**Proposed revisions to Waste Discharge Requirements for
Growers within the Sacramento River Watershed
that are Members of a Third-Party Group R5-2014-0030**

WASTE DISCHARGE REQUIREMENTS

Page 35, section VIII.I.4, Comprehensive Groundwater Quality Management Plan due date extended 60 days after the Executive Officer's GAR approval

In lieu of submitting separate groundwater quality management plans in the timeframe identified in section VIII.I.1, the third-party may submit a Comprehensive Groundwater Quality Management Plan within 60 days of the Executive Officer's approval of the Groundwater Quality Assessment Report. With the exception of the timeframe identified in section VIII.I.1, all other provisions applicable to groundwater quality management plans in this Order and the associated MRP apply to the Comprehensive Groundwater Quality Management Plan. The Comprehensive Groundwater Quality Management Plan must be updated at the same time as the Management Plan Status Report (see attached MRP, Appendix MRP-1, section I.F) to address any constituents and areas that would have otherwise required submittal of a Groundwater Quality Management Plan.

ORDER ATTACHMENT B – MONITORING AND REPORTING PROGRAM

Page 4, Section III. Surface Water Quality Monitoring Requirements

The third-party may elect to participate in an Executive Officer approved Regional Monitoring Program (RMP) [such as the Delta RMP]. If the third-party elects to participate in a RMP, the third-party may submit a proposal to the Executive Officer for approval to reduce some elements of the surface water monitoring requirements described below and instead provide funding and/or in-kind support to an approved RMP. Participation in a Regional Monitoring Program by a third-party shall consist of providing funds and/or in-kind services to the Regional Monitoring Program at least equivalent to discontinued individual monitoring and study efforts. Written approval of the third-party's request, by the Executive Officer, is required prior to discontinuing any monitoring. Approval by the Executive Officer is not required prior to participating in a Regional Monitoring Program.

If the third-party participates in an Executive Officer-approved Regional Monitoring Program in lieu of conducting individual surface water monitoring, the third-party shall continue to participate in the Regional Monitoring Program until such time as the third-party informs the Board that participation in the Regional Monitoring Program will cease and the monitoring prior to approved reductions is reinstated. Executive Officer approved reduced monitoring may continue so long as the third-party adequately supports the Regional Monitoring Program. If the Discharger fails to adequately support the Regional Monitoring Program, as defined by the Regional Monitoring Program, the third-party shall reinstate monitoring required prior to approved reductions upon written notice from the Executive Officer.
