change does not approve construction of new units on this property). The Discharger also requested revised LCRS base grades, approval of an alternative final cover design, updates to inorganic concentration limits and other monitoring parameters, the monitoring network, revised soil pore gas monitoring requirements and incorporation of new requirements for a composting operation.

Other issues addressed in this revised Waste Discharge Requirements include a Cannery Waste Pilot Project, a request for a revised corrective actions Financial Assurances estimate, and a request for a revised Closure and Postclosure Maintenance Plan with revised dates for closure stages.
