Dear Mr. Matteoli:

This is a letter to inform you of the actions I have taken to correct the violation at San Jose Road Dairy (Henry Tosta Dairy). We have already put in a roadway on the east end of the dairy property in order to block the water from heading in that direction. We are currently waiting for land leveling equipment to build a road on the other three sides of the dairy property. We are also going to put in a pipe and a pump into the lagoon that will discharge water onto my 100 acres, that is located across the street from the dairy, and to the 40 acres at the end of the 100 acres. We are awaiting a bid for that at this time. I talked to a guy named Keith Rankin, his property adjoins the dairy property, and he is interested in putting some of this water onto his property. In the near future I plan to build another lagoon, twice as big as the existing one, as soon as the dirt becomes available. Due to all of the complications that have occurred, I will be faxing this letter on April 8 and mailing the original out 1st thing April 9. Please except my apology for the delay.

Sincerely,

Henry Tosta
Owner
